1 Pound tin Rs. 15, or, post free, Rs. 15-12.
½ " " " 7-8 " " " " 8.
¼ " " " 3-12 " " " " 4-4.

Analysis shows this quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, cinchonine and cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta.

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ সল্‌ফেট অফ কুইনাইন।

১৮৯৭ সালের ১লা এপ্রিল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য হইবে, যথা—

১ এক পৌণ্ড টিন ১৫৲ বা ডাক মাশুল সমেত ১৫৷৹
॥ আধ " " ৭৷৷৹ " " " " ৮৲
৷ শিকি " " ৩৷৹ " " " " ৪৷০

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধরূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনীডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছাপূর্ব্বক মিশান হয় নাই তাহার গ্যারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারিগণের নিকট বিক্রয় করা যাইবে এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপরিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে।

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series *including postage*, Rs. 22-8.

	Without postage.	With postage
	Rs. A. P.	Rs. P.
For the Calcutta Series	10 0 0	12 0
„ each of the Madras, Bombay, and Allahabad Series	6 0 0	7 0 0
„ a part of the Calcutta Series purchased separately (*inclusive of postage in India*)	.....	2 0
„ part of each of the Madras, Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*)	.....	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town.	For mufassal.
	Rs. A. P.	Rs. A. P.
For the Calcutta Series, per copy ...	0 8 9	0 10 3
„ each of the Madras, Bombay, and Allahabad Series, per copy ..	0 5 3	0 5 0
„ the Calcutta Series. For the year	7 2 6	8 6 3
„ each of the Madras, Bombay and Allahabad Series. For the year	4 4 6	4 11 3

Persons desiring to subscribe for or purchase the Report should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
„ Curator of Government Books, North-Western Provinces and Oudh.
„ Officer in charge, Bengal Secretariat Book Depôt.

Orders and subscriptions for 1894 *should be at once registered and remitted by money-order payable to the Accountant and Treasurer Bengal Secretariat, Calcutta.*

ADVERTISEMENTS will be received for publication on the papers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance—

	One page.	Half page.	Quarter page
For one issue ...	Rs. 20	Rs. 14	Rs. 9
„ three issues ..	„ 55	„ 36	„ 24
„ six „ ...	„ 100	„ 68	„ 45
„ nine „ ..	„ 145	„ 96	„ 64
„ twelve „ ...	„ 180	„ 120	„ 80

SEVERAL volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates:—

	Without postage.	With postage.
	Rs. A. P.	Rs. A. P.
Bengal Law Reports for one year ..	20 0 0	22 8 0
Single copies, Rs. 2 per copy.		
Full Bench Rulings, Parts I and II ..	20 0 0	22 8 0

Obtainable at the Bengal Secretariat Book Depôt, Writers' Buildings, Calcutta.

Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depot.

The subscription, Rs. 22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

Notice.

IT is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

THE following Weather Reports of the Bengal Meteorological Department, issued by orders of the Government of Bengal, can be supplied to the public at the prices annexed

1st.—Bay of Bengal and Bengal Daily Weather Report, giving meteorological observations taken at 64 stations on or near the coast of the Bay, and in Bengal and Assam, with a chart and summary. This is published in connection with the Bay of Bengal Storm Signal Service. The report giving 8 A.M. observations of the day is distributed by peon in Calcutta soon after midday. Price to subscribers in Calcutta Rs. 3 per mensem, payable in advance for six months.

This report will be issued every year from 1st May to 31st October. From 1st November again the Bay of Bengal Report containing observations taken at 28 stations will be issued up to 30th April.

2nd.—A Monthly Statement of Meteorological Observations taken at 49 observing stations, and of rainfall recorded at 327 subdivisional and other stations, together with summaries of the more important features of the meteorology of the past month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Monthly Summary Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal, 5, Russell Street, Calcutta, for the Bay of Bengal and Bengal Daily Weather Report, and to the Accountant and Treasurer, Bengal Secretariat, for the Monthly Report.

C. LITTLE,
Offg. Meteorological Reporter to the Govt. of Bengal.

Notice.

NOTICE is hereby given that the terms for the purchase of publications from the Bengal Secretariat Book Depôt except *for* Government offices or offices under the control of Government Officers are strictly cash, and on no other terms will any publication be supplied, or advertisement, notice, &c., inserted in either of the Gazettes.

In the case of insolvency notices, cash must be sent with such notices when forwarded by Mofussil courts or offices and for those frowarded by the Official Assignee cash must be paid on presentation of memorandum of cost by the Accountant and Treasurer, Bengal Secretariat.

Remittances in postage stamps should be accompanied by an addition of one anna in the rupee on account of discount.

☞ Applications for Acts of the Bengal Legislative Council required on the public service should be addressed to the REGISTRAR, Office of the Legislative Department, Government of Bengal.

Copies are available for purchase at the Bengal Secretariat Book Depôt.

Notice.

The 29th March 1886.—The subscription to and postage for the *Calcutta Gazette* will henceforth be at the following rates, payable in advance:—

For the Mofussil.

Fairway beacon and removal of Fairway buoy on completion of the Dolphin.

THE Port Master, Brisbane, has given notice (No. 12 of 1897) that the Dolphin, which will subsequently carry the Fairway Beacon Light and illuminated Tide Indicator at Cairns, has been completed.

The Dolphin, from which a white light is exhibited by night, is standing in fifteen (15) feet at low water, and is to be kept on the port hand when entering the dredged cutting.

The Fairway Buoy will be removed on the 1st proximo.

Shoal patches near Claremont group.

THE British Admiralty has given notice (No. 13 of 1897) of the existence of three shoal patches of coral in the following approximate position, viz. :—

A patch with 5 fathoms over it, lying in Latitude 13° 25′ 50″ South, Longitude 143° 41′ 20″ East;

A patch with 4¾ fathoms over it, lying North 29° West, distant 2 cables from the before-mentioned patch; and

A patch with 5 fathoms over it, lying North 15° East, distant 2 cables from the first-named patch.

Foul ground exists round these shoals, and a complete examination has not yet been made. Masters of vessels are cautioned accordingly.

Mundoora Channel and Port Broughton—Buoys removed and beacons erected.

THE President, Marine Department, Port Adelaide, has given notice (No. 5 of 1897) that the buoys marking the Mundoora Channel (entrance to Port Broughton) have been removed, and that in lieu thereof forty-five beacons have been erected.

The two outer beacons mark the bar entrance. In navigating the channel the black one with square head should be left to port when entering, and the red one with round head left to starboard; the remaining forty-three (each alternate one of which has a round head) are painted red, and are on the starboard side of the channel, extending from the outer bar to the Port Broughton Jetty.

This affects Admiralty Chart 2389B.

AUSTRALIA, EAST COAST—MORETON BAY.

Beacons for compass correction, northward of Mud island.

THE British Admiralty has given notice (No. 415 of 1897) that the undermentioned four beacons have been erected on the northern side of Mud island, to enable vessels to correct their compasses:—

A. A square, white beacon at the northern extreme of the mangroves, Mud island.
Approximate position, lat. 27° 19′ 35″ S., long. 153° 16′ 10″ E.

B. A pile, with a small, square, white top, standing in a depth of 3 feet at low water, in a position bearing North, distant 3½ cables from beacon *A*.

C. A pile, with a small, square, white top, standing in a depth of 3 feet at low water, in a position bearing N. W, distant 4⅔ cables from beacon *A*.

D. A pile, with a small, square, white top, on the bank which dries at low water, in a position bearing West, distant 3½ cables from beacon *A*.

So that—
Beacons B and A in line bear South.
Beacons C and A in line bear South-east.
Beacons D and A in line bear East.
Beacons B and D in line bear South-west.
The four beacons forming a square, the sides of which run North, South, East, and West.

NOTE.—Vessels should not approach within half a mile of the northern beacons when correcting their compasses.

Gascoyne Road—Intended light on Babbage island.

THE British Admiralty has given notice (No. 418 of 1897), that, about 1st August 1897, a light will be exhibited from a lighthouse recently erected on Babbage island.

Gascoyne (Carnarvon) light will be a fourth order, *occulting* light with a period of *twenty seconds*, thus:—light, *fifteen seconds*; eclipse, *five seconds*; showing the following sectors:—*red*, from about S. 15° E., to S. 41° E. (over Blowfish bank); *white*, from S. 41° E., through east, to N., 31° E.; and *red*, from N. 31° E. to about N. 15° W. (over Elbow shoal and Gascoyne flats).

It will be elevated 101 feet above high water, and in clear weather the white light will be visible 13 miles, and the red light 9 miles.

The lighthouse, constructed of wood, is painted white, with the keeper's dwelling about 100 yards north-westward of it, and situated N.N.W. ½ W., distant 1¼ miles, from the beacon at the south end of Babbage island.

Approximate position, lat. 24° 52′ 20″ S., long. 113° 38′ 15″ E.

(Variation 2° Westerly in 1897.)

CHINA SEA—GULF OF SIAM—COCHIN CHINA.

Amended particulars of intended lights.

WITH reference to Notice to Mariners, No. 136, dated 9th July 1897, issued by this Office, the British Admiralty has given further notice (No. 427 of 1897) of the undermentioned amended particulars of certain intended lights:—

1. Koh Samit light will be a *group-flashing white* light, showing *two flashes* in quick succession in each group, visible in clear weather from a distance of 27 miles.
   The lighthouse is on the west point of Koh Samit, in approximately lat. 10° 53′ 0″ N., long. 103° 3′ 0″ E., and not as given in Notice No. 319 of 1897.
2. Rong Sam Lem light (*quick-flashing red*) will be visible in clear weather from a distance of 17 miles.
   The lighthouse is on the south point of the island in approximately lat. 10° 32′ 20″ N., long. 103° 17′ 45″ E.
3. Hatien light (*quick-flashing white*) will be visible in clear weather from a distance of 21 miles.
   The lighthouse, a tower of masonry, is on Loctri point, in approximately, on Chart No. 2723, lat. 10° 21′ 20″ N., long. 104° 25′ 30″ E.
4. Pulo Obi light (*quick-flashing white*) will be visible in clear weather from a distance of 29 miles.
   The lighthouse is on the south point of the island, in approximately, on Chart No. 2723, lat. 8° 25′ 20″ N., long. 104° 48′ 30″ E.

WORKING OF THE LICENSED WAREHOUSE AND FIRE-BRIGADE ACT, I OF 1893, IN THE HOWRAH MUNICIPALITY DURING THE YEAR 1896-97.

No. 4608M.—The 1st September 1897.—The following report is published for general information, in accordance with the provisions of section 41 of the Licensed Warehouse and Fire-Brigade Act, I of 1893.

C. E. A. W. OLDHAM,
Offg. Secy. to the Govt. of Bengal.

No. 798M., dated Chinsura, the 24th August 1897.

From—G. STEVENSON, Esq., Offg. Commissioner of the Burdwan Division,
To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to submit herewith a printed copy of the Annual Report on the working of the Licensed Warehouse and Fire-Brigade Acts in the Howrah Municipality during the year 1896-97.

ANNUAL REPORT FOR 1896-97 ON THE WORKING OF THE LICENSED WAREHOUSE AND FIRE-BRIGADE ACTS, IV AND I OF 1883 AND 1893, RESPECTIVELY.

Dated Howrah, the 15th June 1897.

From—F. W. DUKE, Esq., Chairman, Howrah Municipality,
To—The Magistrate of Howrah.

I HAVE the honour to report that 375 warehouses were licensed in 1896-97 against 31[illegible] in the previous year—

	1895-96.	1896-97.
Jute	29	30
Cotton	36	37
Straw	85	91
Wood	167	213
Rags	1	1
Hay	1	3
Total ...	319	375

2. The income from license fees on these warehouses for the year under report amounted to Rs 4,239, of which Rs. 26 were collected on account of arrears for 1895-96. These fees during 1895-96 amounted to Rs. 4,410, of which Rs. 180 represent arrears of 1894-95. Appendix A gives the collections under these heads, and Appendix B is a detailed statement of the licensed cotton and jute warehouses.

3. Similar details of the 308 warehouses against 254 in the preceding year, licensed for the storage of straw, wood, rags, and hay, owing to their comparative unimportance, are not given. These warehouses before the year 1893-94 were licensed under section 261 of Act III (B.C.) of 1884, but in July 1893 were brought under the provisions of Act I (B.C.) of 1893.

4. The amount of fines from 53 prosecutions instituted during the year under section 14 of the new Act was Rs. 313, against Rs. 408 in the previous year.

5. The expenditure incurred in assessing and collecting the license fees amounted to Rs. 743-7-6—

	Rs.	A.	P.
1. Salary of General Supervisor and Assessor ...	600	0	0
2. Do. of Clerk	20	0	0
3. Do. of License Inspector	120	0	0
4. Contingencies	3	7	6
Total	743	7	6

6. The Fire-Brigade establishment as hitherto remained under the control of the Commissioner of Police, Calcutta. The Fire-Brigade Station in Howrah stands in a very central position north of the Municipal Market, and from a platform raised over it the whole town can be overlooked. There were ten fires during the year, the details of which are given in Appendix C; and besides these, there were nine other petty fires, at seven of which the Fire-Brigade attended. Two were extinguished by the residents of the localities.

7. The total amount remitted to the Commissioner of Police, Calcutta, during the year was Rs. 3,461.

APPENDIX A.

Statement showing the demand, collection, remission, and balance in Howrah on account of contributions for the Fire-Briga during 1896-97.

STATISTICAL DEPARTMENT,
The 7th September 1897.

M. FINUCANE,
Secretary to the Government of Bengal.

STATISTICS OF THE SEA-BORNE TRAFFIC OF THE MINOR PORTS IN BENGAL IN FOOD-GRAINS.

No. 2470 Statistics.—The following memorandum and statements are published for general information.

STATISTICAL DEPT.,
The 7th September 1897.

M. FINUCANE,
Secy. to the Govt. of Bengal.

Memorandum.

THE comparative statements below give statistics of the import and export trade of the minor ports of Chittagong, Narayanganj, Balasore (including both Balasore and Chandbali), Cuttack, and Puri during the week ending 14th August 1897, as compared with the trade of the corresponding period of 1896:—

IMPORTS.

	1897		24,394	24,394	33,203

During the week under report, the total imports of rice into Chittagong amounted to 20,134 cwts., the whole of which came from Burma, against nil in the same period in 1896. In the case of gram and pulses, the imports from Calcutta fell from 313 cwts. to only 18 cwts., and those from Narayanganj from 1,197 cwts. to nil. The shipments of rice from Balasore to Calcutta declined from 22,399 cwts. to 17,584 cwts., and of gram and pulses from 1,428 cwts. to only 117 cwts., but the exports of paddy rose from 4,192 cwts. to 8,620 cwts. Puri, which sent 2,073 cwts. of rice to Colombo in the second week of August 1896, exported nothing during the corresponding period in 1897.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

Statement showing the quantities of Food-grains imported into Chittagong from each Foreign and Indian Port during the week ending 14th August 1897, as compared with the trade of the corresponding period of 1896.

EXPORTS OF FOOD-GRAINS BY THE EAST INDIAN RAILWAY.

No. 2477 Statistics.—The following statement shows the quantity of rice and other food-grains exported by the East Indian Railway from Calcutta and Howrah during the period from 1st January to 28th August 1897, both days inclusive, to have been 91,35,460 maunds. The destination of 89,29,603 maunds is specified. About three-ninths of this quantity (29,98,063 maunds) was carried to the North-Western Provinces and Oudh, a little less than three-sevenths (38,50,524 maunds) to stations in Bengal, a little over one-seventh (13,88,487 maunds) to the Central Provinces, and the rest (6,92,529 maunds) to other provinces. In the last week of the period, 38,029 maunds were exported to the North-Western Provinces and Oudh, and 96,112 maunds to Bihar.

STATISTICAL DEPARTMENT,
The 7th September 1897.

M. FINUCANE,
Secy. to the Govt. of Bengal.

Statement showing the quantities of rice and other food-grains exported from Howrah and Calcutta (Chitpur, to Kidderpur Docks, and Port Trust Railway) by the East Indian Railway from 1st January to 28 h August 1897.

EXPORTS OF FOOD-GRAINS BY THE EASTERN BENGAL STATE RAILWAY.

No. 2478 Statistics.—The following statement shows the quantity of rice and other food-grains exported by the Eastern Bengal State Railway from Sealdah and Calcutta during the period from 1st January to 21st August 1897, both days inclusive, to have been 10,32,542 maunds. The destination of 10,28,584 maunds is specified. A little over four-fifths of this quantity (8,16,443 maunds) was carried to stations in Bengal Proper, and 87,091 maunds to Bihar and Chota Nagpur, about one-twenty-third (44,334 maunds) to the North-Western Provinces and Oudh, about one-thirteenth (77,989 maunds) to places in Assam, and the rest (2,727 maunds) to other provinces.

STATISTICAL DEPARTMENT,
The 7th September 1897.

M. FINUCANE,
Secretary to the Govt. of Bengal.

EXPORTS OF FOOD-GRAINS BY THE EASTERN BENGAL STATE RAILWAY.

No. 2478 Statistics.—The following statement shows the quantity of rice and other food-grains exported by the Eastern Bengal State Railway from Sealdah and Calcutta during the period from 1st January to 21st August 1897, both days inclusive, to have been 10,32,542 maunds. The destination of 10,28,584 maunds is specified. A little over four-fifths of this quantity (8,16,443 maunds) was carried to stations in Bengal Proper, and 87,091 maunds to Bihar and Chota Nagpur, about one-twenty-third (44,334 maunds) to the North-Western Provinces and Oudh, about one-thirteenth (77,989 maunds) to places in Assam, and the rest (2,727 maunds) to other provinces.

STATISTICAL DEPARTMENT,
The 7th September 1897.

M. FINUCANE,
Secretary to the Govt. of Bengal.

Statement showing the quantities of rice and other food-grains exported from Sealdah and Calcutta (Port Trust Railway, Chitpur and Kidderpore Docks), by the Eastern Bengal State Railway, from 1st January to 21st August 1897.

COMPARATIVE STATEMENT OF THE PRICES OF FOOD-GRAINS.

RETAIL prices of common rice and other food-grains in the several districts of Bengal and in the neighbouring districts of the North-Western Provinces during the first and second fortnights of July and the first fortnight of August 1897, as compared with the corresponding fortnights of July and August 1896, are published for general information. The latest available prices of common rice in Cachar and Sylhet are also published.

M. FINUCANE,
Secy. to the Govt. of Bengal.

		Srs.	
Sadar	...	6 to 8	per rupee.
Bagerhat	...	8	
Satkhira	*Aman* ...	7	
	Aus ...	9	

Fodder available.

	Men.	Women.	Children.	Total.
Relief-workers	41	Nil	Nil	41
In poor-houses	71	394	722	1,187
Otherwise relieved	322	2,766	1,038	4,126
		Total ...		5,354
Relieved from Charitable Fund ...	110	926	561	1,597

Rajshahi.—Rainfall at Sadar 3·13, Nator 1·51, Naugaon 6·30. Prospects of standing crops good. Transplantation of *aman* and harvesting of *aus* going on. Condition of cattle good. Fodder ample. Common rice sells from 7 to 12 seers per rupee. Relief operations closed.

Dinajpur.—Average rainfall 10·18. Weather seasonable. *Bhadoi* being harvested. The heavy rain during the week should enable the transplantation of winter rice to be completed in the high lands, and will give water for the steeping of jute. Condition of cattle good. Fodder sufficient. Price of rice (*bhadoi*) 8½ seers and (*haimanti*) 6¼ seers per rupee.

Sadar subdivision, Friday, 3rd September:—

	Men.	Women.	Children.	Total.
Test-workers at Bangshihari	3	42	39	84

Orders for closing the works have issued.

Jalpaiguri.—Rainfall at Sadar 19·94. Weather seasonable. Transplantation of *haimanti* continues. Steeping of jute going on. Fodder sufficient. Average price of common rice 8½ seers per rupee.

Darjeeling.—Rainfall at Sadar 3·85, Siliguri 11·00. Weather cloudy with little sunshine. Hills—*chhota marua* and *bhadoi dhan* being harvested; *Aghani dhan bara marua*, *kalai*, and *bhutmas* progressing favourably. *Terai*—*bhadoi* being reaped, *haimanti* transplanted, jute being cut; prospects good. Price of coarse rice—

	Srs.
Hills	6 to 7 seers per rupee.
Terai	7 to 8 „ „

Bhutta (old) 13 seers and (new) 40 seers per rupee.

Rangpur.—Rainfall at Sadar 15·72; district average rainfall 11·16. Harvesting of *aus* and cutting and steeping of jute going on. Transplantation of *aman* continues. The heavy rain of the week has done much good to the *aman* crop except in low lands. Prospects good. Common rice selling at 5 to 10½ seers per rupee. Fodder sufficient.

Bogra.—Rainfall at Sadar 2·96, Sherpur 2·81, Naukhila 4·95, Panchbibi 4·46. Transplanting of winter rice is being vigorously pushed on. Harvesting of *aus* and jute in progress. Fodder ample. Price of common rice—*aman* 6½ seers, and *aus* and Burma rice 7½ seers per rupee.

Pabna.—Rainfall at Sadar 1·30, Sirajganj 2·20. Weather partially cloudy and rainy. *Aman* prospects excellent. Jute giving a very good crop. Price of rice 7½ to 9 seers per rupee. Fodder plentiful. No cattle-disease.

Dacca.—Rainfall at Sadar 1·47, Manikganj 1·17, Munshiganj 1·53, Narainganj 1·71 Weather seasonable. Prospects of standing crops appear good. Fodder available. No cattle-disease. Common rice 7 seers 6 chittacks per rupee.

Mymensingh.—Rainfall at Sadar 1·82, Tangail ·77, Kishorganj 5·36, Netrokona 1·76, Jamalpur 5·49. Ordinary monsoon weather. Cutting and steeping of jute continue. Prospects of *aman* crop excellent. More rain wanted in Tangail. Common rice 7 to 8 seers per rupee.

Faridpur.—Rainfall at Sadar ·51, Goalundo 1·72, Madaripur 1·08. Weather seasonable. Prospects good. Rice 7 to 8¾ seers per rupee.

Backergunge.—Rainfall at Sadar 2·89. Weather seasonable. Prospects of crops good. Common rice sells from 6 to 9 seers per rupee.

Tippera.—Rainfall at Comilla 6·56, Brahmanbaria 5·11, Chandpur 4·89. Weather seasonable. Prospects of crops good. Reaping of *aus* and jute still continues. Transplantation of *aman* and sowing of *parang* going on. Fodder sufficient. No cattle-disease. Price of common rice—

	Srs.	
Comilla	8	per rupee.
Brahmanbaria	8⅜	per rupee.
Chandpur	8	per rupee.

Noakhali.—Rainfall at Sadar 8·39, Feni 5·83. Prospects of crops good. No cattle-disease. Fodder sufficient. Price of rice (*aman*) 6 to 7 seers and (*aus*) 8½ to 9 seers per rupee.

Chittagong.—Rainfall 8·76. Weather seasonable. Harvesting of *aus* nearly over; the crop has been good. Transplantation of *aman* progressing vigorously. Prospects good. Fodder abundant. Rice sells at 8½ seers per rupee.

Patna.—Rainfall at Sadar 1·94, Dinapore ·85, Bikram 2·90, Barh 2·70, Bihar 3·85, Hilsa 2·94. Prospects of paddy continue favourable. *Bhadoi* crops being harvested. Prices improving gradually. Singhbhum.—Rainfall at Chaibassa ·18, Monoharpur ·34, Kalikapur ·98, Ghatsila ·33. Rice plentiful. Price 7 to 10 seers per rupee.

General Summary.—General rain fell during the week, the fall being heavy in the north and north-east of the Province. The transplanting of winter rice is now nearly over, and the young plants are everywere doing well. Reports of the *bhadoi* crops continue generally favourable. The earlier *bhadoi* crops and *aus* rice are being harvested. Jute is also being cut and steeped. Prices are reported to be falling in some districts owing to the appearance in the market of the new *aus* rice and other *bhadoi* grains. In the distressed districts the prices of the staple food-grain on which the famine wage is based are—Bankura (common rice) 8 to 10½ seers, Nadia (common rice) 7½ to 8 seers (old) and 9½ to 12 seers (new), Saran (*makai*) 13 seers, Champaran (barley) 11¾ seers, Muzaffarpur (*makai*) 13 seers, Darbhanga (*makai*) 14½ seers, Puri (common rice) 8 to 10 seers, Manbhum (common rice) 8 seers.

M. FINUCANE,
Secretary to the Govt. of Bengal.

Abstract of the results of Meteorological Observations taken at the Alipore Observatory in the month of August 1897.

	Inches.	Date.	Hour.
The mean pressure of the month	29·594		
The average pressure of August from 24 years' registers ...	29·598		
The highest pressure in the month	29·799	0th & 31st	10
The lowest pressure in the month	29·361	25th	16
The range of pressure	0·438		
	Hours.		
The total number of hours of bright sunshine during the month	87·9		
The maximum possible number of hours of sunshine ...	398·4		
	⊖		
The mean temperature of the month	82·1		
The average temperature of August from 24 years' registers...	83·1		
The highest temperature in the month	89·4	10th	
The lowest temperature in the month	74·2	21st & 22nd.	
The range of temperature during the month	15·2		
The mean daily range of temperature	8·3		
The greatest range of temperature in one day	13·2	21st	
	Per cent.		
The mean humidity of the month	88		
The average humidity of August from 24 years' registers ...	83		
	Inches.		
The mean vapour tension of the month	0·969		
The average vapour tension of August from 9 years' registers...	1·002		
The mean cloud proportion of the month	7·98		
The average cloud proportion of August from 20 years' registers	7·95		
	Ins.		
The total rainfall of the month	11·74		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 52 feet above the ground)	10 82		
The average fall of August from 48 years' registers ...	13·94		
The greatest fall in 24 hours	1·83	22nd	
	Days.		
The number of rainy days in the month	28		
The average number of rainy days in August from 24 years' registers	25		
	⊖		
The mean maximum equilibrium temperature of solar radiation during the month	13·71		
The mean difference of sun and air temperatures	50·8		
The greatest sun temperature	154·5	23rd	
The greatest excess of sun over air temperature	66·1	12th	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	76·1		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	2·0		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	3·6	31st	
	Miles.		
The mean movement of the wind per day	112·2		
The greatest movement of the wind in one day	246·0	3rd	
The greatest movement of the wind in one hour	18·0	3rd 1 to 2 P.M. & 20th 9 to 10 A.M.	

The number of hours with winds from each of the 8 points—
N. 3, N.E. 19, E. 98, S.E. 224, S. 120, S.W. 186, W. 58, N.W. 20, Calm 16.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0·6° higher; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

J. H. GILLILAND,

For Meteorological Reporter to the Govt. of India.

METEOROLOGICAL OFFICE, INDIA,
Calcutta, the 6th September 1897.

The total fall from 1st January to 4th September 1897	44·76
The average fall of the corresponding period for 24 years, Surveyor-General's Office	49·75

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; d, drizzling rain; p, passing temporary showers; dew.

M. FINUCANE,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 705T.R.

The 6th September 1897.—Under the powers conferred upon him by section 101(1) of the Bengal Tenancy Act, VIII of 1885, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to order that a survey shall be made and a record of rights prepared, in respect of all lands included within the external boundaries of thanas Roserah, Darbhanga and Warisnagar, in the district of Darbhanga.

The particulars to be recorded in the survey and record of rights shall be the following:—

(*a*) The name of each tenant.

(*b*) The class to which he belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat, or under raiyat; and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure.

(*c*) The situation, quantity and boundaries of the land held by him.

(*d*) The name of his landlord.

(*e*) The money-rent payable, or, if a produce rent, the fact that a produce rent is paid.

(*f*) The mode in which the rent has been fixed, whether by contract, by order of a Court, or otherwise.

(*g*) If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.

(*h*) The special conditions and incidents, if any, of the tenancy.

(*i*) The name of each proprietor, including rent-free owner, with the character and extent of his interest, and the situation, quantity and boundaries of the proprietors' private lands, as defined in Chapter XI of the Act.

(*j*) The name of each rent-free occupant, if any, the situation, quantity and boundaries of the land held by him, and whether he holds rent-free by the permission of the proprietor of the land, or of his predecessor in title, or independently of such permission.

M. FINUCANE,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 722T.R.

The 9th September 1897.—Babu Gossain Das Dutta, Deputy Collector, is authorized, under section 3 (17) of the Bengal Tenancy Act, to discharge the functions of a Revenue Officer under the provisions of the Act, so far as they relate to Revenue Officers, and is vested with the powers of a Settlement Officer under Rule 1, Chapter VI of the rules under the said Act, in the district of Midnapore.

M. FINUCANE,
Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT.—(MISCELLANEOUS.)

NOTIFICATION—No. 2739Mis.

The 6th September 1897.—Under the authority vested in him by Section 10 of Act I (B.C.) of 1869 (an Act for the prevention of cruelty to animals), the Lieutenant-Governor is pleased to extend the provisions of the said Act to the area occupied by the Sonepur Fair in the district of Saran, in the several villages comprised within the boundaries noted below:—

North.—The Mehura Nadi.

East.—The Gandak river.

South.—The river locally known as the Mohi, which falls into the Gandak below the temple of Harihar Nath.

SENATE HOUSE, *the 8th September 1897.* J. H. GILLILAND, *Registrar.*

NOTIFICATION.

Examination of Compounders at the Temple Medical School, Patna.

IN accordance with the Government of Bengal Notifications Nos. 4042Medical, dated 2nd November 1896, and 337T.M., dated 9th June 1897, notice is hereby given that the next half-yearly examination of Compounders will be held at 10 A.M. on Thursday the 28th October 1897 at the Temple Medical School, Bankipore.

2. Every candidate must produce certificates of training, age and previous education as required by rule 9 of Bengal Notification No. 4042Medical, dated 2nd November 1896, published in the *Calcutta Gazette* of the 4th November 1896, except in those cases provided for in rule 10.

These certificates must comply with the conditions laid down in rule 12 of the above resolution.

3. Male candidates must register their names and submit their certificates together with a fee of Rs. 5 at least one week before the 28th October 1897, at the office of the undersigned.

Female candidates will be examined free of charge.

[*Exception.*—The students belonging to the compounder class of a Vernacular Medical School will be exempted from paying this fee on producing a certificate from the Superintendent that they have already paid the school entrance fee.]

4. Should any candidate fail to pass the required examination, he will forfeit his fee.

5. Candidates will have to pass a test in English before being allowed to appear for the rest of the examination.

This test consists of reading and writing from dictation the reading of prescriptions and labels.

They will, if successful, be then examined in Materia Medica, Pharmacy, the compounding and mixing of drugs, &c.

R. H. WHITWELL, M.B., B.SC., *Surgeon-Major,*
Superintendent, Temple Medical School, Patna.

TEMPLE MEDICAL SCHOOL,
BANKIPORE,
The 25th August 1897.

JUNIOR SCHOLARSHIPS NOTICE FOR 1897-98.

IT is hereby notified that of the ten Junior Scholarships allotted to this division, 4 second grade scholarships of Rs. 15 a month, tenable for two years, will be awarded, irrespective of district and Orissa Tributary Mahals, to those candidates who obtain the highest total of marks in the examination to be held in February 1898, and the remaining 6 third grade scholarships of Rs. 10 a month, tenable also for two years, will be distributed amongst three districts of the division:—

Cuttack	2
Puri	2
Balasore	2

2. Scholarships not taken up by the district to which they are allotted will be awarded to candidates from other districts standing next in the divisional list.

3. In accordance with Rule III of the revised Junior Scholarship Rules, the above scholarships may, with the sanction of the Director of Public Instruction, Bengal, be held at any one of the affiliated colleges or at any Government Medical School in Bengal which the holder may select.

4. The old rule declaring that Junior Scholarships allotted to Orissa are not transferable to Arts Colleges in Bengal has been repealed.

H. G. COOKE, *Commissioner of the Orissa Division.*

ORISSA COMMR.'S OFFICE, CUTTACK, *the 31st August 1897.*

NOTIFICATION.

IN accordance with the Government of Bengal Notification No. 4042Med., the 2nd November 1896, notice is hereby given that the next half-yearly examination of compounders will be held at 8 A.M on Monday, 18th October 1897, at the Dacca Medical School.

2. Every candidate must produce the certificate of training and certificate of age and previous education.

3. The certificate of training must state either—

(I) that the holder thereof—

(*a*) has attended regularly for one year or more the class established for apprentice compounders in a Government Medical School, and

(*b*) has received instruction in Materia Medica; in Practical Pharmacy; in reading in English, and writing from dictation in English, prescriptions and labels for prescriptions; and in compounding, mixing, preparing and dispensing drugs, and

(*c*) has acquired a sufficient knowledge of Materia Medica and Pharmacy, and can accurately dispense prescriptions in English, or

(II) that the holder thereof—

(*i*) has served for three years as an apprentice compounder in some Chemist's or Druggist's establishment recognised for this purpose by the Inspector-General of Civil Hospitals, Bengal, or in some hospital or charitable dispensary under the management or supervision of the Government in which the said Inspector-General has authorized the reception of persons for the purpose of being trained as compounders, and

(*ii*) has acquired a sufficient knowledge of Materia Medica and Pharmacy, and can accurately dispense prescriptions in English.

4. The certificate of age and previous education required must be one granted at the time when the holder thereof was received into the school, hospital, establishment or dispensary, and must state that he was then not less than seventeen years of age, and had a sufficient knowledge of Arithmetic and English to read and understand prescriptions and to write directions on labels.

5. Notwithstanding anything in rule 2—

(*a*) any person who has, for seven years preceding the publication of these rules in the *Calcutta Gazette*, acted as compounder in any shop or place of the kind referred to in section 252 of the said Bengal Municipal Act; or section 368 of the said Calcutta Municipal Consolidation Act; and any person who has acted for seven years as a compounder in a Charitable Dispensary or Hospital under the supervision of Government shall, on producing a satisfactory certificate to that effect, be exempted from producing any certificate either of training or of age and previous education; and

(*b*) any person who produces a certificate, signed by the Registrar of the Calcutta University, of having passed the University Entrance Examination, either fully or in the subject of English, or a certificate signed by an Inspector of Schools of having passed the Middle English Scholarship Examination, shall be exempted from producing a certificate of age and previous education.

6. Applicants must register their names and submit their certificates, together with a fee of Rs. 5, at least one week before the 18th October 1897 at the office of the undersigned.

7. The students belonging to the compounder class of a Vernacular Medical School will be exempted from paying this fee on producing a certificate from the Superintendent that they have already paid the school entrance fee.

8. Should any candidate fail to pass the required examination, he will forfeit his fee.

9. Candidates will be examined in Materia Medica, Pharmacy, reading in English, and writing from dictation in English, prescriptions and labels for prescriptions, and compounding, mixing, preparing and dispensing drugs.

N.B.—The attention of candidates is drawn to rule 10, section (2) of the Government Notification of the 2nd November 1896, or paragraph 3 (II) of this notification, from which they will observe that the Chemist's and Druggist's establishments, from the legally qualified managers of which they obtain their certificates, will have to be recognised by the Inspector-General of Civil Hospitals, Bengal, prior to the candidates applying to the Superintendent to register their names to appear at the examination.

R. MACRAE, M.B., EDIN., *Surgeon-Lieut.-Colonel,*
Supdt., Medical School, Dacca.

DACCA, *the 11th September 1897.*

NOTIFICATION BY THE ACCOUNTANT-GENERAL, BENGAL.

SALARIES of Civil Establishments (other than salaries of Gazetted Officers) under the Government of Bengal for the month of September 1897, will be paid on the 29th instant. Pensions not exceeding Rs. 100 per mensem will be paid on the 28th and 29th on production by pensioners of a duly stamped guarantee signed by some respectable and well known person.

T. HESKETH BIGGS, *Offg. Accountant-General, Bengal.*

THE TREASURY, CALCUTTA, *the 10th September 1897.*

NOTIFICATION BY THE COMPTROLLER-GENERAL.

NOTICE is hereby given that the Public Debt Office and the Government Account Department at the Bank of Bengal will be open for the transaction of business and the receipt and payment of money on Government account on the following days during the Durga Puja holidays:—

30th September and 1st, 6th, 7th, 8th and 9th October 1897.

The Paper Currency Office at Calcutta and the Comptroller-General's Office will be open on the above dates.

O. T. BARROW,

„ Nadia Ballabh Roy.
Maulvi Mohomed Mazahar.
Babu Bansidhar Mahapatra.

2. Under section 23 of the Act, the Lieutenant-Governor is pleased to appoint the Subdivisional Officer of Jajpur to be the Chairman, *ex-officio*, of the above Municipality.

C. E. A. W. OLDHAM,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 607T.M.—The 11th September 1897.—Whereas a notification No. 253M., dated the 18th January 1897, was published at page 12, Part IB of the *Calcutta Gazette* of the 20th idem, declaring the Lieutenant-Governor's intention to exclude the villages named in the margin from the limits of the Kendrapara Municipality, in the district of Cuttack, and whereas no valid objection has been raised to the proposal within six weeks from the date of the publication of the above notification within the municipality, it is hereby notified for general information that, in the exercise of the power vested in the Local Government by the second proviso to section 9 of the Bengal Municipal Act III of 1884, as amended by Bengal Acts IV of 1894 and II of 1896, the Lieutenant-Governor sanctions the exclusion of those villages from the limits of the Kendrapara Municipality.

1. Ramchandrapur.
2. Gulnagar.
3. Shujanagar.
4. Gorapur.
5. Rahimpur.
6. Khairabad.
7. Kapaleswar Brahmapur.
8. Alijanga Aima.
9. Fallilapur.
10. Baneswarpurpara.
11. Talpatna.
12. Kapaleswar.
13. Alijanga.
14. Baneswarpur.

The boundaries of the Municipality, as now revised, will be as follows:—

On the West.—(1) Bhrasmerdiaparia, (2) Gopianala.

On the South.—(1) Narsing Jeo Thakur's tank, (2) Cherantapat Nala, (3) Gopidanda, (4) Pota Pukher (a tank), (5) Dhuyapat (field), (6) Old bandh (7) Marshaghai road.

On the East.—(1) Samguria and Kcohury Local Board road, (2) Jagulipada village, (3) Madhia Khandi Jhore, (4) Antargar village; and

On the North.—(1) Madhia Khandi Jhore, (2) Sarangpat (field), (3) Chakrabarang. (field), (4) Sunailo (field), (5) Gobri river including whole of its north bank (excluding the embankments).

C. E. A. W. OLDHAM,
Offg. Secy. to the Govt of Bengal.

NOTIFICATION.

No. 616T.M.—The 11th September 1897.—It is hereby notified that under section 27 of the Bengal Municipal Act III of 1884, as amended by Bengal Acts IV of 1894 and II of 1896, the Lieutenant-Governor is pleased to appoint Babu Kailash Chandra Sen to be a Commissioner of the Patuakhali Municipality, in the district of Backergunge, *vice* Babu Shoshi Bhusan Shaha, resigned.

C. E. A. W. OLDHAM,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No 618T.M.—The 11th September 1897.—It is hereby notified that under section 27 of the Bengal Municipal Act III of 1884, as amended by Bengal Acts IV of 1894 and II of 1896, the Lieutenant-Governor is pleased to appoint Munshi Kamta Prosad to be a Commissioner of the Lohardaga Municipality, *vice* Akhowri Mukutdhari Lala.

C. E. A. W. OLDHAM,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 620T.M.—The 11th Sept 1897.—Whereas a notification was published at page 157, Part IB of the *Calcutta Gazette* of the 30th June 1897, declaring the Lieutenant-Governor's intention to sanction, under section 86 (*b*) of the Bengal Municipal Act III of 1884, as modified up to November 1896, the levy by the Commissioners of the Samastipur Municipality of a fee on the registration, under section 142 of the Act, of all carts kept or used in the ordinary course of busines within the Municipality, and whereas no valid objections have been raised to the proposal within one month from the publication of the above notification within the Municipality, it is hereby notified for general information that, in the exercise of the

power conferred upon him by section 86 of the Act, the Lieutenant-Governor sanctions the levy by the Commissioners of the Municipality of a fee on the registration of such carts at rates not exceeding those mentioned in section 148 of the Act.

C. E. A. W. OLDHAM,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 622T.M.—The 11th September 1897.—Whereas a Notification No. 821M., dated the 13th February 1897, was published at page 46, Part IB of the *Calcutta Gazette* of the 17th idem, sanctioning the extension of the provisions of Part IX of the Bengal Municipal Act III of 1884, as amended by Acts IV of 1894 and II of 1896, to the Baruipur Municipality in the district of the 24-Parganas, and whereas the Municipal Commissioners resolved, under Section 222 of the Act, to bring the provisions of Part IX into operation within the Municipality, with effect from the 1st April 1898, thus exceeding the limit of time fixed by the proviso to the aforesaid Section, it is therefore necessary to renew the sanction then accorded. It is accordingly notified, for general information, that in the exercise of the powers vested in the Local Government by Section 221 of the Act, and in accordance with the recommendation of the Commissioners of the Baruipur Municipality made at a meeting, the Lieutenant-Governor sanctions the extension of the said part of the Municipal Act to the above Municipality.

C. E. A. W. OLDHAM,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 4635M.—The 13th September 1897.—It is hereby notified that under section 27 of the Bengal Municipal Act III of 1884, as amended by Acts IV of 1894 and II of 1896, the Lieutenant-Governor is pleased to appoint Mr. H. T. S. Forrest, C.S., to be a Commissioner of the Darbhanga Municipality in the district of Darbhanga.

C. E. A. W. OLDHAM,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 586½ T.M.—The 11th September 1897—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Comilla Municipality for a public purpose, viz., for a public latrine in the village of Garjan Khala, pargana Meharkul, zilla Tippera, it is hereby declared that for the above purpose a piece of land, measuring, more or less, 2 cottahs and 8 chitaks of standard measurement, is required. The land is bounded on the North by a drain; on the South by a tank and fallow land; on the West by Tippera Raja's land, and on the East by fallow land.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern, in supersession of declaration No. 1994M., dated 13th May 1896, published at page 108, Part 1B of the *Calcutta Gazette* of the 20th May 1896.

C. E. A. W. OLDHAM,
Secy. to the Govt. of Bengal.

DECLARATION.

No. 613T.M.—The 11th September 1897.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the District Board of Backergunge for a public purpose, viz., for excavating a tank at Deshantarkati (Tengrakhali), pargana Bozoorgomedpur, zilla Backergunge, it is hereby declared that for the above purpose a piece of land measuring, more or less, 2 bighas 12 cottahs 8 chitaks of standard measurement (210 feet in length and 180 feet in breadth), is required. The land is bounded on the North by the jote land of Palo and Sadagar Gomez; on the South by the jote land of Tomi and Sadagar Gomez; on the West by the land of Palo Gomez, Nani Gomes and Rulu Gomez; and on the East by the jote land of Rulu and Sadagar Gomez.

A plan of the land may be inspected in the office of the Collector of Backergunge.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

C. E. A. W. OLDHAM,
Offg. Secy. to the Govt. of Bengal.

C. R. MARRIOTT, Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Shahabad, will be put up to sale at the Arrah Collectorate on Monday, the 20th September 1897, corresponding with 9th Ashin 1305 F.S.

The purchasers will be subject to the following conditions of sale:—

Conditions of sale.

1st.—The estates to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchasers of these estate will be considered as the proprietors of the estate, and the entire proprietary right of Government in such estates will be transferred to them subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of cultivators recorded in the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchasers after issue of advertisement, as in the case of original sale.

5th.—The sale of two Kusalpurs, Nos. 1334 and 1335, will be subject to existing leases and to the rights conferred by the settlement proceedings and by laws in force, and purchasers will be bound to respect the rights of such lessees till the expiry of the period of their settlement:—

A. C. MACKERTICH, Deputy Collector in charge, for Collector on tour.

Midnapore Collectorate, Arrear Collection Department, the 1th August 1897.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Murshidabad will be put up for sale at the said Murshidabad Collectorate on the 28th day of September 1897, corresponding with the 13th Ashin 1304 B.S.:—

Conditions of sale.

1st.—The estates to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of these estates will be considered as the proprietor of the estates, and the entire proprietary rights of Government in such estates will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale:—

Noakhali Collectorate, the 21st July 1897.

LALIT KUMAR DEY, Deputy Collector in charge.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government in the Canal Department, as specified in the conditions of sale below, to the undermentioned surplus canal lands of Kori distributary, situate in the district of Shahabad, will be put up to sale at the Arrah Collectorate on Tuesday, the 4th January 1898, corresponding with 26th Poos 1305 F.S.

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The lands to be sold to the highest bidders above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of these lands will be considered as the proprietor of the lands, and the entire proprietary right of Government in such land will be transferred to him revenue free.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the lands to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale :—

Number of the district roll.	Name of estate and pargana.	Approximate area in acres.	Government revenue assessed.	Remarks.

Shahabad Collectorate, the 8th September 1897. J. WINDSOR, Collector.

Notice.

THE terms of the leases in respect of the Mica Mines named in the accompanying list having expired, fresh leases for five years will be granted to the highest bidders. For this purpose, the mines will be put up to auction, at the Deputy Commissioner's Office, Hazaribagh, on the 15th October next. In addition to the rent thus determined, a royalty of 2½ per cent. will be levied on the sale value of the Mica at the pit's mouth.

The conditions of the lease have been prescribed in rule 15 of the revised rules for the grant of prospecting licenses and mining leases for Mica published at page 919, Part I, of the *Calcutta Gazette* of the 7th July 1897.

Hazaribagh, Deputy Commissioner's Office, the 25th August 1897. J. L. HERALD, Deputy Commissioner.

List of Mica Mines to be sold at public auction at the Deputy Commissioner's Office, Hazaribagh, on 15th October 1897.

Municipal Corporation of Calcutta.

Bye-law for Cart Registration.

EVERY driver of a registered cart shall, at all times while acting as such driver, wear a metal ticket exposed to view, marked or engraved with a number corresponding with the registration number of the cart; and such ticket shall on application be delivered by the Commissioners free of cost at the time of the registration of the cart to the owner or the person in charge at the time for the use of the driver of the cart for the time being. On the expiry of the period for which such license is granted, the owner or person in charge of the cart is bound to return such ticket to the Commissioners. But in the case of the words or figures on the metal ticket becoming disfigured or obliterated or of a metal ticket being lost or stolen within the period for which such ticket is issued, a duplicate ticket may, with the sanction of the Commissioners, be issued on payment of a fee of two rupees.

W. R. BRIGHT, Offg. Chairman of the Corporation of Calcutta.

Municipal Office, Calcutta, the 24th August 1897.

কলিকাতার মিউনিসিপাল করপোরেশন।

গরুরগাড়ী রেজিষ্টরীকরণ সম্বন্ধে উপবিধি।

রেজিষ্টরীকরা গরুর গাড়ির প্রত্যেক গাড়ওয়ান গাড়ী চালাইবার সময়ে সকলে দেখিতে পায় এমন করিয়া এক খানি ধাতুনির্ম্মিত টিকিট ধারণ করিবে। গরুর গাড়ির রেজিষ্টরীর যে নম্বর ঐ টিকিটে সেই নম্বর চিহ্নিত বা খোদিত থাকিবে। দরখাস্ত করা হইলে, যখন যে গাড়ওয়ান থাকে তাহার ব্যবহারের জন্য গাড়ী রেজিষ্টরী করিবার সময়ে কমিশনরগণ বিনা খরচায় এইরূপ একখানি টিকিট গাড়ির মালিক বা গাড়ী যেব্যক্তির জিম্মায় থাকে তাহাকে দিবেন। যে সময়ের নিমিত্ত লাইসেন্স দেওয়া যায় তাহা অতীত হইলে গাড়ির মালিক কিম্বা যে ব্যক্তির জিম্মায় গাড়ী থাকে সেই ব্যক্তি কমিশনরগণকে ঐ টিকিট ফিরাইয়া দিতে বাধ্য। কিন্তু যে সময়ের নিমিত্ত ধাতুনির্ম্মিত টিকিট দেওয়া যায় যদি সেই সময়ের মধ্যে উহার শব্দ বা অঙ্কগুলি বিকৃত হয় বা উঠিয়া যায় কিম্বা ঐ টিকিট খোয়া বা চুরি যায় তবে দুই টাকা ফি দেওয়া গেলে কমিশনরগণের মঞ্জুরিক্রমে দোকর টিকিট দেওয়া যাইতে পারিবে।

Municipal Corporation of Calcutta.

Bye-law for Cart Registration.

EVERY driver of a registered cart shall, at all times while acting as such driver, wear a metal ticket exposed to view, marked or engraved with a number corresponding with the registration number of the cart; and such ticket shall on application be delivered by the Commissioners free of cost at the time of the registration of the cart to the owner or the person in charge at the time for the use of the driver of the cart for the time being. On the expiry of the period for which such license is granted, the owner or person in charge of the cart is bound to return such ticket to the Commissioners. But in the case of the words or figures on the metal ticket becoming disfigured or obliterated or of a metal ticket being lost or stolen within the period for which such ticket is issued, a duplicate ticket may, with the sanction of the Commissioners, be issued on payment of a fee of two rupees.

W. R. BRIGHT, Offg. Chairman of the Corporation of Calcutta.

Municipal Office, Calcutta, the 24th August 1897.

Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

FROM 1st April 1897 the price of this quinine will be as follows:—

1 Pound tin Rs. 15, or, post free, Rs. 15-12.
½ „ „ „ 7-8 „ „ „ „ 8.
¼ „ „ „ 3-12 „ „ „ „ 4-4.

Analysis shows this quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, cinchonine and cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta.

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ সল্‌ফেট অফ কুইনাইন।

১৮৯৭ সালের ১লা এপ্রিল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য হইবে, যথা—

১ এক পৌণ্ড টিন ১৫৲ বা ডাক মাশুল সমেত ১৫৷৷০
॥ আধ „ „ ৭৷৷০ „ „ „ „ ৮৲
। সিকি „ „ ৩৷৷০ „ „ „ „ ৪।০

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধরূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনীডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছাপূর্ব্বক মিশান হয় নাই তাহার গ্যারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারিগণের নিকট বিক্রয় করা যাইবে এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপরিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে।

Cinchona Febrifuge.

Cinchona Febrifuge can be purchased by all Government officers and by any one taking *six pounds* at a time from the Superintendent, Botanic Garden, Calcutta, at the following rates—per four-ounce tin, *Rs. 2, ans. 8;* per eight-ounce tin, *Rs. 5;* per pound tin, *Rs. 10.* The general public can be supplied by the Superintendent, Botanic Garden, *for Cash only* at the undernoted rates—per four-ounce tin, *Rs. 3;* per eight-ounce tin. *Rs. 6;* per pound tin, *Rs. 12.* This medicine is also sold by the principal European and native druggists in Calcutta. Postage four annas per *4oz.* tin, eight annas per *8oz.* tin, and twelve annas per pound tin, in addition to the foregoing rates.

In the Court of the Subordinate Judge of Burdwan.

MORTGAGE SUIT No. 121 OF 1897.

Nim Chand Babu and others, plaintiffs, decree-holders, *versus* Ashu Tosh Chandra and another, principal defendants, debtors.

THE following among other mortgaged properties will be sold at public auction by the Nasir of the Judge's Court, Burdwan, on the 5th November 1897, for satisfaction of the mortgage debt amounting to Rs. 32,315:—

2. Lot Palasan, tauzi No. 62 of the Burdwan Collectorate, the sadar jama payable in respect of 16 annas whereof is Rs. 7,400-11-11 and resumed chakran No. 16, Palasan, the sadar jama payable in respect of 16 annas whereof is Rs. 44-3-2, comprising mauzas Palasan, Bhalsuni, Kismut, Bhalsuni, Devagram, together with its *pati*, Nandanbati, Madhusudanpur, Kartikpur, Jot Jayhari, lying within the jurisdiction of sub-registry Katwa, Chowki Katwa, pargana Dhanya, district Burdwan, mauza Lastigram, otherwise called Lakshmipur, in sub-registry Mangalcote, chauki Katwa, district Burdwan, mauzas Chak Konda, Chak Fata, in division Sakulipur, sub-registry Labhpur, chowki Bolpur, district Birbhum. In the aforesaid mauzas the defendants Nos. 1 and 2 have ancestral share of 2 annas, 14 gandas, 1 kara and 7 danti, 1 anna 7 gandas and 8 dantis share by inheritance from their grandmother Subhadramani Dasi, deceased, 2 annas share by purchase from Hara Mohan Chandra deceased, and 13 gandas 2 karas and 4 dantis share by purchase from the plaintiffs and *pro forma* defendant. In all the defendants Nos. 1 and 2 have 6 annas 15 gandas 1 kara and 1 danti share of zamindari interest.

3. Lot Khana, No. 34 of the Birbhum Collectorate, in thana Sakulipur, subregistry Labhpur, district registry Birbhum, pargana Barbaksing, chauki Bolpur, district Birbhum, comprising mauzas Khana, Panpuri, together with its chak, &c., the sadar jama payable to the Birbhum Collectorate in respect of 16 annas whereof amounts to Rs. 3,759-2. In the aforesaid lot the defendants Nos. 1 and 2 have ancestral share of 2 annas 7 gandas 3 karas and 1 danti, 1 anna, 3 gandas, 3 karas, and 5 dantis share by inheritance from their grandmother Subhadramani Dasi, 1 anna, 15 gandas, 3 karas and 3 dantis share by purchase from their elder brother, Param Suk Chandra. Total zamindari interest of the defendants Nos. 1 and 2 is therefore 5 annas 7 gandas and 2 karas. The 5 annas 7 gandas and 2 karas zamindari interest of the defendants Nos. 1 and 2 in mauza Khana was let out on putni on the 18th Asarh 1301 to Kul Chand Mandal of Khana at an annual rental of Rs. 661. Similar share of zamindari interest of defendants Nos. 1 and 2 in mauza Panpuri was let out on putni, on the aforesaid date to one Kali Mritanjoy Mukharji of Kulgram, at an annual rental of Rs. 948.

4. Lot Ramkantapur, tauzi No. 35 of the Burdwan Collectorate, the sadar jama payable in respect whereof is Rs. 2,560-6-4, and resumed chakran Ramkantapur, No. 11, included in the aforesaid tauzi, the sadar jama payable in respect whereof amounts to Rs. 9-13-1, comprising mauzas Ramkantapur, Kulgram, Lakshmipur, together with Noyapara, Sian, Kadaksitipur, Radhakantapur, otherwise called Parmanandpur, chak Raja Rampur, chak Ayma, chak Asuhullabad and Sundarpur, which have been incorporated to mauzas Kalgram, Lakshmipur, and Ramkantapur. In the aforesaid lot the defendants Nos. 1 and 2 have ancestral share of 2 annas 7 gandas 3 karas and 1 danti, 1 anna 3 gandas 3 karas and 5 dantis share by inheritance from their grandmother Subhadramani Dasi, 1 anna 15 gandas 3 karas and 3 dantis share by purchase from their elder brother Param Suk Chandra. The defendants have, in all, 5 annas 7 gandas and 2 karas share of zamindari interest, which was let out on putni, on the 18th Asarh 1301, to Lakshminarsyan Mukharji, Kali Mritanjay Mukharji, Dev Raj Mukharji and Ashu Tosh Mukharji of Kolgram, at an annual rental of Rs. 1,772.

5. Lot Murandi, tauzi No. 66 of the Birbhum Collectorate, in division Sakulipur, subregistry Labhpur, chowki Bolpur, pargana Kutabpur, district Birbhum, comprising mauzas Murandi, Dunnesahapur, Ramkrishnapur, the annual sadar jama payable to the Birbhum Collectorate in respect whereof is Rs. 1,533-1. In this lot the defendants Nos. 1 and 2 have ancestral share of 7 annas 1 ganda and 3 dantis, 3 annas 1 ganda and 4 dantis share by inheritance from their grandmother, Subhadramani Dasi, deceased, and 5 annas 6 karas and 6 dantis share by purchase from their elder brother, Param Suk Chandra. Out of the aforesaid mauzas Murandi was let out on patni to one Mritunjay Mukharji of Kulgram, on the 6th Choit, 1293, at an annual rental of Rs. 1,326.

KEDAR NATH MAZUMDAR, Subordinate Judge.

Burdwan, the 9th September 1897. (667—1)

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that Court. Cases heard by the Privy Council on appeal from vinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1898 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series *including postage*, Rs. 22-8.

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 2nd September, 1897:

NO. 12 OF 1897.

A Bill to further amend the Stage-Carriages Act, 1861.

WHEREAS it is expedient to further amend the Stage-Carriages Act, 1861; It is hereby enacted as follows:

VI of 1861.

1. This Act may be called the Stage-Carriages Act (1861) Amendment Act, 1897.

Short title.

2. The proviso to section 1 of the Stage-Carriages Act, 1861, is repealed.

Repeal of proviso to section 1, Act XVI, 1861.

3. After section 20 of the said Act the following section shall be added, namely:

Addition of new section after section 20, Act XVI, 1861.

"20 A. (1) The Local Government may, by notification in the local official gazette, make rules to carry out the purposes and objects of this Act in the territories under its administration or any part of the said territories.

Power to make rules.

(2) In particular and without prejudice to the generality of the foregoing power, such rules may—

(a) prescribe forms for licenses under this Act, and the conditions on which they may be granted, and the cases in which they may be revoked;

(b) provide for the inspection of stage-carriages; and

(c) regulate the number and length of the stages for which horses may be driven in stage-carriages and the manner in which they shall be harnessed and yoked.

(3) In making any rule under this section the Local Government may direct that a breach thereof shall be punishable with fine which may extend to one hundred rupees."

STATEMENT OF OBJECTS AND REASONS.

THE application of the Stage-Carriages Act, 1861 (XVI of 1861), is, by the proviso to section 1, limited to carriages ordinarily used for journeys of more than twenty miles. This restriction has been found to be inconvenient, as stage-carriages which ought to be subject to regulation, not infrequently ply for shorter distances, and it is, therefore, proposed, by clause 2 of the Bill, to repeal the proviso above referred to.

2. The Act has also been found defective in practice owing to the absence of any rule-making power by means of which to supplement its provisions. Experience has demonstrated the necessity for auxiliary rules to regulate such matters of detail as the length of the stages for which a horse may be driven in a licensed carriage, and, generally, to guide the executive in carrying the law into effect. Clause 3 of the Bill is designed to confer the necessary power in this respect on the Local Government.

The 3rd August, 1897.

J. WOODBURN.

J. M. MACPHERSON,

Secretary to the Government of India.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 174

[First Publication]

AUSTRALIA, SOUTH COAST.—SPENCER GULF.

Amended particulars of shoal south-east of dangerous reef.

WITH reference to Notice to Mariners No. 254, dated 19th December 1896, issued by this office, the British Admiralty has given further notice (No. 448 of 1897) that the shoal, reported about 2½ miles S.S.E., from Dangerous reef, is about three-quarters of a mile in length east and west and a quarter of a mile wide within the 5 fathom line; the least depth on it, 7 feet at low water springs, is situated near the centre of the shoal, in a position with the highest part of Dangerous reef bearing N. W., distant 2½ miles.

The sea occasionally breaks heavily on the centre of the shoal in southerly gales.

Approximate position, lat. 34° 51′ S., long. 136° 14′ 30″ E.

(*Variation 5° Easterly in 1897.*)

[First Publication.]

PACIFIC OCEAN—FIJI ISLANDS.

Viti Levu—Beacon and buoy in Suva harbour.

THE British Admiralty has given notice (No. 453 of 1897) that a black beacon, consisting of a boarded framework, surmounted by a rectangular topmark, the top of which is about 15 feet above the level of high water springs, has been erected at the southern extremity of the spit which dries at low water springs, southward of Low Cliffy point.

From the beacon Low Cliffy point bears N.N.E., distant 5¼ cables; and Walou beacon E. ¼ S.

Approximate position on Plan No. 1757, lat. 18° 7′ 35″ S., long. 178° 24′ 55″ E.

NOTE.—A light may occasionally be shown from this beacon when large vessels are leaving the harbour.

Also, that a white *Cask* buoy has been placed on the patch, with a depth of 4½ fathoms on it, situated with the steamer pier lighthouse bearing E. ¼ N., distant 5⅞ cables.

[First Publication.]

PACIFIC OCEAN—FIJI ISLANDS.

Vanua Levu—Sunken rock east-north-east of Vendua island.

THE British Admiralty has given notice (No. 454 of 1897) of the existence of a pinnacle rock, on which he sounded from a boat and obtained a least depth of about 11 feet at low water, in the channel westward of Nai Thombo Thombo point.

The position of the rock cannot be accurately fixed by the bearings given, but it is probably situated in approximately lat. 16° 47′ S., long. 178° 24¾′ E.

The words "Rock with 1¾ fathoms over it reported hereabouts" have been written on the Admiralty Chart near the above position.

AUSTRALIA—TORRES STRAIT—INNER ROUTE.

Shoal patches near Claremont group.

THE British Admiralty has given notice (No. 13 of 1897) of the existence of three shoal patches of coral in the following approximate position, viz. :—

A patch with 5 fathoms over it, lying in Latitude 13° 25′ 50″ South, Longitude 143° 41′ 20″ East;

A patch with 4¾ fathoms over it, lying North 29° West, distant 2 cables from the before-mentioned patch; and

A patch with 5 fathoms over it, lying North 15° East, distant 2 cables from the first-named patch.

Foul ground exists round these shoals, and a complete examination has not yet been made. Masters of vessels are cautioned accordingly.

Mundoora Channel and Port Broughton—Buoys removed and beacons erected.

THE President, Marine Department, Port Adelaide, has given notice (No. 5 of 1897) that the buoys marking the Mundoora Channel (entrance to Port Broughton) have been removed, and that in lieu thereof forty-five beacons have been erected.

The two outer beacons mark the bar entrance. In navigating the channel the black one with square head should be left to port when entering, and the red one with round head left to starboard; the remaining forty-three (each alternate one of which has a round head) are painted red, and are on the starboard side of the channel, extending from the outer bar to the Port Broughton Jetty.

This affects Admiralty Chart 2389B.

AUSTRALIA, EAST COAST—MORETON BAY.

Beacons for compass correction, northward of Mud island.

THE British Admiralty has given notice (No. 415 of 1897) that the undermentioned four beacons have been erected on the northern side of Mud island, to enable vessels to correct their compasses :—

A. A square, white beacon at the northern extreme of the mangroves, Mud island.

Approximate position, lat. 27° 19′ 35″ S., long. 153° 16′ 10″ E.

B. A pile, with a small, square, white top, standing in a depth of 3 feet at low water, in a position bearing North, distant 3½ cables from beacon *A*.

C. A pile, with a small, square, white top, standing in a depth of 3 feet at low water, in a position bearing N. W, distant 4⅔ cables from beacon *A*.

D. A pile, with a small, square, white top, on the bank which dries at low water, in a position bearing West, distant 3⅓ cables from beacon *A*.

So that—

Beacons B and A in line bear South.
Beacons C and A in line bear South-east.
Beacons D and A in line bear East.
Beacons B and D in line bear South-west.
The four beacons forming a square, the sides of which run North, South, East, and West.

NOTE.—Vessels should not approach within half a mile of the northern beacons when correcting their compasses.

Gascoyne Road—Intended light on Babbage island.

THE British Admiralty has given notice (No. 418 of 1897), that, about 1st August 1897, a light will be exhibited from a lighthouse recently erected on Babbage island.

Gascoyne (Carnarvon) light will be a fourth order, *occulting* light with a period of *twenty seconds*, thus:—light, *fifteen seconds*; eclipse, *five seconds*; showing the following sectors:—*red*, from about S. 15° E., to S. 41° E. (over Blowfish bank); *white*, from S. 41° E., through east, to N., 31° E.; and *red*, from N. 31° E. to about N. 15° W. (over Elbow shoal and Gascoyne flats).

It will be elevated 101 feet above high water, and in clear weather the white light will be visible 13 miles, and the red light 9 miles.

The lighthouse, constructed of wood, is painted white, with the keeper's dwelling about 100 yards north-westward of it, and situated N.N.W. ½ W., distant 1¼ miles, from the beacon at the south end of Babbage island.

Approximate position, lat. 24° 52′ 20″ S., long. 113° 38′ 15″ E.

CHINA SEA—GULF OF SIAM—COCHIN CHINA.

Amended particulars of intended lights.

WITH reference to Notice to Mariners, No. 136, dated 9th July 1897, issued by this Office, the British Admiralty has given further notice (No. 427 of 1897) of the undermentioned amended particulars of certain intended lights:—

1. Koh Samit light will be a *group-flashing white* light, showing *two flashes* in quick succession in each group, visible in clear weather from a distance of 27 miles.
   The lighthouse is on the west point of Koh Samit, in approximately lat. 10° 53′ 0″ N., long. 103° 3′ 0″ E., and not as given in Notice No. 319 of 1897.
2. Rong Sam Lem light (*quick-flashing red*) will be visible in clear weather from a distance of 17 miles.
   The lighthouse is on the south point of the island in approximately lat. 10° 32′ 20″ N., long. 103° 17′ 45″ E.
3. Hatien light (*quick-flashing white*) will be visible in clear weather from a distance of 21 miles.
   The lighthouse, a tower of masonry, is on Loctri point, in approximately, on Chart No. 2723, lat. 10° 21′ 20″ N., long. 104° 25′ 30″ E.
4. Pulo Obi light (*quick-flashing white*) will be visible in clear weather from a distance of 29 miles.
   The lighthouse is on the south point of the island, in approximately, on Chart No. 2723, lat. 8° 25′ 20″ N., long. 104° 48′ 30″ E.

M. FINUCANE,
Secretary to the Government of Bengal.

SECRETARIAT DEPARTMENT;
The 11th September 1897.

STATISTICS OF THE SEA-BORNE TRAFFIC OF CALCUTTA IN FOOD-GRAINS.

No. 2540 Statistics.—The following memorandum and statements are published for general information.

M. FINUCANE,
Secy. to the Govt. of Bengal.

STATISTICAL DEPARTMENT,
The 14th September 1897.

Memorandum.

The sea-borne import and export traffic of Calcutta in food-grains during the 10 days from 22nd to 31st August 1896, and the corresponding period of 1897, is shown in the following statement:—

	22ND TO 31ST AUGUST			
	1896.		1897.

Other food-grains, such as jowar, barley, oats, &c.				
Total ...	28,740	39,118	221,591	3,01,610

Imports.—During the period under report, the imports of rice amounted to 180,329 cwts., against 19,610 cwts. in the last 10 days of August 1896. The amount imported from Burma was 114,514 cwts., and that from the Straits Settlements 23,162 cwts., both against nil in the corresponding period of last year. Shipments of rice from Chandbali rose from 12,255 cwts. to 36,866 cwts. The imports of paddy came chiefly from Chandbali and Rangoon. The increase under the head of gram and pulses amounted to 23,751 cwts., the amount imported from San Francisco alone being 22,246 cwts.

Exports.—In the following statement the total quantity of each kind of food-grain exported by sea during the last 10 days of August 1897 is compared with that for the corresponding period of 1896 :—

	22ND TO 31ST AUGUST

Gram and pulses ...	34,(	46,2	10.9	14 88
Other food-grains, such as jo barley, oats, &c.				
Total				

Foreign Ports.

The exports of rice from Calcutta to foreign ports declined from 97,225 cwts. in th last 10 days of August 1896 to 28,232 cwts. in the perio under report. The decline was chiefly due to the absenc in 1897 of shipments to Trinidad, Reunion, and Mauritius, to which ports 69,784 cwts. wer exported during the 10 days ending 31st August 1896. The despatches to Ceylon showe an increase of 3,507 cwts., and those to the United Kingdom a decrease of 3,430 cwt The decrease under gram and pulses was chiefly due to the cessation of exports t Mauritius and Reunion, which took 7,926 cwts. in the corresponding period of 1896, an the exports to the United Kingdom showed a falling off of 7,534 cwts.

Indian Ports.

As regards Indian ports, the exports of rice during the last 10 days of Augus 1896 amounted to 5,822 cwts., against 2,765 cwts. in th period under report. The shipments for Bombay amounte to only 707 cwts., against 4,744 cwts. in the last 10 days of August 1896. Under gram an pulses there was a decrease in the shipments to Bombay and to the ports in Madras an Burma.

Detailed statements showing the sources of supply and the places of destination, bot as regards Foreign and Indian ports, are given below:—

STATISTICS OF THE SEA-BORNE TRAFFIC OF THE MINOR PORTS IN BENGAL IN FOOD-GRAINS.

No. 2539 Statistics.—The following memorandum and statements are published for general information.

STATISTICAL DEPT.,
The 14th September 1897.

M. FINUCANE,
Secy. to the Govt. of Bengal.

Memorandum.

THE comparative statements below give statistics of the import and export trade of the minor ports of Chittagong, Narayanganj, Balasore (including both Balasore and Chandbali), Cuttack, and Puri during the week ending 21st August 1897, as compared with the trade of the corresponding period of 1896:—

	1897		24,480.	24,480	33,320

During the week under report, the total imports of rice into Chittagong amounted to 9,133 cwts., of which 9,010 cwts. came from Burma against 1,288 cwts. in the same period of 1896. In the case of exports Calcutta and Narayanganj together received 2,204 cwts. against *nil* in the corresponding period of last year. Owing chiefly to larger supplies of wheat from Calcutta, the import trade of Balasore ports improved by 419 cwts.; and the export trade increased, owing to larger consignments of rice to Calcutta, by 62,814 cwts. In the absence of despatches of rice to Colombo, the export trade of Cuttack and Puri declined by 2,045 cwts. and 2,761 cwts. respectively.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

Statement showing the quantities of Food-grains imported into Chittagong from each Foreign and Indian Port during the week ending 21st August 1897, as compared with the trade of the corresponding period of 1896.

EXPORTS OF FOOD-GRAINS BY THE EASTERN BENGAL STATE RAILWAY.

No. 2583 Statistics.—The following statement shows the quantity of rice and other food-grains exported by the Eastern Bengal State Railway from Sealdah and Calcutta during the period from 1st January to 28th August 1897, both days inclusive, to have been 10,60,109 maunds. The destination of 10,56,135 maunds is specified. Of this quantity 8,40,477 maunds were carried to stations in Bengal Proper, and 89,156 maunds to Bihar and Chota Nagpur, 44,334 maunds to the North-Western Provinces and Oudh, 79,441 maunds to places in Assam, and the rest (2,727 maunds) to other provinces.

STATISTICAL DEPARTMENT,
The 14th September 1897.

M. FINUCANE,
Secretary to the Govt. of Bengal.

Statement showing the quantities of rice and other food-grains exported from Sealdah and Calcutta (Port Trust Railway, Chitpur and Kidderpore Docks), by the Eastern Bengal State Railway, from 1st January to 28th August 1897.

COMPARATIVE STATEMENT OF THE PRICES OF FOOD-GRAINS.

RETAIL prices of common rice and other food-grains in the several districts of Bengal and in the neighbouring districts of the North-Western Provinces during the first and second fortnights of July and August 1897, as compared with the corresponding fortnights of July and August 1896, are published for general information. The latest available prices of common rice in Cachar and Sylhet are also published.

M. FINUCANE,
Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT, *the 14th September 1897.*

Quantity obtainable for a rupee.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF AUGUST 1897.

WEATHER during August was of an unusually uniform character. There were no disturbances either over the Bay or the province, and no marked break in the rains. Cloudy, showery weather continued in all districts, but not entirely without variation, there being two periods of maximum and two of minimum falls, during the latter of which only scattered showers fell in places. The two former periods occurred about the beginning and middle of the month, the two latter between the 8th and 14th and towards the end of the month.

During the first and third weeks, when rainfall was more plentiful, there was comparatively low pressure over the north of the province. The steep pressure gradient, which at the same time prevailed over the Bay, caused a strongish monsoon, and, in consequence, a free supply of moist air was moving over the land. The precipitation was partly maintained by the irregular pressure changes which occurred from day to day, and gave rise to the variations in the wind circulation, to which during settled weather rainfall is largely due.

When rainfall was more scanty during the second and fourth weeks, the area of lowest pressure was transferred southwards—in the first case to Orissa and in the second to the Circars. During these weeks a more steady easterly current prevailed over the province, and the monsoon being deflected westward across the north of the Bay, conditions were less favourable for rainfall at inland stations. But, as stated above, rainfall only partially ceased, and there were very few days on which it was not recorded at more than half the number of registering stations.

On two occasions pressure changes were rather larger than at other times, and there were then indications of the existence and movement of very shallow depressions. The first probably crossed the north of the Bay, but did not show as a distinct depression till it was over Orissa on the 7th, when there was a defect in pressure of more than ·1 inch on the west coast of the Bay as far south as Masulipatam. The rise of pressure, which was then general over Bengal, forced the area of lowest pressure westward or south-westward, and led to the commencement of the first period of lighter rainfall. The second began on the 17th with a moderate fall of pressure in the south of Burma and a brisk rise in Bihar. It was very indistinct during the two following days, but it moved north-westward, across the north of the Bay into Bengal, and became better defined in Bihar on the 19th, when, after a brisk fall of pressure, there was defect of about ·05 inch. Though these changes never led to any great variation from the normal, still the excess in the south of the Bay and defect in the north gave rise to rather steep gradients over the Bay and the south of the province with conditions very favourable for rainfall. Though this very shallow depression did not cause the renewal of general rain, it was the main cause of the continuance of the rainfall till after the end of the third week, and the heaviest falls of the month were during its passage across Bengal and Bihar, especially the latter, on the 19th.

On the 23rd pressure again began to fall in the south of Burma. The fall then became general over the whole area, and afterwards was confined to the Madras coast and the south-west of the Bay, with the result that a considerable defect accumulated over that area. The pressure gradient became less steep, the monsoon current was weaker over the province, and the second period of light rainfall began, continuing till the end of the month.

At the beginning of the month pressure was between ·1 and ·15 inch below the normal over the province, defect diminishing towards the south of the Bay when it was very small. The consequent steep gradient gave winds over the Bay somewhat above the average strength. As at the same time winds were westerly in Bihar and Chota Nagpur, conditions were favourable for rain over the province, especially in the eastern districts, where falls of between 2 and 4 inches were not unfrequent. Except that defect became smaller over Bengal without much change in the general distribution, the general weather conditions remained much the same as on the 1st, till the 5th, when a brisk fall of pressure set in over the north of the Bay continuing more slowly on the 6th, when readings were lowest in Orissa. The irregular, and in places rapid, rise on the 7th led to a very shallow depression over Orissa and a more regular circulation of easterly winds over the province. The shallow depression moved off to the west, but the distribution retained almost the same features till the 15th, when a rapid rise of pressure over the north of the Bay caused a displacement of the area of lowest pressure from Orissa to the west of Bihar. It was during these days, from the 7th to the 15th, that rainfall was lighter and more scattered than during the first few days of the month. With the area of lowest pressure in Bihar, the moist current was more towards the north and rainfall again became general, though not usually heavy, over the whole province.

The shallow depression which began on the 17th in the south of Burma and moved quickly north-westward reaching Bihar on the 19th, led to well marked monsoon conditions over the whole province for some days, with general rainfall which was heaviest in East and North Bengal on the 21st and 22nd, when falls of from 2 to 4 inches occurred. The brisk fall of pressure prevailing during the passage of the depression was followed by a brisk rise on the 20th, but immediately afterwards the fall of pressure began in Burma, and extending westwards across the south of the Bay caused the low pressure in the south-west during the last week of the month. This change was in process between the 23rd and 25th, when the fall in the south of the Circars was more than ·1 inch, and defect in the

north of Madras was about ·14 inch. This arrangement was better defined on the 26th, when a brisk rise over Bengal and a moderate fall in the extreme south-west of the Bay resulted in readings being lowest over the Circars. On the 27th lowest pressure was still further south, after which the recovery began owing to a rise in the south-west of the Bay and a fall in the north of the province. But the main features of the distribution remained till the end of the month, and were shown by the very uniform readings over the west of the province and the west of the Bay. From the 23rd till the end of the month winds remained easterly over the province and south or south-east over the north of the Bay, and the consequent westerly deflection of the monsoon current was attended by lighter rainfall at inland stations, as during the previous partial break, however, light showers were of almost daily occurrence over a great part of the province.

Owing to the occurrence of only the faintest possible depression, conditions were unusually settled over the Bay, there being no case of stormy or even squally weather.

Pressure—Underwent no large changes, but ones of moderate amount were more frequent than usual. The area of lowest pressure oscillated between the south-west and north of the province, and towards the end of the month was displaced further south than is usual in August. As a period of deficient readings was followed by one with a similar excess, the means for the whole month are practically normal over the whole province, only a few of the western stations having a difference of more than ·01 inch.

Temperature.—During the first and third weeks, when cloudy weather with general rain prevailed, temperature was below the normal, and during the second and fourth weeks, when the rainfall was more partial, there was generally excess; but the difference from the normal was rarely more than 2°. In consequence, the means for the month are very nearly normal, the difference for maximum readings varying from excess of half a degree in the north-east to defect of similar amount in the south-west, and there being for minimum readings a general small excess. Mean temperature for the large divisions differs from the normal by not more than a fifth of a degree, except in North Bengal.

Rainfall.—Owing to the general favourable conditions and the absence of cyclonic storms, the distribution has been unusually uniform over the whole province. In East Bengal there fell on an average 3·44 inches more than the normal, but in all the other divisions the difference from the normal was less than 1 inch. In South-West Bengal there was excess of about 1 inch, and elsewhere defect varying from a third of an inch in North Bengal and Bihar, to about 1 inch in Chota Nagpur.

The falls as reported from the various stations are more regular than usual, but there are still variations, especially in Bihar and North Bengal. Over the greater part of North Bihar there has been a deficient fall, the defect being less than 5 inches, except in the greater part of Champaran and part of Muzaffarpur, where defect is between 5 and 7 inches. In North Bengal there has been a similar arrangement, excess in the south and defect elsewhere, increasing towards the north and generally between 5 and 10 inches in Jalpaiguri and Cooch Bihar. The difference from the normal is generally small in other parts, especially where there is a deficiency and over the greater part of Eastern and Central Bengal there is a small to moderate excess above 5 inches at only a few scattered stations.

The comparison of the actual rainfall in the various large divisions of the province with the normal is most accurately and conveniently shown in the form of a percentage. The figures representing the rainfall for the month, calculated in this way, are included in the table below under the heading of August. This table really gives a condensed summary of the rainfall statistics of the present year up to date for each meteorological division, the first eight columns giving the actual average rainfalls in each division in each month expressed as a percentage of the normal, while the ninth column gives the total rainfall for the first eight months expressed as a percentage of the normal rainfall for that period:—

Meteorological Divisions.	Janu		March.	April.	May.	June.	July.	August.	Actual rainfall of first eight months of 1897 expressed as a percentage of the normal fall for the period.
South-West Bengal ...	3	64	149	107	77	115	84	108	98
North Bengal ...	17	34	210	63	105	64	79	98	84

Orissa ...	3	329	316	91	38	88	111	96	103
Chota Nagpur ...	60	194	197	143	53	85	85	93	90

The following table gives full data for comparison of the actual and normal rainfall of the month of August in all districts of the province. The figures are derived from the average and actual rainfall of the rain-recording stations in each district, due allowance or weight being made for the area which each station represents. This gives a more accurate average than the arithmetical means given in the monthly meteorological tables. The first column gives the normal or average district rainfall as determined from the rainfall observations of the past 25 years: the second column gives the actual district rainfall as determined from the weighted actual rainfalls of the month at the reporting stations in each district: the third column expresses the ratio of the actual district rainfall of the past month to the normal

rainfall as a percentage: the fourth column states as a percentage how much the district rainfall of the month varied from the normal :—

Percentage Table for August 1897.

	Inches.
The mean pressure of the seven days	29·672
The average pressure of the corresponding period for 24 years, Surveyor-General's Office	29·652
	Hours.
The total number of hours of bright sunshine	41·3
The maximum possible number of hours of sunshine	86·8
	°
The mean temperature of the seven days	82·4
The average temperature of the corresponding period for 24 years, Surveyor-General's Office	83·2
The extreme variation of temperature	12·7
The maximum temperature	89·3
	Miles.
The highest velocity of the wind in one hour	14
	%
The mean relative humidity	85
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	86
	Inches.
The total fall of rain from 5th to 11th September 1897	0·91
The average fall of the corresponding period for 24 years, Surveyor-General's Office	3·11
The total fall from 1st January to 11th September 1897	45 68
The average fall of the corresponding period for 24 years, Surveyor-General's Office	52·86

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder; ☁, dew.

REVENUE DEPARTMENT—(LAND REVENUE).

NOTIFICATION—No. 746T.R.

The 15th September 1897.—Under the powers conferred upon him by section 101(2)(*d*) of the Bengal Tenancy Act, VIII of 1885, the Lieutenant-Governor is pleased to order that a survey shall be made and a record of rights prepared in respect of all lands included within the boundaries of the Government estate char Baniari, bearing Tauzi No. 978 in the district of Khulna.

The particulars to be recorded in the survey and record of rights shall be the following:—

(*a*) The name of each tenant.

(*b*) The class to which he belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat; and if he is a tenure holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure.

(*c*) The situation, quantity and boundaries of the land held by him.

(*d*) The name of his landlord.

(*e*) The rent payable.

(*f*) The mode in which that rent has been fixed, whether by contract, by order of a Court or otherwise.

(*g*) If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.

(*h*) The special conditions and incidents, if any, of the tenancy.

(*i*) The name of each proprietor (including rent-free owner) with the character and extent of his interest, and the situation, quantity and boundaries of the proprietor's private lands as defined in Chapter XI of the Act.

(*j*) The name of each rent-free occupant, if any; the situation, quantity and boundaries of the land held by him, and whether he holds rent-free by the permission of the proprietor of the land, or of his predecessor in title or independently of such permission.

M. FINUCANE,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 748T.R.

The 15th September 1897.—Mr. J. E. Webster, C.S., Assistant Settlement Officer, Cuttack, is granted privilege leave for one month, under article 291 of the Civil Service Regulations, with effect from the 25th September 1897.

M. FINUCANE,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 2836L.R.

The 17th September 1897.—Under the powers conferred upon him by section 101(1) of the Bengal Tenancy Act VIII of 1885, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to direct that a survey be made and a record of rights be prepared in respect of all lands included within the external boundaries of thanas Darauli, Manjhi and Chapra in the district of Saran.

The particulars to be recorded in the survey and record of rights shall be the following:—

(*a*) The name of each tenant.

(*b*) The class to which he belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat; and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure.

(*c*) The situation, quantity and boundaries of the land held by him.

(*d*) The name of his landlord.

(*e*) The rent payable.

(*f*) The mode in which the rent has been fixed, whether by contract, by order of Court or otherwise.

(*g*) If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.

(*h*) The special conditions and incidents, if any, of the tenancy.

(*i*) The name of each proprietor (including rent-free owner) with the character and extent of his interest, and the situation, quantity and boundaries of the land held by the proprietors.

(*j*) The name of each rent-free occupant; the situation, quantity and boundaries of the land held by him, and whether he holds rent-free by the permission of the proprietor of the land or of his predecessor in title, or independently of such permission.

M. FINUCANE,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 2854L.R.

A. D. MCARTHUR, *Colonel*, R.E.,
Secy. to the Govt. of Bengal.

LOCAL COMMUNICATIONS.

The 21st September 1897.

No. 270.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the construction of an approach road to Kumira Railway Station in the village of Kumira, thana Kumira, zilla Chittagong, it is hereby declared that for the above purpose a piece of land measuring, more or less, 3 bighas 18 cottahs and 15 dhurs of standard measurement, bounded on the north and south by *hasila* land of Kumira village, on the east by Kumira Railway Station, and on the west by the Dacca Trunk Road, is required within the aforesaid village of Kumira. This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

J. G. H. GLASS,
Secy. to the Govt. of Bengal.

IRRIGATION DEPARTMENT.

[Fourth Publication.]

The 31st August 1897

No. 245.—Notification.—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor of Bengal proposes to make the

following addition and amendment in Rule 42 of the Revised Water-rate Rules for the Sone Canals, and in Appendices I, II and VIII to the Rules.

A. D. McARTHUR, *Colonel*, R.E.,
Secy. to the Govt. of Bengal.

To Rule 42 add—

"For seven-year leases entered into after the 1st January 1898, payment of water-rates will be exacted in one kist on the 1st February. As regards existing leases collections will be made in one kist with the lessee's consent."

Appendix I, clause 4, and Appendix II, clause 4, will be altered to the following :—

"We agree to pay the water-rates due on this application on the 1st February."

Appendix VIII.—"Dates of payment" will be altered to "Date of payment 1st February."

RAILWAY DEPARTMENT.

The 18th September 1897.

No. 136 Notification.—This Department declarations Nos. 80 and 81, dated the 22nd June 1896, of land required for the construction of the Puri Branch of the East Coast State Railway, published at page 715, Part I, of the *Calcutta Gazette* of the 24th idem, are hereby cancelled.

J. G. H. GLASS,
Secy. to the Govt. of Bengal.

MARINE DEPARTMENT.

The 21st September 1897.

No. 171Marine.—In exercise of the powers conferred by section 5 of the Indian Ports Act (X of 1889) and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased, in supersession of all previous orders on the subject, to declare that the limits of the Port of Balasore shall be as follow :—

Balasore Port Limits.

To the North.—A line drawn across the river Burrabullung from the boundary pillar on the right bank immediately above the junction of the Hollandaze nala to the boundary pillar on the opposite or left bank of the said river.

To the South.—A line drawn across the said river from the boundary pillar on the right bank immediately to the west of old Balasore to the boundary pillar on the left bank of the said river immediately below the junction of the Tootahphull or Pathaphull nala.

So much of the Hollandaze nala as lies to the east of a line drawn across the said nala, between the two boundary pillars, about one hundred and fifty feet from its junction with the said river.

The limits of the said port include so much of the said river and nala and of the shores thereof as are fifty yards above high water mark at spring tides.

Port Limits, Balasore Roads.

To North-East.—A line drawn south-east of Panchpara creek.

To South-West.—A line drawn south-east of a creek, 2½ miles south-west of Chandipur flag-staff.

To South-East.—An imaginary line drawn north-east and south-west, distance 8 miles south-east of the Chandipur flag-staff, to meet the north-east and south-west limits.

All parts of the river Burrabullung between the said limits and below high water mark at spring tides are subject to the Indian Ports Act.

A. D. McARTHUR, *Colonel*, R.E.,
Secy. to the Govt. of Bengal.

J. H. NEWMAN, M.D., *Surgn.-Col.*,
Offg. Inspector-General of Civil Hospitals, Bengal.

HIGH COURT NOTICE.

CIRCULAR ORDER.

Issued by authority of the High Court of Judicature at Fort William in Bengal.

(CRIMINAL).

No 2, dated the 27th August 1897.

AFTER rule 61A. at page 51, Chapter I, of the High Court's General Rules and Circular Orders (Criminal), *insert* the following :—

NATIVE MILITARY PENSIONERS.

61B. (*Native Military Pensioners. Award of sentence on—on conviction.—C. O. No. 2 of 27th August 1897*).—It has been brought to the notice of the High Court that Magistrates, in awarding penalties for offences committed by native military pensioners, not infrequently recite their belief that such pensioners will (on conviction) be subjected to an additional penalty in the shape of loss of pension, and that they take this circumstance into account in deciding on the severity of the sentence passed by them on the offenders. This procedure on the part of Magistrates is incorrect, in so far as it proceeds on the assumption that the pensioners thus convicted must necessarily forfeit their pensions. The attention of all Magistrates is invited to the terms of Article 496, Army Regulations, India, Volume I, Part II, Native Troops (reproduced on the margin), which governs the subject. Under that Article, the Government of India are the sole arbiters on the point whether, in each case, the pension shall or shall not be reduced, or wholly withdrawn, and in considering this point, due weight is given by Government to the sentence actually awarded by the Court in each case. Magistrates should, therefore, not assume that in such cases forfeiture of pension is an invariable consequence of a conviction.

"Future good conduct is an implied condition of every grant of a pension. The Government reserves to itself the right of withholding or withdrawing a pension, in whole or in part, if the pensioner be convicted of serious crime or be guilty of grave misconduct."

TREASURY NOTICES.

DEPUTY COLLECTOR BABU ATAL BEHARY MOITRA has been placed in charge of the Rajshahi Treasury from the afternoon of the 31st August 1897, and authorized to draw bills on the other Treasuries.

No. 1433B.

Notice is hereby given that the Tenth Sale of Opium, the Provision of 1895-96, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Friday, the 24th September 1897, at 11 A.M., and will comprise 3,250 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory	1,625
Ditto at the Ghazipur Factory	1,625
Total ...	3,250

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 28th November 1896, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 29th September and 13th October 1897, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 P.M. of Wednesday, the 29th September 1897, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Wednesday, the 13th October 1897.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the Opium manufactured at the Patna and Ghazipur Factories will be brought to sale down to December next about the dates specified below. The Board of

Revenue, however, reserve to themselves the right of altering these dates, should circumstances render it expedient to do so :—

On or about Wednesday, 1st December ,, ...	1,625	1,625	3,250
Total ...	3,250	3,250	6,500

By order of the Board of Revenue, L. P.,
H. LUSON, *Offg. Secretary.*

BOARD OF REVENUE, L. P., FORT WILLIAM, *the 17th August 1897.*

CUSTOM HOUSE NOTICE.

THE Durga and Lakshmi Puja holidays this year are from Thursday, the 30th September, to Monday, the 11th October, inclusive.

The Custom House will be open during the usual hours for transaction of business on the 30th September, and on the 1st, 6th, 7th, 8th, 9th October; and the Treasury on these days will be open.

The Custom House will be open (on a day's notice being given) free of charge on the 2nd, 4th, 5th and 11th October from 11 A.M. to 12 noon for entering or clearing vessels and for the issue of bills of entry or shipping bills covering free goods from or to the same. The Treasury on these days will be closed.

E. N. BAKER, *Collector of Customs.*

CUSTOM HOUSE, CALCUTTA, *the 2nd September 1897.*

NOTIFICATION BY THE COMPTROLLER-GENERAL.

NOTICE is hereby given that the Public Debt Office and the Government Account Department at the Bank of Bengal will be open for the transaction of business and the receipt and payment of money on Government account on the following days during the Durga Puja holidays:—

30th September and 1st, 6th, 7th, 8th and 9th October 1897.

The Paper Currency Office at Calcutta and the Comptroller-General's Office will be open on the above dates.

O. T. BARROW,
Officiating Comptroller-General.

THE TREASURY, CALCUTTA, *the 28th August 1897.*

ELECTION OF MUNICIPAL COMMISSIONERS.

NOTIFICATION.

IT is hereby notified for general information that at a bye-election held in Ward No. III of the Berhampore Municipality in the district of Murshidabad on the 6th September 1897, Babu Vishnu Charan Sen was duly elected to be Commissioner for that Ward in the place of Babu Monindra Chandra Nandi, resigned.

E. V. WESTMACOTT, *Commissioner.*

PART IB.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

No. 614T.M.—The 14th September 1897.—It is hereby notified for general information that on the application of the Commissioners of the Patuakhali Municipality, in the district of Backergunge, and in supersession of the Notification No. 4418M., dated the 24th August 1897, published at page 201, Part IB. of the *Calcutta Gazette* of the 25th idem, the Lieutenant-Governor intends, under section 4 of Act XX of 1887, to declare that the provisions of section 3 of the Act, with respect to wild birds, shall also apply, as regards the rules framed by the Commissioners of the said Municipality, under that section, to hares and deer.

C. E. A. W. OLDHAM,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 640T.M.—The 15th September 1897.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 221 of the Bengal Municipal Act III of 1884, as amended by Act IV of 1894 and Act II of 1896, and in accordance with the recommendation of the Commissioners of the Barisal Municipality, in the district of Backergunge, made at a meeting, to extend the provisions of section 252 of the said Act to the above Municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the Municipality.

C. E. A. W. OLDHAM,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 661T.M.—The 15th September 1897.—Whereas a Notification No. 1925M., dated the 3rd April 1897, was published at page 85, Part IB. of the *Calcutta Gazette* of the 7th idem, declaring the intention of the Lieutenant-Governor to extend the provisions of Part IX of the Bengal Municipal Act III of 1884, as amended by Bengal Act IV of 1894, to such portion of the Kotechandpur Municipality in the district of Jessore, as is comprised in the area the boundaries of which are stated below, and whereas no valid objection has been raised to the proposal within one month from the date of the publication of the above notification within the Municipality, it is hereby notified for general information that, in the exercise of the power vested in the Local Government by section 221 of the Act, and in accordance with the recommendation of the Commissioners of the Kotechandpur Municipality, made at a meeting, the Lieutenant-Governor sanctions the extension of the above provisions of the Municipal Act to the said area of the Municipality.

The aforesaid boundaries are :—

On the North—Kotechandpur, Muchipara, Musulmanpara and Dhopapara.
On the East.—Syedtola, and a line from it to the Municipal tank at Baji Bamundah.
On the South.—Katakhal and the river Bhairub.
On the West.—The river Bhairub, Kotechandpur, Mitterpara Ghât Road and Mitterpara.

Bhagalpur Collectorate, the 19th August 1897. H. J. MCINTOSH, Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Burdwan, will be put up to sale at the Burdwan Collectorate on the 24th September 1897, corresponding with 9th Assin 1304.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estates to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them as revenue-free or subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale will be cancelled (the sum deposited being forfeited to Government), and the estate will be again put up for sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Faridpur Collectorate, the 13th August 1897. K. P. SIRCAR, for Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government in the Canal Department, as specified in the conditions of sale below, to the undermentioned surplus canal lands of Kori distributary, situate in the district of Shahabad, will be put up to sale at the Arrah Collectorate on Tuesday, the 4th January 1898, corresponding with 26th Pous 1305 F.S.

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The lands to be sold to the highest bidders above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of these lands will be considered as the proprietor of the lands, and the entire proprietary right of Government in such land will be transferred to him revenue free.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the lands to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale :—

Number of the district roll.	Name of estate and pargana.	Approximate area in acres.	Government revenue assessed.	REMARKS.

J. L. HERALD,
Deputy Commissioner.

No. 1000G.

Advertisement of Sale of Government Estates.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below to the undermentioned estates situate in the district of Noakhali, will be put up to sale at the Noakhali Collectorate on the 9th November 1897, corresponding with the 24th Kartic 1304 B.S.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietors of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity. A deduction of 25 per cent. from the existing rents will be granted to the purchasers for collection expenses.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid at once.

4th.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

Number on the district roll.	Name of estate and pargana.	Approximate area, in acres.	Government revenue assessed.	Deduction on account of collection charges.	REMARKS.

FUND OFFICE, No. 3, Upper Wood Street, Calcutta, the 23rd August 1897. (709—1)

Municipal Corporation of Calcutta.

Bye-law for Cart Registration.

EVERY driver of a registered cart shall, at all times while acting as such driver, wear a metal ticket exposed to view, marked or engraved with a number corresponding with the registration number of the cart; and such ticket shall on application be delivered by the Commissioners free of cost at the time of the registration of the cart to the owner or the person in charge at the time for the use of the driver of the cart for the time being. On the expiry of the period for which such license is granted, the owner or person in charge of the cart is bound to return such ticket to the Commissioners. But in the case of the words or figures on the metal ticket becoming disfigured or obliterated or of a metal ticket being lost or stolen within the period for which such ticket is issued, a duplicate ticket may, with the sanction of the Commissioners, be issued on payment of a fee of two rupees.

W. R. BRIGHT, Offg. Chairman of the Corporation of Calcutta.

SURESWAR MOZUMDAR,
Offg. Subordinate Judge, Dinajpur.

Dinajpur, the 14th September 1897. (714—1)

Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

FROM 1st April 1897 the price of this quinine will be as follows:—

1 Pound tin Rs. 15, or, post free, Rs. 15-12.
½ „ „ „ 7-8 „ „ „ „ 8.
¼ „ „ „ 3-12 „ „ „ „ 4-4.

Analysis shows this quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, cinchonine and cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta.

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ সল্‌ফেট অফ কুইনাইন।

১৮৯৭ সালের ১লা এপ্রিল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য হইবে, যথা—

১ এক পৌণ্ড টিন ১৫৲ বা ডাক মাশুল সমেত ১৫৷৷০
॥ আধ „ „ ৭॥০ „ „ „ „ ৮৲
। শিকি „ „ ৩৷৷০ „ „ „ „ ৪।০

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধরূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনীডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছাপূর্ব্বক মিশান হয় নাই তাহার গ্যারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারিগণের নিকট বিক্রয় করা যাইবে এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপরিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে।

WANTED a District Engineer for the District Board of Bogra on a salary of Rs. 250, rising to Rs. 300 a month by an annual increment of Rs. 10 on approved service. Applications to be received up to 20th October 1897 by the Chairman of the District Board, who, however, will not hold himself responsible for testimonials sent in original.

U. C. BATAVYAL, Chairman.

Bogra District Board's Office, the 4th September 1897. (641—6)

Forest Department, Bengal.

WANTED candidates for the Subordinate Forest Service in Bengal on a salary commencing from Rs. 25 to Rs. 35.

Only those candidates need apply who are under 21 years of age and who have passed the Entrance Examination of the Calcutta University in the First Division or the First Examination in Arts, and who are capable of qualifying for the higher appointments of the service in accordance with the rules in force.

Selected candidates must furnish a certificate testifying to their sound constitution, good vision and hearing and general physical fitness for a rough outdoor life in the Forest Department, signed by the Civil Surgeon of the district in which they reside. They will then be appointed on probation, and will have to join their appointment at their own cost. Their deputation to the Forest School at Dehra Dun will depend on their work being satisfactory while on probation, the period of which will in no case exceed three years, and they will be required to pass the Entrance Examination and fulfil other conditions required under the rules before going to the school. Copies of the rules for admission to the Imperial Forest School, Dehra Dun, and extracts relating to the service can be obtained on application.

Applications with copies of testimonials and certificates of respectability will be received up to the 15th November 1897 by the Conservator of Forests, Bengal.

Darjeeling, the 16th September 1897.

Notice.

WANTED a common Manager under section 93 of Act VIII of 1885 (Bengal Tenancy Act) to manage a revenue-paying estate known as Lot Krishnanagar belonging to the Sarkar family of Surul in this district. The pay of the appointment is Rs. 50 per month. None need apply who has no experience of zamindari management. Security required Rs. 3,000, to be furnished in Government paper or in Calcutta Municipal debenture. Applications with copies of testimonials will be received in my office up till the 24th September 1897.

B. C. SEAL, District Judge.

Birbhum, the 14th September 1897. (711—1)

Notice.

WANTED a Sub-Inspector of Schools for the Darbhanga Subdivision on a salary of Rs. 60 per month with the usual travelling allowance.

Preference will be given to candidates who have passed the B.A. Examination.

Applications will be received by the undersigned up to 14th October 1897.

Illegible,

for Chairman, District Board, Darbhanga.

Darbhanga, the 17th September 1897. (717—2)

Notice.

THE Fair at Sonpur will this year commence on the 2nd of November 1897 and last for about 15 days. There will also be a Cattle-show and prizes will be given to the owners of cattle according to quality. The distribution of prizes will take place on the 10th November 1897.

E. P. CHAPMAN, Chairman.

Dated Chapra, the 16th September 1897. (715—3)

NOTICE is hereby given for general information that the premises No. 55 at Tallygunge Road on the Budge-Budge Branch of the Southern Section of Eastern Bengal State Railway, comprising a brick-built house and an area of 2 roods 12·4 poles in the district of the 24-Parganas, will be put up for sale at the Office of the Collector of that district, on Saturday, the 23rd October 1897, at 12 o'clock. The boundaries of the premises are as follows:—

On the north by land belonging to the Mondole family of Bawali;

On the east by land belonging to the Eastern Bengal State Railway of the Budge-Budge Branch of the southern Section;

On the south by land belonging to the Eastern Bengal State Railway of the Budge-Budge Branch of the Southern Section; and

On the west by Tallygunge Road.

Conditions of the sale.

The property will be sold free of any revenue to the highest bidder. One-fourth of the purchase-money to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a closed holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the property to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

The complete series of the INDIAN LAW REPORTS of the following years having now been reprinted, are available, and may be purchased for all the years, or any particular year, on application to the Officer in charge, Bengal Secretariat Book Depot.

The wanting parts of the Reports for the remaining years are being reprinted, and complete Reports from the beginning to date will be available from the commencement of the ensuing year. The subscription, Rs. 22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat:—

Years.	Years.	Years.	Years.	Years.
1882.	1884.	1889.	1891.	1895.
1883.	1886.	1890.	1894.	1896.

Notice.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

THE following Weather Reports of the Bengal Meteorological Department, issued by orders of the Government of Bengal, can be supplied to the public at the prices annexed

1st.—Bay of Bengal and Bengal Daily Weather Report, giving meteorological observations taken at 64 stations on or near the coast of the Bay, and in Bengal and Assam, with a chart and summary. This is published in connection with the Bay of Bengal Storm Signal Service. The report giving 8 A.M. observations of the day is distributed by peon in Calcutta soon after midday. Price to subscribers in Calcutta Rs. 3 per mensem, payable in advance for six months.

This report will be issued every year from 1st May to 31st October. From 1st November again the Bay of Bengal Report containing observations taken at 26 stations will be issued up to 30th April.

2nd.—A Monthly Statement of Meteorological Observations taken at 49 observing stations, and of rainfall recorded at 32 subdivisional and other stations, together with summaries of the more important features of the meteorology of the past month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Monthly Summary Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal, 5, Russell Street, Calcutta, for the Bay of Bengal and Bengal Daily Weather Report, and to the Accountant and Treasurer, Bengal Secretariat, for the Monthly Report.

C. LITTLE,
Offg. Meteorological Reporter to the Govt. of Bengal.

Notice.

NOTICE is hereby given that the terms for the purchase of publications from the Bengal Secretariat Book Depôt except for Government offices or offices under the control of Government Officers are strictly cash, and on no other terms will any publication be supplied, or advertisement, notice, &c., inserted in either of the Gazettes.

In the case of insolvency notices, cash must be sent with such notices when forwarded by Mofussil courts or offices and for those forwarded by the Official Assignee cash must be paid on presentation of memorandum of cost by the Accountant and Treasurer, Bengal Secretariat.

Remittances in postage stamps should be accompanied by an addition of one anna in the rupee on account of discount.

☞ Applications for Acts of the Bengal Legislative Council required on the public service should be addressed to the REGISTRAR, Office of the Legislative Department, Government of Bengal.

Copies are available for purchase at the Bengal Secretariat Book Depôt.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 177.

[First Publication.]

AUSTRALIA, SOUTH COAST—KANGAROO ISLAND, NEPEAN BAY.

Alterations in buoys marking telegraph cable.

THE British Admiralty has given notice (No. 471 of 1897) that the undermentioned alterations have been made in the buoys making the direction of the telegraph cable in Kingscote harbour, Nepean bay:—

1. A new *perch* buoy, painted green, has been moored in Kingscote harbour in approximately lat. 35° 40′ 0″ S., long. 137° 39′ 50″ E.
2. The red *perch* buoy, previously moored at the southern extremity of the dry spit southward of Beatrice island, has been withdrawn.
3. The colour of the *bell* buoy, moored in approximately lat. 35° 41½′ S., long. 137° 42½′ E., has been altered from red to green.

NOTE.—Vessels should anchor well northward or southward of the line joining these buoys and the beacons at Kingscote.

[First Publication.]

CHINA SEA—HONG-KONG.

Alterations in Storm Signals.

THE British Admiralty has given notice (No. 476 of 1897) that the Storm Signals shown from the mast in front of the Police barracks at Kau lung have been altered to be in accordance with those shown in the United Kingdom (except 3), as follows:—

1. NORTHERLY GALES:—A *cone*, point upwards, indicates that strong winds are probable from the northward or eastward.
2. SOUTHERLY GALES:—A *cone*, point downwards, indicates that strong winds are probable from the southward or westward.
3. VERY HEAVY GALES:—A *drum* may be hoisted, in addition to the cone, when a heavy gale, possibly reaching typhoon force, is probable; the cone indicating the direction from which it is approaching.

A gun, situated close to the mast, is fired whenever the drum is hoisted.

4. NIGHT SIGNALS:—By night, signals 1 and 2 only are given, by means of *three* lights (all *white*, or all some other colour) placed triangularly; the single light upwards for signal 1 and downwards for signal 2.

NEW ZEALAND, SOUTH ISLAND—OTAGO HARBOUR.

Additional harbour lights.

THE British Admiralty has given notice (No. 477 of 1897) that the undermentioned additional harbour lights have been exhibited in Otago harbour:—

1. A *fixed white* light, elevated 16 feet above high water, from a black, triangular beacon, situated in a depth of 18 feet off Deborah bay.
   Approximate position (doubtful): lat. 45° 48½′ S., long. 170° 39½′ E.
2. A *fixed white* light, elevated 16 feet above high water, from the western point of the south-eastern Halfway island.
   Approximate position; lat. 45° 50′ S., long. 170° 39′ E.

NOTE.—These lights should be left on the port hand by vessels entering from seaward.

[First Publication.]

CHINA SEA—PESCODORES ISLANDS.

Ponghan—Foul ground south-south-east of rock south-eastward of Lichin Point.

THE British Admiralty has given notice (No. 484 of 1897) that foul ground, with depths of 11 to 20 feet on it at low water springs, coral bottom, extends apparently for a distance of 3 cables, with a width of 1½ cables, in a S.S.E. direction from the rock bearing S.E. ¼ S., distant 1¼ miles, from Lichin point.

From the southern extremity of the foul ground round island bears N. 28° E., distant 1½ miles; and three islands S. 86° E.

Approximate position: lat. 23° 31′ 25″ N., long. 119° 42′ 5″ E.

The rock from which the foul ground extends dries about 4 feet at low water.

[First Publication.]

JAPAN—MIACO SIMA.

Rock reported north-westward of Metsund island.

THE British Admiralty has given notice (No. 485 of 1897) that the Master of the steam-vessel *Owari maru* reports having touched on a rock, situated approximately in lat. 24° 47′ N., long 124° 38′ E.

Breakers extended half a mile north-westward from the above position.

The symbol for a rock with less than 6 feet water on it, with the words "reported 1897, P.D." written against it, has been placed on the Admiralty Chart in the above position.

NEW ZEALAND—Cook strait.

North island—Delay in exhibition of Cape Palliser light.

With reference to Notice to Mariners No. 43(2), dated 1st March 1897, issued by th office, the British Admiralty has given further notice (No. 489 of 1897) that cape Pallis light will not be ready for exhibition until about the middle of October 1897:—

Cape Palliser (Rocky point) light will be a dioptric, *group flashing white* light wi a period of *thirty seconds*, showing *two flashes*, separated by an interval *three seconds*, in each group.

It will be elevated 258 feet above high water, and visible seaward over an a of 214°, a distance of 23 miles in clear weather.

Approximate position: lat. 41° 36′ 45″ S., long. 175° 18′ 45″ E.

Further notice will be given when the date of the exhibition of the light is known.

NEW ZEALAND, NORTH ISLAND—Port Nicholson.

Buoy eastward of Steeple rock.

The British Admiralty has given notice (No. 493 of 1897) that a flock can buoy has been moored in a position with Steeple rock bearing N. 88° W., distant 1¾ cables; and Pencarrow head light-house S. 21° E.

Approximate position: lat. 41° 19′ 30″ S., long. 174° 50′ 50″ E.

Note.—Vessels should pass eastward of this buoy, and by night, when in its vicinity, keep in the sector of *white* light shown from Somes island light-house, as the junction of the *red* and *white* sectors of that light passes immediately over the buoy.

JAPAN—Nipon.

Sendai bay—Dangers in approach to Matsushima bay.

The British Admiralty has given notice (No. 495 of 1897) that, in a recent survey of the Ishihama entrance to Matsushima bay, many new dangers have been found:—

1. One, in lat. 38° 16′ 15″ N., long. 141° 9′ 50″ E., is a rock with less than 6 feet water on it.
2. Jinotaka ne, formerly known as Naka ne, in lat. 38° 17′ 50″ N., long. 141° 9′ 15″ E., has a depth of 1¼ fathoms on it.
3. Okinotaka ne, a new rock which with Jinotaka ne forms Naka ne, has a least depth of 2¾ fathoms on it with 4¾ fathoms to the south-eastward.

Approximate position: lat. 38° 17′ 30″ N., long. 141° 9′ 45″ E.

The above are the outer dangers; the rest are too numerous to mention in a Notice to Mariners, but the old chart will be cancelled and a new chart will shortly be published showing all the dangers found.

AUSTRALIA, SOUTH COAST.—SPENCER GULF.

Amended particulars of shoal south-east of dangerous reef.

WITH reference to Notice to Mariners No. 254, dated 19th December 1896, issued by this office, the British Admiralty has given further notice (No. 448 of 1897) that the shoal, reported about 2½ miles S.S.E., from Dangerous reef, is about three-quarters of a mile in length east and west and a quarter of a mile wide within the 5 fathom line; the least depth on it, 7 feet at low water springs, is situated near the centre of the shoal, in a position with the highest part of Dangerous reef bearing N. W., distant 2½ miles.

The sea occasionally breaks heavily on the centre of the shoal in southerly gales.

Approximate position, lat. 34° 51′ S., long. 136° 14′ 30″ E.

[Second Publication.]

PACIFIC OCEAN—FIJI ISLANDS.

Viti Levu—Beacon and buoy in Suva harbour.

THE British Admiralty has given notice (No. 453 of 1897) that a black beacon, consisting of a boarded framework, surmounted by a rectangular topmark, the top of which is about 13 feet above the level of high water springs, has been erected at the southern extremity of the spit which dries at low water springs, southward of Low Cliffy point.

From the beacon Low Cliffy point bears N.N.E., distant 5¼ cables; and Walou beacon E. ¼ S.

Approximate position on Plan No. 1757, lat. 18° 7′ 35″ S., long. 178° 24′ 55″ E.

NOTE.—A light may occasionally be shown from this beacon when large vessels are leaving the harbour.

Also, that a white *Cask* buoy has been placed on the patch, with a depth of 4½ fathoms on it, situated with the steamer pier lighthouse bearing E. ¼ N., distant $5\frac{9}{10}$ cables.

PACIFIC OCEAN—FIJI ISLANDS.

Vanua Levu—Sunken rock east-north-east of Vendua island.

THE British Admiralty has given notice (No. 454 of 1897) of the existence of a pinnacle rock, on which he sounded from a boat and obtained a least depth of about 11 feet at low water, in the channel westward of Nai Thombo Thombo point.

The position of the rock cannot be accurately fixed by the bearings given, but it is probably situated in approximately lat. 16° 47′ S., long. 178° 24¼′ E.

The words "Rock with 1¼ fathoms over it reported hereabouts" have been written on the Admiralty Chart near the above position.

Shoal patches near Claremont group.

THE British Admiralty has given notice (No. 13 of 1897) of the existence of three shoal patches of coral in the following approximate position, viz. :—

A patch with 5 fathoms over it, lying in Latitude 13° 25′ 50″ South, Longitude 143° 41′ 20″ East;

A patch with 4¾ fathoms over it, lying North 29° West, distant 2 cables from the before-mentioned patch; and

A patch with 5 fathoms over it, lying North 15° East, distant 2 cables from the first-named patch.

Foul ground exists round these shoals, and a complete examination has not yet been made. Masters of vessels are cautioned accordingly.

Charts affected—Nos. 2921 and 2764; Australia Directory, vol. 2.

Mundoora Channel and Port Broughton—Buoys removed and beacons erected.

THE President, Marine Department, Port Adelaide, has given notice (No. 5 of 1897) that the buoys marking the Mundoora Channel (entrance to Port Broughton) have been removed, and that in lieu thereof forty-five beacons have been erected.

The two outer beacons mark the bar entrance. In navigating the channel the black one with square head should be left to port when entering, and the red one with round head left to starboard; the remaining forty-three (each alternate one of which has a round head) are painted red, and are on the starboard side of the channel, extending from the outer bar to the Port Broughton Jetty.

This affects Admiralty Chart 2389B.

RESOLUTION ON THE STATISTICAL INFORMATION FURNISHED BY THE BOARD OF REVENUE REGARDING THE STAMP DEPARTMENT FOR THE YEAR 1896-97.

FINANCIAL DEPARTMENT—SEPARATE REVENUE.

Darjeeling, the 18th September 1897.

RESOLUTION—No. 361T.-F.

READ—

A memorandum No. 657B., dated the 21st August 1897, from the Board of Revenue, submitting statistical information regarding the Stamp Department for the year 1896-97.

The receipts, charges, and net revenue in 1896-97, under both the Indian Stamp Act I of 1879, and the Court-fees Act VII of 1870, were Rs. 1,75,74,310, Rs. 4,93,461 and Rs. 1,70,80,849, respectively, against Rs. 1,67,71,627, Rs. 4,74,968 and Rs. 1,62,96,659 in the preceding year. The increase in receipts occurred in both judicial and non-judicial stamps.

2. According to the figures furnished by the Superintendent of Stamps, which will have to be reconciled with the final figures compiled by the Accountant-General, Bengal, the sale proceeds of judicial stamps show an increase of Rs. 3,46,960, against Rs. 36,280 in 1895-96, adhesive and impressed, court-fee stamps and stamps for copies alike contributing to the improvement. The increase is most marked in Midnapore (Rs. 65,755), Hooghly (Rs. 54,711), 24-Parganas (Rs. 39,116), Rangpur (Rs. 34,564), Patna (Rs. 30,884),

Backergunge (Rs. 30,148), Burdwan (Rs. 27,841), Bankura (Rs. 23,407), and Cuttack (Rs. 21,918). Increased litigation, the higher values of some of the suits, and improved receipts from probate duty, are the causes assigned.

3. The increase of Rs. 4,93,622 in the value of non-judicial stamps sold was shared by all classes of stamps except share transfer, hundi, notarial and advocate, vakil and attorney stamps. Impressed sheets, the most important of non-judicial stamps, show an advance of no less than Rs. 3,77,801, which was contributed by 41 districts, the largest increases having occurred in Mymensingh (Rs. 38,777) and Monghyr (Rs. 32,038). The improvement in Mymensingh is attributed to the increase in loans, mortgages, sales, &c., caused by the high prices of food-grains; while the increase in Monghyr is said to be due partly to a larger use of stamps in completed cases of batwara, and partly to extensive purchases of stamps by a rich banker. Impressed labels, or special adhesive stamps, which are in use only in Calcutta, improved by Rs. 1,11,964, owing to the execution of certain conveyances of tea estates for large considerations. One-anna revenue stamps show an increase of Rs. 24,574, foreign bill stamps of Rs. 4,602, and impressed one-anna stamps for cheques, &c., of Rs. 781. On the other hand, there is a decrease of Rs. 21,707 under share-transfer stamps, of Rs. 3,431 and Rs. 462, respectively, under hundi and notarial stamps, and of Rs. 500 under advocate, vakil, and attorney stamps.

4. The number of cases in which deficient stamp duty and penalty were levied by the Civil and Revenue Courts during the year was 3,409, against 4,113 in 1895-96, and the amount of duty and penalty realized was Rs. 34,208, as compared with Rs. 39,478. Prosecutions for the infringement of the provisions of the Indian Stamp Act were instituted in 415 cases, against 1,249 in the preceding year. The fines imposed on offenders amounted to Rs. 3,261, against Rs. 8,789, and rewards to informers paid in 10 districts aggregated Rs. 1,093, against Rs. 2,230 paid in 15 districts in the previous year.

By order of the Lieutenant-Governor of Bengal,

C. E. A. W. OLDHAM,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE BURDWAN DIVISION FOR THE YEAR 1896-97.

GENERAL DEPARTMENT—MISCELLANEOUS.

RESOLUTION No. 2608.

Darjeeling, the 14th September 1897.

READ—

The Annual General Administration Report of the Burdwan Division for the year 1896-97.

The Commissioner remarks that though the district reports were submitted with fair punctuality, the statistics accompanying them were often both incomplete and inaccurate. The Lieutenant-Governor trusts that District Officers will devote greater attention to this matter in future.

Mr. C. E. Buckland had charge of the Division during the year, except for about three months when Mr. Stevenson officiated for him. Mr. Stevenson submits the present report. Mr. W. R. Bright was in charge of the Midnapore district throughout the year; in each of the other districts there was one change of District Officers, except in Birbhum, where there were three. There were changes in the charge of all the Subdivisions except Raniganj, Katwa, Vishnupur and Jahanabad. As many as five different Officers held charge of Serampore; it is to be regretted that administrative necessities should have required these numerous changes; it is not surprising that the Commissioner, on inspecting the Subdivisional office, should have found it in an unsatisfactory state.

On the 1st December 1896, the head-quarters of the Commissioner were transferred from Burdwan to Chinsurah.

2. *Tours and inspections.*—Mr. Buckland visited every part of the Division, making himself acquainted with the conditions of his charge, and discussing locally the most important pending matters. He also inspected all the district and subdivisional offices, except those at Burdwan Sadar and the Hooghly Treasury, which were inspected by Mr. Stevenson, and that at Uluberia, which was left uninspected. Mr. Stevenson, however, visited this place shortly after the close of the year.

In the Resolution of this Government No. 749Mis., dated 18th February 1896, it was directed that Commissioners should decide annually the duration of each District Officer's tour, and what the tour programme of each officer should comprise. Except in the case of the Burdwan district, it has not been stated in the present report what periods of tour were prescribed by the Commissioner under those orders; the Lieutenant-Governor desires that this information may be given in future Divisional Reports, and that it may be stated how far the tours, prescribed by the Commissioner, have been made. The District Officers of all districts except Howrah, as well as the Subdivisional Officers, appear to have spent sufficient periods on tour: besides the usual enquiries and inspections, they devoted special attention to the condition of the people, and to the question of food supplies. Mr. Bright, in Midnapore, and Mr. Manisty, in Bankura, were on tour for 122 and 110 days, respectively. Mr. Maguire, in Howrah, was prevented by an epidemic of small-pox, by the necessity for taking measures to prevent the spread of plague, and by other Municipal affairs, from spending more than 45 days on tour.

The Government and Wards' Estates in Midnapore, and the Government Estates in Hooghly, were inspected by the Commissioner and Collector. It does not appear whether the Collector of Bankura and the Subdivisional Officers in Birbhum, Howrah, Bankura and Burdwan inspected their own offices; the Subdivisional offices at Katwa, Rampur Hât and Vishnupur were each inspected only once. Otherwise, all the prescribed inspections appear to have been made, except, as noted above, at Uluberia.

3. *Crops: material condition of the people.*—Although the Divisional average of rainfall was more than 10 inches higher than in 1895-96 (50·52 inches against 40·21), it was nearly 7 inches below that of 1894-95 (57·39 inches) and was ill distributed, as indeed was the rainfall throughout the greater part of India. The crops were poor as a whole, but they were better than in

other parts of the province; and Bankura is the only district of the Division in which it has been found necessary for Government to open relief operations.

During the year under review, the Division exported no less than 28,99,718 maunds of paddy, and 53,89,969 maunds of rice. The exports of paddy in 1895-96 had amounted to 9,31,604 maunds, and those of rice to 46,11,509 maunds; it is noteworthy that the export trade of the Division in paddy was more than three times as great in 1896-97, while that in rice increased only by about one-sixth. The nett export of all classes of food-stuffs in 1896-97 was 72,75,386 maunds, and this large export trade continued undiminished in 1897-98. The crops of 1895-96 had been short also; and a Division which can afford, after two years of poor crops, to export such enormous quantities of food-stuffs, must produce very much more than is required for local consumption, and have large hoards of food-grains in ordinary years. The value of rice and paddy exported from the Division, during the year under report, is estimated at $2\frac{3}{4}$ crores of rupees.

Prices of food were high in this Division, as elsewhere, but the wages of labour showed no tendency to rise; and the agricultural depression affected most labourers and handicraftsmen and the classes with small fixed incomes. Mr. Stevenson thinks, probably with truth, that the greater portion of the profit on exports went to middlemen and mahajans.

4. *Public health.*—The year 1896 appears to have been more unhealthy than the two previous years, the Divisional ratio of reported deaths *per mille* being 32·8, against 31·7 in 1895 and 31 in 1894. The chief increase on the death-rate of 1895 was in Bankura and Midnapore. The total of deaths from fever was rather less than in 1895 (166,603 against 168,494), but 27,715 persons died of cholera, against 16,981 in 1895. The severest outbreaks of cholera appear to have been in the riparian towns of Howrah, Bally and Serampore; but this disease prevailed largely throughout the Division, a fact attributed in part to the scarcity of good potable water. District Boards and Municipalities did their best to relieve this want, so far as their funds admitted, and advances were given freely by Government for the excavation and improvement of tanks. It is reported also that some efforts were made by private persons, who spent as much as Rs. 28,090 in this way in the Burdwan district.

5. *Emigration.*—The number of emigrants to the tea districts, registered during the year, shows a very marked decrease to 922 from 4,510 in 1895-96. On the other hand it is reported that "free" emigration was very brisk, owing to the agricultural depression and to the large demand for labour in the tea gardens: the total figures are not available, but 16,588 "free" emigrants are said to have passed through the depôts in the Burdwan district against 12,361 in 1895-96. The decline in registered emigration was confined to this district, and has not been satisfactorily explained. The matter is one to which the attention of the Superintendent of Emigration may with advantage be given. There was again a large number of convictions for abuses connected with recruitment, and Mr. Stevenson's remarks on this matter are of interest.

6. *Manufactures and Mines: Trade and Commerce.*—As was remarked in the Resolution on the Report for 1895-96, the principal industries—pottery, jute and cotton-spinning and weaving, rope-making, the manufacture of chemicals and paper—appear to be progressing steadily; but in the absence of complete figures it is not possible accurately to gauge the progress made. The indigenous silk, shell-lac and brass industries continued to decline. It is reported that there is considerable competition for coal-producing land in the Raniganj Subdivision, and that the search for fresh strata is being pushed on. The exports (chiefly by rail) of coal and coke from the Division, which may be taken as a fair measure of the outturn, aggregated 1,484,969 tons, against 806,282 tons in 1895-96. The expansion of the trade in food-stuffs has been already noticed. Taking all articles of trade together, there appears to have been a marked decrease in imports (from 86,93,576 to 76,28,788 maunds) in spite of the great increase of exports (from 2,81,48,719 to 4,91,77,238 maunds); and this is no doubt due to the high prices of food-grains.

7. *Vital statistics.*—It was pointed out, in last year's Resolution that the reported birth-rate was often much lower than the death-rate, and that such a result could scarcely be accepted as true. In Municipalities in which a

large proportion of the population consists of mill-hands and other labourers or servants, who have left their families at home, the figures returned may to some extent represent actual facts; but generally there can be no doubt that they are vitiated by defective reporting. Some progress seems to have been made in this respect in the Burdwan district, where the recorded birth-rate now approximates more nearly to the death-rate than in 1895, though still much below it.

8. *Civil Justice.*—Ninety-five thousand three hundred and forty-eight cases were disposed of in the Civil Courts, against 89,049 in 1895, and the number of witnesses examined was 110,940, against 103,151 in 1895. Though the number of witnesses increased, the Lieutenant-Governor notes with satisfaction that they were discharged more promptly, for the proportion of those examined who were detained more than two days was 9·3 per cent. in Courts of District and Subordinate Judges and Small Cause Courts, and 16·8 per cent. in the Munsif's Courts; the corresponding percentages in 1895 were 13·8 and 17·7 respectively.

9. *Crime: Police: Criminal Justice.*—Both cognizable and non-cognizable crime showed a continued increase, 21,800 cognizable cases excluding those in which the police refused enquiry and 20,991 non-cognizable cases being reported, against 18,928 and 20,526, respectively, in 1895. If offences against sanitary regulations are excluded, the number of cognizable cases rose from 12,196 to 13,448. The increase of crime was most marked in the case of offences against property and was, as Mr. Stevenson remarks, in all probability mainly due to the agricultural depression and high prices of food-grains that prevailed. There were 8,352 prosecutions for sanitary offences. As in 1895, more than 96 per cent. of the cognizable cases reported were found to be true, 872 were declared false, and prosecutions instituted in connection with 108 of these; 28·7 per cent. of these prosecutions resulted in conviction. The proportion of cases in which the police refused enquiry to cases investigated was 5·1 to 100, against 7·1 to 100 in 1895. Police cases appear to have been disposed of less promptly than in 1895.

Out of 203 cases tried at the Sessions, convictions were obtained in 60·09 cases, a result slightly less favourable than in 1895.

Stipendiary Magistrates disposed of 17,071 cases, and Honorary Magistrates of 9,985. Thirty-three thousand nine hundred and fifty-five persons were tried, and 70·22 per cent. of them were convicted; 67,415 witnesses were examined, and 6·38 per cent. were detained more than two days. The Lieutenant-Governor regrets to notice that the proportion of witnesses detained for more than two days is considerably higher, both in the Courts of Stipendiary and of Honorary Magistrates than in 1895, when it was only 3 per cent. This is a matter to which the unremitting attention of the Commissioner and District Officers should be given. The detentions are greater in the Courts of Honorary than in those of Stipendiary Magistrates and are attributed to the late attendance or entire absence of some Honorary Magistrates. The Lieutenant-Governor approves of the action taken in calling on Magistrates, who do not attend at all or come late, either to resign, or to perform their duties with more punctuality in future.

Fines to the amount of Rs. 1,24,115 were imposed during the year; Rs. 1,10,941 were collected out of the total demand, and Rs. 12,872 remitted. Mr. Stevens is glad to notice the excellent attendance of Honorary Magistrates at the Vishnupur Bench.

The District Officers have not recorded any detailed criticisms of the conduct of the police; but Mr. Stevenson makes some interesting remarks on the peculiar difficulties with which the police have to contend in districts like Burdwan, Hooghly, Howrah and Midnapore, where crime is better organized and planned than in more remote and backward districts.

10. *Land Revenue.*—The total demand, current and arrear, on account of land revenue, road, dâk and embankment cesses was Rs. 1,02,99,462; and the amount collected was Rs. 96,98,192, or 94 16 per cent. A sum of Rs. 74,657 was remitted. In the Resolution on last year's Report, it was remarked that there was much room for improvement in the revenue administration of this Division. The Lieutenant-Governor is glad to observe that, notwithstanding the unfavourable circumstances of the year under report, considerable improvement

has been effected. The collections of land revenue were much better than in 1895-96, especially in Midnapore, where 95·91 per cent. of the current demand was collected. Midnapore has long been known as a difficult district in respect of collections, and the improvement that has now been made reflects great credit on Mr. W. R. Bright, the Collector. In Midnapore and Hooghly, 98 per cent. of current demand in permanently-settled estates was collected, and the other three districts attained the prescribed standard of 99 per cent. Having regard to the short crops and general agricultural depression of the year, Mr. Stevens considers these results creditable to the Revenue Officers and to the Zamindars of the Division.

The following were the percentages of collections on the current demand in temporarily-settled estates, the prescribed standard being 95 per cent.:—

Burdwan	...	...	40·3
Birbhum	...	...	100
Bankura	...	...	69·0
Midnapore	...	...	92·4
Hooghly with Howrah	...	...	69·4

Burdwan, Bankura and Hooghly show no signs of improvement in this matter, but no explanation of the continued bad results in this class of estates has been furnished. The Lieutenant-Governor again desires to call the Commissioner's attention to the short collections in temporary-settled and farmed estates. The collections in Government estates were on the whole not unsatisfactory.

11. *Wards' Estates.*—There were eight estates or portions of estates under the management of the Court of Wards in the Division. Three were released during the year; two of these were handed back with substantial balances, but the third, Barutterhingley, was given up, because its management by the Court had not been successful. Leaving out of consideration the small portion of the Shankarpur Estate in Howrah, the percentage of total collections on total demand was best in the Burdwan Raj Estate, where it was 71·3.

In last year's Resolution, attention was drawn to the obvious necessity of remitting portions of the outstanding arrears; but the Lieutenant-Governor regrets to find that the only estates in which substantial progress has been made in either realising or writing off the large arrear balances, are those of Nayagram and Sujamutha in Midnapore. A thorough examination of outstanding balances would appear to be especially necessary in the Burdwan Raj Estate, and one should be carefully made without further delay.

12. *Excise, Stamps, Income-tax.*—The total excise revenue rose from Rs. 13,30,348 to Rs. 13,56,767, the increase being distributed under all heads; the incidence per head of population was 2 annas 9 pies. The increase is attributed partly to better settlements and partly to the more effectual repression of smuggling, and in Midnapore and Howrah to the influx of Railway and and other coolies from other provinces, who were consumers of excise articles. In other districts, the excise revenue was, it is reported, affected injuriously by the bad crops of the year. The stamp revenue increased largely from Rs. 19,18,462 to Rs. 21,67,367, a fact which, as well as a large increase in the registration of deeds, is probably due to the bad harvests. The income tax yielded Rs. 2,41,683, the percentage of collection on the final demand being 99·7, still better than in the preceding year.

13. *Communications.*—Work was being vigorously pushed forward on the Calcutta-Midnapore-Cuttack and Sini-Midnapore extensions of the Bengal-Nagpur Railway. Two tramway lines were under construction in the Howrah district. The District Board did their best to maintain and improve existing roads, but their funds are barely sufficient even for that purpose. There is happily no general need for new roads in the Division.

14. *Education.*—There were 10,986 schools, with 311,956 pupils, at the end of the year, being 30 less schools and 8,626 more pupils than at the end of 1895-96; and 54·7 per cent. of the total number of boys of a school-going age were at school, against 52·9 in the previous year. The number of girls at school diminished by 4,367 to 14,165, but no explanation has been furnished by the District Officers concerned. The cost of education in the Division was Rs. 11,72,395, less by Rs. 4,440 than in 1895-96. The number of Muhammadans

at school remained practically stationary at 29,595. The technical schools at Burdwan and Maisadal appear to have done good work.

15. *Dispensaries and Hospitals.*—There were 54 medical institutions in the Division; that at Burdwan continues to be the most successful. A number of dispensaries are kept up by zamindars for the benefit of the public at their own expense.

16. *Local Self-Government Institutions.*—District Boards are reported to have worked well; but Local Boards appear to have done only a very small modicum of useful work. Of the newly-formed Unions, some in Midnapore, which contained official or ex-official members, are said to have done useful work. A general election of Municipal Commissioners was held during the year, and is said to have aroused interest. Mr. Stevenson points out the increasing reluctance of desirable candidates to put themselves forward for election to Municipal Boards. Conservancy is he says, sometimes imperfectly supervised by Municipal Commissioners; taxes are often badly in arrears; Municipal Commissioners are too prone to unwarrantable interference with the servants of the Municipalities, forgetting that it is not for them, but for the Chairman or Vice-Chairman to pass orders direct. Party-feeling runs high among them, and sometimes public interests are subordinated to it. But with all these defects, Mr. Stevenson acknowledges that it has usually been possible to find a majority of the Commissioners open to reason in the long run. A new Municipality was formed at Asansol. Municipal management appears to have been fairly satisfactory, except in the important towns of the Hooghly district, where it ought to have been better and not worse than in the remoter parts of the Division, if wealth and education have any effect. The Magistrate of Howrah fears that funds will not be forthcoming by which to maintain the present high standard of efficiency in that Municipality.

17. *Social and Political Institutions.*—The Division contains 24 Associations of various kinds, mostly occupied with local matters. Seven journals are published.

18. *Conduct of Zamindars.*—It is reported that the relations between landlords and tenants were unusually good, except in two cases. Raja Ram Ranjan Chakravarti Bahadur of Hitampur, Raja Joti Prasad Garga of Moisadal, and Babu Pulin Behari Singh of Ukhra in Burdwan, are specially mentioned for their liberality. The last named gentleman remitted a whole year's rent on account of the bad harvests.

19. The thanks of the Lieutenant-Governor are due to Messrs. Buckland and Stevenson for their efficient administration of the Division, and to Mr. Stevenson for his clear and interesting Report, from which the following extracts are published for general information.

By order of the Lieutenant-Governor of Bengal,

M. FINUCANE,

Secretary to the Govt. of Bengal.

Extracts from the Annual General Administration Report of the Burdwan Division for the year 1896-97.

* * * * *

III.—WEATHER AND CROPS.

PARA. 22. The Collector of Burdwan considers that taking into account the enormous and continuous exports of the last seven months, the average outturn of the winter rice crop was not less than 12 annas. The areas which suffered most owing to deficient rainfall and unequal distribution of rain, were the Budbud and the Ausgram thanas in the Sadar and Kaksa in the Raniganj subdivision. The weather was specially unfavourable to the sowing, germination, and growth of wheat, and of pulses generally. Sugarcane was the only crop that succeeded, but its outturn was affected to some extent by the unusual dryness of the early winter months.

Burdwan.

23. In thana Dubrajpur, in Birbhum district, the winter rice crop produced a 12-anna harvest, but in the rest of the district the yield was between seven and nine annas only. The outturn of the *rabi* crops did not exceed three annas.

Birbhum.

24. The yield of the *aman* or main rice crop was not on the average eight to nine annas, and in the northern parts of thana Sonamukhi, the west and north of thana Gangajalghati, and in the south-west corner of the district the outturn was as low as four to five annas. These are the areas in which, after the close of the year, scarcity was first declared. The *aus* crop may have been a 12-anna one. The cultivation of other kinds of rice is restricted to certain localities, and is unimportant. Very little *rabi* is grown in the district and this crop also suffered. Sugarcane, however, did better, the outturn being estimated at 10 annas. As usual, two varieties of cotton were grown, but the area under cultivation is said to have been much smaller than usual for want of moisture at the sowing season. The outturn was about eight annas. Indigo yielded only half an average crop; the plants when ripe in August having suffered from the heavy rainfall.

Bankura.

25. In Midnapore the entire absence of rain in September had a most injurious effect on the crops. The Magistrate and Collector of Midnapore remarks that "the fact that the quantity of rice exported this year was by far greater than that of any previous year shows that there were ample stocks (of old paddy), and it was thus that the district was saved from a famine."

Midnapore.

26. It is reported from Hooghly that the protracted drought of the year not only injured the paddy crop, but to a large extent prevented the sowing of *rabi*. *Rabi*, where sown, however, yielded a fair outturn wherever water was available from tanks or rivers. In Jahanabad, the outturn of the paddy was estimated at nine annas against eight annas in 1895-96, and in Serampore at only six annas, though the Magistrate considers this figure too low. In Sadar the yield was about eight annas. Throughout large tracts in the north, which were visited by Mr. Allen, the District Officer, extensive fields were actually bare or had given only a two or a four-anna crop. Jute did well in Serampore, and so did potatoes, which are widely cultivated in places, where irrigation is feasible. Some damage was caused in the Jahanabad subdivision by floods in the Damodar river.

Hooghly.

27. There would probably have been a total failure of the *aman* in Howrah, but for a rainfall of close on six inches early in September which saved the crop.

Howrah.

V.—MATERIAL CONDITION OF THE PEOPLE.

41. The unsatisfactory harvest of the year under review following the short crops of 1895-96 affected materially the condition of certain classes of the people, though not to the extent noticeable in other parts of the country.

Those who had reserves of grain to dispose of, obtained large profits from its sale as prices ruled high throughout the year. But everywhere for weavers, and such like; for those on small fixed incomes, and for those of the lower middle class with small holdings which they are above cultivating themselves, the year was a hard one as it was also for many of the labouring and landless class, and for persons cultivating small holdings who had no reserves of grain. The figures supplied by District Officers show that no less than 28,90,056 maunds of paddy and 53,88,609 maunds of rice were exported from the Division during the year, and this taking rice at 10 seers and paddy at 20 seers the rupee represents a payment to the exporters of Rs. 2,73,34,548. How much of this sum stands for profit it would be interesting to know. It is not, however, likely that it was the cultivator who as the rule benefited where there had been successive bad harvests, as he could have but little surplus to get rid of after settling with the money-lender. The exports more probably put money only into the mahajan's pocket in the majority of cases.

42. In Burdwan the people who most felt the effects of short crops and of high prices were as usual the lower middle classes and beggars, as there was no dearth of work for labourers, and the mining population in the Raniganj subdivision obtained high wages in spite of the stagnation of the coal trade.

43. In Birbhum the exports amounted to no less than 20,13,153 maunds, the value of which is estimated at Rs. 60,39,459. Here also the Collector observes, the cultivating classes were comparatively well off, while there was considerable hardship among labourers and persons in service.

44. In Bankura, in parts of which the failure of crops was extensive, the landless class, largely made up of Bauris, is reported to have felt the strain of high prices severely. A considerable proportion of the labouring population is said to have left the district in quest of employment. This, however, is always the case, and while very possibly a larger number than usual so left last year, there are no reliable figures available. Advances under the Land Improvement and the Agriculturists' Loans Acts were freely made, and actual distress did not make its appearance until some time after the close of the year, when it was found necessary to declare the district as affected by scarcity and to open relief works.

45. The report from Midnapore is more favourable. The high prices which prevailed enabled cultivators, it is said, to make large profits by the sale of the surplus from the previous year's crops which had been fair. In the low-lying tracts composing the jurisdiction of the Contai and the Tamluk subdivisions, the rice harvest was a fair one, and the people were better off than those living in other parts of the district. The only classes which appear to have been hard up, were the inferior Government employés and persons like the weavers of Ghatal subdivision. The latter are described as gradually abandoning their looms and betaking themselves to agriculture and other occupations. The labouring class obtained plenty of work on the railway line in progress. The Sonthals, who form the bulk of the population of thana Binpur, migrated in large numbers in quest of work. Only a few old beggars had to be relieved, and they were so by small doles granted from charitable funds at the disposal of the Magistrate.

46. In Hooghly also, those on whom high prices pressed most hardly, were the landless classes and persons with small fixed incomes. Those who had grain to sell were comparatively well off, but to those with small holdings and no surplus grain, the year was a most trying one. The Collector writes: "In some parts of the district cultivators and men on small salaries, including the police, were reduced to short rations, and generally the labouring classes felt the high prices keenly. The aged and the infirm, and persons dependent on their neighbours or relatives for support, would have been reduced to actual distress, but that the inherent charitable instincts of the villagers which enable the country to get on without a poor law, have, in this trying year, widened the sphere of unostentatious private charity, and in the form of alms and loans of grain prevented actual famine touching even such helpless objects." The mills in different parts of this district also appear to have afforded work to the labouring population.

The Magistrate of Howrah reports in very similar terms. He observes that for those who wanted it, work was always available in the mills and on the different railway and tramway lines under construction.

VI.—EMIGRATION AND IMMIGRATION.

47. Emigrants were registered during the year in the districts of Burdwan, Bankura, and Midnapore. The subjoined statement shows the number of emigrants registered in each district during the last two years:—

District.	For the Colonies.						For Tea Districts.					
	1895-96.			1896-97.			1895-96.			1896-97.		
	Coolies.	Dependents.	Total.	Coolies.	Dependents.	Total.	Coolies.	Dependents.	Total.	Coolies.	Dependents.	Total.
1	2	3	4	5	6	7	8	9	10	11	12	13
Burdwan ...	...	...	...	...	...	...	2,947	959	3,906	91	20	111
Birbhum ...	...	...	...	...	...	...	...	...	...	...	...	...
Bankura ...	...	...	...	...	...	...	155	109	264	252	219	471
Midnapore ...	...	...	...	...	...	...	231	109	340	204	136	340
Hooghly ...	...	...	...	...	...	...	...	...	...	...	...	...
Howrah ...	3	...	3	...	...	...	...	...	...	...	...	...
Total ...	3	...	3	...	...	...	3,333	1,177	4,510	547	375	922

The above figures represent, however, but a small proportion of the actual number who emigrated to the labour districts, as free emigration took place largely as it did in 1895-96.

48. The number of emigrant coolies registered in the district of Burdwan, excluding dependents, fell from 2,947 in 1895-96 to 91 in the year under report. This very marked decrease is ascribed to the growing preference of employers for free labour. It is not explained why this preference should have developed so suddenly and so forcibly as in a single year almost to do away with registration. Under the free emigration system, 16,588 coolies passed through the several depôts in this district against 12,561 in 1895-96, an increase which is attributed to an increased demand for coolies in the tea gardens as well as to a widespread apprehension of scarcity in large tracts of the recruiting districts.

49. In Bankura the increase in the number of emigrant coolies is attributed to the high price of cereals in the district. The numbers are however small. Out of 252 coolies and 219 dependents only 17 coolies (with 4 dependents) were brought for registration by professional recruiters employed in Calcutta: all the rest, namely, 235 coolies (with 215 dependents), were recruited by garden sardars. This may be said to show that garden sardars were more successful in securing labourers for tea gardens than were professional "arkatis" who are looked upon with distrust and suspicion. But it is more probably due to the fact that garden sardars usually bring up to the tea districts a better class of cooly than do the others, which accounts for the proprietors of tea gardens preferring the former agency. It is not only that the sardari cooly is usually better value as a worker, but what is as important, having usually friends in the garden he is less likely to desert. The Magistrate reports that complaints against the recruiting agency as regards initial registration have now become rare, special care continuing to be taken to prevent fraud and violence on the part of the recruiters. As usual, a number of labourers left the district in the cold weather in quest of employment, chiefly Sonthals and the semi-aboriginal Bauris. Many also went to Midnapore to work on the railway. Figures showing the extent of these temporary emigrations are not available.

50. In Midnapore the number of registered cooly emigrants continued to decrease, being 204 against 231 in 1895-96. Including dependents, however, the number of emigrants remained the same as in 1895-96, namely, 340. Free emigration was exceptionally brisk during the year owing to the failure of crops in thana Binpur (which is inhabited largely by Sonthals) and to the high prices generally prevailing.

51. Statements showing criminal cases connected with emigration, as prescribed by Government order No. 1848, dated the 21st April 1892, are annexed. A large number of cases occurred in Burdwan, Birbhum, and Bankura, and the majority ended in convictions. There was no case instituted against emigrant coolies.

52. As regards abuses in recruitment, the Subdivisional Officer of Raniganj repeats his last year's opinion that comparatively a very small proportion of the malpractices of recruiters came to light, while a still smaller number can be made the subject of criminal proceedings. He states that when inspecting he has come across large number of unwilling coolies whom he has sent back at the expense of the manager of the depôt in the absence of evidence to support a prosecution. There can be no doubt that the ignorance of the cooly and his confusion on finding himself far from home give the fraudulent recruiter a great advantage. On the other hand, it is equally true that many of these "unwilling" coolies are persons who have changed their minds, but declare they never left home willingly, from the fear lest if they admit this they will not be permitted to return. Widows and other women living a hard life at home are specially open to tempting offers of living at ease on a tea garden in the keeping of some one of the staff.

53. There were altogether 8 places of accommodation for coolies recruited by contractors and garden sardars under Act I of 1882, and 8 depôts and 30 rest-houses for free emigrants under Act I of 1889. One rest-house in each of the districts of Birbhum and Midnapore was opened late in the year, and the temporary rest-house in Howrah came to notice only about the same time. All the other rest-houses and depôts were duly inspected, although only one inspection was recorded in the prescribed register against one of the rest-houses in Bankura. All the depôts in Raniganj and Asansol were inspected by the Superintendent of Emigration, and most of them visited by my predecessor. With few exceptions, the depôts and rest-houses appear to have been sufficiently well maintained as regards accommodation and sanitary arrangements. Two of the rest-houses in Rampur Hát were closed as the sanitary arrangements were found to be wholly unsatisfactory, and the license for a rest-house in Bankura has been withheld pending the erection of a privy and the supply of sleeping platforms for the use of emigrants. Much good is reported to have resulted from the appointment during the year of an Assistant Superintendent of emigration for the Raniganj subdivision. He visits the depôts, checks the admission registers, and keeps a careful watch over the sanitary arrangements, the quality of the food, the water-supply, and the physical condition of the emigrants. He is also said to be often present when coolies are despatched. This is a very important duty, as at that time an examination of the emigrants in the batch and comparison with the registers may lead to the detection of such frauds as the substitution of one person for another, &c.

54. There was no registered immigration into the districts of this Division. Labourers in large numbers come to the Division from the North-Western Provinces and Bihar in quest of work in the brick-fields, mills, factories, and on the railways, and this over and above the interdistrict cold weather movement of labourers, chiefly Sonthals and Bauris, with the same object.

VII.—PRICES OF FOOD AND LABOUR.

55. There was an abnormal rise in the price of common rice during the year, the average price in this Division being so high as 10 seers 7 chitaks during the last fortnight of 1897, against 16 seers 7 chitaks in the corresponding fortnight of 1896. This high price is due partly to poor crops in the Division and partly to the enormous quantities of rice and paddy exported from it to other parts of India.

A marked rise in the price of wheat and gram also occurred during the year, but this did not affect the masses, these not being articles commonly consumed by them. Salt was cheaper in Bankura and dearer in all other districts except in Birbhum, where the price of the article remained stationary.

Notwithstanding the high price of rice, the staple food-grain of the people, the wages of labour as reported remained almost unchanged, custom being an

important factor in preventing rapid fluctuations, but when once they have gone up they do not fall again. In Midnapore the new railway works caused a slight rise in the wages of all classes of labourers, except juvenile coolies, *gharamies*, and common blacksmiths.

* * * * *

XIV.—POLICE.

* * * * *

107. My predecessor has not left upon record his opinion as to the working of the police, and my own experience of the Division has been too small to enable me to form one. There is, however, no doubt to my mind that the police in the districts of Burdwan and Hooghly with Howrah, and to a less extent in Midnapore, have peculiar difficulties to contend with in cases affecting property especially. Not only, as the Magistrate of Hooghly points out, do the railways and river facilitate the commission of crimes, but the police have got to deal with better organized and planned crime than is the case in districts more remote from Calcutta, while the vicinity of Calcutta renders safe disposal of the proceeds comparatively easy. In one recent case in which the house-owner plucked up courage and killed a dacoit, it was discovered that the man killed was an English-knowing Babu of fairly respectable family, got up as an Afghan or Peshawari, as the local name is. This instance will serve to show the class of criminal the police have to meet and the difficulties of detection. The death of this dacoit gave a clue to his gang. Had he escaped, some of the Peshawaris of Calcutta and the neighbourhood would have been blamed for the crime as was obviously intended. Another matter which has facilitated crime and handicapped the police in the above mentioned districts is the presence of a large and constantly changing body of unknown up-countrymen employed in the collieries and mills, or on the railway lines in process of construction. These men are answerable for not a few dacoities, and they have taken to using revolvers in some Midnapore cases. It seems very desirable that license for pistols of sorts should not be so freely granted as at present. In some cases dynamite cartridges were exploded by the dacoits in order to frighten away the villagers. These must have been purloined from the collieries—a matter which also calls for attention. It is to be regretted that the shortcomings of the new Sub-Inspector class in Midnapore have not been stated at length, and that other district reports are silent as to how far the new system has had good results. What was at first feared was that the new Sub-Inspector would be a mere office-man—a student quite out of touch with the common people and utterly unable to meet the criminal on his own ground. It was also feared that the head-constables would not from their experience supplement this deficiency of the Sub-Inspectors, both because having no hope of further promotion they had lost heart and interest in their work, and because they were jealous of the new class of Sub-Inspector and did not see why they should exert themselves when the Sub-Inspector alone would get the credit. It would have been interesting to know how far these apprehensions had been warranted by experience.

* * * * *

XXIII—RAILWAYS AND OTHER PUBLIC WORKS.

169. That part of the Calcutta-Cuttack extension of the Bengal-Nagpur Railway passing through the districts of Howrah and Midnapore was under construction during the year: earthwork was nearly finished and ballast trains were in use for the transit of materials on several sections of the line before the close of the year Station sites are being selected, houses are being constructed, and work generally is being pushed on vigorously.

A flag station was opened in July last on the East Indian Railway close to the Hooghly Bridge at a cost of Rs. 13,741.

The Howrah-Amta and the Howrah-Sheakhala Steam Tramway lines in the districts of Howrah and Hooghly are under construction. These lines should have been opened for traffic on the 25th March last, but as the work could not be completed, Messrs. Martin & Co. have applied for an extension of time up to 31st December 1897.

Of the projects mentioned in paragraph 182 of the Divisional General Administration Report for 1895-96, the following were still under consideration at the close of the year :—

(1) The construction of a line from Burdwan to Katwa, with another line from the latter town to Hooghly *viâ* Kalna.
(The survey of these lines was completed during the year.)
(2) A line from Bhagalpur to Ahmedpur *viâ* Suri.
(3) A line from Midnapore through the Bankura district to Muralia on the Bengal-Nagpur Railway (a reconnaissance has recently been made in connection with this project).
(4) A line from Chandernagore to Chinsura.

* * * * *

XXX.—LOCAL SELF-GOVERNMENT INSTITUTIONS.

District Boards.

202. The various District Boards in this Division are reported on the whole to have acquitted themselves well. The attendance of members have been generally good, and as consultative bodies, the Boards have in many matters been useful to the District Officers. No party spirit or friction of any kind marred the working of District Boards during the year under report. The Magistrate of Hooghly specially acknowledges the good work done by Vice-Chairman Rai Lalit Mohan Singh Bahadur.

Local Boards.

203. The Local Boards in Burdwan are said to have done some useful work during the year. For a time the working of the Kalna Local Board was anything but satisfactory, but matters, it is reported, have now improved. The Vice-Chairman of the Katwa Local Board toured through the subdivision and made some valuable observations in the course of the trip. It would be well if Chairmen and members of Local Boards imitated his example and moved about more. In Birbhum the Local Board discharged its duties satisfactorily, except that attendance was irregular. In Bankura, also, the same complaint of want of interest is made, and the Local Boards showed themselves unequal to the proper management of pounds and ferries, though in the matter of primary education they gave assistance. Mr. W. R. Bright, as Magistrate of Midnapore, adheres to the same unfavourable opinion regarding Local Boards as was expressed by him last year and reproduced in paragraph 217 of the last Divisional General Administration Report. He remarks that any slight improvement in pound management is due to pressure exerted by the District Board, while the state of village roads leaves as much to be desired as ever. He instances a case where he discovered that very little of the money paid to a contractor had been spent upon the work in hand, and he considers that some special agency to inspect these small roads is necessary if work upon them is to be satisfactory.

In Hooghly and Howrah Local Boards are stated to have worked smoothly, though it is reported that in Howrah too much money is wasted on useless fair-weather roads.

Union Committees.

204. There are no Union Committees in the districts of Birbhum and Bankura. Those in the district of Burdwan have been entrusted with the control of village roads and the inspection of primary schools, but the Magistrate considers it premature as yet to record an opinion as to their usefulness.

In Midnapore, also, the Magistrate desires to suspend judgment till further experience of their working has been gained. With a stiffening of at least one official or ex-official member some unions in Midnapore have proved useful, and the correctness of the Magistrate's opinion expressed last year that such a stiffening is necessary appears to have been corroborated by recent experience, as in the only union without this more money, it is reported, was billed for and obtained than seems to have been actually spent during the year, the bills being supported by false muster rolls. The matter is under enquiry. The work done by the unions in Hooghly calls, it is said, for no special comment, while in Howrah the unions failed to spend even the small sums allotted to them.

Municipalities.

205. A new municipality was formed during the year at Asansol, in the district of Burdwan. The fifth general election of Municipal Commissioners was held towards the end of the year, and especially when personal feeling was imported into the contest, a good deal of interest in the result was exhibited. There seems no doubt, however, that there is a growing inclination on the part of gentlemen who would be acquisitions to a Municipal Board to hold aloof from these elections partly because they object to hold out to the body of voters promises of reduction of taxation, and the like, which they know full well are but empty words, though thus only can they expect success at the poll, and partly because they consider it hurtful to their self-respect to place themselves in competition with candidates not improbably of no social position. The result is that undesirable candidates not infrequently succeed, and faction leaders have more opportunity of getting in their creatures who but vote as directed.

There has been decided improvement in municipal administration in Burdwan, Raniganj, and Katwa, and in Bankura and Birbhum districts, as in Burdwan, municipalities are favourably reported upon. The same may be said of Midnapore district, with the exception of Kharar Municipality, of which the Subdivisional Officer of Ghatal is Chairman. During the interval between the departure on transfer of one Subdivisional Officer and the arrival of his successor, the Municipal Commissioners are reported to have done their best to get municipal affairs into disorder, collections were stopped, as also the issue of warrants. The new Subdivisional Officer has of course set vigorously to work to restore order. The municipalities in Hooghly district, leaving out Jahanabad, are reported to have many points in common. They are all situated on the banks of the Hooghly. None of them have a decent water-supply, and in all cases the drainage is extremely defective. The public latrines are for the most part badly constructed and not properly looked after; conservancy is imperfectly supervised, except when the work is taken up by the Civil Surgeon or the Civil Medical Officer. Taxes are often badly in arrears, and stringent measures for their collection are rarely resorted to, and even when they are, it is only in a half-hearted way. Commissioners are too prone to unwarrantable interference with the servants of the municipality, forgetting that it is not for them, but for the Chairman and Vice-Chairman to pass orders direct. It would matter less were this interference for a good object, though even so it would be objectionable. Unfortunately the intention may very likely be to favour unduly some friend or neighbour. Party feeling runs high in many cases, and to this are subordinated the interests of the public. Establishments are frequently inefficient and but imperfectly supervised, yet attempts to raise salaries are constantly being made, and even when a municipal employé is admittedly past work, it requires all the Magistrate's influence to have his services dispensed with.

Even under such circumstances, however, the Magistrate reports that it has usually been possible to find a majority open to reason in the long run. The water-supply scheme common to all municipalities of Hooghly district, except Jahanabad and Bansberia, has been generally approved; maps have been prepared and forwarded to the Sanitary Board. Mr. F. W. Duke, the Magistrate of Howrah, writes regarding that municipality, the most important in the division:—"The Howrah Municipality appears to have been efficiently managed at an expense out of proportion to its means, and is said to be now cleaner and healthier than it has been for many years. Where the funds are to come from by which this state of efficiency is to be maintained, is not yet apparent." The office management of Bally Municipality is said to leave much to be desired.

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE CHITTAGONG DIVISION FOR THE YEAR 1896-97.

GENERAL DEPARTMENT—MISCELLANEOUS.

Darjeeling, the 17th September 1897.

RESOLUTION—No. 2610.

READ—

The Annual General Administration Report of the Chittagong Division for the year 1896-97.

Mr. F. H. Skrine was in charge of the Division throughout the year, except for two months during which he was on leave, when Mr. J. D. Anderson officiated. The Report is submitted by Mr. F. R. S. Collier. Mr. S. K. Agasti had charge of the Noakhali district the whole year, and the Feni and Chandpur subdivisions were each under the charge of a single officer; in the other districts and subdivisions there were changes of charge.

2. *Tours and Inspections.*—Mr. Skrine spent 85 days on tour; besides making the usual inspections, he went to Hill Tippera and installed His Highness the Raja on the *gadi*, spent some time in the South Lushai Hills investigating the causes of a disturbance which had occurred there among the Military Police, and visited the island of Kutubdia twice. The tours of District and Subdivisional Officers appear to have been well planned and of sufficient length; but it is not stated what periods of touring were prescribed by the Commissioner under the recent orders of Government. It is not reported when and how Government and Wards' Estates were inspected, nor whether Subdivisional Officers inspected their own offices; all the other prescribed inspections were performed.

3. *Weather and Crops: Material Condition of the People: Public Health.*—As in the rest of the province, the rainfall of 1896-97 was short; the mean of the three Regulation districts was 73·93 inches, 14·5 inches below that of 1895-96, when the mean was again 14·5 inches below that of 1894-95. The crops were poor, with the exception of the *aus* rice and jute crops in Tippera; and prices of food ruled extremely high in this Division as elsewhere, being double those of the preceding year, and treble those of 1894-95. The wages of labour, however, remained stationary. There was some distress towards the close of the year, and charitable funds were raised to relieve it, but it has not been found necessary for Government to open relief operations in any part of the Division. The plague which was destroying the betel-nut trees in Noakhali appears to have ceased.

The following are the death-rates per mille reported in each district for the two years, 1895 and 1896—

			1895.	1896.
Tippera	...	...	26·7	26·4
Noakhali	...	...	25·2	30·19
Chittagong	...	...	30·8	32·5

As the Commissioner remarks, these low death-rates show registration to be defective; there has, however, been some improvement in this respect, except in Tippera. It would be useless to base upon these figures any inference as to the comparative healthiness or unhealthiness of any particular year.

4. *Manufactures, Trade and Commerce.*—1,130,963 cwts. of tea were exported from Chittagong during the year, against 968,949 cwts. in the previous year. There was a considerable decrease (of Rs. 58,80,226) in the total trade of the Chittagong port, which is valued at Rs. 2,18,03,256. The decrease is common both to imports and exports. Exports of rice and paddy fell off considerably owing to the bad crops, as did exports and imports (from Narayanganj and other neighbouring inland ports) of jute, owing partly to a short crop and partly to the destruction of a large quantity of the staple by fire at Narayanganj. Eleven vessels cleared for foreign ports and 559 for Indian ports, against 19 and 621, respectively, in the previous year. Nine vessels were built here during the year.

The total exports from the Division of rice and paddy amounted to 4,20,502 maunds and of jute to 13,98,405 maunds as compared with 10,63,899 maunds and 15,31,087 maunds, respectively, in the proceding year. The exports of

food-grains to Calcutta decreased considerably, being only 29,019 maunds during the year under report, against 3,85,140 maunds in 1895-96.

5. *Civil Justice.*—There appears to have been a decrease in litigation except in the case of rent suits, the number of which rose from 34,443 in 1895 to 35,633 in 1896; money suits decreased from 29,941 to 28,652 and title suits from 11,627 to 10,913. Both the increase in rent suits and the decrease in other suits are attributed to the agricultural depression. The number of witnesses examined was 103,593 against 106,846; in Munsifs' Courts they appear to have been discharged at about the same rate as in 1895, but in the Courts of District and Subordinate and Small Cause Court Judges the ratio of witnesses detained more than two days to the total number examined was 20·6 against 24·06 in the previous year. In connection with the Chittagong settlement, 209 notices were served under Section 424 of the Civil Procedure Code, and 27 suits were filed during the year, a very moderate number having regard to the magnitude of the Settlement operations.

6. *Crime: Police: Criminal Justice.*—The number of cognizable offences reported increased from 4,892 to 6,148, and that of non-cognizable offences from 11,820 to 14,253. The increase in non-cognizable crime was chiefly in offences against property, due to the bad harvests, and there was a serious increase of arson cases in the district and town of Chittagong. It is difficult to reconcile the increase in non-cognizable cases with the fact of the prevailing depression; and Mr. Collier sees reason to fear that it is due to laxity on the part of Magistrates in admitting complaints, and promises to look into the matter when on tour. The number of cases tried was 10,042 against 8,457 in the previous year; 1,563 cases were tried by Honorary Magistrates. The system of territorial jurisdiction of Subordinate Magistrates in Noakhali and Chittagong is reported to have worked badly. It has always appeared to Mr. Stevens that the advantages of that system are usually much exceeded by the disadvantages. It is satisfactory that, in spite of the large increase of cases, the divisional ratio of the number of witnesses detained for more than two days to the total number examined rose only from 2·4 to 2·7 per cent. in the Courts of Stipendiary Magistrates, and decreased from 16·1 to 12·9 in the Courts of Honorary Magistrates and Benches. In the Chittagong district taken by itself, however, these percentages were very high, being 6·3 and 27·56; and the worst results are shown in the Court of the Subdivisional Officer of Cox's Bazâr. This matter should engage the attention of the Commissioner and District Magistrate. One thousand eight hundred and ninety-five cases were sent up by the police against 1,516 in the previous year; 628 of them were disposed of on the first day, and 68 cases or 3·69 per cent. were remanded six times or more. The attendance of Honorary Magistrates has improved generally; at Chittagong it was again excellent.

Eighty-five cases were tried at the Sessions, 72·9 per cent. of which ended in conviction; this result shows that committals were made with care.

Fines to the amount of Rs. 48,311 were imposed during the year, and Rs. 42,026 were collected; the balance outstanding at the end of the year was Rs. 7,088, showing a slight reduction.

The work of investigation by the police appears to have shown improvement in the Chittagong district. Mr. Collier remarks, with justice, that the number of punishments dealt out to chaukidars was too much in excess of the number of rewards; this was especially so in Chittagong, where only 23 were rewarded and 1,015 were punished.

7. *Land Revenue.*—The current demand on account of Land Revenue and Road and Public Works and Zamindari Dâk cesses in the Division was Rs. 32,77,148; the outstanding arrears were Rs. 1,65,319. The total collections were Rs. 32,00,505. The following table shows the percentages of current collections on the current demand of Land Revenue in the different classes of Estates, together with the standard percentages:—

	Permanently-settled Estates.	Temporarily-settled Estates.	Government Estates.
Standard	99	95	90
Chittagong	98·45	100	85·78
Noakhali	99·75	92·34	80·22
Tippera	99·51	97·11	77·91

These percentages, especially in Government Estates, compare unfavourably with those obtained in the previous year, but, looking to the shortness of the crops, are not unsatisfactory,

There was a considerable increase in the number of certificate cases instituted, and the number of cases left pending at the close of the year has been almost trebled. The delay in the disposal of certificate work in this Division was commented upon in last year's Resolution. It was then also pointed out that certificate cases in Wards' Estates were increasing to a greater extent than was desirable, and this increase has continued in the year under review. The Lieutenant-Governor trusts that the Commissioner will devote early attention to improving this branch of the revenue administration of his Division.

Mr. Stevens is pleased to note that practically the whole of the allotment (Rs. 18,920), made for the improvement of Government Estates, was usefully spent on excavation and re-excavation of tanks for the supply of good drinking-water and on agricultural improvements.

The average cost per acre of the land acquired on behalf of the Assam-Bengal Railway in Chittagong was almost double what it had been in the previous year. This increase should be explained.

8. *Wards' Estates.*—The number of private estates in charge of Government in this Division was 14, as in the previous year; their total current demand was Rs. 94,191 in Noakhali and Rs. 2,86,406 in Chittagong. The percentages of current collections on these amounts were 62·9 and 85·6, respectively. In only three estates did collections reach the standard of 90 per cent., but the collections on the whole were as good as could have been expected. In Chittagong, Rs. 29,082 were spent on improvements. Large remissions were made in the Noakhali estates mentioned in last year's Resolution, in which the outstanding balances were heavy; but this has not been done in the similarly situated estates in Chittagong. The Lieutenant-Governor again directs the Commissioner's attention to the necessity of reducing these balances.

9. *Excise*: *Stamps*: *Income-tax.*—The Excise Revenue fell heavily from Rs. 3,41,931 to Rs. 2,74,721; this decrease is attributed to various exceptional circumstances, as well as to the scarcity and to the spread of puritanism among Muhammadans. The imports of salt decreased, but a considerable portion of the large quantity imported during the previous year was taken out of bond at Chittagong. The stamp revenue rose from Rs. 15,38,860 to Rs. 15,66,569; Rs. 23,544 out of this increase of Rs. 27,709 was due to larger sales of non-judicial stamps, that is, to an increase in the execution of conveyances and bonds. The revenue derived from the income-tax has not been affected by scarcity; it was Rs. 96,781, practically the same as in the previous year.

10. *Education.*—There were 4,673 schools with 1,38,096 pupils, or 186 schools and 2,855 pupils less than the previous year. Of the estimated number of boys of a school-going age in the Division, 45·2 per cent. were at school. In Noakhali this percentage has fallen from 53·6 to 47·08, and the total number of pupils from 40,924 to 35,927; the cause of the decrease is said to be the agricultural depression, but it is remarked that this cause has not had the same result in the neighbouring district of Chittagong, which shows an increase of 1,260 pupils.

There were 14,270 girls at school. The number of Muhammadan pupils in Noakhali and Tippera is not stated; but it rose from 25,558 to 27,007 in Chittagong. In spite of the diminished number of schools and pupils, the expenditure on Education rose from Rs. 4,04,977 to Rs. 4,19,317; Rs 2,46,389 were spent on primary education. The Lieutenant-Governor notices with satisfaction that the conduct of the school-boys was on the whole good during the year, and that there was a marked improvement in the behaviourof the pupils of the Noakhali School especially.

11. *Dispensaries and Hospitals.*—There were forty of these institutions in the Division, five more than in the previous years; and the number of patients treated shows a satisfactory increase from 2,25,145 to 2,97,211. A new General Hospital was opened at Chittagong, but it appears that more dispensaries are wanted in the interior of this district.

12. *Local Self-Government Institutions.*—The three District Boards are reported to have worked well; but they spent only Rs. 5,63,718 out of an aggregate income of Rs. 7,87,906. The District Boards of Noakhali and Tippera both spent money on useful sanitary works; but that of Chittagong did

nothing in this direction. Local Boards appear to have worked satisfactorily; but the District Officers' opinions of the working of the nine Village Unions in Tippera and Noakhali are not given. There are five Municipalities in the Division, of which the most important is that at Chittagong. The working of this Municipality has been most unsatisfactory for years past, but Mr. Collier hopes for some improvement, as it has recently elected an official Chairman. The rate-payers are, it is reported, strongly opposed to all improvements which entail additional taxation, and the elected Commissioners, even when in favour of improvement themselves, are afraid of incurring unpopularity among their constituents by voting for the introduction of them. Mr. Collier fears that the elective system is unsuited for Chittagong, but desires to give the present body of Commissioners a further opportunity of showing his fears are unfounded before proposing its withdrawal. The Lieutenant-Governor hopes that the Commissioners and their constituents will take advantage of this opportunity. The smaller Municipalities are reported to have done all they could to improve sanitation, but Chittagong to have done practically nothing, considering its income (Rs. 54,386).

13. *Political.*—The most remarkable events of the year in the political jurisdiction of the Commissioner of Chittagong were the death of His Highness Maharaja Bir Chandra Deb Burman Manikya Bahadur of Hill Tippera, and the recognition and installation of his eldest son, the Jubraj Radha Kishore Deb Burman, as Raja of Hill Tippera. His Highness the Raja made generous donations both for the relief of distress and for general public objects in the British districts of the Division, where he has large zamindaris.

The South Lushai Hills was in charge of Mr. R. H. Sneyd-Hutchinson; two powerful chiefs, Kaplehyu and Kairuma, submitted during the year. There was an unfortunate outbreak of insubordination in the Military Police Battalion.

Mr. J. A. Cave-Browne had charge of the Chittagong Hill Tracts throughout the year. The early crops were average, and were sufficient to prevent distress, but the winter rice, cotton and mustard were seriously affected by drought. Exports of paddy, cotton, mustard and *til* showed a considerable increase. No progress has been made in the re-organization of the village police; only 42 offences were reported during the year in the whole of the Hill Tracts. There were 1,175 pupils at school, 127 more than there were in the previous year. The Rangamati High School sent up five candidates for the Entrance Examination, and all passed—an excellent record. A Lushai boy passed this examination for the first time, and has since been awarded a special scholarship.

14. *Conduct of zamindars.*—The principal Zamindars of Noakhali are absentees and did little or nothing to help their tenantry in the prevailing distress, nor was there any conspicuous example of benevolence displayed by the petty landowners of Chittagong.

15. The thanks of the Lieutenant-Governor are due to Mr. Collier for his clear and concise Report, from which the following extracts are published for general information.

By order of the Lieutenant-Governor of Bengal,

M. FINUCANE,

Secretary to the Govt. of Bengal.

Extracts from the Annual General Administration Report of the Chittagong Division for the year 1896-97.

* * * * *

III.—WEATHER AND CROPS.

13. The year 1896-97 was one of unusual drought, and the outturn of crops was much below the average everywhere in the Division. There has been a gradual falling off in the rainfall during the last three years:—

	1894-95.	1895-96.	1896-97
Tippera	78·57	67·54	58·17
Noakhali	117·83	100·65	89·51
Chittagong	112·57	97·28	74·13

14. In Tippera the decrease was most remarkable in all the registering stations of the Brahmanbaria subdivision. The fall recorded at Agartola is 13·77 against 75·91, which is evidently incorrect. It is remarkable that in August there was only 2·83 inches at Comilla against 14·21 in the previous year, and that there was next to no rain during the month of October. Except in the case of the *bhadoi* or *aus* crop, the outturn of which shows an increase over that of the preceding year, there was a considerable falling off in the outturn of all other crops of the district. The outturn of the *aus* crop saved the Tippera district from the measure of scarcity experienced in the other two districts. The winter or *aman* rice suffered from scanty rainfall, both at the sowing and harvest time.

15. The late beginning and early cessation of the rains had also a most prejudicial effect on both the *aus* and *aman* crop in Noakhali and Chittagong. The outturn was very much below the average. While it was about 13 annas in Tippera, it was only 9 annas in Noakhali, and 10 annas in Chittagong. There was a salt-water inundation in June in the islands of the Noakhali district, and there was a betelnut plague all over the district, which destroyed over 50 per cent. of the trees, and reduced the outturn of the crop to 4 annas. Dr. Watts, the Reporter on Economic Products, visited Noakhali, and is understood to have traced the disease to a parasitic growth, which destroys the inner tissues of trees in an enfeebled state. Happily the plague has not re-appeared.

16. A storm of great violence burst over Chittagong on Wednesday, the 27th May 1896. Considerable damage was done to some of the houses occupied by the Railway Company at Pahartoli, and many old trees on the Dacca Trunk Road were destroyed. The running of the night train between Chandpur and Chittagong was interrupted, and two saloon carriages were blown for several miles and wrecked.

* * * * *

V.—MATERIAL CONDITION OF THE PEOPLE.

21. Insufficient and unsatisfactorily distributed rainfall, and bad harvests for two successive years, told heavily on the material condition of the people of this Division. The poorer classes of cultivators fared badly, and the labouring classes had much difficulty in finding work. While almost famine prices ruled in the market, the wages of labour remained stationary. The condition of the middle classes was almost as bad, many of them having become involved in debt. Mr. Kennedy is of opinion that the real reason of the scarcity of food in his district is the very large quantity of land given up to jute. Ordinarily this crop pays handsomely, but though jute ruled very high for a great part of the year, rice ruled higher. In Noakhali, in addition to the drought, people had to face a series of other reverses. The Magistrate writes:—

"The state of things in the district has been rather unusual for the last four years. In 1893-94 there were serious inundations from very excessive rainfall, the mischief caused by which was immensely aggravated by the terrible cyclone of October 1893. Fortunately, the people had a little respite the next year, the crops of 1894-95 having been very good. The year following was not very prosperous, indeed one of less than average prosperity. The rains began late and ceased early. The *aus* was less than an average harvest, and the *aman*, the principal crop of the district, considerably more so, and the cyclone of 3rd October 1895 made matters seriously worse. Insect pests appeared in many places. The raiyats, already reduced, were in bad straits. But if the rainfall of 1895-96 was scanty and unfavourable, that of the year under report was more unfavourable still."

22. Matters towards the close of the year became so critical, owing to the failure of the winter rains, that committees and sub-committees were formed, and funds were started all over the Division for the relief of distress which threatened to deepen into famine. A sum of Rs. 10,000 was received from the Bengal Branch of the Indian Famine Relief Fund, and about an equal sum was collected locally. Gratuitous relief has been given in places out of these funds. The District Board also started works in affected tracts, to afford employment to the poorer classes of agriculturists and labourers. With the advent of the long delayed rains, however, prospects have very much improved, as there is every probability of a good *aus* crop all over the Division.

* * * * * * *

VII.—PRICES OF FOOD AND LABOUR.

24. As a result of the partial scarcity, the prices rose steadily until they wavered, all over the Division, between 8 and 9 seers a rupee, towards the close of the year. They were almost double those of last year, and treble those of the year before. Except in some cases of skilled labour, which showed a slight rise in Tippera, and a slight fall in Chittagong, the prices of labour were nearly stationary, and do not seem to have been seriously disturbed by the marked increase in the prices of food.

VIII.—MANUFACTURES AND MINES.

25. There are no mines, and with the exception of tea, no important manufactures in this Division. As reported in previous years, brass utensils, bamboo and cane baskets, and mats, pottery, rough agricultural tools, coarse, cloth, and *gur*, or undrained sugar, are the principal indigenous manufactures of the Division, which find a ready sale in the local markets.

26. The number of tea gardens working in the Chittagong district was 25, the same as in the previous year. The quantity of manufactured tea exported from Chittagong during the year was 1,130,963 cwts., against 968,949 cwts. in the previous year. Through an oversight, the latter quantity was shown as pounds in the last year's report. The increase is due to the tea gardens in the north of the district having extended their cultivation. Owing to the deficient crop, no rice was milled for exportation during the year by Messrs. Bulloch Brothers & Co. There were three aerated water manufactories at Chittagong, against four in the previous year.

27. Two pearl fisheries of some value were taken possession of by the Government, and settled during the year, in the district of Chittagong. One is situated in the island of Sonadia, near the Moiscal Island. It was discovered by an accident in 1894, and some Arakanese pearl traders confirming the discovery, a few oysters were sent to Dr. Alcock, the Superintendent of the Indian Museum. After a most careful examination, he reported that the pearls found were of trifling value, and that the oysters were not the true pearl-bearing ones, but that they belonged to the species *Placuna Placenta*. Information of the other pearl fishery, situated on a char at the mouth of the Goomakhali creek, on the east side of the Moiscal Channel, was received in 1896. Some average specimens of the pearls found in Sonadia were transmitted for the inspection of His Honour the Lieutenant-Governor of Bengal, and final orders were then issued for the leasing of both the fisheries, which in the meantime had been ascertained to be the property of Government, the former comprising an area of 1,174·78 acres and the latter 325·12 acres. They have accordingly been leased for a term of three years, on an annual rental of Rs. 3,210, by auction sale to the highest bidder.

XXIII.—RAILWAYS AND OTHER PUBLIC WORKS.

131. There is little to report under this head. The portion of the Assam-Bengal Railway lying between Akhaura and Karimganj, in Sylhet, was opened for traffic during the year. The present arrangement of the trains on the East Bengal line, and the provision of a special steamer between Goalundo

and Chandpur, have brought Calcutta within 25 hours' journey from Chittagong. The arrangement is a very convenient one for Chittagong, but travellers for Calcutta from stations to the north of Laksam, have to wait at Laksam for no less than three hours for the arrival of the train from Chittagong. There being no waiting room, the inconvenience is great.

132. A proposal has been made for the construction of a branch line connecting Laksam with Noakhali. The project is now before Government.

133. Among other public works undertaken during the year may be mentioned the telegraph office building at Comilla, extension of the Comilla Jail enclosure, and an addition to the District Registration office and hospital building at Brahmanbaria, in Tippera. In Noakhali a room has been added to the Special Sub-Registrar's office, and the plinth and floor of a ward in the jail have been made pucka. A latrine for the Civil Court and a mortuary have been built, and the Munsif's Court-house at Hatya, which was in danger of being washed away by the river, has been removed to a safer place. The Town Hall building at Noakhali, commenced in 1895-96, was completed and opened during the year, and the construction of a hostel for school boys, in the compound of the Government school, has been taken in hand. Five new road bangalows were constructed by the District Board.

134. In Chittagong the new General Hospital was completed and opened during the year, at a total cost of Rs. 93,207. It is a very handsome and commodious building.

XXX.—LOCAL SELF-GOVERNMENT INSTITUTIONS.

161. There were three District Boards in the Division, which were reconstituted during the year under report. The area under their control was 6,641 square miles, with a population of 4,082,795 souls. The following table shows the number of members, and of meetings held by them, and their attendance at each meeting:—

Name of District Board.	Number of members.	Number of meetings.	Average attendance at each meeting.
Tippera ...	19	18	13·6
Noakhali ...	13	19	8·0
Chittagong ...	19	11	13·2

162. Each Board had the usual standing Committees for the preliminary consideration of questions to be decided by the Board.

163. The Sub-Committees held 44 meetings in Tippera, 38 in Noakhali, and 24 in Chittagong.

164. The income and expenditure of the District Boards during the year are shown below:—

	Income.	Expenditure.
	Rs.	Rs.
Tippera	2,86,814	1,64,621
Noakhali	2,05,750	1,50,037
Chittagong	2,95,342	2,49,060

165. The District Board of Tippera is reported to have worked satisfactorily. Mr. Kennedy states that he has been much struck with the interest shown by the members, both at the general meetings, and in the work of the departmental Committees. As regards the District Board of Noakhali, Mr. Agasti remarks:—"The members of the District Board have worked harmoniously. They have seldom been divided in any matter, and have discharged their duties carefully and well." In Chittagong the member displayed great interest in the disposal of matters placed before them.

166. There were three Local Boards in the district of Tippera, and two in the district of Noakhali. The three Boards in the former district were reconstituted, and the two Boards in the latter were established, during the year. The Local Boards had 4,136 square miles, with a population of 2,792,628 souls, under their control. There was no Local Board in Chittagong.

167. The number of members of Local Boards, and of meetings held by them, and their average attendance at each meeting, are noted below:—

Name of District.	Name of Local Board.	Number of members.	Number of meetings.	Average attendance at each meeting.
1	2	3	4	5
Tippera	Comilla ...	12	13	6·0
Ditto	Brahmanbaria ...	9	7	6·1
Ditto	Chandpur ...	7	13	4·7
Noakhali	Sadar (Noakhali)...	11	9	6·6
Ditto	Feni ...	9	8	6·9

168. The Local Boards have been entrusted for the present with the administration of water-supply, drainage, and village roads. They appear to have worked satisfactorily, but the information given on the subject is very meagre in all the district reports.

169. There were five village Unions in the district of Tippera, and four in the district of Noakhali were established during the year under report. They had under their control 107 square miles, with a population of 89,143 souls.

170. The number of members of Union Committees, and of meetings held by them, and their average attendance at each meeting, are recorded below:—

Name of District.	Name of Union Committee.	Number of members.	Number of meetings.	Average attendance at each meeting.
1	2	3	4	5
Tippera	Laksam ...	5	4	3·0
Ditto	Sarail ...	5	4	2·5
Ditto	Nabinagar ...	5	6	3·0
Ditto	Chandpur ...	5	6	4·6
Ditto	Matlab ...	5	3	4·0
Noakhali	Hatia ...	6	2	3·8
Ditto	Lakhmipur ...	6	3	5·0
Ditto	Sandwip ...	6	4	5·6
Ditto	Feni ...	6	1	2·9

171. The Chairman of the Chandpur Local Board reports very favourably of the work done by the Chandpur and Matlab Union Committees. The Chairman of the Brahmanbaria Local Board also speaks well of the Sarail Union Committee, but not so of the one at Nabinagar, while the remarks of the Chairman of the Sadar Local Board are not encouraging. It would be premature to say anything about the working of the Union Committees in Noakhali, as they worked only for a part of the year.

172. There were five municipalities in this Division, with a total population within the municipal limits of 66,530, and the number of rate-payers was 12,511, or 18·8 per cent. of the population.

173. The question of the establishment of a municipality at Chandpur, in the district of Tippera, is under consideration.

174. The subjoined table shows the number of Commissioners of each municipality, and of the meetings held by them, and the percentage of their attendance at each meeting:—

Name of District.	Name of Municipality.	Number of Commissioners.	Number of meetings.	Percentage of average attendance at each meeting.
1	2	3	4	5
Tippera ...	Comilla ...	18	17	47·0
Do. ...	Brahmanbaria ...	12	12	40·3
Noakhali ...	Noakhali ...	12	15	55·5
Chittagong ...	Chittagong ...	18	29	33·7
Ditto ...	Cox's Bazar ...	13	14	64·2

175. The elective system is in force in all the municipalities, except Cox's Bazar, where all the Commissioners are appointed by Government under section 17 of the Act. General elections took place in March last. The rate-payers took some interest in them, everywhere.

176. The following figures give the income and expenditure of each municipality:—

Name of District.	Name of Municipality.	Income.	Expenditure.
1	2	3	4
		Rs.	Rs.
Tippera	Comilla	25,965	22,870
Do.	Brahmanbaria	7,427	7,366
Noakhali	Noakhali	6,406	5,709
Chittagong	Chittagong	54,386	49,431
Ditto	Cox's Bazar	7,455	5,483

177. Mr. Kennedy writes:—

"The Commissioners of the Comilla and Brahmanbaria Municipalities seem to take interest in their work, but the managements are not altogether satisfactory. The crying want in the Comilla Municipality is a proper drainage system. A scheme to improve the drainage was prepared and submitted to Government for sanction. It is standing over, nominally, pending the settlement of the important question of the outfall drainage; but, practically, the municipality has given up, for the time at least, all idea of interior drainage."

"The conservancy and the drainage of the Brahmanbaria town are unsatisfactory. The condition of the private privies is reported very bad, and it is essential that the latrine system should be introduced. To this the Municipal Commissioners, however, object, and decline to be moved."

178. The working of Part IX of the Act in the whole town of Noakhali commenced after the close of the year. Mr. Agasti has not offered any opinion as to the general working of the Noakhali Municipality.

179. The provisions of Part IX of the Act were introduced into the Chittagong Municipality by Government Notification No. 358T.M., dated the 20th June 1896, and operations were started partly in Wards B, C, and D from the 20th September following and the 1st January 1897. The native Municipal Commissioners, at a special meeting held on the 22nd February last, passed a resolution suspending the operation of Part IX, except in respect of persons who were willing to avail themselves of the benefit. This resolution was of course entirely *ultra vires*, and Government in its order No. 1650M., dated the 25th March last, directed that effect should be given to the provisions of Part IX within three months from the 1st April last. The work is now progressing.

180. The working of this municipality has been very unsatisfactory for years past. The rate-payers are strongly opposed to all improvement which entails additional taxation, and the elected Commissioners have, even when they were in favour of improvement themselves, been unwilling in many cases to destroy their chances of re-election by voting against the views of their constituents. Moreover, an unpopular Municipal Commissioner in Chittagong runs the risk, every dry season, of having his house burnt down. A Municipal Commissioner, whose house was recently burnt down, stated to an official his belief that the act was due to his being known to be in favour of the introduction of Part IX. "But," remarked the official, "you voted against the introduction of Part IX." "Yes," was the reply, "but they know I was really in favour of it all the same." The Chittagong version of a well-known proverb is—"Those who live in thatched houses should not vote for unpopular taxes."

181. I am afraid that the elective system is utterly unsuited to Chittagong. I should, however, like to give the present body of Municipal Commissioners a chance of showing that this view is wrong, and I, therefore, do not advocate its immediate withdrawal. They have recently elected Mr. Phillimore, I.C.S., as their Chairman, and this step appears to indicate a desire for an improved administration.

182. Mr. Skrine appears to have been a little premature last year in stating that the municipality had accepted a scheme for a water-supply from the hills. Their acceptance was conditional on the Assam-Bengal Railway agreeing to contribute the bulk of the interest on the initial outlay, in return for a water-supply. The question is now under the consideration of the Railway authorities. I believe the scheme to be a good one, and shall endeavour to carry it through.

183. The Cox's Bazar Municipality is a small one. Its income is chiefly spent in repairing roads and drains. It appears to have worked satisfactorily.

* * * * * *

RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE ON THE ADMINISTRATION OF THE SALT DEPARTMENT FOR THE YEAR 1896-97.

FINANCIAL DEPARTMENT—SEPARATE REVENUE.

Darjeeling, the 13th September 1897.

RESOLUTION—No. 315T.—F.

READ—

The Report of the Board of Revenue on the Administration of the Salt Department for the year 1896-97.

During the year 1896-97, no administrative change was effected, but since its close, the sanction of the Government of India has been received to the re-transfer of the administration of the Orissa Salt Department from Madras to Bengal, and to the revision, re-enactment and extension to Orissa of the Bengal Salt Law, in place of the Indian Salt Act XII of 1882. The Salt Bill has been circulated for public and official criticism, and measures are being concerted, in correspondence with the Board of Revenue and the Madras Salt authorities, for giving effect to the other questions affecting the Salt Administration. The Government of India have also sanctioned the establishment of a special Preventive Service, to put a stop to the illicit manufacture of salt in certain districts bordering on the sea coast. Two additional private warehouses were established by Messrs. Turner, Morrison and Company, during the year, one at Narayanganj and the other at the Kidderpore Dock Basin.

2. The following statement shows the receipts and charges of the Salt Department during each of the last six years:—

HEADS.	1891-92.	1892-93.	1893-94.	1894-95.	1895-96.	1896-97.	Increase in 1896-97, as compared with 1895-96.	Decrease in 1896-97, as compared with 1895-96.
1	2	3	4	5	6	7	8	9

* Revised figures.

3. The receipts show an increase of Rs. 35,852 over the collections of 1895-96, and the charges, a falling off of Rs. 58,408, thus giving a net increase of Rs. 94,260 in the revenue. As in the previous year, there was a decrease in the receipts from the import duty on salt at Calcutta, and a more than proportionate increase in the receipts from clearances at the outports and the warehousing stations in the interior. The revenue from excise salt shows a marked falling off, owing to reduced sales of salt at the Government factories in Orissa. There was also a considerable decrease in the proceeds from rent of warehouses, owing to many of the golas having remained unoccupied during the year, in consequence of heavy deliveries therefrom and smaller stocks in bond. These heavy deliveries were the result of the high prices of salt prevailing in the market during the year. The decrease of Rs. 58,408 in the expenditure, under both Imperial and Provincial, is mainly due to reduced refunds of customs duty on salt, and to a diminution in the charges incurred for the rent of warehouses, the hired sheds at Kidderpore being no longer required.

The Salt Trade.

4. The following statement shows the fluctuations in the volume of the salt trade in Bengal during the last ten years, excluding salt imported by land from Ganjam and the Upper Provinces, on which duty is not paid in Bengal :—

* Revised figures.

The stock of salt in the golas, which, according to revised figures, amounted at the close of the preceding year to over 36 lakhs of maunds, fell at the end of the year under review to 14¾ lakhs ; but besides this quantity, there were 2,05,829 maunds, against 1,602 in 1895-96, lying afloat in the port of Calcutta, ready to be sold direct to purchasers. This reduction of stock is attributed to the high prices prevailing in the market, and the consequent heavy deliveries of salt from the golas.

Imports.

5. The combined imports into Calcutta and Chittagong show a net decrease of 20,34,651 maunds, or 19·8 per cent., as compared with the previous year, owing to the falling off in imports from European ports. The Collector of Customs, states that this

decrease was caused by the difficulty anticipated by owners of ships carrying salt in obtaining outward freight, in consequence of the prevailing scarcity; while the reduced importation from Liverpool and Hamburg is said to be due to the growing competition of salt in crystals imported from the Red Sea ports and crushed in Calcutta. The remarkable falling off of 4,65,544 maunds, or 89·3 per cent., at Chittagong is attributed by the Collector of Customs to the high market rate of salt in the United Kingdom, and the unsteady condition of the Calcutta market, which checked speculative purchases by local bonders. The following statement shows the different countries and ports from which shipments of salt were made:—

		1894-95.	1895-96.	1896-97.	Percentage of quantity imported for each group in 1894-95.	Percentage of quantity imported for each group in 1895-96.	Percentage of quantity imported for each group in 1896-97.

The development of the trade in salt from Aden and the Red Sea ports is indicated by the fact, that while the consumption of Liverpool and Hamburg salt indicated by 11,89,246 and 5,84,692 maunds, respectively, during the year, there was an increase of over 16¼ lakhs in the consumption of karkach salt imported from the Red Sea ports and crushed at the golas, and imported ready crushed from Aden. This salt, besides being intrinsically cheaper than any European salt, can be placed in the market at a lower price, because the steamers carrying cargoes from the Red Sea escape the canal dues.

Clearance of salt.

6. Excluding 1,81,050 maunds of Bombay and Madras salt cleared free of duty in Calcutta, duty was paid on 43,11,475 maunds cleared from shipboard, against 63,42,204 in the previous year, while the clearances from bond rose from 35,06,411 to 55,49,433 maunds. On the whole, the total clearances of all kinds, including those of Bombay and Madras salt and of excise salt, rose from 1,04,41,017 to 1,04,77,213 maunds.

Consumption of salt.

7. Deducting from the above clearances the excess of exports from Bengal by land and river over the imports by the same routes, amounting to 7,82,105 maunds, and adding 38,631 maunds of saltpetre salt brought into use, the balance of salt left for consumption in the Province rose from 95,67,463 maunds in 1895-96 to 97,33,739 maunds in 1896-97. The rate of consumption per head was 5 seers, against 4 seers 15 chitaks in 1895-96. In the saliferous districts, excluding Orissa, there was a net decrease of 31,115 maunds in the consumption of licit salt, and the average consumption per head fell from 5 seers 2 chitaks to 4 seers 14 chitaks. The lowest rates prevailed in the 24-Parganas (4 seers 2 chitaks) and Midnapore (4 seers 9 chitaks), although the latter district shows an increase of consumption as compared with the previous year. The large decrease in the 24-Parganas (24,089 maunds) is attributed partly to the impoverished condition of the people owing to scarcity of food and water, and partly to the illicit manufacture of salt in the Sandarbans. The report of Babu Madhu Sudhan Chaudri, Assistant Superintendent of Police, who was specially appointed by Government to investigate the question of illicit manufacture in the latter tract, places it beyond doubt that such manufacture

is conducted on a large scale in the southern portion of the 24-Parganas for the purpose of sale, that the loss of revenue thereby caused is considerable, and that systematic and stringent measures to protect the salt revenue are required. This question is now receiving the Board's attention, in connection with the general scheme for the creation of a special Preventive Service for the saliferous racts in Bengal. In Orissa, the consumption per head rose from 9·25 lbs. to 9·92 lbs. Various causes, which do not call for special notice, are assigned for the decline in consumption in the remaining salt-producing districts.

Price of salt.

8. The price of salt was generally higher than in the previous year, the increase being due to the decline in the imports during the year. In explanation of the rise in the price of imported salt, the Collector of Customs, Calcutta, makes the following remarks:—

"There was a general impression in the past year that larger importations would tend to swell the stocks in bond, and to reduce the prices to an unremunerative level. The total importations, however, fell short of the demand, and salt in bond had to be resorted to for the purpose of meeting requirements for internal consumption. This had the effect of raising prices from Rs. 54 and Rs. 47 in 1895-96 to Rs. 73 and Rs. 75 during the past year for Liverpool panga and Hamburg salt, respectively, and of enabling bonders, some of whom had stocks in bond for upwards of two years, to clear them at profitable rates."

The average wholesale price (exclusive of duty) of 100 maunds of Liverpool salt, purchased from the ship's side in the port of Calcutta, rose from Rs. 57-14 to Rs. 96-0-9, an increase of six annas and one pie per maund; while the selling price, which in 1895-96 had varied from Rs. 81-2-4 to Rs. 44-5-6, ranged during the past year from Rs. 124-3 to Rs. 71-15-8. The average wholesale price, inclusive of duty, at the nine chief marts of Bengal, rose from Rs. 3-9-11 to Rs. 3-13-9 per maund. The corresponding average, based on the wholesale prices of all the districts in Bengal, rose from Rs. 3-11-1 to Rs. 3-15-6 per maund.

Inter-provincial trade.

9. The total imports from Madras, the Upper Provinces and Assam of duty-paid salt, rose from 3,83,940 to 5,15,969 maunds, during the year, the increase being due partly to larger importations from Ganjam, and partly to the higher prices of sea-imported salt. For the latter reason the exports from Bengal to Assam and Northern India fell from 11,07,330 to 10,64,101 maunds, but this decrease was more than counterbalanced by the increase of 49,708 maunds in the exports to Foreign States beyond the northern border, and of 137 maunds in the exports to the Central Provinces and Madras. The net result was an excess of exports over imports of 7,82,105 maunds, against 9,07,518 in 1895-96.

Working of the Salt Laws and Rules.

10. The number of cases in which contraband salt was confiscated, including cases that occurred in the Orissa districts, rose from 504 to 1,056 during the past year, and the quantity of salt confiscated from 161 to 702 maunds. In Midnapore, there were 41 cases, against 59, and the quantity confiscated amounted to 4-3-13 maunds, against 10-17-7 maunds in the previous year. Of the entire quantity attached (64-3-13 maunds), 37-15 seers were seized in cases of illicit manufacture, and 63-5-14 maunds in cases of illicit possession and transport. In the 24-Parganas, the number of cases in which salt was confiscated fell from 118 to 105, but the quantity confiscated rose from 21 to 58 maunds, 17 maunds having been seized for illicit manufacture and 41 maunds for illicit possession and transport. The general scarcity during the year, and the attendant distress among the lower classes, is said to have caused the considerable increase in these cases detected in the two salt producing districts of Chittagong and Noakhali. In Orissa, the number of cases in which salt was confiscated rose from 164 to 725, and the quantity confiscated from 32 to 587 maunds. The total number of cases instituted in the courts throughout Bengal was 905, against 506 in the preceding year. The large increase of 417 cases in Orissa is attributed by the Board partly to scarcity and the consequent distress, and partly to stricter supervision on the part of the salt officers. The cases sent up for trial with evidence of illicit manufacture in the Orissa districts numbered 489, of which 110 were for the possession of earth-salt, 2 for the possession of salt-earth, and 377 for the possession of brine. Altogether, there were 1,097 seizures and 86 unsuc-

cessful searches in the salt-bearing tracts during the year, against 487 and 101, respectively, in the previous year. Of 926 persons apprehended, 819 were convicted. Rewards were disbursed to the amount of Rs. 3,856.

Salt in Orissa.

11. As usual, a separate portion of the Board's Report deals with the administration of the Salt Department in Orissa, which, as noticed above, will shortly be re-transferred to the Government of Bengal. In last year's Resolution it was remarked that the decision of the question whether the Government salt factories on the Chilka Lake, which had not been working successfully, should be abandoned, would be deferred until the close of the manufacturing season then current, and until it was known what effect the East Coast Railway would have on the sales of salt manufactured at these factories. In consideration, however, of the scarcity that prevailed in the country bordering on the Chilka Lake, it was decided that, for the present, the operations at the factories should be continued, but only on such a scale as would give reasonable employment to the landless classes and to the cultivators whose crops have failed. The question whether the manufacture of salt at the lake should be permanently continued, will be further considered when the transfer of the Orissa salt administration has been carried into effect. The receipts of the Orissa Salt Department fell from Rs. 2,05,433 to Rs. 1,25,213, and the expenditure from Rs. 1,48,880 to Rs. 1,45,263. The decrease in receipts is attributed by the Board to the fall in the sale of locally-manufactured salt, owing chiefly to the temporary diversion of the trade to the Naupada factory in the Madras Presidency, where salt was sold at a lower price. The following statement shows the consumption of salt during the last five years, and its rate per head of the population:—

Year.	Sold from local manufactories.	Imported from Calcutta.	Imported from Ganjam.	Total consumption.	Rate per head.

STATISTICAL DEPARTMENT,

M. FINUCANE,

STATISTICS OF THE SEA-BORNE TRAFFIC OF CALCUTTA IN FOOD-GRAINS.

No. 2623 Statistics.—The following memorandum and statements are published for general information.

M. FINUCANE,
Secy. to the Govt. of Bengal.

STATISTICAL DEPARTMENT,
The 21st September 1897.

Memorandum.

The sea-borne import and export traffic of Calcutta in food-grains during the week ending the 7th September 1896, and the corresponding period of 1897, is shown in the following statement:—

	1st to 7th September			
	1896.		1897.	
1	2	3	4	5
	Cwts.	Mds.	Cwts.	Mds.
Imports.				
From Foreign Ports ...	.....	...	3,696	5,031
„ Indian „ ...	55,676	75,781	50,043	68,114
Total ...	55,676	75,781	53,739	73,145
Exports.				
To Foreign Ports	47,238	64,296	12,550	17,082
„ Indian „	13,473	18,338	12,076	16,437
Total ...	60,711	82,634	24,626	33,519

Imports.—The staples comprising the import traffic are shown in the table below, and the figures for the period are compared with those for the corresponding period of last year:—

	1st to 7th September			
	1896.		1897.	
1	2	3	4	5
	Cwts.	Mds.	Cwts.	Mds.
Food-grains.				
Rice	37,964	51,673	42,683	58,096
Paddy	8,881	12,088	5,704	7,764
Wheat	.....	.....	.....	.....
Gram and pulses	8,831	12,020	5,202	7,081
Other food-grains, such as jowar, barley, oats, &c.	.....	.....	150	204
Total ...	55,676	75,781	53,739	73,145

Imports.—During the period under report, the imports of rice amounted to 42,683 cwts., against 37,964 cwts. in the first week of September 1896. The amount imported from Burma was 25,741 cwts., and that from the Straits Settlements 1,688 cwts., both against nil in the corresponding period of last year. Shipments of rice from Chandbali fell off from 33,289 cwts. to 9,236 cwts., while those from Balasore increased by 1,307 cwts. The imports of paddy came chiefly from Chandbali, Balasore, and the Straits Settlements, The decrease under the head of gram and pulses amounted to 3,629 cwts., owing chiefly to smaller shipments from Cocanada and Chandbali. Hongkong and the Straits Settlements, however, contributed 1,132 cwts., against nil in the corresponding period of last year.

Exports.—In the following statement the total quantity of each kind of food-grain exported by sea during the week ending 7th September 1897 is compared with that for the corresponding period of 1896 :—

	1st to 7th September			
	1896.		1897.	
1	2	3	4	5
Food-grains.	Cwts.	Mds.	Cwts.	Mds.
Rice	40,857	55,611	12,707	16,296
Paddy	735	1,000	.....	.....
Wheat	371	505	3,367	4,583
Gram and pulses	18,551	25,250	8,449	11,500
Other food-grains, such as jowar, barley, oats, &c.	197	268	103	140
Total ...	60,711	82,634	24,626	33,519

Foreign Ports.

The exports of rice from Calcutta to foreign ports declined from 37,348 cwts. in the first week of September 1896 to 12,134 cwts. in the period under report, owing chiefly to a decline in the exports to Ceylon, which received only 1,601 cwts., against 24,299 cwts. in the corresponding period of last year. The decrease under gram and pulses was chiefly due to the cessation of exports to the United Kingdom, which took 4,444 cwts. in the corresponding period of 1896, and the exports to Ceylon showed a falling-off of 3,611 cwts.

Indian Ports.

As regards Indian ports, the exports of rice during the first week of September 1896 amounted to 3,509 cwts., against 573 cwts. in the period under report. The shipments for Bombay were nil, against 2,037 cwts. in the first week of September 1896. Under wheat there was an increase in the shipments to Rangoon, which received 2,613 cwts., against 220 cwts. in the same period last year.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

STATISTICS OF THE SEA-BORNE TRAFFIC OF THE MINOR PORTS IN BENGAL IN FOOD-GRAINS.

No. 2622 Statistics.—The following memorandum and statements are published for general information.

STATISTICAL DEPT.,
The 21st September 1897.

M. FINUCANE,
Secy. to the Govt. of Bengal.

Memorandum.

THE comparative statements below give statistics of the import and export trade of the minor ports of Chittagong, Narayanganj, Balasore (including both Balasore and Chandbali), Cuttack, and Puri during the ten days ending 31st August 1897, as compared with the trade of the corresponding period of 1896:—

IMPORTS.

	1897	11,945	323	12,268	16,698
Total ...	1896	.....	54,691	54,691	74,440
	1897	12,972	23,778	36,750	50,021

During the ten days under report, the total imports of rice into Chittagong amounted to 5,344 cwts., the whole of which came from Burma, against nil in the same period of 1896. As regards exports, Narayanganj received 2,057 cwts., against nil in the corresponding period of last year. The import trade of Balasore ports improved by 698 cwts. owing to receipts of wheat and miscellaneous food-grains from Calcutta, against nil in the same period of 1896. Chiefly on account of smaller consignments of rice and paddy to Calcutta, the export trade of those ports fell off by 33,155 cwts. The exports of rice from False Point amounted to 3,109 cwts., of which 2,082 cwts. were despatched to Cochin and the rest to Colombo, against nil in the corresponding period of last year. Colombo also received 11,945 cwts. of rice from Puri, against nil in the last ten days of August 1896.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

Statement showing the quantities of Food-grains imported into Chittagong from each Foreign and Indian Port during the ten days ending 31st August 1897, as compared with the trade of the corresponding period of 1896.

EXPORTS OF FOOD-GRAINS BY THE EASTERN BENGAL STATE RAILWAY.

No. 2627 Statistics.—The following statement shows the quantity of rice and other food-grains exported by the Eastern Bengal State Railway from Sealdah and Calcutta during the period from 1st January to 4th September 1897, both days inclusive, to have been 11,02,461 maunds. The destination of 10,98,487 maunds is specified. Of this quantity 8,73,792 maunds were carried to stations in Bengal Proper, and 90,996 maunds to Bihar and Chota Nagpur, 44,415 maunds to the North-Western Provinces and Oudh, 84,311 maunds to places in Assam, and the rest (4,973 maunds) to other provinces.

STATISTICAL DEPARTMENT,
The 21st September 1897.

M. FINUCANE,
Secretary to the Govt. of Bengal.

Statement showing the quantities of rice and other food-grains exported from Sealdah and Calcutta (Port Trust Railway, Chitpur and Kidderpore Docks), by the Eastern Bengal State Railway, from 1st January to 4th September 1897.

Singhbhum.—Rainfall at Chaibassa ·13, Chakradharpur 2·19, Kalikapur 1·72, Ghatsila 1·06. Rice plentiful; price 8 to 12 seers per rupee.

General Summary.—There was general rain during the week. The fall was heavy over a considerable part of Bengal Proper and in the Champaran district. The general agricultural prospects are favourable throughout the Province. The transplantation of winter rice is almost over, and the young plants are doing well. Early rice is still being harvested. Jute is being cut, steeped and washed. The harvesting of *bhadoi* crops in Bihar and Chota Nagpur is in progress. Sugarcane generally promises well. The ploughing of lands for *rabi* has commenced in places. Insects are still infesting the rice plants in Cuttack. The price of common rice remained practically unchanged since last week, but that of the *bhadoi* food-grains in Bihar has fallen. In the distressed districts the prices of the staple food-grain on which the famine wage is based are—Bankura (common rice) 8⅜ to 11½ seers, Saran (Indian-corn) 15¾ seers, Champaran (Indian-corn) 15½ seers, Muzaffarpur (Indian-corn), 15 to 20 seers, Darbhanga (Indian-corn) 15 seers, Puri (common rice) 9 to 10 seers, Manbhum (common rice) 8¾ seers.

The average fall of the corresponding period for 24 years, Surveyor-General's Office		2·21
The total fall from 1st January to 18th September 1897 ...		47·89
The average fall of the corresponding period for 24 years, Surveyor-General's Office		55·07

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder; < lightning; lr, lightning reflection; ≏, dew.

J. H. Gilliland.

CIVIL BUILDINGS.

The 28th September 1897.

No 271.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the construction of a double Munsifi at Sasaram, in the village of Chanathu, pargana Sasaram, zilla Shahabad, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1·16 acres or 1 bigha 17 cottahs 2 dhurs of standard measurement, bounded on the north by the Grand Trunk Road, on the south by the fields of Abilakh and Joba Koiris, on the east by the field of Bishun Koiri and compound of the khas mahal office, and on the west by the field of Hudda Khalifa, is required within the aforesaid village of Chanathu.

This declaration is made under the provisions of section 6 of Act I of 1894 to all whom it may concern.

No. 275.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for opening out a new road on the south of the land already acquired for the extension of the Presidency General Hospital in the village of Bhawanipur, pargana Khaspur, zilla 24-Parganas, it is hereby declared that for the above purpose a piece of land measuring, more or less, 7 cottahs of standard measurement, bounded on the north by the land lately

acquired for the extension of the Presidency General Hospital, on the east by Badiapara Road, on the south by portions of holdings Nos. 47, 48, 49 and 50/1 Subdivision A, Division VI, Panchannagram, and on the west by General Hospital Lane, is required within the aforesaid village of Bhawanipur.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

J. G. H. GLASS,
Secy. to the Govt. of Bengal.

IRRIGATION DEPARTMENT.

The 28th September 1897.

No. 276.—Addendum.—In exercise of the powers conferred on him by sec. VI of Act V (B.C.) of 1864, the Lieutenant-Governor of Bengal proposes to make the following addition to notification No. 339, dated the 19th December 1893, prescribing the rates for the levy of tolls in certain places in the Hijili Tidal Canal, Ranges I and II, in the Orissa Coast Canal, Ranges III, IVA, IVB, and V, in the Balliagahi Drain and in the Terapakia and Palaboni Pass Khalls.

Under the heading "through tolls to be charged on the Hijili Tidal and Orissa Coast Canals" after Balliagahi add the words "or Karikapatna."

[Fifth Publication.]

The 31st August 1897

No. 245.—Notification.—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor of Bengal proposes to make the following addition and amendment in Rule 42 of the Revised Water-rate Rules for the Sone Canals, and in Appendices I, II and VIII to the Rules.

A. D. MCARTHUR, *Colonel*, R.E.,
Secy. to the Govt. of Bengal.

To Rule 42 add—

"For seven-year leases entered into after the 1st January 1898, payment of water-rates will be exacted in one kist on the 1st February. As regards existing leases collections will be made in one kist with the lessee's consent."

Appendix I, clause 4, and Appendix II, clause 4, will be altered to the following :—

"We agree to pay the water-rates due on this application on the 1st February."

Appendix VIII.—"Dates of payment" will be altered to "Date of payment 1st February."

RAILWAY DEPARTMENT.

The 28th September 1897.

No. 157.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for a site for staff quarters at Panchooria Junction on the Faridpur Branch of the Eastern Bengal State Railway in the village of Nobogram, pargana Kassimbazar, zilla Faridpur, it is hereby declared that for the above purpose a piece of land measuring, more or less, 5 cottahs 13 chitaks of standard measurement, bounded on the north, east and west by land of village Nobogram, and on the south by Eastern Bengal State Railway, is required within the aforesaid village of Nobogram.

Mines of coal, iron-stone, slate or other minerals lying under the land or any particular portion of the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away, or use in the construction of the work for the purpose of which the land is being required, are not needed.

The declaration is made under the provision of section 6 of Act I of 1894, and section 3, clause (1), Act XVIII of 1885, and to all whom it may concern.

J. G. H. GLASS,
Secy. to the Govt. of Bengal.

MARINE DEPARTMENT.

The 23rd September 1897.

No. 172Marine.—Mr. J. Christie, Branch Pilot, is granted, under article 746 (*a*) of the Civil Service Regulations, privilege leave for one month and ten days, with effect from the 23rd September 1897, or such subsequent date as he may avail himself of it.

A. D. MCARTHUR, *Col.*, R.E.,
Secy. to the Govt. of Bengal.

The 27th September 1897.

No. 173 Marine.—Mr. J. F. Fox, Mate Pilot, is granted, under article 748 (*a*) of the Civil Service Regulations, privilege leave for one month and 15 days, with effect from the 29th September 1897, or such subsequent date as he may avail himself of it.

A. D. McARTHUR, *Col.* R.E.,
Secy. to the Govt. of Bengal.

The 28th September 1897.

No. 174 Marine.—The following notifications, Nos. 2133, 2144, 2145 and 2146, issued under the provisions of the Pilgrim Ships' Act, 1895, and published by the Government of India, are republished for general information.

A. D. McARTHUR, *Col.*, R.E.,
Secy. to the Govt. of Bengal.

No. 2133, dated Simla, the 17th September 1897.

NOTIFICATION—By the Government of India, Home Department.

IN exercise of the powers conferred by section 58 of the Pilgrim Ships' Act (XIV of 1895), the Governor-General in Council is pleased to direct that the following clause shall be inserted after clause (3) of Rule 67 of the rules published in the Notification of the Government of India in the Home Department, No. 262, dated the 5th October 1896:—

(4) If the owner or agent neglects or refuses, on presentation, as provided by clause (3) of the cancelled ticket, to refund to the pilgrim the passage money paid by him, such owner or agent shall be punishable with fine which may extend to two hundred rupees, and with a further fine which may extend to twenty rupees for each day after the day on which the ticket was presented, during which the refund remains unpaid.

No. 2144, dated Simla, the 17th September 1897.

NOTIFICATIONS—By the Government of India, Home Department.

In exercise of the power conferred by section 5, clause (1), of the Pilgrim Ships' Act, 1895 (XIV of 1895), the Governor General in Council is pleased to cancel the Notification of the Government of India in the Home Department, No. 261, dated the 5th October 1896.

No. 2145.

In exercise of the power conferred by section 19, sub-section (1), of the Pilgrim Ships' Act, 1895 (XIV of 1895), and in supersession of the orders contained in the Notification of the Government of India in the Home Department, No. 260, dated the 5th October 1896, the Governor-General in Council is pleased to order that every pilgrim ship shall contain at least sixteen superficial feet and ninety-six cubic feet of space available for each pilgrim in the between deck on which he is accommodated.

No. 2146.

In exercise of the powers conferred by section 58 of the Pilgrim Ships' Act, 1895 (XIV of 1895), the Governor-General in Council is pleased to direct that the following amendment shall be made in the rules published in the Notification of the Government of India in the Home Department, No. 262, dated the 5th October 1896:—

(i) In rule 74, after the word "rules," the following shall be inserted, namely:—
"and of Articles 3 and 31 to 41 (both inclusive) set forth in Part B of Annexure I to the Paris Convention of 1894."

(ii) In Form VI, for the Statement headed "Pilgrims," the following shall be substituted, namely:—

Pilgrims.

	Names of male pilgrims.			Number of female pilgrims.			Number of infants (if any) under one year of age accompanying pilgrims entered in preceding columns.		
	1st class.	2nd class.	Lowest class.	1st class.	2nd class.	Lowest class.	1st class.	2nd class.	Lowest class.

Babu Kalikananda Mukerji, Deputy Inspector of Schools, Hazaribagh (class III), was absent on leave for three days, under Article 291 of the Civil Service Regulations, in continuation of the leave granted to him under the orders of the 22nd May 1897.

C. A. MARTIN,
Director of Public Instruction.

NOTICE.

Entrance Examination.

A TEST examination of private students for admission to the ensuing Entrance Examination will be held at the Office of the Inspector of Schools, Presidency Circle, 4, Dalhousie Square, Calcutta, on Friday, the 17th, and Saturday, the 18th December 1897. Such candidates only as reside in any of the districts of the Presidency Division including Calcutta will be admitted to the examination.

2. Only those candidates who do not appear from any school, *i.e.*, who have not been in any school since the 1st of September next preceding the examination, will be treated as private students. They will be required to furnish satisfactory proof that they have not read in any school from that date. They must also produce certificates of conduct and progress in studies from the authorities of the last school where they read, or, in the case of those who have not been in any school for more than a year, from some other reliable authorities.

3. *Bonâ fide* teachers employed in any of the schools in the Presidency Division, may be admitted to the examination, if they can produce certificates of service and character from their employers, or from the Deputy Inspector of the district concerned.

4. Each candidate should submit to this Office, not later than the 8th December 1897, his application for admission to the test examination, stating the following particulars:—

(1) Age; (2) residence; (3) father's name; (4) second language besides English, and (5) whether he appeared at any previous Entrance Examination.

5. The admission-fee for the examination is Rs. 4 for each candidate, and is to be remitted with the application within the prescribed date, after which a fine of Rs. 2 is to be imposed for each week's delay.

6. No private student will be admitted to the test examination unless accompanied, for the purpose of identification, by some person known to this Office.

7. Candidates who are sent up by this Office must appear at the Calcutta Examination Centre.

8. Those that reside at a distance from Calcutta may present themselves at the test examination held by the head-master of the nearest zilla or Government high school within the Presidency Division, on condition that they appear at the centre selected by the candidates from that institution. The head-master of such school is hereby authorised to sign the applications from these students, which must afterwards be countersigned by the Inspector. The fees and fines, paid by such students, as per paragraph 5 above, are to be credited to the school fund.

F.A. and B.A. Examinations.

Deputy Inspectors, Sub-Inspectors, and *bonâ fide* teachers of recognised English schools, in the Presidency Division, who have served as such for full two academical years, or for six months, in the case of those who have been admitted to a former examination of the same class, will be admitted to the above examinations on production of certificates of character and length of service (with dates) from their employers. Their applications must reach this Office on or before the 1st December 1897.

RADHIKA PRASANNA MUKHERJI,
Inspector of Schools, Presidency Circle.

4, DALHOUSIE SQUARE, CALCUTTA,
The 8th September 1897.

NOTIFICATION.

IT is hereby notified for general information that on the result of the Entrance Examination of 1898 being known, the twelve third grade junior scholarships will be distributed as follows:—

Patna	2	Saran	2
Gaya	2	Champaran	1
Shahabad	2	Muzaffarpur	2

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government in the Canal Department, as specified in the conditions of sale below, to the undermentioned surplus canal lands of Kori distributary, situate in the district of Shahabad, will be put up to sale at the Arrah Collectorate on Tuesday, the 4th January 1898, corresponding with 26th Poos 1805 F.S.

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The lands to be sold to the highest bidders above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of these lands will be considered as the proprietor of the lands, and the entire proprietary right of Government in such land will be transferred to him revenue free.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the lands to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale :—

The Calcutta Gazette.

WEDNESDAY, SEPTEMBER 29, 1897.

PART IB.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

No. 777T.M.—The 22nd September 1897.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 221 of the Bengal Municipal Act III of 1884, as amended by Bengal Acts IV of 1894 and II of 1896, and in accordance with the recommendation of the Commissioners of the Bankura Municipality, in the district of Bankura, made at a meeting, to extend the provisions of section 259 of the said Act to the above Municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the Municipality.

C. E. A. W. OLDHAM,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 779T.M.—The 22nd September 1897.—In supersession of the Notification No. 4516M. dated the 26th August 1897, published at page 204, Part IB. of the *Calcutta Gazette* of the 1st September 1897, it is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 221 of the Bengal Municipal Act III of 1884, as amended by Bengal Acts IV of 1894 and II of 1896, and in accordance with the recommendation of the Commissioners of the Kandi Municipality, in the district of Murshidabad, made at a meeting, to extend the provisions of Part IX of the said Act to the Kandi ward of the above Municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the Municipality.

C. E. A. W. OLDHAM,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 802T.M.—The 22nd September 1897—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 221 of the Bengal Municipal Act III of 1884, as amended by Bengal Acts IV of 1894 and II of 1896 and in accordance with the recommendation of the Commissioners of the Perospur Municipality, in the district of Backergunge, made at a meeting, to extend the provisions of Part X of the said Act to the above Municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the Municipality.

C. E. A. W. OLDHAM,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 810T.M.—The 25th September 1897.—Whereas a notification No. 4238M., dated the 12th November 1896, was published at page 237, Part IB of the *Calcutta Gazette* of the 18th November 1896, declaring the intention of the Lieutenant-Governor to extend the southern boundary of the Cuttack Municipality so as to include within the limits of the said Municipality the entire bed of the Kathjori river (together with the slope of the bank on the southern side) extending from Biranasi on the west to two hundred yards to the east of the Khannagar Hindu burning ghat and the southern bank of the Kathjori river included within two straight lines drawn from the said two points to the south bank of the river, and whereas no valid objection has been raised to the proposal within six weeks from the date of the publication of the above notification within the Municipality, it is hereby notified for general information that, in the exercise of the power vested in the Local Government by section 9A(2) of the Bengal Municipal Act III of 1884, as amended by Bengal Acts IV of 1894 and II of 1896, and in accordance with the recommendation of the Commissioners of the Cuttack Municipality, made at a meeting, the Lieutenant-Governor sanctions the extension of the southern boundary of the said Municipality in the manner aforesaid.

C. E. A. W. OLDHAM,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 838T.M.—The 25th September 1897.—It is hereby notified that, under section 19 of the Bengal Local Self-Government Act III of 1885, the Lieutenant-Governor is pleased to appoint Munshi Asmat Ullah to be a member of the Gaibanda Local Board, in the district of Rangpur, *vice* Maulvi Abdul Asad Ibrahim Sabir, removed.

C. E. A. W. OLDHAM,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 842T.M.—The 25th September 1897.—It is hereby notified that, under section 19 of the Bengal Local Self-Government Act III of 1885, the Lieutenant-Governor is pleased to appoint Mr. E. Lister, Subdivisional Officer of Gopalganj, to be a member of the District Board of Saran, *vice* Mr. J. C. Twidell, resigned.

C. E. A. W. OLDHAM,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 861T.M.—The 25th September 1897.—It is hereby notified that the Lieutenant-Governor is pleased to approve the election by the members of the Sadar Local Board in the district of Gaya, under section 25 of the Bengal Local Self-Government Act III of 1885, of Babu Durga Sanker Bhattacharjee to be their Chairman.

C. E. A. W. OLDHAM,
Offg. Secy. to the Govt. of Bengal.

INDIAN LAW REPORTS.

NOTICE TO SUBSCRIBERS.

SUBSCRIBERS are hereby informed that, unless complaint of non-receipt of any number is made to the Publisher of the series within three months of the date of publication, the benefits of the subscription rates for copies lost in transit will not be allowed, and full rates will be charged. The price per copy of each of the four series at subscription rates and at full rates is shown below :—

	Per copy. Subscription rate. Town.	Mofussal.
	Rs. A. P.	Rs. A. P.
Calcutta Series	0 8 9	0 10 2
Each of the Madras, Bombay and Allahabad Series ...	0 5 3	0 6 9

	Full rate. Town.	Mofussal.
	Rs. A. P.	Rs. A. P.
Calcutta Series	2 0 0	2 0 0
Each of the Madras, Bombay and Allahabad Series ...	1 0 0	1 0 0

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876 :—

Terms of subscription payable annually in advance.

	Without postage.	With postage.
	Rs. A. P.	Rs.
For the complete series *including postage*, Rs. 22-8.		
For the Calcutta Series	10 0 0	12
,, each of the Madras, Bombay, and Allahabad Series	6 0 0	7 0 0
,, a part of the Calcutta Series purchased separately (*inclusive of postage in India*)		2 0 0
,, part of each of the Madras, Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*)		1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit :—

	For town.	For mufassal
	Rs. A. P.	Rs. A. P.
For the Calcutta Series, per copy ...	0 8 9	0 10 3
,, each of the Madras, Bombay, and Allahabad Series, per copy ...	0 5 3	0 5 9
,, the Calcutta Series. For the year	7 2 6	8 6 3
,, each of the Madras, Bombay and Allahabad Series. For the year	4 4 6	4 11 3

Persons desiring to subscribe for or purchase the Report should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
,, Curator of Government Books, North-Western Provinces and Oudh.
,, Officer in charge, Bengal Secretariat Book Depôt.

Orders and subscriptions for 1894 *should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.*

ADVERTISEMENTS will be received for publication on the papers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance—

	One page.	Half page.	Quarter page
For one issue ...	Rs. 20	Rs. 14	Rs. 9
,, three issues ...	,, 55	36	,, 24
,, six ,, ...	,, 100	68	,, 46
,, nine ,, ...	,, 145	96	,, 64
,, twelve ,, ...	,, 180	120	,, 80

SEVERAL volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates :—

	Without postage.	With postage.
	Rs. A. P.	Rs. A. P.
Bengal Law Reports for one year ...	20 0 0	22 8 0
Single copies, Rs. 2 per copy.		
Full Bench Rulings, Parts I and II ...	20 0 0	22 8 0

Obtainable at the Bengal Secretariat Book Depôt, Writers' Buildings, Calcutta.

Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

The complete series of the INDIAN LAW REPORTS of the following years having now been reprinted, are available, and may be purchased for all the years, or any particular year, on application to the Officer in charge, Bengal Secretariat Book Depot.

The wanting parts of the Reports for the remaining years are being reprinted, and complete Reports from the beginning to date will be available from the commencement of the ensuing year. The subscription, Rs. 22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat :—

Years. 1882. 1883.	Years. 1884. 1888.	Years. 1889. 1890.	Years. 1891. 1894.	Years. 1895. 1896.

Catalogue of Books procurable from Thomason College Book Depôt.

Application to be made to Curator. Cash must accompany order. Articles will be sent by Value-payable Post to persons in Government employment only. It is advised that letters containing remittances be registered.

N.B.—The Revised Prices herein entered cover the cost of packing postage and other incidental charges (except commission for value payable supplies), and are for all purchasers other than resident College Students.

cation should be made to the Superintendent.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

NOTICE TO MARINERS—No. 185.

[First Publication]

CHINA.

Regulations for preventing collisions at sea.

THE British Admiralty has given notice (No. 500 of 1897) that the "Regulations for preventing Collisions at Sea" have been accepted for general use in Chinese waters by all Chinese vessels of foreign type; but that Chinese junks, fishing boats, &c., will not exhibit the Regulation lights.

This Notice affects the China Sea Directories, Vols. II and III.

PACIFIC OCEAN.

Amended position of Stewart islands.

THE British Admiralty has given notice (No. 504 of 1897) that information has been received from Captain G. N. A. Pollard, H.M.S. *Wallaroo*, dated 27th June 1897, that he has determined the position of the north point of the island situated in the middle of the Stewart islands, hitherto shown in approximately lat. 8° 22½′ S., long. 162° 58′ E., to be in approximately lat. 8° 21′ 30″ S., long. 162° 42′ 30″ E.

The whole of the Stewart islands group should be relatively shifted on the Charts to agree with the above position.

PACIFIC OCEAN—NEW HEBRIDES ISLANDS.

Tongoa island—Active volcanic shoal on Laika bank.

THE British Admiralty has given notice (No. 505 of 1897) of the existence of a volcanic shoal which had been in a state of eruption, throwing up red hot stones and smoke, for a period of three weeks previous to the 18th June 1897 :—

This shoal, consisting of sand and a few lava stones on top, was awash on 21st June, and appeared to be steep-to on its southern and western sides, with shoal water extending for about a mile east-south-eastward from it.

It is situated on the northern part of Laika bank, northward of Tongoa island, with Tevala island summit (324) bearing N. 36° E., distant 9 cables; and Boiling point S. 46° E.

Approximate position: lat. 16° 49′ 50″ S., long. 168° 32′ 15″ E.

The symbol for a rock awash at low water springs, with the words "Active Volcano, 1897," written against it, have been placed in the above position on the Admiralty Chart; and the words "Reported dangerous" have been written under Laika bank.

CHINA, EAST COAST—LIAU RIVER.

Light-vessel lights, wrecks, buoy and beacon.

WITH reference to Notice to Mariners No. 154, dated 8th August 1896, issued by this office, the British Admiralty has given further notice (No. 506 of 1897) that: —

1. The light vessel at the entrance of Liau river, exhibited, at the above date, a *red* light placed vertically over a *white* light, at each yardarm.

   Approximate position: lat. 40° 34′ N., long. 122° 0½′ E.

2. The sunken wreck, shown in a position bearing south, distant 7$\frac{1}{10}$ miles, from the light-vessel, has disappeared, and has been expunged from the charts.
3. A sunken wreck, no part of which shows above water, lies in a depth of 6 fathoms, in a position with the light-vessel bearing N. E. by E. ½ E., distant 2⅓ miles; and Tower hill S. S. E. ¼ E.
4. The entrance buoy (black, &c.) has been moved to the southward, and is now moored in a depth of 16 feet at low water ordinary springs with the light-vessel bearing W. ¾ N., distant 2$\frac{7}{10}$ miles.
5. The Pilot beacon (pole and cage), previously standing on the northern part of the East bank, has disappreared.

KORIA—WEST COAST.

Dangers eastward of Sir James Hall group.

THE British Admiralty has given notice (No. 512 of 1897) of the existence of the undermentioned dangers :—

1. A rock, which dries at low water, was seen about three-quarters of a mile northward of Three rocks, westward of Kerrin De.

   Approximate position: lat. 37° 49½′ N., long. 124° 56½′ E.

2. Rocks which dry at low water, extend nearly one mile, N. W. by W. ½ W., from the point on the mainland, in approximately lat. 37° 59′ 10″ N., long. 125° 8′ 20″ E.

3. A rock, about a quarter of a cable in extent, which dries at low water neaps, is situated about half a mile north-eastward of the above point.

AUSTRALIA, SOUTH COAST—KANGAROO ISLAND, NEPEAN BAY.

Alterations in buoys marking telegraph cable.

THE British Admiralty has given notice (No. 471 of 1897) that the undermentioned alterations have been made in the buoys making the direction of the telegraph cable in Kingscote harbour, Nepean bay :—

1. A new *perch* buoy, painted green, has been moored in Kingscote harbour in approximately lat. 35° 40′ 0″ S., long. 137° 39′ 50″ E.
2. The red *perch* buoy, previously moored at the southern extremity of the dry spit southward of Beatrice island, has been withdrawn.
3. The colour of the *bell* buoy, moored in approximately lat. 35° 41½ S., long. 137° 42½′ E., has been altered from red to green.

NOTE.—Vessels should anchor well northward or southward of the line joining these buoys and the beacons at Kingscote.

CHINA SEA—HONG-KONG.

Alterations in Storm Signals.

THE British Admiralty has given notice (No. 476 of 1897) that the Storm Signals shown from the mast in front of the Police barracks at Kau lung have been altered to be in accordance with those shown in the United Kingdom (except 3), as follows :—

1. NORTHERLY GALES:—A *cone*, point upwards, indicates that strong winds are probable from the northward or eastward.
2. SOUTHERLY GALES:—A *cone*, point downwards, indicates that strong winds are probable from the southward or westward.
3. VERY HEAVY GALES:—A *drum* may be hoisted, in addition to the cone, when a heavy gale, possibly reaching typhoon force, is probable; the cone indicating the direction from which it is approaching.

A gun, situated close to the mast, is fired whenever the drum is hoisted.

4. NIGHT SIGNALS:—By night, signals 1 and 2 only are given, by means of *three lights* (all *white*, or all some other colour) placed triangularly; the single light upwards for signal 1 and downwards for signal 2.

NEW ZEALAND, SOUTH ISLAND—OTAGO HARBOUR.

Additional harbour lights.

THE British Admiralty has given notice (No. 477 of 1897) that the undermentioned additional harbour lights have been exhibited in Otago harbour:—

1. A *fixed white* light, elevated 16 feet above high water, from a black, triangular beacon, situated in a depth of 18 feet off Deborah bay.
   Approximate position (doubtful): lat. 45° 48½′ S., long. 170° 39½′ E.
2. A *fixed white* light, elevated 16 feet above high water, from the western point of the south-eastern Halfway island.
   Approximate position; lat. 45° 50′ S., long. 170° 39′ E.

NOTE.—These lights should be left on the port hand by vessels entering from seaward.

CHINA SEA—PESCODORES ISLANDS.

Ponghan—Foul ground south-south-east of rock south-eastward of Lichin Point.

THE British Admiralty has given notice (No. 484 of 1897) that foul ground, with depths of 11 to 20 feet on it at low water springs, coral bottom, extends apparently for a distance of 3 cables, with a width of 1½ cables, in a S.S.E. direction from the rock bearing S.E. ¼ S., distant 1½ miles, from Lichin point.

From the southern extremity of the foul ground round island bears N. 28° E., distant 1½ miles; and three islands S. 86° E.

Approximate position: lat. 23° 31′ 25″ N., long. 119° 42′ 5″ E.

The rock from which the foul ground extends dries about 4 feet at low water.

NEW ZEALAND—Cook strait.

North island—Delay in exhibition of Cape Palliser light.

With reference to Notice to Mariners No. 43(2), dated 1st March 1897, issued by this office, the British Admiralty has given further notice (No. 489 of 1897) that Cape Palliser light will not be ready for exhibition until about the middle of October 1897:—

Cape Palliser (Rocky point) light will be a dioptric, *group flashing white* light with a period of *thirty seconds*, showing *two flashes*, separated by an interval of *three seconds*, in each group.

It will be elevated 258 feet above high water, and visible seaward over an arc of 214°, a distance of 23 miles in clear weather.

Approximate position: lat. 41° 36′ 45″ S., long. 175° 18′ 45″ E.

Further notice will be given when the date of the exhibition of the light is known.

JAPAN—Nipon.

Sendai bay—Dangers in approach to Matsushima bay.

The British Admiralty has given notice (No. 495 of 1897) that, in a recent survey of the Ishihama entrance to Matsushima bay, many new dangers have been found:—

1. One, in lat. 38° 16′ 15″ N., long. 141° 9′ 50″ E., is a rock with less than 6 feet water on it.
2. Jinotaka ne, formerly known as Naka ne, in lat. 38° 17′ 50″ N., long. 141° 9′ 15″ E., has a depth of 1½ fathoms on it.
3. Okinotaka ne, a new rock which with Jinotaka ne forms Naka ne, has a least depth of 2¾ fathoms on it with 4½ fathoms to the south-eastward.

Approximate position: lat. 38° 17′ 30″ N., long. 141° 9′ 45″ E.

The above are the outer dangers; the rest are too numerous to mention in a Notice to Mariners, but the old chart will be cancelled and a new chart will shortly be published showing all the dangers found.

PACIFIC OCEAN—FIJI ISLANDS.

Viti Levu—Beacon and buoy in Suva harbour.

THE British Admiralty has given notice (No. 453 of 1897) that a black beacon, consisting of a boarded framework, surmounted by a rectangular topmark, the top of which is about 13 feet above the level of high water springs, has been erected at the southern extremity of the spit which dries at low water springs, southward of Low Cliffy point.

From the beacon Low Cliffy point bears N.N.E., distant 5¼ cables; and Walou beacon E. ¼ S.

Approximate position on Plan No. 1757, lat. 18° 7′ 35″ S., long. 178° 24′ 55″ E.

NOTE.—A light may occasionally be shown from this beacon when large vessels are leaving the harbour.

Also, that a white *Cask* buoy has been placed on the patch, with a depth of 4½ fathoms on it, situated with the steamer pier lighthouse bearing E. ¼ N., distant $5\frac{5}{10}$ cables.

RESOLUTION REVIEWING THE REPORTS FROM COMMISSIONERS OF DIVISIONS ON THE WORKING OF THE PURI LODGING-HOUSE ACT, IV (B.C.) OF 1871, AS AMENDED BY ACTS II (B.C.) OF 1879 AND I (B.C.) OF 1884, DURING THE YEAR 1896-97.

MUNICIPAL DEPARTMENT—MUNICIPAL.

Darjeeling, the 23rd September 1897.

RESOLUTION—No. 817T.—M.

READ—

The reports from Commissioners of Divisions on the working of the Puri Lodging-house Act IV (B.C.) of 1871, as amended by Acts II (B.C.) of 1879 and I (B.C.) of 1884, during the year 1896-97, in the various places to which it has been extended.

Read also—

The Resolution reviewing the Commissioners' reports on the working of the Act during 1895-96.

Extension of the Act.—The Puri Lodging-house Act IV (B.C.) of 18[illegible] amended by Acts II (B.C.) 1879 and I (B.C.) of 1884, was in force in the towns and areas named in the margin during the year. The funds of the *chattis* along the Jagannath road in the district of Puri have remained amalgamated with those of the town of Puri since 1895-96, but the sanction of Government

In the Burdwan Division—
1. Garhbeta.
2. Dantun.
3. Ulubaria.
4. Gewankhali.

In the Presidency Division—
5. Nadia.

In the Chittagong Division—
6. Sitakund.

In the Patna Division—
7. Gaya.

In the Bhagalpur Division—
8. Deoghar.

In the Orissa Division—
9. *Chattis* on the Jagannath road in the district of Cuttack.
10. Chandbali.
11. *Chattis* on the Jagannath road in the district of Balasore.
12. Puri town.
13. *Chattis* on the Jagannath road in the district of Puri.
14. Jajpur.

to this amalgamation has not yet been asked for, although this omission was noticed in the resolution reviewing the reports for that year. The circumstances which rendered the amalgamation necessary should now be explained and the sanction of Government obtained.

2. *Licensed Lodging-houses.*—There was a decrease in the number of lodging-houses from 2,066 in 1895-96 to 1,565. The decrease appears to have been general, but was most marked at Sitakund, where the number fell from 452 to 18, only 2,029 pilgrims having visited the place against 30,000 in the previous year, owing, it is said, to the prevalent scarcity and to the fact that the year was accounted an inauspicious one from the Hindu point of view. There was an increase, on the other hand, from 175 to 190, at Nadia, from 34 to 46 at Jajpur, and from 360 to 367 at Puri and the *chattis* along the Jagannath road. Altogether the number of lodgers accommodated fell from 57,207 to 43,105, the chief causes being the two mentioned above as having operated in the case of Sitakund. The Magistrate of Cuttack notes that with the progress of the East Coast Railway, the income from lodging-houses in his district is steadily falling off. It is reported that effect has been given to the suggestions made in the resolution for 1894-95 that no lodging-house should be licensed unless fees are paid for the full number of pilgrims that can be accommodated.

3. *Income.*—The total income of the year was Rs. 34,244 against Rs. 39,969 in 1895-96, the opening balance being Rs. 34,577 and the closing balance Rs. 27,976. There was a general decrease under most of the heads of receipt. An increase occurred under the head "Miscellaneous," but this is chiefly due to the transfer to this head of Rs. 1,799, the final closing balance of the funds of the *chattis* along the Jagannath road in the district of Puri. There is also an increase in the receipts under "Other fees" which has not been explained.

4. *Expenditure.*—The total expenditure was Rs. 40,845 against Rs. 33,546 in 1895-96. The increase is chiefly noticeable in the amounts spent on conservancy, construction, and miscellaneous charges which were Rs. 12,818, Rs. 4,106 and Rs. 1,072, respectively, against Rs. 5,900, Rs. 2,198 and Rs. 595 in the preceding year. The Lieutenant-Governor observes with pleasure the useful manner in which the fund appears to have been expended during the year at Gaya, where Rs. 9,625, as against 2,489 in the previous years were spent on conservancy, Rs. 1,500 were contributed towards the support of the local pilgrim hospital, and Rs. 1,150 spent on a cholera hospital which is entirely supported from the fund. The total closing balance of all the fund has been reduced from Rs. 33,375 to Rs. 27,976, which is still an unnecessarily large amount, and which should be further decreased during the current year by judicious outlay on improvements. The largest individual balance, viz., Rs. 7,032, stands to the credit of the Sitakund fund.

5. *Prosecutions.*—The number of prosecutions for offences under the Act and the bye-laws decreased from 288 in 1895-96 to 138, and the number of persons accused from 278 to 139. The amount of fines realised also shows a decline from Rs. 2,539 to Rs. 1,086.

6. *Public health.*—Cholera broke out in the *chattis* along the Jagannath road in Cuttack, but not in an epidemic or severe form, the number of cases being six with one death, as against 22 with two deaths in the previous year. In Nadia cholera broke out during the Gaur *mêla* festival, when 11 persons were admitted into the cholera shed, of whom 8 died and 3 recovered. At Gaya the health statistics show a remarkable improvement over the figures for the preceding year, there having been only 37 cholera cases in the cholera hospital with 26 deaths, as against 142 cases with 108 deaths in 1895-96, and altogether only 87 deaths among pilgrims from all causes, against an average of 234 in the preceding four years. In Ulubaria the number of deaths among pilgrims from cholera was 10, against 5 in 1895-96. Since the close of the year, Government has had under consideration the question of preventing overcrowding among pilgrims, and has laid down a minimum limit of space to be allowed to each pilgrim in the lodging-houses at Gaya and Gewankhali.

7. *Water-supply.*—All the wells along the Jagannath road in the district of Cuttack were cleansed, repaired and disinfected; and it is satisfactory to

observe that the two unwholesome tanks referred to in paragraph 6 of last year's Resolution, belonging to Rajas Badyanath Pandit and Baikuntha Nath De, were completely dewatered and thoroughly repaired during the year. In the town of Puri and the *chattis* along the Jagannath road in that district, eighty masonry wells were cleansed and disinfected and four new wells were sunk, five public wells in the town were fitted with pumps, and the Markunda tank, which is much used for bathing purposes, was dewatered and a great quantity of silt removed. In Dantun one corrugated iron well was sunk, and a masonry well is reported to be under construction. Nothing has yet been done with regard to the proposed improvements in the water-supply at Sitakund: the proceedings regarding the acquisition of certain tanks have not terminated, nor has the proposal to convey water from Chandranath Hill by iron pipes been finally decided. The Lieutenant-Governor hopes that early steps will be taken to settle the question and take the work in hand. This will reduce the large balance of the Sitakund fund referred to above.

8. On the whole, the Act appears to have been worked satisfactorily during the year in most of the places in which it was in force; and the local officers generally have taken an interest in its administration. The report submitted by the Magistrate of Balasore, however, is incomplete in several respects, and very little would seem to have been effected in that district in respect of sanitation, water-supply, or works of improvement. The Lieutenant-Governor regrets to see it reported that in Nadia a want of co-operation existed between the Municipal Commissioners and the Special Committee appointed under the Act, and His Honour trusts that a spirit of cordiality will quickly be established.

ORDER.—Ordered that a copy of this Resolution be submitted to the Government of India in the Home Department, and that copies be forwarded to the Commissioners of the Burdwan, Presidency, Chittagong, Patna, Bhagalpur and Orissa Divisions, for information.

Ordered also that a copy of the Resolution be communicated to the Sanitary Commissioner and to the Sanitary Board, and that the Resolution be published in the *Calcutta Gazette* for general information.

By order of the Lieutenant-Governor of Bengal,

C. E. A. W. OLDHAM,
Offg. Secy. to the Govt. of Bengal.

RESOLUTION REVIEWING THE ANNUAL RETURNS ON THE WORKING OF THE CHARITABLE DISPENSARIES IN BENGAL DURING THE YEAR 1896.

MUNICIPAL DEPARTMENT.—MEDICAL.

Darjeeling, the 20th September 1897.

RESOLUTION No. 782T.—M.

READ—

The Annual Returns on the working of the Charitable Dispensaries in Bengal for the year 1896.

Read also—

The Triennial Report on the working of the Charitable Dispensaries in Bengal for the three years 1893, 1894 and 1895, and the Resolution recorded thereon by Government.

The returns which were due on the 1st May 1896 were not submitted till the 18th August. No explanation of this great delay has been offered, and the Lieutenant-Governor hopes that the returns will be submitted with greater punctuality in future.

2. The number of dispensaries increased during the year from 426 to 455. Thirty-one new dispensaries were opened, of which 25 were in Class II, 2 in Class IIIA, and 4 in Class IIIB. Of these no less than seven were established in the district of Backergunge. One dispensary was closed during the year, and another, the female hospital at Dinajpur, ceased to be classed as a separate institution, owing to its statistics being included in the returns of the Sadar Dispensary. The 455 dispensaries remaining open at the close of the year are classified as follows:—

Class I	30
„ II	240
„ IIIA	93
„ IIIB	92

3. Since the close of the year, however, 23 dispensaries have been transferred from Class IIIB to Class II, thus increasing the number of Class II dispensaries to 263, and reducing that of Class IIIB dispensaries to 69. These statistics show that in Bengal there is a dispensary for every 155,308 persons. The following table shows the distribution of these dispensaries in each Division according to population:—

Division.	Population.	Number of dispensaries.	Number of population to each dispensary.
1	2	3	4
Burdwan	7,688,818	53	145,072
Presidency	7,853,566	65	120,824
Rajshahi	8,019,187	68	117,929
Dacca	9,844,127	79	124,609
Chittagong	4,190,081	40	104,752
Patna	15,811,014	59	267,983
Bhagalpur	8,582,490	39	220,063
Orissa	4,047,352	33	122,647
Chota Nagpur	4,628,792	19	243,620
Total ...	70,665,427	455	155,308

4. The above statement shows that the malarious tracts of Lower Bengal are better provided with medical relief than the more healthy districts of Bihar and Chota Nagpur. Most districts in Bengal Proper are now fairly well supplied with dispensaries situated in convenient centres, but several districts in Bihar and in the Chota Nagpur Division are still inadequately provided. For instance, in Purnea district, which has not the reputation of being healthy with an area of 4,993 square miles and a population of 1,944,658, there are only five dispensaries; while in Lohardaga, with an area of 7,140 square miles and a population of 1,128,885, there are only two dispensaries. The following table shows the chief statistics in respect of area, population, and comparative number of dispensaries and patients treated in Bengal, as compared with the corresponding figures for other Provinces for the year 1895 :—

Provinces.	Number of dispensaries.	Area of the Province in square miles.	Square miles per dispensary.	Population of the Province.	Population per dispensary.	Number of patients treated.	Number of patients per dispensary
1	2	3	4	5	6	7	8
Bengal	455*	151,543	333	70,665,427	155,308*	2,634,610*	5,900*
Bombay	317	125,144	394	18,901,123	59,625	2,383,069	7,514
Madras	498	141,189	283	35,630,440	71,547	3,639,354	7,799
Central Provinces	86	71,582	832	9,501,401	110,481	1,261,590	14,669
Punjab	257	110,667	431	20,860,913	81,171	3,269,617	12,687
North-Western Provinces	315	107,507	341	46,905,085	148,905	4,017,195	12,753
Burma	93	171,490	1,843	7,608,560	81,780	633,987	6,806

* *Note.*—The figures in columns 2, 6, 7 and 8 in the case of Bengal are those for 1896 ; in the case of the other Provinces the figures are those shown in the returns for 1895.

The causes which combine to make the average number of patients treated per dispensary in Bengal so much smaller than the corresponding number in other Provinces were fully explained in last year's Resolution. There is still however, much room for improvement in Bengal. Many defects which detract from the popularity of the dispensaries, or which deter the people from having recourse to them rather than to private practitioners and village quacks have yet to be removed. The number of dispensaries, however, is steadily increasing every year, and it is satisfactory to note that 62 institutions have been added by local bodies during the last three years.

5. *Medical Officers in charge of Dispensaries.*—Of the 455 dispensaries included in the report, 235 were in charge of Government medical officers and 220 under men unconnected with Government, against 229 and 198, respectively in the previous year. Orders were passed during the year with a view to obviate the difficulty frequently experienced by local bodies in providing for the enhanced pay earned by a Government Officer on promotion to a higher grade. Local bodies are now required to contribute a fixed sum calculated on the average pay of the medical officer of the class employed in the dispensary, and thus it will no longer be necessary to transfer an officer on his attaining a higher grade. In the last triennial report, the Inspector-General of Civil Hospitals complained that the existing system of allowing the supporters of private and quasi-private dispensaries to appoint any medical man they thought fit to take charge of the dispensary led in many cases to the appointment of incompetent men. Enquiry showed that the existing arrangements frequently led to grave abuse, and Rule 10 of the Dispensary Manual was consequently revised so as to subject all such appointments to the approval of the Inspector General of Civil Hospitals.

6. *Inspections.*—The number of dispensaries inspected by Civil Surgeons rose from 343 to 374, and the number visited four times and over, as required by Rule 29 of the Dispensary Manual, from 141 to 153. The percentage of dispensaries visited less than four times was, however, the same as in the previous year, and the Lieutenant-Governor desires that the attention of Civil Surgeons and Civil Medical Officers should again be drawn to the importance of inspecting outlying dispensaries at least once a quarter. The Lieutenant-Governor notices with pleasure that several Civil Surgeons did their duty fully in this respect, but His Honour regrets to observe that in some districts inspection work has been considerably neglected, Bhagalpur and Champaran are conspicuous examples. The Inspector-General of Civil Hospitals visited 1 dispensaries during the year against 28 in 1895.

7. The following table shows the total number of in-door and out-door patients treated during the last three years, and the ratio per cent. of this number to the population of the area concerned :—

Year.	Patients.			Population.	Ratio per cent. of total treated to population.
	In-door.	Out-door.	Total treated.		
1	2	3	4	5	6
1894 ...	43,824	2,241,626	2,285,450	70,665,427	3·23
1895 ...	45,243	2,434,536	2,479,779		3·51
1896 ...	47,109	2,637,501	2,684,610		3·79

The total number of patients treated during the year was 2,684,610, or 3·79 per cent. of the population, against 2,479,779, or 3·51 per cent. in 1895, thus showing an increase of 204,831. The daily average attendance also rose from 19,248 in 1895 to 20,276 in 1896. Comparing only those institutions which were in existence during both years, eight dispensaries show an increase of more than 3,000 patients, which is attributed in most cases to the unhealthiness of the year and the growing popularity of the dispensary. On the other hand, in sixteen dispensaries there was a falling off in attendance of more than 2,000, a decrease which is generally ascribed to the increased healthiness of the particular localities, and in some instances to frequent changes among medical officers in charge. Towards the close of the year, the Inspector-General issued a circular, addressed to all Civil Surgeons, instructing them to visit daily all dispensaries and hospitals at the Sadar station at a fixed hour to be notified throughout the district, and to prescribe for and treat the more important cases themselves. These orders will, it is expected, conduce towards the popularity of these institutions. Dr. Newman observes that the reports of medical officers for the past year show that increased interest has been taken in dispensary management, and that managing committees have frequently endeavoured to carry out suggestions made by Civil Surgeons and other inspecting officers. The Lieutenant-Governor is pleased to hear that in many cases new beds and bedding and surgical apparatus have been provided, and that some serious defects pointed out by Dr. Ross have been remedied. In the six towns noted in the margin, the explanation given for a large falling off in the number of patients treated in the various dispensaries is the healthiness of the locality. As, however, the death-rate, as shown in the Sanitary Report for 1896, was in every instance higher than in the preceding year, this explanation cannot be accepted as satisfactory.

8. *In-door patients.*—The steady increase in the number of in-door patients noticed in last year's Resolution has continued during the past year, the figures for the last three years being 43,824, 45,243 and 47,109. The average daily number of patients rose from 1,804 to 1,898, but it is still far below the number of beds provided. It is satisfactory to observe that notwithstanding the increase in the number of patients, the death-rate fell from 12·3 to 11·64. The pilgrim centres of Gaya and Deoghur show a slight increase in the number of deaths, while Puri shows a decrease.

9. *Out-door patients.*—The number of out-door patients rose from 2,434,536 in 1895 to 2,637,501 in 1896, and the daily average attendance increased from 17,443 to 18,378. These figures still falls short of the number treated in 1895 in the North-Western Provinces and the Punjab, but the steady and continuous increase each year in the number of patients gives reason to hope that the Bengal dispensaries may yet attain the standard of popularity and efficiency of the more successful institutions in other Provinces.

10. *Diseases treated.*—Of the principal diseases treated in the dispensaries, malarial fever heads the list with 506,757 cases, a falling off of 18,543 from the

numbers treated in the previous year. The highest figure (103,559) is returned by the Presidency Division; next in order come the Rajshahi, Burdwan and Dacca Divisions with 85,003, 76,268 and 74,097 cases, respectively, and Chota Nagpur last with 8,715. In all the Divisions, except Rajshahi, Dacca and Chittagong there was a reduction in the number of cases as compared with the previous year. Next to malarial fever, dysentery shows the largest number of cases, viz. 64,641 against 59,757 in the previous year. Cholera cases rose from 11,497 to 14,388, the increase occurred chiefly in the Patna Division, in some of the districts of which the disease appeared in epidemic form. Influenza also was unusually prevalent, and is said to be responsible to great extent for the increase in diseases of the respiratory organs. The number of small-pox cases rose from 164 to 185.

11. *Surgical operations.*—The division of surgical operations into major and minor has for the first time been replaced by the classification under "principal" and "secondary," the number of patients operated on being also indicated. During the year there were 122,187 principal and 1,880 secondary operations performed, against a total 119,776 for both major and minor operations in 1895. The number of persons operated on is the same as the number of principal operations: of these, 115,291 were cured, 5,207 were relieved, and 224 died. The more important operations numbered 3,262, of which 2,567 were extractions of the lens. The following officers performed more than 100 operations for cataract:—

Surgeon-Major T. R. Macdonald (Chapra)	... ...	133
Assistant Surgeon Nritto Gopal Mitter (Arrah)	... ...	125
Surgeon-Lieutenant-Colonel R. Macrae ...	... ...	118

Ditto Ram Kali Gupta (Bankipore)	... ...	102

The number of cases of lithotomy fell from 181 to 160, and of litholopaxy from 79 to 69. Cases of ovariatomy rose from 4 to 15, 14 of which, or 93·33 per cent., were successful, a result very creditable to the operators, who are named below:—

Surgeon-Captain E. H. Brown (Lady Dufferin Hospital, Darbhanga)	7
Surgeon-Major T. R. Macdonald (Chapra) ...	3
Assistant Surgeon Nobin Chunder Dutt (Lady Dufferin Hospital, Darbhanga)	3
Surgeon-Major E. S. Peck (Muzaffarpur) ...	1
Surgeon-Captain C. R. M. Green (Bankura) ...	1

12. *Sex and class of patients.*—The number of males treated shows an increase of 149,747, while the number of female patients rose from 398,994 to 423,238. The steady rise in the number of females treated during the past few years is very satisfactory, and the Inspector-General says that their number will doubtless further increase when proper separate accommodation is provided for their treatment. The number of children admitted also increased from 626,999 to 657,839. The daily average attendance of women and children as in-door patients shows a slight decrease, while that of men rose from 56·71 to 57·75. There was an increase of 109,585 in the number of Muhammadans treated, and of 92,035 in the number of Hindus.

13. *Income and expenditure.*—The following table compares the income and expenditure of the dispensaries for the past two years:—

Income.	1895. Rs. A. P.	1896. Rs. A. P.
Cash balance on 1st January	23,154 5 7	25,497 3 10
From Government—		
As salaries ... { Medical Officers	46,619 2 4	45,810 9 4
As salaries ... { Inferior dispensary establishment (including menial servants) ...	6,045 3 10	6,316 9 9
As registers and forms	4,350 6 4	4,655 0 7

Total Expenditure	7,50,911	12	8	8,29,372	11	2
Cash balance on 31st December	26,338	2	8	25,947	5	0

Including opening balance of Rs. 25,497, the total income of the dispensaries amounted to Rs. 8,55,320 against Rs. 7,77,249 in 1895, when the opening balance was Rs. 23,154. The net increase was therefore Rs. 75,728, which is accounted for chiefly by increased contributions from municipal and other local bodies under which head there is an advance from Rs. 3,89,772 to Rs. 4,28,735. Subscriptions from Europeans and Natives amounted to Rs. 2,52,277, or 29·49 per cent. of the total income, against Rs. 2,23,989, or 28·82 per cent. in 1895. Government contributed Rs. 282 less than in the preceding year. The amount received as interest on investment fell by Rs. 7,551, but the decrease is nominal, since in 1895 interest for 18 months was drawn, owing to the delay in the conversion of the 4 per cent. Government securities, and in 1896 interest for 12 months only was received. Receipts from paying patients increased from Rs 1,558 in 1895 to Rs. 1,930.

14. *Expenditure.*—Deducting the amount invested, the total expenditure rose from Rs. 7,20,600 to Rs. 7,87,554, owing chiefly to the increase in the number of dispensaries and of patients treated. The chief item of increase was establishment, due to the opening of new dispensaries in 1895 and in the past year, but the building charges also rose by Rs. 26,687, and the cost of Europe medicines by Rs. 1,743. The total cost of diet rose from Rs. 68,818 to Rs. 78,222, and the average cost of the daily diet of a patient from 1 anna 10 pies to 2 annas, owing, it is said, to the rise in the price of food-grains. It is satisfactory to observe that after meeting all these increased charges a sum of Rs. 41,818 was invested during the year against Rs. 30,311 in 1895, and the year closed with a cash balance of Rs. 25,947.

15. The office of Inspector-General of Civil Hospitals was held by Surgeon-Colonel J. C. Ross during the year, with the exception of the period from the 28th January to the 8th May, when Surgeon-Colonel Hutcheson officiated for him. The Lieutenant-Governor's thanks are due to Dr. Ross for the active interest taken by him, in spite of ill-health which has since compelled him to retire in the improvement of dispensary administration in this Province.

By order of the Lieutenant-Governor of Bengal,

C. E. A. W. OLDHAM,

Offg. Secy. to the Govt. of Bengal.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE STATIONERY DEPARTMENT FOR 1896-97.

FINANCIAL DEPARTMENT—MISCELLANEOUS.

Calcutta, the 23rd September 1897.

RESOLUTION—No. 5156Mis.

READ—

Letter No. 604B., dated the 31st July 1897, from the Board of Revenue, submitting the Report on the Administration of the Stationery Department for the year 1896-97.

The following statement compares the value of the stocks, receipts and issues of the Stationery Office for the past two years:—

	1895-96.	1896-97.
	Rs.	Rs.
Value of stores at the beginning of the year	7,39,840	7,70,778
Gain (+) or loss (—) by re-valuing the opening balance at the issue rate of the year ...	+ 71,537	+ 50,327
Corrected value of stores at the beginning of the year	8,11,377	8,21,105
Value of stores received during the year ...	25,56,706	23,74,970
Total ...	33,68,083	31,96,075
Value of stores issued during the year ...	25,97,305	24,75,017
Value of the balance in stock at the close of the year	7,70,778	7,21,058

2. There was a decline in the value both of the stores received and issued from the Stationery Office, and in that of the stores in stock at the end of the year. The value of imported stores received in 1895-96 was calculated by adding a consolidated percentage for exchange and freight, &c., to the invoiced prices of the stores taken at two shillings per rupee, while the value of the stores received in 1896-97 was, as laid down in the Government Resolution on the Report for 1894-95, calculated at the official rate of exchange for the year, *plus* 15 per cent. on the converted value for freight, packing and other incidental charges, and therefore no proper comparison can be made between the figures representing the total value of the stores received and issued during those years. Calculated on the new method, the value of the imported stores received in 1895-96 would amount to Rs. 4,57,886, showing a decrease of Rs. 93,765 as compared with the previous year.

3. The decrease in the receipts was mainly due to a falling off of Rs. 1,78,584 in the value of English articles obtained from the India Office, and of country-made paper and country-made miscellaneous articles purchased locally. Imported articles, which vary from year to year according to the estimated requirements of the officers indenting for them, show a decrease of Rs. 66,725. There was a decline of Rs. 79,302 in the value of country-made paper, which is attributed to a reduction in the rates charged by the local Mills, and to a falling off in the demands of the Printing Presses directly under the Government of India, the Governments of the Panjab, Burma and the North-Western Provinces and Oudh, and also in the demands of the Postal Press at Aligarh. The falling off of Rs. 32,557 in the value of country-made miscellaneous articles, was due to smaller purchases of China ink, writing materials, miscellaneous articles and binding materials, while the value of English articles locally purchased decreased by nearly one-half.

4. The issues to Local Governments, including Vernacular Departments, show a net decrease of Rs. 1,08,991. The largest reduction, amounting to Rs. 1,10,214, took place in the supplies to the North-Western Provinces and Oudh; while small increases occurred in the issues to Bengal, Assam and Upper Burma. The value of stationery consumed by the Officers and Departments of the Government of India fell off by Rs. 55,368. An explanation of

these fluctuations will be contained in the reports which the Superintendent submits to the several Local Governments and to the Government of India.

5. The value of the stores in stock at the close of the year, though showing a decrease of Rs. 49,720 as compared with 1895-96, was still in excess of the average consumption for three months. In reference to the remarks made in paragraph 4 of the Resolution of last year, the Superintendent observes that it is not possible to so reduce the closing balance as not to exceed that average, because the supply of English goods for the following year begins to arrive in September, and continues to come in till March, so that at the end of the year, there must always be a larger stock of English stores than would represent three months' consumption. The Lieutenant-Governor is pleased to learn that the stock of country-made articles at the close of the year did not exceed two months' consumption

6. The supply of water-marked paper for use with adhesive Court-fee stamps fell off by 797 reams, and its value by Rs. 2,590. A decrease occurred in Bengal and the Central Provinces; while Assam, the Panjab, the Hyderabad Assigned Districts, and the Native States in Orissa show an increase. Since the close of the year, the Government of the North-Western Provinces and Oudh has begun to make use of this paper.

7. The income and expenditure of the Stationery Department amounted to Rs. 5,044 and Rs. 1,03,604, against Rs. 4,655 and Rs. 1,04,483, respectively, in 1895-96. The advance in the receipts was mainly due to a larger realisation of the 10 per cent. commission on the sale of stationery supplied on payment, a larger quantity being thus sold during the year, while the decrease in the charges is chiefly attributable to a falling off in the amount paid on account of freight. The decrease in the expenditure under the last-named head was mainly caused by the despatch of fewer packages by steamer to the State Railways in Bombay and to the East Coast Railway in Madras, and by the fact that a smaller quantity of paper was sent from the Mills to the Presses in the North-Western Provinces and Oudh, the Panjab, and the Postal Press at Aligarh. The increase of Rs. 2,361 under "Landing and shipping charges" is accounted for by the adjustment of some of the charges under this heading by the Accountant-General against the contingent grant of the Superintendent's office.

8. The total value of the different articles of stationery issued, exclusive of deficiencies in stock-taking and miscellaneous adjustments, amounted to Rs. 24,71,183, against Rs. 25,92,587, showing a decrease of Rs. 1,21,404, which is attributable chiefly to a falling off in the demands of the Presses, and to a reduction in the rates for country-made paper. The largest decreases occurred under writing paper (Rs. 48,123), printing paper (Rs. 99,804) and leather (Rs. 12,357). On the other hand, there is a noticeable increase under coloured paper (Rs. 10,105), blank books (Rs. 8,142), and "other articles" (Rs. 16,502). The largest reduction in the requirements of the Printing Presses occurred in the North-Western Provinces and Oudh, where there was a decrease of 9,152 reams, valued at Rs. 1,10,919. In Bengal, there was a falling off in quantity of 1,256 reams, but the value rose by Rs. 7,059, on account of some of the descriptions of paper supplied being of a special size and of greater weight.

9. In accordance with the instructions contained in paragraph 4 of the Resolution of the Government of India, Finance and Commerce Department, No. 371 S.R., dated 22nd January 1895, two statements have been appended to the present Report, showing the papers and miscellaneous articles of Indian manufacture substituted for those of European-make, with the financial results obtained. From these statements it appears that the substitution of country-made paper and miscellaneous articles resulted in a net gain during the year of Rs. 1,98,116 in the case of paper, and of Rs. 8,986 in the case of other articles. A saving was effected in all the different descriptions of paper, except in the kinds known as white printing, white cartridge and coloured mottled grey, under which a loss is shown of Rs. 14,551, notwithstanding the fact that the rates of white printing and white cartridge paper were reduced by the local Mills during the year. The Lieutenant-Governor desires that, before entering into contracts with the local Mills for the supply of papers of these descriptions during 1898-99, the Standing Committee appointed to

consider the questions that may arise in connection with the substitution of country-made for English stationery, and with the settling of contracts for Indian-made stationery, will decide whether these papers should not be obtained from England, unless the Mill-owners are prepared to reduce the rates sufficiently to ensure Government against loss.

10. The supply of Newspapers and Periodicals through the Stationery Office continued to work well. There was a decrease of 130 in the number of newspapers supplied during the year, but books and periodicals show an advance of 1,998 and 97, respectively. The total payment on account of newspapers and periodicals amounted to Rs. 1,20,324, against Rs. 1,06,671 in 1895-96, showing an increase of Rs. 13,653. The excess expenditure was incurred mainly by the Government of the Panjab, the Home Department of the Government of India and the Government of Bengal.

11. The details of the work in the Form Branch will, as usual, be given in the Report on the consumption of stationery by the various Officers under the Government of Bengal, and will be reviewed when that Report is received. The total receipts and issues of standard and special forms, exclusive of the Survey and Settlement forms printed and supplied direct by the Superintendent of Government Printing, Bengal, show a considerable decrease, as compared with the previous year. The falling off in the receipts is attributed to the fact that a large number of High Court Civil Process forms, which were not due till 1896-97, were received in 1895-96, and that several other forms, which were due last year, were not received until after its close. The decline in the issues was less marked than in the previous year, but was still considerable, in view of the heavy demands for famine forms.

12. The Receipts and Charges of the Form Branch amounted to Rs. 36,757 and Rs. 48,578, against Rs. 37,084 and Rs. 47,746 in 1895-96. The decrease in the Receipts was mainly due to a smaller demand for forms by the local funds in Bengal and Assam, while the increase in the Charges is attributable to increments of salaries, payment of grain compensation allowance to menials, and the entertainment of an extra establishment for the removal of forms to the new building.

13. The Lieutenant-Governor notices, with satisfaction, that an important change was introduced during the year under review in the system of checking indents. It was decided by the Board of Revenue that demands by Officers over 10 per cent. of the number of forms previously supplied to them are not to be allowed without satisfactory explanations, and a memorandum of questions was compiled for the purpose of obtaining the necessary explanations. This measure is said to have already effected a large saving in all classes of forms.

14. The acknowledgments of the Lieutenant-Governor are due to Mr. Beames, who held the office of the Superintendent of Stationery throughout the year, for his administration of the Department.

By order of the Lieutenant-Governor of Bengal,

C. E. A. W. OLDHAM,

Offg. Secretary to the Govt. of Bengal.

STOCKS OF RICE IN AND AROUND CALCUTTA.

No. 2750Stats.—The following is published for general information.

M. FINUCANE,
Secretary to the Government of Bengal.

STATISTICS OF THE SEA-BORNE TRAFFIC OF CALCUTTA IN FOOD-GRAINS.

No. 2706 Statistics.—The following memorandum and statements are published for general information.

M. FINUCANE,
Secy. to the Govt. of Bengal.

STATISTICAL DEPARTMENT,
The 28th September 1897.

Memorandum.

The sea-borne import and export traffic of Calcutta in food-grains during the week ending the 14th September 1896, and the corresponding period of 1897, is shown in the following statement:—

	8TH TO 14TH SEPTEMBER			
	1896.		1897.	
1	2	3	4	5
	Cwts.	Mds.	Cwts.	Mds.
Imports.				
From Foreign Ports ...	.....	...	7,059	9,608
„ Indian „ ...	58,232	79,260	89,115	1,21,295
Total ...	58,232	79,260	96,174	1,30,903
Exports.				
To Foreign Ports	61,835	84,164	37,414	50,924
„ Indian „	33,649	45,800	4,984	6,784
Total ...	95,484	1,29,964	42,398	57,708

Imports.—The staples comprising the import traffic are shown in the table below and the figures for the period are compared with those for the corresponding period of last year:—

	8TH TO 14TH SEPTEMBER			
	1896.		1897.	
1	2	3	4	5
	Cwts.	Mds.	Cwts.	Mds.
Food-grains.				
Rice	34,699	47,229	87,294	1,18,817
Paddy	21,921	29,837	7,292	9,925
Wheat	.....	.....	.....	.....
Grain and pulses	1,612	2,194	1,428	1,943
Other food-grains, such as jowar, barley, oats, &c.	.....	.....	160	218
Total ...	58,232	79,260	96,174	1,30,903

Imports.—During the period under report, the imports of rice amounted to 87,294 cwts., against 34,699 cwts. in the second week of September 1896. The amount imported from Burma was 59,343 cwts., and that from the Straits Settlements 6,852 cwts., both against nil in the corresponding period of last year. Shipments of rice from Chandbali fell from 28,590 cwts. to 16,920 cwts., and those from Balasore from 6,109 cwts. to 1,328 cwts. The imports of paddy declined from 21,921 cwts. to 7,292 cwts., owing entirely to the receipt of smaller consignments from Balasore and Chandbali.

Exports.—In the following statement the total quantity of each kind of food-grain exported by sea during the week ending 14th September 1897 is compared with that for the corresponding period of 1896 :—

	8TH TO 14th SEPTEMBER			
	1896.		1897.	
1	2	3	4	5
Food-grains.	Cwts.	Mds.	Cwts.	Mds.
Rice	56,990	77,570	19,241	26,189
Paddy	.....	.....	.....	.....
Wheat	209	284	2,460	3,348
Gram and pulses	34,661	47,177	17,791	24,216
Other food-grains, such as jowar, barley, ôats, &c.	3,624	4,933	2,906	3,955
Total ...	95,484	1,29,964	42,398	57,708

Foreign Ports.

The exports of rice from Calcutta to foreign ports fell from 51,334 cwts. in the second week of September 1896 to 18,483 cwts. in the period under report, owing chiefly to a decline in the exports to Mauritius, which received 6,676 cwts., against 14,791 cwts., and to the cessation of exports to Reunion and Muscat which received 20,551 cwts. and 3,506 cwts. respectively in the corresponding period of last year. The exports of gram and pulses rose from 6,804 cwts. to 15,809 cwts., the shipments to Mauritius having increased from 5,685 cwts. to 12,224 cwts.

Indian Ports.

As regards Indian ports, the exports of rice during the second week of September 1897 amounted to only 758 cwts., against 5,656 cwts. in the corresponding period of last year. The shipments for Bombay were 341 cwts., against 4,760 cwts. in the second week of September 1896. Owing chiefly to the despatch of 1,481 cwts. to Rangoon and 600 cwts. to Madras, against nil in both cases in the same period in 1896, the trade in wheat showed an improvement of 2,251 cwts. The exports of gram and pulses, however, were less by nearly one-half, viz., from 34,661 cwts. to 17,791 cwts., the decrease being due to the absence of consignments to Bombay, which drew 23,264 cwts. in the second week of September 1896, and to a decrease in the quantity sent to Madras from 3,243 cwts. to only 517 cwts.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

STATISTICS OF THE SEA-BORNE TRAFFIC OF THE MINOR PORTS IN BENGAL IN FOOD-GRAINS.

No. 2753 Statistics.—The following memorandum and statements are published for general information.

STATISTICAL DEPT.,
The 28th September 1897.

M. FINUCANE,
Secy. to the Govt. of Bengal.

Memorandum.

THE comparative statements below give statistics of the import and export trade of the minor ports of Chittagong, Narayanganj, Balasore (including both Balasore and Chandbali), Cuttack, and Puri during the week ending 7th September 1897, as compared with the trade of the corresponding period of 1896 :—

	1897	9,656	21,299	30,955	42,133

The total imports of rice into Chittagong during the week under report amounted to 2,498 cwts., the whole of which came from Burma, against nil in the 1st week of September 1896. The export trade of Balasore in food-grains during the period under review was confined to Calcutta and fell by 25,475 cwts., viz., from 46,704 cwts. to 21,229 cwts., the decreases in the different staples being 10,890 cwts. under rice, 13,222 cwts. under paddy, and 1,363 cwts. under gram and pulse. From False Point, 7,318 cwts. of rice were shipped to Mauritius against nil in the first week in September 1896, while only 2,338 cwts. went to Colombo against 14,490 cwts. in the first week in September 1896. Cochin, which received 1,616 cwts. of rice in the week ending 7th September 1896, drew nothing in the corresponding week of 1897.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

EXPORTS OF FOOD-GRAINS BY THE EAST INDIAN RAILWAY.

No. 2751 Statistics.—The following statement shows the quantity of rice and other food-grains exported by the East Indian Railway from Calcutta and Howrah during the period from 1st January to 18th September 1897, both days inclusive, to have been 94,76,233 maunds. The destination of 92,67,910 maunds is specified. Of this quantity 30,39,337 maunds were carried to the North-Western Provinces and Oudh, 40,51,565 maunds to stations in Bengal, 14,44,782 maunds to the Central Provinces, and the rest 7,32,226 maunds to other provinces. In the last week of the period, 16,150 maunds were exported to the North-Western Provinces and Oudh, and 25,865 maunds to Bihar.

Statistical Department,
The 28th September 1897.

M. Finucane,
Secy. to the Govt. of Bengal.

Statement showing the quantities of rice and other food-grains exported from Howrah and Calcutta (Chitpur Kidderpore Docks, and Port Trust Railway) by the East Indian Railway, from 1st January to 18th September 1897.

EXPORTS OF FOOD-GRAINS BY THE EASTERN BENGAL STATE RAILWAY.

No. 2752 Statistics.—The following statement shows the quantity of rice and other food-grains exported by the Eastern Bengal State Railway from Sealdah and Calcutta during the period from 1st January to 11th September 1897, both days inclusive, to have been 11,27,966 maunds. The destination of 11,23,915 maunds is specified. Of this quantity 8,91,954 maunds were carried to stations in Bengal Proper, and 90,996 maunds to Bihar and Chota Nagpur, 44,415 maunds to the North-Western Provinces and Oudh, 90,467 maunds to places in Assam, and the rest (6,083 maunds) to other provinces.

STATISTICAL DEPARTMENT,
The 28th September 1897.

M. FINUCANE,
Secretary to the Govt. of Bengal.

Statement showing the quantities of rice and other food-grains exported from Sealdah and Calcutta (Port Trust Railway, Chitpur and Kidderpore Docks), by the Eastern Bengal State Railway, from 1st January to 11th September 1897.

COMPARATIVE STATEMENT OF THE PRICES OF FOOD-GRAINS.

RETAIL prices of common rice and other food-grains in the several districts of Bengal and in the neighbouring districts of the North-Western Provinces during the first and second fortnights of August and the first fortnight of September 1897, as compared with the corresponding fortnights of August and September 1896, are published for general information. The latest available prices of common rice in Cachar and Sylhet are also published.

M. FINUCANE,
Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT, *the 28th September 1897.*

Quantity obtainable for a rupee.

Singhbhum.—Rainfall at Chaibassa ·84, Chakradharpur ·27, Kalikapur 1·10, Ghatsila ·21.

General Summary.—The rainfall during the week was generally light, but in parts of North and East Bengal it was heavy. The general agricultural prospects of the Province continue favourable. The transplantation of winter rice is nearly over and the weeding is now going on. The harvesting of early rice, jute and *bhadoi* crops is still going on. Floods are reported to have done some damage to the standing crops in Mymensingh and Tippera. The preparation of lands for the *rabi* crops is going on in some districts. In Bihar the prices of new rice, *makai* and *marua* have fallen; no important change in prices has yet taken place elsewhere. Relief-works now remain open only in Champaran, Darbhanga (108 persons only), Bankura and Manbhum. The price of grain on which the famine wage is based is in Champaran (Indian-corn) 19½ seers, in Darbhanga (Indian-corn) 15 seers, in Bankura (rice) 8⅔ to 12⅔ seers, and in Manbhum (rice) 8½ seers.

Numbers on Government relief on Saturday, the 25th September—

	Week under report.	Preceding week.

The total fall from 1st January to 25th September 1897 ...		48 86
The average fall of the corresponding period for 24 years, Surveyor-General's Office		57·75

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the mometers are verified and the readings have been corrected to a standard constructed and verified at the r Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet re the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, nerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; d, drizzling rain; p, passing temporary showers; t, thunder; ⌓ dew.

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE CHOTA NAGPUR DIVISION FOR THE YEAR 1896-97

GENERAL DEPARTMENT—MISCELLANEOUS.

Darjeeling, the 29th September 1897.

RESOLUTION—No. 2770.

READ—

The Annual General Administration Report of the Chota Nagpur Division 1896-97.

Read also—

The Resolution of Government on the Administration Report of the Chota Nagpur Division for 1895-96.

MR. C. R. MARINDIN was in charge of the Division from the 1st April to the 1st July 1896, and again from the 2nd August to 9th December, Mr. Toynbee holding charge in the interval.

Mr. A. Forbes, by whom the report is submitted, assumed charge on the 9th December, and retained it for the rest of the year.

Messrs. Streatfeild, Herald and Bompas were in charge, respectively, of the Lohardaga, Hazaribagh and Singhbhum districts throughout the year. There were three changes of District Officers in the Manbhum, and two in the Palamau district during the course of the year.

2. *Tours and inspections.*—Mr. Marindin spent 31, Mr. Toynbee 31, and Mr. Forbes 35 days on tour.

Of the District Officers, Mr. Streatfeild was 122, Mr. Herald 117, and Mr. Bompas 114 days on tour. Mr. Cargill, who was in charge of the Palamau district during the hot weather and rains, spent 75 days on tour; while Mr. Renny, who was in charge of the same district during the cold weather, was absent from head-quarters only 41 days. This is to be regretted, seeing that the reports on the scarcity in his district were of a very alarmist character, which would have probably been modified had he made himself thoroughly acquainted with the actual facts by more protracted touring in the mufassal. The prescribed inspections of district offices and treasuries were made by the Commissioner and District Officers, except those of the district office of Ranchi and the treasury at Daltonganj by the Commissioner, and of the district treasury at Manbhum by the Deputy Commissioner. The extent to which Wards' and Government estates were inspected and their accounts examined by District and Subdivisional Officers has not been mentioned.

3. *Weather and crops, public health, material condition of the people.*—The total rainfall was somewhat in excess of the normal in Singhbhum and Hazaribagh, while in Lohardaga, Palamau and Manbhum there was a marked deficiency, but everywhere it was badly distributed. The ante-monsoon showers which enable the lands to be prepared for the *aus* rice and *bhadoi* crops were short in some districts and failed in others, in April and May, thus retarding the sowing and germination of these crops. In June the rainfall was excessive. In August the monsoon rains were short; they unexpectedly dwindled away in September, and in October the Hathiya rains failed altogether, thus causing failure of the winter rice crop.

As the Commissioner remarks, a more hurtful distribution of rainfall, with effects more disastrous, cannot well be imagined. The results were that the outturn of the *bhadoi* crops was about 10 annas in Palamau and 8 to 8½ annas elsewhere, that the winter rice yielded only 5 annas in Palamau, 7 annas in Manbhum, 8 annas in Hazaribagh, and about 10 annas in Singbhum. The *rabi* crops were also contracted in area and deficient in outturn, while the flower of the *mohua* tree, which is an important source of food-supply in this Division, was damaged by severe storms of wind and rain at the most critical time, and yielded only an outturn of from 6 to 12 annas in the different districts. The opium, tobacco, jute and oilseed crops were also seriously short of the average.

In the preceding year the crops were likewise poor, being only about $\frac{11}{16}$ths, while the year before again they were about $\frac{7}{8}$ths of the full average. Prices of food-grains ruled unprecedentedly high in 1896-97, that of common rice

having more than doubled within the past two years, while the wages of labour showed a tendency to decrease rather than the reverse. Public health was on the whole somewhat worse than in the preceding year. The Commissioner infers from these premises that the condition of the people of this Division was worse during the year under review than in the famine year of 1874, or in any subsequent year since that time, and the Lieutenant-Governor is inclined to agree with him.

But on the other hand, the year was not altogether without some consolatory features. Though all the relief that was required was given, so that no deaths from starvation occurred, yet the State expenditure that was found to be necessary was far less than in the famine of 1874. Private trade did all, or all but all, that was required to supply the food wants of the people in these the most remote and inaccessible districts of these Provinces, and the receipts from excise, stamps and income-tax increased, while there was but little addition to the reported number of offences against person and property. If, notwithstanding the most formidable combination of adverse circumstances that can, as the Commissioner says, be imagined, the people of this Division could spend more than nine lakhs of rupees on license fees for country spirits, while the total amount of the land revenue is only half that sum, they cannot have been reduced to great extremities; and if they could pull through such a year as the present with so little help from the State, it may be reasonably hoped, as time goes on, as education spreads, and as communications are opened up and the resources of the Division are developed, that its population will have a happier future before them. It would also appear from the facts mentioned that the Division has advanced in capacity to meet calamities of season and in general prosperity during the past quarter of a century.

4. *Emigration and Immigration.*—One of the effects of the prevailing scarcity was that there was an increase in the number of registered emigrants from 15,350 in 1895-96 to 22,690 in 1896-97. The increase took place in all districts except Manbhum, from which a larger number of coolies went to the labour districts as free emigrants. Immigration was confined to coolies from Bihar and the North-Western Provinces, who came to labour in the collieries in the Gobindpur subdivision, and to coolies employed on the railway lines.

5. *Manufactures, Mines, &c.*—The chief articles of manufacture in the Division are—lac, tea, tussur silk, cloths, soapstone, bowls and plates. The year was unfavourable to the lac industry. The total outturn was 4,900 maunds, valued at Rs. 23,000, against 9,000 maunds, valued at Rs. 1,40,080 in 1895.

The weather was also unfavourable to tea. In Lohardaga, of 23 gardens at work, 22 furnished returns, which show that the outturn fell from 1,110,312 pounds in 1895 to 586,524 pounds in 1896-97.

6. *Coal-mines.*—There is a large number of coal mines in the Gobindpur subdivision. The industry received a considerable check during the year owing to the dulness of the coal market, and no less than 40 of the collieries stopped work. The output in 1896 was 1,229,985 tons, against 1,914,843 tons in the preceding year.

Dr. Saise's report on the coal-fields in Palamau shows that there is a large quantity of good useful coal fit for locomotive and steaming purposes, for brick-burning and lime-burning, available in that district at comparatively shallow depths.

7. *Trade and Commerce.*—The statistics of trade and commerce show, as might be expected, a large increase in the imports and a decrease in the exports of food-stuffs, except in Singbhum, where the crops were comparatively good.

8. *Civil Justice.*—There was a small decrease in the number of ordinary civil suits and an increase in the number of Small Cause Court suits. The number of witnesses detained for more than two days increased from 9·9 to 10·3 per cent.

The number of cases disposed of by Munsifs was 6,328, against 6,149 in the preceding year. The number of witnesses detained for more than two days was 9·2 per cent. against 10·8 in the preceding year.

The Lieutenant-Governor regrets to observe that 6·09 per cent. of the witnesses in rent suits were detained for more than two days, against 3·7 per cent. in 1895. No explanation has been furnished.

9. *Crime.*—There was an increase in cognizable crime of 598 cases from 8,301 in 1895-96 to 8,899 in 1896-97, and of 588 cases, from 4,131 to 4,719, in non-cognizable offences. The increase is attributed partly to high prices and scarcity and partly to better reporting. It is observed, however, that the increase in cognizable crime was proportionately greater in Singhbhum, where there was no distress, than in Manbhum, where it was severe, while crime of this class actually decreased in Lohardaga. The results of sessions trials show a percentage of 72·2 convictions against 68·4 in 1895. The percentage of witnesses detained for more than two days by Stipendiary Magistrates was 5·6 against 5·08 in 1895. There is room for improvement in this matter, especially in Lohardaga and Gobindpur.

Honorary Magistrates detained only 4·5 per cent. of the witnesses brought before them for more than two days against 12·2 per cent. in the preceding year, and here again the largest ratio of detentions was in Gobindpur and Lohardaga.

10. *Land Revenue Administration.*—Though this division has an area of nearly 27,000 square miles, and a population of more than 4½ millions, yet the total annual current land revenue demand is only four lakhs and sixteen thousand rupees, a sum which, as already remarked, is less than half the voluntary outlay of the people on the Government duty on country spirits. The land revenue yields about one-third of an anna per acre, and one-and-a half annas per head of the population, and equals only about one-fourteenth part of the rent. If, as some authorities maintain, a permanent settlement and a light assessment of land revenue ensure the prosperity and contentment of the people, the inhabitants of Chota Nagpur should be conspicuously happy in both of these respects, but on the contrary they are in fact notoriously poorer than the population of any other part of these provinces, except perhaps Behar, and agrarian discontent is so rife in most of the districts of the division that it has recently been found necessary to pass a special Act to cope with it.

With so trifling an amount of land revenue to be realised, it is no matter for surprise that the collections are generally good, though in the year under review they fell short owing to the poor outturn of the crops. The total current collections amounted to Rs. 3,74,642 against Rs. 3,89,729 in 1895-96, and the percentage of collection to demand from 95·7 to 90·02. The percentages of collections on demand in Hazaribagh, Lohardaga and Palamau fell from 99·71, 96·44 and 83·33 to 97·89,99·76 and 66·51, respectively.

11. *Road Cess, Certificates, &c.*—Owing to the lowness of the revenue as compared with the rents of the division, the road cess demand, current and arrear, was very nearly as high as the land revenue demand, the former being Rs. 4,22,780, and the latter Rs. 4,34,401. The road cess collections amounted to Rs. 3,42,789. The Lieutenant-Governor notices with pleasure that there was a marked falling off in the number of certificate cases instituted.

12. *Wards' and Attached Estates.*—There were 71 wards and encumbered estates under the management of Government officers, against 62 in the preceding year.

The total demand of these estates, current and arrear, was Rs. 12,88,523, and the total collections Rs. 6,52,225, or 50·6 per cent. of the demand. The collections were good in Singhbhum and Lohardaga, and, like those of land revenue, bad in Palamau. The total amount expended from funds of wards' and encumbered estates on improvements of the properties was only Rs. 10,266, or less than 1 per cent. on the demand, and than 2 per cent. on the collections.

The Lieutenant-Governor is aware that many of these estates are involved in debt, and that they cannot afford a large outlay on improvements, but His Honour would again called the attention of managers and other local officers to the fact that if it be incumbent on Government to pay off with reasonable expedition the debts of spendthrift proprietors whose estates it undertakes to manage, the duty is still more imperatively imposed on it to see that these properties are properly managed, and that a fair share of the income is expended for the improvement of the estates, and to the benefit of the tenantry and of the future proprietors.

13. *Excise, Stamps, Income-tax.*—There was an increase in the excise revenue amounting to Rs. 50,361, in spite of bad crops. The increase was shared

by all districts except Palamau, and the Commissioner has made no attempt to explain it. It is partly normal, following still larger increases of Rs. 78,105 and Rs. 70,830 in the two preceding years, and may be partly due to better settlements and more effectual prevention of smuggling, but still the facts that there was an increase and that the excise revenue is more than double the land revenue indicate, as above remarked, that the people cannot generally have been reduced to a state of extreme poverty.

There was also an increase of Rs. 16,185 in the stamp revenue, which is attributed to an increase in the number of documents executed owing to high prices and other special causes. The income-tax returns likewise show a small increase of Rs. 7,838, which is assigned to the discovery of new assessees and to the assessment of contractors and others working on the new Cuttack-Midnapore-Calcutta extension of the Bengal-Nagpur Railway.

14. *Communications.*—The earthwork of the Sini-Midnapore Railway was almost completed, and the Baroon-Palamau branch of the Mogalserai Railway was sanctioned during the year.

The Grand Trunk Road and other important roads, which are maintained by the Public Works Department, are reported to have been generally kept in fair order.

The Deputy Commissioner of Palamau complains that there is no other district in Bengal in which roads have been so neglected for want of funds; he took the opportunity of the famine to repair some roads and to open out others, but thinks that they will be of little use unless Government comes forward, after the famine is over, to help with funds for the construction of bridges. Considering that the total land revenue of his district is little more than a lakh of rupees, its claim to help from funds collected from other parts of the Province is not a very strong one.

15. *Education.*—The number of public schools in the Division fell from 2,812 to 2,674, and of pupils from 76,277 to 74,909. The decrease occurred chiefly in primary schools, especially in Lohardaga, and is attributed in that district partly to the failure of the crops and consequent "withdrawal of local support," and partly to the District Officer having "set his face against the multiplication of schools in one village and the continuance of schools in places, or on standards of education, in which they had no reasonable chance of success."

Education is very backward in this Division; only one boy in every five of a school-going age is at school; and whatever the cause of the decline in numbers during the year 1895-96 may have been, the result itself is to be deplored. The famine cannot, in the Lieutenant-Governor's opinion, have had much to do with the matter, for the numbers of pupils increased in Palamau and Manbhum, where the distress was most severe, while they fell off in Singhbhum, where there was no distress.

Though the numbers of pupils decreased, the cost of education rose from Rs. 3,57,018 to Rs. 3,59,303.

16. *Dispensaries and Hospitals.*—The number of dispensaries maintained was 18 against 17 in the previous year, one new dispensary having been opened at his own cost by Rai Gobinda Prasad Singh Bahadur, zamindar of Ranka. The inmates of the leper asylum at Purulia, which is under the German Evangelical Lutheran Mission, are said to have increased largely owing to an influx of famine-stricken lepers.

A new zanana hospital was opened at Ranchi after the close of the year, and the numbers of out-door patients treated in the zanana hospital at Hazaribagh increased from 1,273 in 1895-96 to 1,726 in 1896-97.

17. *Local Self-Government Institutions.*—The Local Self-Government Act is not in force in the Division, but Mr. Forbes thinks that in certain matters the administration would be strengthened and improved by the introduction of it. The Municipalities and District Road Committees are reported to have generally worked well.

18. *State of Public Feeling.*—In Hazaribagh the Deputy Commissioner says the people know and care nothing of affairs beyond the boundaries of their own villages. In Lohardaga there was some bad feeling between Hindus and Muhammadans in connection with a *Bakr-Id* disturbance, but it has completely subsided. In Palamau the people, high and low, are said to be as loyal as can

be wished, while in Singhbhum the only topics in which public interest was felt were the return of Kumar Narpat Singh to his estate and the future rights of the people in the protected forests.

19. *Conduct of the Zamindars.*—In last year's report Mr. Grimley spoke highly of the conduct of the zamindars of the Division. The Lieutenant-Governor regrets that Mr. Forbes' account of them is by no means so favourable. They are, he says,—

"as a rule open-handed and loyal, but, with a few honourable exceptions characteristically indifferent to the interests of their tenants, and specially in the district of Hazaribagh and amongst the smaller landholders in Lohardaga this indifference is not infrequently a synonym for downright oppression."

Of Lohardaga Mr. Herald writes:—

"On the whole the raiyats of this district are more ground down and oppressed by their landlords than in any of the twelve districts of which I have experience. That they submit to this is due to various reasons—natural temperament, poverty, want of combination, ignorance of any better state of existence. The typical system which prevails is to put up a village to auction among candidates for a *ticca* or temporary lease. Whilst in Government managed estates an attempt is made to secure fair dealing to the raiyats by granting the lease at a sum less than the annual rental of the village, no such restriction is observable in many of the *ticcas* granted by private zamindars.

* * * * * * * * * *

"In Lohardaga the Maharaja of Chota Nagpur, as usual, displayed exemplary liberality in all public matters, having contributed Rs. 3,000 to the Famine Charitable Relief Fund, and also subscribed liberally towards the construction of the Ranchi Dufferin Zanana Hospital. Kumar Jagat Mohan Nath Sahi Deo, the Maharaja's brother, has also contributed liberally to the Famine Fund, but other zamindars have not as a rule risen to the occasion. The most unsatisfactory feature about the conduct of these latter is their unfair dealing with regard to land and right to land which is unhappily almost universal. One zamindar of a whole pargana is said to have sold his estate twice over to two different parties for its full value, and is now giving possession to neither, living on such payments as he is able to force out of his quondam raiyats."

In Palamau the zamindars with one or two exceptions, came forward to assist the officers of Government in combating the scarcity and in aiding their tenants. The Deputy Commissioner writes:—

"The zamindars of Palamau, with an unfortunate exception or two, have come to the fore in a spendid manner to show both their loyalty to the Government and their deep sympathy with their suffering tenants. In January last, when it was decided on to start relief works, and rice was wanting to pay the relief workers, the zamindars named in the margin came forward on the invitation of the Commissioner of the Division, and offered to make loans to the Government out of their private stores, to be repaid at the pleasure of Government at the then existing bazar rate. The loans were made and most were repaid in cash towards the end of March when rates had risen enormously. Thus by their generosity the zamindars suffered pecuniarily, but not a note of discontent escaped them."

In Manbhum the zamindars are reported to be apathetic in regard to both their own and their raiyats' interests. None of them is particularly mentioned for good work in connection with the famine. The same remark applies to Singhbhum.

20. In the concluding paragraphs of his report, the Commissioner gives a brief summary of famine relief operations which it is not necessary to notice here, as they will be reviewed separately, and he draws attention to the desirability of constructing the Damudar Branch Railway. This also is a subject which it would be out of place to discuss in a Resolution on the Administration Report of the year.

21. *Conclusion.*—The Lieutenant-Governor desires to thank Messrs. Marindin, Toynbee and Forbes for their careful and successful administration of the Division, and Mr. Forbes for his full but not diffuse report, from which the following extracts are published for general information.

By order of the Lieutenant-Governor of Bengal,

M. FINUCANE,

Secretary to the Government of Bengal.

Extracts from the Annual General Administration Report of the Chota Nagpur Division for the year 1896-97.

III.—WEATHER AND CROPS.

17. In order to illustrate the general character of the weather and the effect on the crops I have had the following statement prepared, showing the actual as compared with the normal rainfall, month by month, in each district. The figures of rainfall from May to October inclusive are taken from the Appendix to the Final Report of the Director of the Department of Land Records and Agriculture on the winter rice crop of Bengal, dated 8th December 1896, which differ slightly from those given in the *Calcutta Gazette*, and are, I presume, more correct than the latter. For the remaining months the figures are those of the *Calcutta Gazette* :—

Month.		Hazaribagh.		Lohardaga.		Palamau.		Manbhum.		Singhbhum.		Average for the Chota Nagpur Division.	
		Actual.		Actual.	Normal.	Actual.	Normal.			Actual.			
							7				11	12	13

18. It will be seen that the total rainfall for the year was considerably in excess of the normal in Singhbhum and slightly in excess in Hazaribagh, while in Lohardaga, Palamau, and Manbhum there was a marked deficiency. Taking the Division as a whole, there was more rain than in the preceding year, and but a slight falling off from the normal. But the distribution of the rain was, as regards localities, capricious, and in respect of seasons most untimely and disastrous. The *ante*-monsoon showers in April and May, which enable the lands to be prepared for the *aus* paddy and other *bhadoi* crops, fell in less than half their usual quantity, and in some places were entirely wanting, with the consequence that sowings were everywhere seriously retarded and germination of the seed impaired. Following this, in June in all the districts (except Palamau) and in July in Hazaribagh and Singhbhum, the fall was excessive, and this—detrimental, as is well known, to even healthy *bhadoi*—did more harm than good to the weakly crops. So far, however, there appeared little need of apprehension, for the heavy rain in June and July augured well for the principal crop of the year, viz., the winter rice. But in August, and in a still more marked manner in September, the monsoon unexpectedly withered away, while in October the *hateya* rains entirely failed. Such of the *bhadoi* as had survived the heavy rain of June and July now fell off from want of sustenance, while the winter rice, except on the low lands, was doomed before it came into ear. A more hurtful distribution of the rainfall, with results so disastrous, cannot well be imagined. The outturn of *bhadoi* proved best in Palamau, where the fall in June and July had been considerably less than elsewhere, the yield there being estimated at 10 annas. In the other districts the crop was only an 8 annas to an 8½ annas one. The winter rice, on the other hand, fared worse in Palamau than in the other districts—the shrinkage in the rains having commenced there in July, earlier than elsewhere—giving, in that district, only a

5 annas' outturn. In Manbhum the estimated yield was 7 annas; in Hazaribagh and Lohardaga 8 annas; while in Singhbhum alone did it reach 10 annas. The unfavourable result in Lohardaga is, according to the Deputy Commissioner, partly accounted for by a peculiar local custom among the Kols, which is thus described by Mr. Streatfeild—

"Owing to this rain (viz., the last fall, in the middle of September) having fallen before the *Karma Puja* (a Kol agricultural festival), the water was, according to local custom, allowed to run off the fields instead of being kept in. Had this rain been three days later, or had the *Karma Puja* not happened to be late owing to the doubling of the month of *Jeyt*, the water would have been preserved, with, I believe, the result that the upland crops would have been considerably better than they turned out. As it was, the crop on the high lands was a very poor one indeed, though in the low lands, which bear the heaviest crops, it was fair."

19. But the misfortunes of the cultivators did not end with the loss of their *bhadoi* and rice crops. The untimely cessation of the monsoon, and especially the absence of rain in October, left hardly any moisture in the soil for the *rabi* sowings, which were, in consequence, everywhere much contracted in area. Thus Mr. Herald estimates that in Hazaribagh they were only one-fourth of their usual extent. There was fortunately an unexpected and fairly good fall of rain towards the end of November, and this was taken full advantage of for *later* sowings; and it again was followed by another good fall between Christmas and New Year's Day, as well as by favourable showers in February and March. But these later sowings, being unseasonable, gave, as usual, but poor results, and very far from compensated for the deficiency in the original area of the regular crop. The Deputy Commissioner of Palamau states that a fair yield was obtained only from the crops sown in the beds of reservoirs from which the water had been drained off to irrigate the winter rice in the adjacent fields. In the result the estimates are—in Hazaribagh, a 10 annas' crop, in Palamau 6¾ annas, in Lohardaga and Singhbhum 6 annas, and in Manbhum only 5 annas. However, this is not, fortunately, in this Division a crop of relatively great importance, except in Palamau, the areas under it in the other districts being, comparatively speaking, small. A much more important crop, as a food staple, in the districts of this Division is the flower of the *mohwa* tree, which is gathered in March and April. This in all the districts promised to be a full crop until towards the end of March, when several severe storms of wind and rain caused a deal of damage to it, just at a critical time when the trees were coming into full bearing. In the result the estimates give a 6 annas' outturn in Palamau, 8 annas in Manbhum, and from 10 to 12 annas in the other three districts. Added to this disappointment the mango crop, which usually provides a very sensible addition to the general food-supply, has been in all the districts an absolute failure, the blossoms having been entirely destroyed by the inclement weather, mentioned above, in March. Opium, which is only grown in Hazaribagh and Palamau, fared somewhat better, the outturn being 14 annas in the former and 13 annas in the latter district, as compared with 12 annas and 13 annas in the previous year. Sugarcane, on the whole, did badly, being a three-fourths crop in Hazaribagh and Palamau and only a half crop in the other three districts. Tobacco and jute were not less unfortunate with an average 8 annas' outturn, while oilseeds did still worse with an average yield of under 6½ annas. The lac season as noticed in paragraph 46 of this report, was also an especially poor one, both as regards outturn and prices.

Altogether the past year has been, for the rural population, about the worst experienced in this Division within the memory of the inhabitants.

IV.—PUBLIC HEALTH.

20. The past year was on the whole less healthy than its predecessor, and the total number of reported deaths from all causes was consequently much larger. There were more deaths from cholera, small-pox, and fever in almost all the districts, while in Hazaribagh and Palamau a considerable number of the deaths from the last-mentioned cause was due to fever combined.

with influenza. Cholera prevailed more or less in all the districts, notably in Hazaribagh and Manbhum, and was epidemic in thanas Purulia, Raghunathpur, Barabhum, Gourangdih, Chas, Topechanchi, and Jharia. It was worst in the months of April, May, June, and July. In the other districts the cases were mostly sporadic in their nature. Cholera inoculation was for the first time tried in this Division, viz., in the district of Manbhum, where 523 persons were inoculated in the villages affected with the disease with very satisfactory results. Small-pox was rather bad in thanas Dhunwar and Kharagdiha in the Hazaribagh district, where the Deputy Commissioner, Mr. Herald, advocates the introduction of the Compulsory Vaccination Act. As usual the largest number of deaths reported was due to fever, but it is believed that under this head many other diseases are reported. In Palamau a bad type of remittent fever with diarrhœa or dysentery prevailed in the town of Daltonganj during the rains.

The following table compares the number of reported deaths from the several causes during the past three years:—

Districts.	Total number of deaths reported in—			Ratio per mille in—		
	1894.	1895.	1896.	1894.	1895.	1896.
1	2	3	4	5	6	7
Hazaribagh ...	46,053	38,034	41,058	39·55	32·90	35·26
Lohardaga ...	36,189	28,019	35,780	32·05	23·01	31·69
Palamau ...	26,369	16,528	18,084	44·18	27·69	30·30
Manbhum ...	33,843	31,769	34,029	28·36	26·62	28·51
Singhbhum ...	14,290	12,180	13,211	26·20	22·33	24·21
Total ...	156,744	1,26,530	142,162	33·86	27·33	30·71

A portion of the increase in the number of reported deaths is probably due to better reporting. The number of reported deaths from cholera, small-pox, and fever during the past two years is shown below:—

Districts.	Deaths in 1895 from—			Deaths in 1896 from—		
	Small-pox.	Cholera.	Fever.	Small-pox.	Cholera.	Fever.
1	2	3	4	5	6	7
Hazaribagh ...	51	762	29,993	149	988	32,496
Lohardaga ...	3	42	16,799	29	179	21,272
Palamau ...	9	313	13,464	42	25	15,219
Manbhum ...	19	1,852	23,649	39	3,821	22,879
Singhbhum ...	2	167	9,858	23	339	10,851
Total ...	84	3,136	93,763	282	5,352	102,707

V.—MATERIAL CONDITION OF THE PEOPLE.

21. The circumstances from year to year of the people in an agrarian tract of country depend necessarily upon the agricultural results. These for the past year have been described in a previous section of this report. I have attempted further to illustrate the comparative results, in respect of the food-supply, during the past and three previous years in the following table. The calculations do not pretend to any mathematical exactness. It is assumed (1) that the share of the total food-supply of each district obtained

from each crop is in proportion to the area under that crop, and (2) that the total area of cultivation in each of the four years shown in the statement was fairly constant. In regard to the latter assumption, it may be explained that the statement gives results for the calendar and not for the official year, so that the *rabi* crop shown under the year 1896, in columns 5 and 9, was the *rabi* which was cut in March and April 1896, and not the *rabi* of the official year 1896-97, referred to in paragraph 19 of this report.

Statement showing the approximate total food-supply in the districts of the Chota Nagpur Division during the years 1893—96 as compared with a year of all-round full crops.

Hazaribagh.

* The annual figures opposite to these sentences are obtained by multiplying the respective crop areas in columns 2 to 5 by the corresponding crop outturns in columns 6 to 9 and adding the results.

22. The above statement may, I think, be taken as giving a fairly correct bird's-eye view of the situation. Taking the four most affected districts, viz., Hazaribagh, Palamau, Lohardaga, and Manbhum, we find that while in the two years 1893 and 1894 the total food-supply averaged 13·53 annas of a *full* supply (*i.e.*, if all the three principal crops had been full crops), in 1895 it was reduced to 10·90 annas of a full supply, and in 1896 to only 7·77 annas of that quantity. In other words, while in the two first years the total food-supply fell short of a full supply by only 15·5 per cent., the deficiency in 1895 amounted to 31·9 per cent., and was immediately followed by a still more serious deficiency of 51·4 per cent. in 1896. It needs no demonstration to show how very seriously affected the general population of the above four districts must have become by the end of the second of the last two years; and at the present moment their condition has been still further impaired by the disappointing outturn of the *rabi* and *mohwa* of 1897.

23. The year with which the present best bears comparison is the famine year 1873-74. Each year, 1873-74 and 1896-97, succeeded a year of short crops. The rainfall during the months April—October in each year compares with the normal as under:—

	April.			May.			June.			July.			August.			September.			October.	
	1873-74.	1896-97.	Normal.	1873-74.	1896-97.	Normal.	1873-74.	1896-97.	Normal.	1873-74.	1896-97.	Normal.	1873-74.	1896-97.	Normal.	1873-74.	1896-97.	Normal.	1873-74.	1896-97.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21
Hazaribagh	0·50	...	0·33	0·46	0·74	2·48	3·35	11·09	7·90	22·80	17·70	13·96	17·85	12·18	13·08	9·06	6·44	5·65	0·20	...
Lohardaga	0·50	...	0·50	1·21	1·07	2·17	2·26	10·51	6·14	17·89	11·24	13·08	13·93	8·09	13·20	12·20	3·08	9·37	0·63	...

Manbhum	1·59	...	0·97	0·84	1·78	3·17	2·22	11·30	9·23	20·53	13·94	13·35	11·96	10·36	13·00	6·46	5·09	7·74	0·07	...
Singhbhum	1·65	0·02	0·93	2·66	3·52	3·53	3·42	14·24	8·83	11·47	22·70	13·76	10·01	16·78	13·22	5·94	6·69	7·81	0·38	...
Divisional average ...	0·85	0·02	0·57	1·34	1·77	2·56	2·75	11·53	8·06	18·68	14·86	13·54	13·61	11·72	13·13	7·74	5·11	8·27	0·36	...

24. It will be seen that in both years the rainfall was extremely irregular and unevenly distributed; and although, owing to the short fall in June 1873, the year 1896 would appear to have had the advantage up to the beginning of September, yet in the end, owing to the abrupt stoppage of the monsoon in the middle of that month in 1896, and to the entire absence of rain in October, the year 1896-97 fared worse on the whole than did 1873-74. The outturns of the crops during the two years compare as under:—

Districts.	*Bhadoi.*		Winter rice.		*Rabi.*	
	1873-74.	1896-97.	1873-74.	1896-97.	1873-74.	1896-97.
1	2	3	4	5	6	7
	As.	As.	As.	As.	As.	As.
Hazaribagh	5	8·5	10·0	8·0	Not given	10·0
Lohardaga	11·5	8·0	12·0	8·0	...	6
Palamau	Failed	10·0	4·5	5·0	...	6·75
Manbhum	...	8·0	8·0	7·0	6·5	5
Singhbhum	8·0	6·5	8·0	10·0	...	6

so that although the *bhadoi* was probably somewhat better in 1896-97 than in 1873-74, yet the principal crop, viz., the winter rice, was, except in Singhbhum, decidedly worse. Moreover—and this is an important matter in these districts—while in 1874 the *mohwa* crop was a bumper and the mango crop at least an average one, the former in 1897 has given, at most, a ten annas' outturn, and the latter has been a complete failure. Again, the lac business in 1873-74 was very active and the yield unusually good, while in the present year the opposite has been the case.

25. I think, therefore, that there can be little doubt that the people were, on the whole, somewhat worse off in 1896-97 than during the famine of 23 years ago, and there can also be no doubt that, owing to the scarcity in the present instance having extended to the neighbouring Tributary States and

that source of supply being consequently stopped, the distress is now being more prolonged than was then the case. At the first threatening nine months ago, prices went up to famine rates, and they have ever since, week by week, continued to rise until now, at the time of writing, rice is selling at most places at 7 to 8 seers and in some at 6 seers and under per rupee.

26. The strain is being severely felt by all, except the well-to-do classes, especially the mahajans, most of whom can afford to wait for their returns and will then reap enormous profits. Those of them who had large stocks in hand to begin with have already secured considerable gains. The landlords will not, I think, as a class suffer much, if at all, with the exception of those who are already impoverished, and whose prejudices prevent their making an endeavour to cut down expenses. Most of the others can wait for their rents, and will, in the end, get them, whilst those of them who held stocks, as many no doubt did, to begin with, will find themselves at the last with a balance to their credit. The cultivators, on the other hand, have quite come to the end of their resources. In many places, I fear, from the reports I receive, that they have eaten their seed grain; and the fact has been noticed by more than one officer that a great part of the lands which usually grow transplanted rice have this year been sown broadcast, the cultivator not having the means to pay for field-labour. The field-labourers themselves and the professional beggars are, however, the classes who have been the chief sufferers. The former, under the "Kamia" system which here obtains, are ordinarily fed throughout the year by the better-to-do cultivators and others who employ them. This year they have been deprived, in a great measure, of this support, while the beggars have realized the truth of the proverb that "Charity begins at home," and find their customary alms wanting. Skilled labourers and artizans have almost equally suffered with the "Kamias" in consequence of the diminished means of their usual employers, while a considerable number of colliery labourers have been thrown out of work owing to the falling off in the coal trade.

27. The most acute sufferers of all have been the little children of the labouring classes and the wives and young families of men who have lately emigrated to Assam. There has, I fear, in many places been great neglect of their small children by adult relations amongst the lower classes, extending not unfrequently to robbing them of the charitable doles they had received at the relief centres and turning them adrift to pick up food for themselves in the jungles. In order to check this the system of relief by cooked food, to be eaten at the kitchens, has been introduced in many places in supplement of gratuitous relief by weekly doles of uncooked rice.

28. The accounts given, under this section, by the district officers are as follows.

Hazaribagh.

In Hazaribagh the *mohwa* crop was comparatively plentiful, but the outturn of the *bhadoi*, winter rice, and *rabi* crops was disappointing. The regular monsoon commenced late, and this spoiled to some extent the prospects of the *bhadoi* crop. The rainfall up to the middle of September was greatly in excess of the average, and the prospect of the *bhadoi* was further damaged thereby. The winter rice promised a bumper crop, but the insufficient rainfall in September and the total absence of rain in October and November materially injured it. The *bhadoi* did not yield more than 10 annas, while the outturn of the winter rice averaged 8 annas. The cultivation of *rabi* was very much retarded by the absence of rain in October and November. All these circumstances, coupled with the fact that the agricultural results of the previous year were not good, raised the price of food-grains to unusually high figures. In the neighbourhood of the centres of trade, such as Hazaribagh, Chatra, and Giridih, and the coal and mica mines, where wages are high, and where the non-agriculturists and the poorer classes of cultivators could find employment, the condition of the people was comparatively better, but in the rest of the district the condition of these classes of people was seriously impaired. Most of the zamindars too were in very bad circumstances. The trading and money-lending classes were the only sections of the people who could be said to have been in a prosperous condition.

29. Lohardaga.

In Lohardaga the condition of the people at the commencement of the year, was distinctly good, but the partial failure of the *bhadoi* and winter rice crops unhappily told

heavily on them, though up to the close of the year there was nothing like famine in the district. Mr. Streatfeild writes :—

"Personally I have from the first held that the district would pull through without special measures, and as a matter of fact, but for the work of the local Charitable Relief Committee, we have practically done so up to date. Ordinary works under the Road Cess Committee in the east of the district attracted a large number of workers, but works at test rates, which have been started in various parts of the district, have in no case attracted any large amount of labour. In fact, of five works so started, only one has been successful, and that is a tank where women and children can work as well as men, and where the rates paid do not constitute a very rigorous test. At the same time prices are unprecedentedly high, and there can be no denying that the people are not in the same ultra-robust condition which I, coming new to the district, could not fail to notice last year. There never has been famine in this district, and a popular idea prevails that there cannot be one. Conditions have, however, been changed very much in the last few years, and until a good crop for the current year is assured, it is impossible to regard the situation without anxiety."

Palamau.

30. As regards Palamau, Mr. Renny writes :—

"In the last year's report Mr. Streatfeild wrote the material condition of the people was on the whole good in spite of the bad seasons. In 1896 the seasons were all bad again, and very severe distress prevailed during the closing months of the year. * * * Under the above circumstances the condition of the people must have suffered very materially, and even if all goes well, henceforth it will take them at least two years to recover their former condition, which at the best, so far as the lower classes are concerned, is not very much to speak of."

Manbhum.

31. In Manbhum the average outturn of the *bhadoi* was 8 annas and of the winter rice between 5 and 8 annas, while that of the *rabi* only $3\frac{1}{2}$ annas. The *mohwa* crop, which is largely consumed by the poorer classes, was also damaged by untimely rain. The condition of the people was consequently worse during the year under report than in the preceding year. During the last three months, *i.e.*, January, February, and March, the landless classes and those of the cultivators whose lands yielded nothing were in distress, which increased and extended over the greater part of the district towards the close of the year. The people likewise suffered from a want of water-supply, as, owing to the early cessation of the monsoon rains, the tanks and other reservoirs of water remained unfilled, and much of what they contained was used in irrigating the rice-fields in October and November.

Singhbhum.

32. In Singhbhum the landless classes and those whose crops failed suffered, but the construction of the Sini-Midnapore line provided extensive work in Dhalbhum, while the large timber contracts taken by the Forest Department brought a good deal of money into the west of the district. These two operations helped the people to tide over their difficulties, and prevented distress in its acute form being felt by any of them before the close of the year.

VI.—EMIGRATION AND IMMIGRATION.

33. The following statement shows the number of emigrants recruited and registered under Act I of 1882 during the past two years in the districts of Hazaribagh, Lohardaga, Manbhum, and Singhbhum. There were no emigrants registered under the Act in the district of Palamau :—

Districts.	1895-96.	1896-97.
Hazaribagh	2,282	7,437
Lohardaga	2,422	5,704
Manbhum	10,611*	9,429
Singhbhum	35	120
Total ...	15,350	22,690

* These figures are for the calendar year 1896.

The large increase in the number of registered emigrants in the districts of Hazaribagh, Lohardaga, and Singhbhum is due to the prevailing scarcity in the Division. There has been a reduction in the district of Manbhum.

This is due to the fact that a larger number of coolies were sent without registration to the labour districts as free emigrants, the number of whom increased considerably during the past year as noticed below. Most of the registered emigrants from Manbhum are said to have come from other districts. Of those registered in Lohardaga, a large proportion came from Hazaribagh, Palamau, and the adjoining Native States. In Singhbhum a large number of coolies is annually recruited from pargana Dhalbhum. They are usually taken either to Purulia or Raniganj for registration. Some of those registered at Chaibassa were recruited in the Native States of Mourbhanj and Keonjhar.

In Manbhum some sixty coolies were found unwilling to emigrate at the time of their registration, and were ordered to be repatriated to their homes at the cost of the contractors by whom they were brought, but Mr. Maguire writes:—

"Several of these repatriated coolies were produced again for registration after a few days, when they were found willing to proceed, and were registered. The manner in which coolies who become unwilling or are rejected at the time of registration are at present repatriated is not a sufficient guarantee of their safe arrival at their homes, and steps are being taken to remedy the defect."

34. Besides the coolies recruited and registered under Act I of 1882, a large number of emigrants are recruited every year under the free-labour system. The exact number of free emigrants from each district cannot be ascertained, as no records are available, but from returns obtained from local contractors, it appears that 2,886 free emigrants were recruited from Hazaribagh, 1,287 from Lohardaga, 12,631 from Manbhum, and 560 from Singhbhum, against 1,770,884, 8,000, and 502, respectively, in the previous year.

35. All the coolie-depôts and rest-houses in the districts were regularly and unexpectedly inspected by the officers concerned, and proper steps were taken to improve their sanitary condition. Proper arrangements for the treatment of the sick and for the supply of food, clothing, &c., were made in all the depôts. The general health of the coolies was good during the year except that there was an outbreak of cholera in certain depôts in Manbhum.

36. In Hazaribagh no emigrants were prosecuted and convicted under section 162 of Act I of 1882 for desertion after registration. There were only four cases under section 363, Indian Penal Code. In three of them the accused were acquitted for want of evidence, and in the remaining case the two accused were sentenced to rigorous imprisonment for two years each.

37. In Lohardaga there were many complaints of unlawful and fraudulent recruitment, and two criminal cases brought against recruiters ended in conviction. In one case a girl was kidnapped at the time of evening from the streets of Ranchi and unlawfully confined for several days when she managed to send information to her brother. In this case three men and a woman were sentenced to long terms of imprisonment, which were confirmed on appeal. Mr. Streatfeild writes:—

"A large number of complaints no doubt come from the relatives of persons whose recruitment was perfectly regular, though it might be inconvenient to the emigrant's family, but that a terrible amount of villainy is practised, especially in connection with the recruitment of girls and young women is unfortunately beyond question. The fact that the Assam Emigration Act only reaches persons registered or licensed under it renders it impossible to touch the class of unlicensed recruiters to whom all the malpractices of the traffic are due."

38. In Manbhum there were altogether 111 cases in which emigrants and recruiters were accused during the year. Of these, 63 were against emigrants for offences under sections 151, 152, and 162 of Act I of 1882 and the remaining 48 against recruiters for offences under sections 341, 342, 343, 346, 357, 363, 365, 368, and 379, Indian Penal Code. Of the total number of cases, 76 were tried during the year, 26 were disposed of without trial, and 9 remained pending at the close of the year. In the cases tried, 19 emigrants and 24 recruiters were convicted, and 22 emigrants and 41 recruiters acquitted. In Singhbhum 32 cases of malpractices were instituted, of which 12 cases ended in conviction.

39. In Lohardaga, as reported in previous years, many Kols, in winter, when the harvest is gathered, emigrate with their families in large parties to the districts of Burdwan, Hooghly, and the 24-Parganas to find employment, and

return home after three or four months. The number of these temporary emigrants is reported to have been very high owing to scarcity and high prices of food-grains.

IMMIGRATION.

40. In Manbhum immigration was confined to coolies from Bihar and the North-West, attracted by the collieries in the Gobindpur subdivision. The Deputy Commissioner reports that statistics of their number are not available, but that the influx was no doubt considerable owing to the prevailing scarcity. Many of them, however, had to return disappointed in consequence of many collieries having had to stop work owing to the dulness of the coal market. In Singhbhum the work on the new Cuttack-Midnapore-Calcutta extension of the Bengal-Nagpur Railway line brought in numbers of outside coolies, chiefly from Lohardaga and Nagpur. Mr. Bompas says that a certain number of people settle each year along the railway line, having come for work and finding land available for cultivation.

VII.—PRICES OF FOOD AND LABOUR.

41. From the time when the failure of the September rains made it clear that Bengal would have to face a famine, the prices of all food-grains rose steadily, and in the last fortnight of March 1897 the price of common rice, the staple food of the people of the Division, ranged from about 8 seers per rupee in Palamau to 8½ seers in Lohardaga, 8¾ in Hazaribagh, and 9 seers 6 chitaks in Manbhum, as against an average for the above four districts of 14½ seers per rupee in March 1896 and of 18 seers in March 1895. In other words, the average price has more than doubled in these four districts within the last two years. In Singhbhum, owing to its propinquity to the native State of Mourbhanj where the rice crop of the year under review was an excellent one, the price of rice had not risen beyond 10 to 13 seers per rupee by the end of the year. Since then, however, it has hardened, and ranges now from 8 to 10 seers, fluctuating about the level at which it pays to export, being always higher nearer the railway line than in the more remote parts of the district.

42. Turning to other food staples, we have the following figures for the month of March during the last three years for wheat and gram, showing the number of seers purchaseable per rupee:—

	Wheat.						Gram.					
	March 1895.		March 1896.		March 1897.		March 1895.		March 1896.		March 1897	
	Seers.	Chitaks.	Seers.	Chitaks.	Seers.	Chitaks.	Seers.	Chitaks.	Seers.	Chitaks.	Seers.	Chitaks.
1	2	3	4	5	6	7	8	9	10	11	12	13
Hazaribagh	12	5	11	5	8	9	16	5	16	...	11	8
Lohardaga	11	...	11	8	8	8	12	8	13	8	9	8
Palamau	15	8	12	15	9	13½	18	9	16	14	11	13
Manbhum	12	5	11	...	8	2	15	...	15	...	9	6
Singhbhum	12	...	13	6	9	12	12	...	13	...	11	...

43. In Palamau most fortunately, as this is the one district which is completely isolated and practically without means of importing, *rabi* crops are more widely grown than in any of the other districts of this Division with the consequence that although rice rose there to a higher rate than in any of the other districts, the rates for barley, wheat, and gram remained easier than elsewhere. Taking the Division as a whole, the rate for *rabi* grains in the month of March was about 30 per cent. higher than during the previous two years.

44. There was but little change in the wages of labour in most of the districts, and where there was any, the tendency was rather towards a decrease, but in the Hazaribagh town the wages of coolies and *ghuramies* fell from As. 2-3 and As. 2-6 to As. 2 and As. 2-3 per head respectively, while in Giridih superior carpenters and common blacksmiths were available at 8 annas and 5 annas respectively, against 9 annas and 6 annas in the preceding year. Similarly, the wages of ordinary coolies decreased by half-anna a head owing to excessive competition. In Manbhum also, in the areas affected by scarcity, the daily wages of coolies fell from an average of two annas and six pies per head to two annas. The dulness of the coal market was an additional cause of the fall in the Gobindpur subdivision of this district. In other parts of the Division I cannot find that there has practically been any change. The falling-off in the demand for labour generally, which necessarily accompanies a year of bad crops, has, it would appear, been counterbalanced by the rise in the price of food. Emigration, too, has been busy, and the construction of the new Cuttack-Midnapore-Calcutta extension of the Bengal-Nagpur Railway has also supplied work to the labouring classes in the eastern portion of the Division.

VIII.—MANUFACTURES AND MINES.

45. The chief articles of manufacture in this Division are lac, tea, tussar, silk, tussar cloths, and soapstone bowls and plates. Lac, catechu, sabai grass, and tussar cocoons abound in the jungles, and are largely exported. Hides are also collected all over the Division, and are exported in large numbers without being thoroughly cured.

(*a*) Manufactures.

46. Lac is produced all over the Division, but factories for the manufacture of shell and button lac exist only in Lohardaga and Manbhum. In the former there were 4 factories at work, against 11 in the preceding year, 7 having closed business owing to the heavy fall in the price of lac during the year. The total outturn was 4,900 maunds of the value of Rs. 23,000, against 9,000 maunds, valued at Rs. 1,40,080 in 1895. In Manbhum altogether 42 factories were at work during the year, but only 20 of them were properly worked. The year was very unfavourable to the lac industry, and the *baisakhi* lac was almost a total failure. There was a large falling off in the production of the raw material, and this, added to the dulness of the Calcutta market, seriously affected a number of lac factories in the districts, and about 25 per cent. are reported to have ceased work. The quantity of button and shell-lac manufactured in Manbhum during the year was 14,000 maunds, against 18,362 maunds in 1895.

47. Tea-plantations exist in Hazaribagh and Lohardaga. In the former five gardens were at work during the year, against six in 1895. In Lohardaga, out of 23 gardens at work, only 22 furnished returns, which show an outturn during the past year of 586,524 lbs., against 1,110,312·5 lbs. in the previous year. The weather during the past year was not favourable to tea, and the long drought during the early part of the year caused the spring crop to be a very short one.

48. Tussar cloth is manufactured at Raghunathpur and Singhbazar in Manbhum. The Deputy Commissioner gives the following interesting account of this industry:—

"Tussar is made by a class of Hindus called *Tantis*. There are about 250 families in the district, of which about half live at the municipal town of Raghunathpur, about 24 miles from Purulia. Another important centre is Singhbazar, a village about four miles from Purulia, where there are some 30 families. The rest are scattered over the district. All the processes of the manufacture of tussar are gone through by local men and women except the rearing of the silkworms. In parts of the district, however, this is also carried on to a small scale, but the trade is mainly supplied by the neighbouring district of Singhbhum. There is an annual fair there, where cocoons are sold in large quantities. It is estimated by a well-informed *Tanti* of Raghunathpur that cocoons worth about Rs. 10,000 are yearly imported to the district from Singhbhum. Cocoons are sold in *kahans*, a *kahan* being 1,280. A *kahan* sells for Rs. 6 to Rs. 8 ordinarily. In exceptionally bad years it may rise to Rs. 10 even. A *kahan* of cocoons produces about a seer of thread. The cost of labour, which is ordinarily performed by *Tanti* women, and sometimes by *Bauri* women, is about 1 rupee for each seer of thread (yarn). Almost every substantial *Tanti* owns one or more looms. Some of the well-to-do men of Raghunathpur own three and four looms. The total number of looms in the district

may be estimated at 400. One loom regularly worked is capable of producing three pairs of *dhoties* (about 10 yards each pair) in a month. Each loom is worked by one man only as far as the process of weaving is concerned. The best *dhoties* turned out in the district is said to cost Rs. 6-4. The industry is declining by competition with machinery. The yearly outturn of tussar may be estimated at 48,000 yards, worth about Rs. 48,000. No reliable figures are available for the external trade, but probably about three-fourths of the outturn pass out of the district."

Tussar cocoons are also exported in large quantities, chiefly to Murshidabad, from the district of Hazaribagh. A certain quantity are, however, unreeled locally, the silk going to Murshidabad. Coarse cotton cloths are manufactured all over the Division by the village weavers (*Jolhas*), and are largely used by the common people. Brass and bell-metal utensils and ornaments used by the common people are manufactured at Chatra in Hazaribagh, at Lohardaga, Palkote, Ramjari and Jeria in Lohardaga, and in parts of the Chas thana and the town of Purulia in Manbhum and in parts of Singhbhum. Brass plates, called "chippis," are largely manufactured in the Lohardaga district for local use. They are also exported to a small extent to the neighbouring districts and to the Political States of Jashpur and Sirguja. Soapstone plates and bowls are manufactured in thanas Chandil and Nirsha in Manbhum and in pargana Dhalbhum in Singhbhum. The municipal town of Jhalda in Manbhum has a fair business in ironmongery. Cutlery of different descriptions are turned out there, as also an inferior kind of fowling-piece, though said to be good for all practical purposes. Similar guns are manufactured at Jherria and Katras in the same district. The sword-sticks of Jhalda have a local reputation.

(5) Coal-mines.

49. As reported in previous years, the principal coal-mines in the Division exist in the Giridih and Gobindpur subdivisions of the Hazaribagh and Manbhum districts. In Giridih there are four collieries, three of which are managed by European agencies and one by a native firm. In the Gobindpur subdivision, where there are a large number of collieries owned both by European and native firms, the coal industry received a considerable check during the year owing to the dulness of the coal market. The Deputy Commissioner reports that the high additional freight over the Jheria line of the East Indian Railway also placed the Jheria coal-fields at a serious disadvantage in comparison with the collieries in the East Indian Railway at Raniganj, Barakar, and other adjacent places. During the year no fewer than 40 collieries stopped work, and others had their business much reduced. Coal-pits also exist in the Damodar Valley in the Sadar subdivision of Hazaribagh, principally at Ramgarh, Mandu, and along the Bokoro. The coal from these pits, which are only superficially worked, is used for brick-burning and such like purposes. The following table compares the output in tons and the number of workpeople employed in the coal-mines of Giridih and Gobindpur:—

	Output in—			Average number of workpeople employed in—		
	1894.	1895.	1896.	1894.	1895.	1896.
1	2	3	4	5	6	7
	Tons.	Tons.	Tons.			
Giridih ...	571,363	633,549	666,998	8,263	9,510	11,215
Gobindpur ...	128,686	1,281,294	562,990	4,822	13,246	15,392
Total ...	700,049	1,914,843	1,229,988	13,085	22,756	26,607

In the Gobindpur subdivision the output shown for 1896 was much less than that of 1895, although the average number of workpeople employed increased by 16·2 per cent. This has not been accounted for.

49A. It was mentioned in last year's report that Dr. Walter Saise had been employed in 1895 on behalf of the East Indian Railway Company in experimenting upon the coal-fields in Palamau. Dr. Saise's report has since been received, and shows that the results, although not so good as were at one time anticipated, yet establish the fact that there is a large quantity of good, useful coal fit for locomotive and steaming purposes, for brick-burning and lime-burning available at comparatively shallow depths.

Mica mines.

50. This industry is confined to pargana Kharakdiha in the Hazaribagh district, and is gradually gaining importance. Most of these mines are situate in the Koderma Government estate, both inside and outside the Government reserve forests, the rest being scattered over other parts of the above-mentioned pargana. Forty-one more mica mines situate in the Koderma Government estate were settled during the year at an annual rental of Rs. 1,286-9-5. The current demand on account of rent of mica mines belonging to Government was Rs. 5,939-7-1½, out of which Rs. 5,790-15-1½ were realized during the year. The total output of all mica mines worked during the year, including the mines belonging to private parties, was 7,030 maunds, against 8,019 maunds in the year previous, and the total number of workmen employed in the mines 5,587, against 5,400 in 1895.

Copper mines.

51. No copper mines were worked during the year.

Gold mines.

52. In Lohardaga the Sonapet Prospecting Gold Mining Company have continued to carry on prospecting works at Gutuhatu. There was no gold mine at work in Singhbhum during the year, but the prospecting lease held by Messrs. Jardine, Skinner & Co. is still in force, and several cuttings have been made, though up to the present gold has not been found in payable quantities.

Tin mines.

53. The tin mines at Norenga, in the Giridih subdivision of Hazaribagh, were not worked during the year under review.

XXIII.—RAILWAYS AND OTHER PUBLIC WORKS.

134. The only railway lines in progress during the year were the Sini Midnapore Branch of the Bengal-Nagpur Railway and some sidings to collieries in the Govindpur subdivision. The earthwork of the Sini-Midnapore extension was almost completed, and a construction train was running as far as Ghatsilla by the end of the year. It is expected that the bridges will be completed next cold weather. Mr. Bompas writes:—

"This line will have a great effect on the district administration by bringing Dhalbum closer to the head-quarters. At present it is really impossible to administer this part of the district—50 to 80 miles from Chaibassa with several unbridged rivers on the road—in a satisfactory manner."

The working of the Bengal-Nagpur Railway continued to be satisfactory and without any serious accidents during the year. The Baroon-Palamau branch of the Mughalsarai Railway has been sanctioned, and it is expected the work will be taken in hand during next cold weather.

The opening out of the Chota Nagpur Division by a continuation of this line from Daltonganj to Purulia *vid* the Damooda valley, intersecting the Palamau, Hazaribagh, Lohardaga and Manbhum districts, as was recommended by Sir Steuart Bayley some years ago, should be delayed no longer. I have lately pressed this matter upon the attention of Government in this office No. 33R.R., dated 12th April 1897.

* * * * *

XXX.—LOCAL SELF-GOVERNMENT INSTITUTIONS.

174. The Local Self-Government Act is not in force in this Division, the opinion having hitherto provailed that the districts are not sufficiently advanced to justify such a measure. I am inclined to doubt the correctness of this view, and there can, I think, be no doubt that in certain matters the administration would be strengthened and improved by the change. For the

management of local affairs there exist at the head-quarters of each district Municipal, Road Cess, and Education Committees. There is also a branch Road Cess Committee at Giridih, and there are Municipal Committees at Chatra, Lohardaga, Jhalda, and Raghunathpur. The system by which two-thirds of the Municipal Commissioners are elected by the rate-payers and one-third appointed by the Government obtains only in the Municipalities of Hazaribagh, Chatra, Ranchi, and Purulia. In the rest of the municipalities, as well as in the District Road and Education Committees of all the districts, the members are appointed by the Government. The Chairmen of all the municipalities are also appointed by the Government.

175. Hazaribagh has a second class municipality with a population of 16,672 souls, of which 2,334 are rate-payers. The Municipal Board consists of 15 members, 10 of whom are elected by the rate-payers and 5 appointed by the Government. At the last general election, which was the fourth of its kind since 1888, when the elective principle was for the first time extended to this Municipality, the rate-payers nominated only nine Commissioners, leaving six to be appointed by the Government. During the year 14 meetings were held, the percentage of attendance being 41·3. The total income, including the balance of the previous year, amounted to Rs. 11,358, and the total expenditure to Rs. 11,139, leaving a balance of Rs. 219 at the close of the year. The town is reported to have been maintained in an excellent sanitary condition during the year.

176. The Chatra Municipality has a population of 10,783, of whom only 1,000 are rate-payers. The Municipal Board is composed of 16 members, of whom 10 are elected and 6 appointed. Twenty-three meetings were called during the year, but a quorum was obtained in only 15. The percentage of attendance was 43·1. The total income of the Municipality during the year, including the opening balance, was Rs. 5,571, of which Rs. 5,033 was expended. Of this amount, Rs. 1,248 were spent on conservancy and Rs. 412 in repairs to roads and drains. The general sanitation of this town has been much neglected, and, so far as I can judge from the official reports that have reached me, supervision appears to be entirely wanting and the administration generally thoroughly bad.

177. In the Ranchi Municipality there are 16 members, including the Chairman, of whom 10 are elected and 6 appointed by Government. The Commissioners met ten times during the year, the percentage of attendance being 48·7, against 44·0 in the previous year. The elective system is in force here, and a general election took place on 27th March last. The assessment of personal tax and latrine tax was revised during the year, resulting in a moderate increase of revenue. During the year the Municipality secured a permanent lease at an annual rent of Rs. 650 of the market-place known as the Petia Bazar, from the landlord, the Burralal of Palkote, with whom a dispute had been going on for some years past.

178. The Lohardaga Municipal Committee is composed of 11 members, all of whom are appointed by the Government. The local Munsif occupies the office of Chairman *ex-officio*. During the year 14 meetings were held, with an average attendance of 65·4 per cent. This Municipality is reported to have worked satisfactorily. Certain purely agricultural tracts were excluded from its limits during the year.

179. The Daltonganj Municipal Board is composed of ten members, including the Chairman. There were 11 meetings during the year, with an average attendance of 75·4 per cent. The non-official Commissioners are said to take little interest in its affairs. The total income of the Municipality, including the opening balance, amounted to Rs. 6,306-3-2, and the total expenditure to Rs. 4,093-10-10.

180. In Manbhum the Purulia Municipality has a population of 12,128 souls and a Committee of 19 members, including the Chairman, of whom 12 are elected by the rate-payers and 7 appointed by the Government. The Committee held 20 meetings during the year, with an average attendance of 36·58 per cent. This Municipality is reported to have been fairly well administered, and to have done useful sanitary work. During the year a non-official Vice-Chairman was appointed in the place of the former Vice Chairman, who was a Government servant.

181. The Jhalda Municipality has a population of 4,540 souls, and is composed of 9 members, of whom only 1, viz., the Rural Sub-Registrar of the place, is an official. He is the Chairman of the Municipality, and its administration devolves entirely on him. The Commissioners met nineteen times during the year with an average attendance of 5·2 per cent.

182. The administration of the Raghunathpur Municipality also depends solely on the energy of its Vice-Chairman, a pleader of the Local Munsif's Court. The Municipal Committee consists of ten members, all of whom are appointed by the Government. Eleven meetings were held during the year, the average attendance being 49·0 per cent.

183. The Chaibassa Municipality has 13 members, who met eleven times during the year, with an average attendance of 60·1 per cent. The assessment was revised during the year. The total income of the Municipality, including the opening balance, amounted to Rs. 6,983-11-3, of which Rs. 5,383-3-10 were expended during the year.

184. None of the municipalities of this Division were inspected by either the Deputy Sanitary Commissioner or the Sanitary Commissioner during the year. The municipalities of Purulia and Hazaribagh were inspected by Mr. Marindin. No serious defects of any kind came to his notice. I have since visited and walked through the municipalities at the several district head-quarters, as well as at Chatra and Lohardaga, but had no time to make any formal inspections.

District Road Committees.

185. During the year the Hazaribagh Road Cess Committee was reorganized by the fresh appointment of the members under section 113 of the Cess Act, Deputy Collector Babu Suresh Chandra Dass being re-appointed as Vice-Chairman. The Committee held five meetings during the year, all of which were well attended. The members are reported to have taken an intelligent interest in their duties.

186. The Giridih Branch Road Committee held five meetings during the year, with an average attendance of 5·6. Babu Surendra Lal Mittra, Sub-Deputy Collector, who was the Vice-Chairman, having been transferred during the year, his place has been occupied by Mr. E. Myers, one of the non-official members of the Committee.

187. The Ranchi Road Cess Committee is composed of twelve members. It held ten meetings during the year, of which nine were special and one ordinary. The attendance of both official and non-official members was fairly satisfactory, and the members are reported to have taken a reasonable amount of interest in all matters which came before them for discussion.

188. The Palamau District Road Committee is composed of 4 official and 12 non-official members. It held eleven meetings during the year, with an average attendance of 6·7.

189. Nineteen members, of whom 7 are Europeans and 12 natives, constitute the District Road Committee of Manbhum. Of these, only three are inhabitants of the district, the rest are alien pleaders or other residents of Purulia, without much local knowledge of the interior.

190. The Chaibassa Road Cess Committee consists of ten members, who held seven meetings during the year, with an average attendance of 5·28.

191. The Education Committee at Palamau held no meeting during the year; the Education Committee of Purulia held six meetings, while very few meetings were held by the Committees at Hazaribagh, Lohardaga, and Singhbhum.

XXXVII.—GENERAL REMARKS.

214. The absorbing topic during the year under report has necessarily been the question of the prevailing scarcity. The unfavourable character of the weather, the disastrous results to the crops, and the effects of the scarcity on the material condition of the people have been noticed in paragraphs 17, 18, and 19 of this report. The following is a short review of the progress of the distress and of the means taken to meet it up to the end of the official year 1896-97. The account is only a summary one, confined to main features, details being left for the special report which will be submitted after the close of the relief operations.

215. It was evident from the outset that the pinch would first come in the districts of Palamau, Hazaribagh, and Manbhum. In Singhbhum there appeared to be no need of apprehension, while inquiries in Lohardaga showed the existence of old stocks in considerable quantities, and the large exportations of rice (by pack* bullocks) that went on until the middle of the cold weather from the marts of Chainpur and Lohardaga into the neighbouring districts of Palamau and Hazaribagh appeared to confirm this view. As regards the other three districts, the result of the inquiries directed in Government order 7 T. R., dated 3rd November 1896, was shortly as follows. In Hazaribagh it was calculated that, with a good *mohua* crop, there would possibly be just sufficient food to carry the people on until the *bhadoi* harvest of the current year, otherwise a deficiency of about one month's supply might be expected. In Manbhum the conclusions arrived at were much the same, the Deputy Commissioner calculating that supplies would hold out until the middle of July, without counting the *mohua* crop and other jungle products. From Palamau, however, the reports were very disquieting, the Deputy Commissioner estimating a deficiency of at least 13 lakhs of maunds of food-grains. The isolated position of this district, the nearest railway station (Gaya) being over 100 miles, by unmetalled road from the district head-quarters at Daltongunge added to the difficulty of the situation.

*Estimated at over 62,000 maunds during the months of September to December.

216. The conclusions come to in the case of the first four of the above-mentioned districts have, in the main, proved correct. In Singhbhum and Lohardaga the scarcity is beginning now, in the month of June, to be somewhat more felt than was at first anticipated, but there has been little or no actual distress. What there is is the result of high prices consequent upon the considerable exports of rice from each district rather than of any actual failure in the food-supply. In Hazaribagh and Manbhum, on the other hand, relief works have had to be opened in a number of places in each district and a considerable number of persons brought upon the gratuitous lists, while the local supplies have had to be largely supplemented by importations by rail, the reported quantities (excess of imports over exports) during the past few months (the only ones for which returns have been received) being as under—

	Hazaribagh.	Manbhum.
	Mds.	Mds.
January (half-month)	13,000	4,900
February	27,900	14,600
March	25,500	25,900
April	40,400	17,400
May	45,300	45,200
June (three weeks)	17,200	17,500
Total ...	1,69,300	1,25,500

217. It may here be noted that exports of rice from Lohardaga and Chainpur, in the Lohardaga district, after rising to about 43,000 maunds during December, suddenly fell off about the middle of January, and since then have been made in much diminished quantities as the following figures show :—

	Number of bullocks that went away laden.	Number of bullocks that had to leave empty.
*2nd half of January	730+24 carts.	1,201
February	1,648	794
March	897	1,627
April	325	636
May	512	171
June	95	44
Total ...	4,207+24 carts.	4,473

*I have omitted the figures for 1st half of January.

Taking 2½ maunds per bullock and 15 maunds per cart, the total exports during the above 5½ months aggregate only 10,877 maunds; while the derable number of bullocks that came each month for grain, and had to

leave again without getting it, go to show to what straits the local traders (chiefly from Palamau) must have been reduced in their search for supplies.

218. From Singhbhum exports by rail have been uninterrupted. The figures for the last 4½ months (returns for previous months not received) are as under:—

	Exports.	Imports
	Mds.	Mds.
Second half of February ...	4,800	300
March	11,500	600
April	11,800	800
May	6,400	500
June	6,200	633

The exports were chiefly for Bihar and Upper India. The greater portion appears to have come from the Mohurbhanj Native State. The imports were chiefly made by contractors for supply to the coolies working on the Sini-Midnapore Railway line.

219. Palamau from the first has been a cause of much anxiety. In ordinary years it draws its supplies from the Ranchi plateau and the neighbouring Tributary States. It has been shown above how the first source suddenly failed in the middle of the month of January. The trade from the Tributary States was, on the other hand, entirely closed by the different Chiefs, who issued orders early in the cold weather, peremptorily forbidding the exportation of food-grains from their States.* At the same time, it was evident that the petty local traders, with whom at Daltonganj and other places I had a series of interviews on the subject, had no knowledge of trade in food-supplies beyond that which they had been accustomed to carry on by pack-bullocks with the adjoining districts and States, and could not be depended upon for any material assistance in importing large supplies from further afield. I represented these matters to Government in this office No. 389T.M.R., dated 21st January last, in which I recommended exceptional treatment for Palamau, and that Government should immediately import one lakh of maunds of rice into the district. This, however, was not approved, and I therefore, after a visit to Gaya and a further discussion of the subject with the district officials and the Marwari traders of that place, proposed the grant by Government of a bounty of 8 annas per maund on all imports of "Burmah rice" to Palamau. This was allowed by orders conveyed in Government order No. 468Fam., dated 17th February, the subsidy being shortly afterwards extended to "country rice," and grants were subsequently made by Government, aggregating Rs 75,000, for advances to traders to assist them in making importations. Notwithstanding all these encouragements, in addition to the incentive of unprecedented high prices in the district itself,† the importations by the trade (viz., the Gaya and Palamau dealers combined) have aggregated only 17,146 maunds up to the end of June,‡ the reason of the failure being the long lead by road from Gaya (101 miles) and Baroon (71 miles) at the head of the Sone Canal and the immense difficulties that have been experienced in procuring carriage. The traders themselves have made strenuous exertions in this matter, and every possible assistance has been given to them by the local officials, with the poor results described. The needs of the district in this regard are amply proved by the excessively high rates for rice which at present obtain there, and the importations into the adjoining district of Hazaribagh may also be taken as a fairly certain index to its requirements, as the failure of food-crops has been even more marked in Palamau than in that district during each of the two last years. In spite of all this, however, it has been a most remarkable fact that the distress has not been nearly so acutely felt in Palamau as in either Hazaribagh or Manbhum. The people appear, on the whole, to be in a

* This action on the part of the Chiefs was supported by me and approved by Government.

† The average price for the whole district is at present 6¾ seers per rupee.

‡ The complete failure of the trade to meet the case has at last necessitated action on the part of Government, and 15,500 maunds of rice are now being imported into Palamau for relief purposes by Government.

better plight at present in that district than in either of the other two; while the numbers on the relief works and the gratuitous lists have, week after week, remained at a remarkably low figure, and this notwithstanding the fact that, in view of the high prices, the rates of payment were for some time fixed at a higher level there than elsewhere. One explanation of this is the praiseworthy manner in which most of the zamindars of the district have come forward to assist their raiyats by giving them work, as noticed in paragraph 211 above; but another, and I think probably the chief reason is to be found in the large extent to which the people are accustomed to supplement their ordinary food-supply by recourse to the forest roots and fruits, with which almost all parts of the district abound.

220. The first indications of the effects of the scarcity appeared in Hazaribagh, where the large numbers of destitute travellers along the Grand Trunk Road attracted attention in the month of November. Kitchens for their relief were opened at Barhi, and subsequently at other places on that road; and in December test works were started by order of my predecessor at Koderma and other places, which did not, however, succeed in attracting much labour, and they were therefore for the time being closed. Early in January test works were opened in the Palamau district, and again early in February in Hazaribagh, as well as in Manbhum. Gratuitous relief was at the same time set on foot in all three districts. The numbers on relief at the end of each fortnight at the expense of Government or of local funds up to the end of the official year 1896-97 are shown in the following statement :—

Fortnight ending—		On Relief Works.				On Gratuitous Relief.

	Hazaribagh ...	1,354	699	565	2,618	151	110	283	544
	Manbhum ...	1,562	1,021	234	2,817	817	1,823	1,423	4,063

221. One noticeable feature in this connection is that, although the scarcity so far as can be ascertained was not less than in 1873-74, the numbers on the relief works have been much smaller than in that year. This, it may here be mentioned, has been especially the case in the months since the close of the official year. The fact seems to be that in 1874 the workers were paid at daily rates, while on the present occasion payment has been strictly by measurement.

222. In addition to the persons shown on relief works in the above statement, considerable numbers have been given employment on private works of improvement, chiefly in the shape of irrigation *bandhs* undertaken by the zamindars in the different districts with the help of loans from Government on the favourable terms offered in Government circular No. 69, dated 5th January 1897. Advances to agriculturists for the purchase of seed and cattle have also been made both from Government funds and from grants made by the Indian Famine Charitable Relief Fund, while in Hazaribagh and Palamau a considerable number of *pardanashin* and other women, as well as distressed weavers, have been given relief from the same fund by cotton spinning and weaving. The Revd. A. Campbell has also introduced this form of relief

with much success at Pakhuria in the Gobindpur subdivision of the Manbhum district. All these matters, however, more especially concern the opening months of the current official year, and need not be noticed further here. In Lohardaga and Singhbhum no relief measures were necessary until after the close of the year under review.

223. I should also mention that in each district a local Charitable Relief Committee was formed for the purpose of collecting funds and of supervising the charitable relief operations—a self-imposed duty, which has generally been performed satisfactorily. The subscriptions promised for the purpose in each district have so far been as follows:—in Hazaribagh, Rs. 8,191 *plus* Rs. 127 monthly subscriptions; in Palamau, Rs. 6,130; in Lohardaga, Rs. 6,855; in Manbhum, Rs. 1,949; and in Singhbhum, Rs. 3,743-13.

Palamau-Baroon Branch Railway.

224. The cause of this most useful branch line was pressed upon Government in this office No. 828M.R., dated 11th January last. It is equally desirable as a "protective" work against famine as for the object of opening out the Palamau coal-fields. I had at first hoped that the construction would be put in hand as a relief work during the current year, but it appears to have been ruled that, as the local works were sufficient to meet the numbers seeking relief, the undertaking should be deferred until the beginning of next year.

The Damodar Valley Railway.

225. The desirability of this line was first pointed out by the Hon'ble H. H. Risley in a full and able note 15 years ago, and the project was subsequently advocated by Sir Stewart Colvin Bayley, the then Lieutenant-Governor. I again lately brought the matter to notice, and am glad to find that the proposal has been supported by the Local Government and included in the list of important lines recommended to the Government of India for sanction. The alignment proposed is from Daltonganj, the intended terminus of the Baroon-Palamau Branch Railway, to Purulia *vid* the Damodar valley. The line will pass through the centre of the Chota Nagpur Division, and be of the greatest possible benefit both to trade and for administrative purposes. It will bring the divisional head-quarters at Ranchi, the military station of Dorandah, and the important civil station and central jail at Hazaribagh within driving distance of the railway, instead of their being left from 70 to 80 miles away from it; it will open out a tract of country containing the Karampura and other valuable coal-fields, and rich generally in mineral wealth; and will afford an additional outlet for trade between the North-West Provinces and the sea, besides being the shortest route for the pilgrim traffic from Upper India and the shrine of Jaggernath in Orissa.

Baroon-Daltonganj telegraph line.

226. The necessity of connecting the head-quarters of the Palamau district with the telegraphic system of the outer world was forcibly brought to notice in connection with the arrangements that had to be made for throwing food-supplies into that district. Hitherto the quickest line of communication had been by post, once a day, to Aurangabad (59 miles distance), and thence by telegram *vid* Gaya. I am glad to say that the representations made on this subject in this office Nos. 389T.M.R., dated 21st January, and 430T.M.R., dated 28th January 1897, were successful, and a flying line was shortly afterwards constructed, which has since been replaced by a permanent one.

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE PRESIDENCY DIVISION FOR THE YEAR 1896-97.

GENERAL DEPARTMENT—MISCELLANEOUS.

Calcutta, the 29th September 1897.

RESOLUTION—No. 2719.

READ—

The Annual General Administration Report of the Presidency Division for the year 1896-97.

Mr. E. V. Westmacott continued to hold charge of the Presidency Division throughout the year, and submits the Report. Mr. E. W. Collin was in charge of the 24-Parganas the whole year; but in the other districts there were changes of charge, Jessore and Khulna being each held by three officers. Eight out of fourteen Subdivisions were held by a single officer throughout the year.

2. *Tours and Inspections.*—Mr. Westmacott spent 85 days on tour, and reports that all the District and Subdivisional Officers were on tour for sufficient periods. Mr. Garrett, Collector of Nadia, and Mr. Weston, Subdivisional Officer of Meherpur, spent in camp 145 and 165 days, respectively, being largely occupied with famine relief work; this subject also engaged the attention of officers in Murshidabad, Jessore and Khulna, and all touring officers made careful enquiries into the question of food-supply. All the prescribed inspections appear to have been made, but it is not stated whether Subdivisional Officers (except in Nadia) inspected their own offices, nor whether Government Estates were inspected, except in the 24-Parganas.

3. *Weather and Crops: Material condition of the people: Public Health.*—The average rainfall was 46·15 inches, against 41·35 in 1895-96, and 57·61 in 1894-95: it was ill distributed, besides being abnormally low. The crops in the 24-Parganas were not so bad as those in the other districts of the Division, but even there they were below the average. In Nadia, the *bhadoi* (*aus* rice) and *rabi* crops suffered severely, and the *aman* rice crop was in some parts almost a total failure, and in all, very seriously short of the normal; and this is true, though to a less degree, of the remaining districts. In parts of the Satkhira Subdivision of Khulna, there was a total loss of the *aman* harvest, due partly to deficient rainfall and partly to an influx of salt water, which it is to be feared has permanently impaired the productive power of much of the land in this tract. Taking the Division as a whole, the average outturn of the year of winter rice is estimated by the Commissioner at 6·9 annas, against 10 annas in 1895-96 and 15 annas in 1894-95. Prices of food-grain everywhere continued extremely high, being about 50 per cent. more than those that prevailed in the previous year. In the northern portion of Nadia, in the south of Murshidabad, and in the Satkhira Subdivision of Khulna, famine was declared, and relief operations on a considerable scale were found necessary. There appears to have been some internal migration in the district of Khulna, caused probably by the deterioration of lands. That the Division should have passed through two years of seriously short harvest, without more relief from Government, speaks well for its general prosperity.

The recorded death-rate of the whole Division for 1896 was 34·2 per 1,000, against 36·2 in 1895, and 32·5 in 1894. The district of Khulna was particularly unhealthy, the death-rate being 35·8 per *mille* against 33·04 in 1895, and 27·3 in 1894. Owing probably to the short rainfall of the years 1895 and 1896, there was less mortality from malarial fever, and more from cholera in 1896 than in 1895, the reported deaths from fever being 196,286 against 207,767 in 1895, and from cholera 41,673, against 33,104.

4. *Manufactures, Trade and Commerce.*—Fifty-six Factories were working in the 24-Parganas, the same number as in the previous year; but they employed 67,085 operatives, against 62,047. The outturn of gunny-bags and cloth, of paper and of lac was less than in the previous year, when, however, there had

been considerable expansion. The following figures show the value of the out-put in the last three years :—

	1894-95.	1895-96.	1896-97.
Gunny-bags and cloth ...	2,09,96,916	2,57,54,478	2,28,71,075
	1894.	1895.	1896.
Paper ...	20,35,479	26,56,460	22,25,116
Lac	18,00,000	17,17,695	13,50,000

The outturn of cotton twist and yarn shows a steady increase in value, from Rs. 74,18,581 in 1894-95 to Rs. 76,31,970 in 1895-96 and Rs. 77,91,269 in 1896-97. The produce of indigo in Nadia, Murshidabad and Jessore is returned at 5,886 maunds, against 8,968 in 1895-96; the falling-off was due to the want of rain. The value of the silk produced in Murshidabad was Rs. 20,14,589, against Rs. 33,08,129 in 1895-96, a decrease explained by the poor outturn of the mulberry and the general depression of the industry; only 55 filatures were open, against 74 in 1895-96. There was a slight rise in the value of the produce of silk in the 24-Parganas; but the total is small, only Rs. 55,341. The depression of the other industries, which depend upon local crops, extended to that of sugar, the outturn of which is estimated at Rs. 20,97,402, against Rs. 24,27,742 in 1895-96; as in that year no statistics are furnished from Nadia. The total registered weight of traffic in the 24 principal staples carried by rail, river and canal amounted, in 1896-97, to 1,71,49,600 maunds, against 1,02,42,123 maunds in the preceding year under imports, and 72,32,408 maunds, against 94,73,077 maunds under exports. The quantity of food-grains imported into the Division by these routes was 15,44,563 maunds, mostly rice and paddy, against 8,76,519 maunds in 1895-96. The registered exports, including those carried by road, of food-grains to Calcutta, aggregated 56,13,353 maunds, against 57, 95,428 maunds in the previous year, the largest traffic being in rice (25,24,190 maunds, against 29,14,555 maunds) and gram and pulses (26,31,525 maunds, against 18,02,552 maunds). Accurate statistics of exports of food-grains to places other than Calcutta are not available.

5. *Civil Justice.*—The number of suits instituted rose from 110,749 in 1895 to 113,550 in 1896: 116,018 suits were disposed of, and 13,115 remained pending at the end of the year. The increase in litigation was distributed over all classes of suits, and over all the districts except Murshidabad: 138,878 witnesses were examined, and 8·8 per cent. were detained more than two days, a result which compares favourably with that of 1895, when a smaller number of witnesses (131,507) was examined and a larger proportion (9·8 per cent.) detained over two days.

6. *Crime: Police: Criminal Justice.*—The number of cognizable offences reported increased from 16,758 to 17,884, and of non-cognizable offences reported, from 16,906 to 17,510. In the 24-Parganas, Jessore and Khulna the increase in cognisable crime occurred chiefly in burglary and theft cases, and is attributed to the prevailing scarcity and high prices. The increase in both classes of cases occurred everywhere except in Murshidabad, where there was a decrease mainly in sanitary offences: it is not stated what proportion of the cognizable offences consisted of breaches of sanitary laws. Seven hundred and seventy-seven cases were declared false; and the proportion of cases declared to be false, in connection with which prosecutions were instituted, was still smaller than in 1896, being only 5·0 per cent. Only 15 of the 39 cases prosecuted ended in conviction. Full use was not made of the provisions of Section 560, Criminal Procedure Code, only 103 complainants being ordered to pay compensation under that Section. The police abstained from enquiry in 7·5 per cent. of the cases reported to them. The number of true cases of murder increased from 42 to 56, and in Khulna, there were 12 riots, which ended in loss of life.

Twenty-one thousand, nine hundred and seventy-two cases were disposed of by Stipendiary Magistrates, and 9,939 by Honorary Magistrates, against 19,651 and 10,048, respectively, in 1895. The number of witnesses examined in the Courts of Stipendiary Magistrates was 56,344, and in those of Honorary Magistrates, 15,166, against 55,844 and 16,295; the proportion detained over two days was 4·8 against 3·9 in the former class of Courts, and 8·2 against 9·6 in the latter. The number of Honorary Magistrates (418) was 40 less than in the previous year, and this is probably the reason why they tried fewer

cases. The Commissioner reports that their attendance is improving in regularity, and that they did useful work on the whole, especially in Khulna and Murshidabad. The percentage of police cases remanded six times or more was 4·3, against 4·9 in the previous year. It is hoped that succeeding years will see a further improvement in this respect. There were 324 re-convictions, against 284 in 1895, a result which is, no doubt, due to the improved methods of identifying old offenders.

One hundred and sixty-eight cases were tried at the Sessions, and 72·0 per cent. ended in conviction, against 68·7 per cent. in 1895.

Fines to the amount of Rs 1,26,465 were imposed during the year, and Rs. 1,15,513 were realized. Rupees 15,319 were written off, and the balance at the end of the year stood at Rs. 19,277.

The Commissioner repeats his commendation of the work of Mr. W. T. Moore in improving the efficiency of the police in Nadia, and makes severe strictures on the condition of that force in Khulna. There was a satisfactory decrease (from 618 to 437) in the number of officers of the regular police punished departmentally, but unfortunately also a slight decrease in the number rewarded. Among the rural police, the number rewarded increased from 263 to 755, and the number punished, from 6,015 to 7,850. The Lieutenant-Governor agrees with Mr. Westmacott in regretting that so much punishment should have been found necessary and so few rewards merited. There can be no doubt that, as he writes, chaukidars in the hands of a good station officer are a valuable instrument for dealing with crime. Instances of excellent work done by them are reported from Nadia. Some progress has been made in Murshidabad, the only district of the Division in which chaukidars under Regulation XV of 1817 exist, in the work of replacing them by chaukidars under Act VI (B.C.) of 1870.

7. *Land-Revenue.*—The aggregate current demand of the Division on account of land revenue and road and public works and zamindari dâk cesses was Rs. 60,36,360. The arrear demand was Rs 3,06,397. The total collections amounted to Rs. 59,97,152, or 92·95 per cent. of the total demand. The proportion of current collections to current demand was 95·34 per cent. in the aggregate. In the case of land-revenue, the following statement shows the percentage obtained in each District and each class of Estate, as well as the standard percentage:—

	Permanently-settled Estates.	Temporarily-settled Estates.	Government Estates.
Standard percentage	99	95	90
24-Parganas	98·18	93 73	81·69
Nadia	99·96	95 49	75·26
Murshidabad	99·62	89·94	45·86
Jessore	99·28	86 46	69·29
Khulna	99·32	74·64	56 86
Calcutta	.....	.....	99·96

The collections showed an improvement in permanently-settled estates in Nadia, Murshidabad and Khulna generally, and some improvement also in temporarily-settled estates in the 24-Parganas, Nadia and Jessore, but there is much room for further improvement in the collection of revenue in this class of estates; the collections in estates under direct management were very poor in all the districts, except in Calcutta. The Commissioner considers this fact to be sufficiently explained by the failure of crops and the high prices. The collections, on the whole, were remarkably good.

Rupees 10,844 were spent on improvements in Government Estates (excluding that of Orphanganj, where special expenditure was incurred for the improvement of the market); it does not appear how much money, if any, was spent on agricultural improvement—a subject to which particular attention was called last year. In future reports it should be stated what action has been taken in the matter of introducing agricultural improvements in Government and Wards' Estates, in accordance with the orders contained in Government Resolution No. 895T.R., dated the 9th October 1896. One thousand two hundred and twenty-eight estates, or shares of estates, became liable to sale in default of payment of land-revenue, and 101 were actually sold.

There was a large increase in the number of certificates filed during the year (12,237 against 7,328 in 1895-96), the reason of which is not explained, and as many as 4,458 of these cases remained pending at the end of the year.

8. *Wards' and Trust Estates.*—There were four Estates under the management of the Court of Wards; besides one, of which charge was taken towards the close of the year, and for which no figures are given, and the Sayadpur and Chanchra Trust Estates. The Jaynagar Estate, in the 24 Parganas, was released during the year. The current demand on account of rent and cesses of the six Estates was Rs. 8,71,670; the arrear demand was Rs. 10,39,003; and the total collections amounted to Rs. 9,15,874, or 47·4 per cent. of the total demand. It is satisfactory that the balance outstanding in the accounts of the Kassimbazar Estate in Murshidabad and Tippera has been reduced by Rs. 95,318. The amount of arrears, however, is still large; but the collections in the year under review were better than they have been since the Court of Wards assumed charge, owing to the facts that the crops were not so bad in Tippera as elsewhere, and that the cultivators received very high prices for their surplus produce. Rupees 52,762 were spent on improvements in this Estate, Rs. 15,730 in the Bhawanipur Estate, but nothing was spent on this account in the Sayadpur Trust Estate, the management of which is unfavourably commented on by the Commissioner. The attention of local officers is again directed to the necessity of striking off irrecoverable balances and spending more money on agricultural and sanitary improvements. The year under review was not a favourable one for incurring a large outlay on improvements, but the Lieutenant-Governor trusts that the subject will not be lost sight of in the present and future years.

9. *Excise: Stamps: Income-tax.*—The excise revenue rose from Rs. 38,42,466 to Rs. 38,78,369; the increase was almost entirely in Calcutta, which yields the bulk of this part of the revenue, and was mostly due to the larger consumption of country spirit, the revenue from which rose from Rs. 16,30,812 to Rs. 17,45,949. In the districts of Nadia, Khulna, Jessore, the 24-Parganas and Murshidabad, the consumption of country spirits fell considerably, owing to the prevailing agricultural depression. Mr. Westmacott considers that the high rates at which country spirits are taxed in his Division lead to smuggling. The revenue derived from rum declined by Rs. 47,952, and that from opium, by Rs. 17,608. The decline in the opium trade is said to be due to the vigorous measures taken to stop the illicit transport of opium to Burma. The amount of salt consumed in the 24 Parganas and Khulna decreased from 2,97,266 maunds to 2,71,048 maunds, and the Commissioner attributes this also to the agricultural depression, as well as to illicit manufacture.

The Stamp Revenue rose from Rs. 47,73,278 to Rs. 48,48,135. The number of prosecutions for offences against the Stamp Laws was 99, against 174 in the previous year.

The Income Tax yielded Rs. 24,26,450, or Rs 2,25,758 more than in the previous year. Practically the whole of this increase came from Calcutta. In the 24-Parganas and Khulna there was a slight decrease, due, it is said to the general distress and consequent deterioration in the circumstances of some of the assessees. The percentage of collections on the final demand was again worst in Calcutta (96·6 per cent.) and over 97 per cent. in all the districts. No special complaints were received during the year with regard to the working of the Act.

10. *Communications and Public Works.*—The Bengal Central Railway Company took over the management of its own line during the year. The steam tramway from Ranaghat to Krishnagar was still under construction. The construction of four new sluices was commenced in the embankments of the 24-Parganas; and, in Murshidabad, a retired line of embankment is being thrown up at Bhagwangola. In Jessore, the excavation of the silted-up Bhawanipur Khal was undertaken, mainly at the expense of local subscribers. District Boards generally did their best to maintain and improve existing roads.

11. *Education.*—There were 5,804 schools in the Division and 2,06,432 pupils, or 7,953 more pupils than in the previous year. The total expenditure rose from Rs. 10,59,902 to Rs. 10,74,487, owing, no doubt, to the increase of pupils. Rupees 3,77,564 were spent on primary education; and the number of primary schools decreased from 4,864 to 4,806. Though the total expenditure on primary education (owing to falling off in fees) was less than in the previous year, the Lieutenant-Governor is glad to notice that the outlay on it

from Provincial, District, and Municipal Funds was somewhat in excess of that of the preceding year. There were 444 girls' schools and 14,624 girls at school, slightly less than in the previous year. The number of Muhammadans at school has again increased to 58,763, or 28·3 per cent. of the whole number of pupils. The proportion of boys (of all classes) at school to boys of a school-going age was 32·5, against 31·1 in the previous year, but is still far short of what it ought to be in the advanced districts of the Presidency Division. Measures have recently been taken by Government, which it is hoped will have the effect of increasing the number of Muhammadan Inspecting Officers in districts in which Muhammadans preponderate.

12. *Dispensaries and Hospitals.*—There were 60 of these institutions open in 1896, besides the new South Suburban Hospital at Bhawanipur, for which figures are not given; they treated 292,062 patients, only 100 more than in the previous year. The expenditure increased, however, from Rs. 1,02,198 to Rs. 1,06,237. Nearly half this sum was derived from private subscriptions; but it is clear that the Division stands in need of more and better organized medical relief.

13. *Local Self-Government Institutions.*—The District Boards and the recently-formed Union Committees are reported to have done useful work; but the same commendation is not extended to the Local Boards. The expenditure of District Boards on primary education was everywhere sufficient, and is increasing everywhere, except in Nadia; but the sums spent in sanitation were very small in all the districts except the 24-Parganas, where Rs. 12,751 were spent on this object, most of it on water-supply. The Union Committee at Basudebpur in that district is specially reported to have worked satisfactorily. Mr. Westmacott thinks that, in time, these Union Committees will be able to take the place of the Local Boards, and render the latter unnecessary. Three new Municipalities were formed at Garulia, Garden Reach and Azimganj, by separation from the North Barrackpore, South Suburban and Lalbagh Municipalities, respectively. The Municipality at Chanduria in Khulna was abolished. The ultimate number of Municipalities in the Division was 40. General elections were held in 31 of the Municipalities, and none of these elections failed. The Commissioner reports that the people evince more interest in the selection of members than they used to do. The attendance of the members at meetings showed some slight improvement. The collections, as was pointed out last year, appear to be the weakest point of Municipal administration in the Division. The Krishnagar Municipality was particularly bad in this respect. At Cossipore, Chitpur and Maniktala considerable sums were spent on water-supply; and in Naihati, Garulia, Titagarh, and Baranagore, the Municipalities received help from the Managers of mills.

14. *Conduct of Zamindars.*—The Commissioner reports a few cases of oppression or turbulence on the part of landlords and their subordinates. He has given a detailed account of the zamindars who have done well in helping their tenantry in their distress. On the whole, the relations between landlord and tenant have been satisfactory, and many wealthy zamindars have done much to help their raiyats through the prevailing distress. This has been especially the case in Murshidabad, where the Collector observes, that had it not been for the assistance rendered by the zamindars, Government must have undertaken relief measures on a much larger scale than has been found necessary. Foremost in the work of relief, as she had long been in every other charitable work, was the Maharani Surnomoyee, C.I., and the Lieutenant-Governor takes this opportunity of expressing publicly his sense of the deep loss which the Province has sustained in her death. Some of the zamindars in Khulna also gave employment to distressed persons, and took measures to protect their lands from the incursion of sea-water. Among, those specially mentioned, as good landlords, are the Mukherjees of Gobardanga, the Chowdhuries of Baruipur in the 24-Parganas, Maharaja Khittish Chunder Roy Bahadur of Krishnagar, the Nawab Bahadur of Murshidabad, Rao Jogendra Narayan Roy of Lalgola, Raja Ranajit Sinha Bahadur of Nashipur, Babu Charu Krishna Mazumdar of Islampur.

Maharajah Sir Jotindra Mohan Tagore is reported to have given much relief to his people who were suffering from want of water, and Mr. Justice Chandra Madhub Ghosh and Roy Hari Charan Chowdhuri to have given employment to distressed persons on their estates in Khulna, and to have taken

measures to protect their lands from incursions of salt water. On the other hand, many others are named who need not be mentioned here, who are absentees and did nothing to help their tenantry, and were unduly severe and oppressive.

15. The thanks of the Lieutenant-Governor are due to Mr. Westmacott for his efficient administration of the Division, and for his exhaustive Report, which, however, might be curtailed with advantage in future years, and from which the following extracts are published for general information.

By order of the Lieutenant-Governor of Bengal,

M. FINUCANE,

Secretary to the Govt. of Bengal.

Extracts from the Annual General Administration Report of the Presidency Division for the year 1896-97.

V.—MATERIAL CONDITION OF THE PEOPLE.

13. Owing to a succession of bad harvests during the past three years, the material condition of the people in the Twenty-four Parganas has not been satisfactory. The price of common rice averaged ten seers a rupee against fifteen seers in the previous year, but the distress did not amount to famine, as the labouring classes found plenty of work in the mills, in road work under the District Board, and in the excavation of tanks, &c., under the Board and private individuals. In Nadia, people of all classes have suffered to a greater or less extent from the failure of crops and the rise in the prices of food-grains. The suffering developed into famine in some portions of the district, and I believe that had not relief operations on a large scale been undertaken, there must have been deaths from starvation, probably in considerable numbers. A large proportion of the inhabitants of the district are cultivators holding their lands under the *utbandi* system. They are to all intents and purposes tenants-at-will, and are at the mercy of the landlords or superior tenure-holders. With very few exceptions, they are in a chronic and hopeless state of indebtedness to their mahajans. Even tenants with rights of occupancy are as a rule burdened with debt, the only advantage they gain from greater fixity of tenure being the power of borrowing more money than raiyats under the *utbandi* system. They suffer also from the heedless extravagance with which they spend sometimes as much as a year's income on the marriage of a daughter. In Murshidabad the partial failure of crops and the high prices of food-grains have injuriously affected the condition of the poorer classes, and at the close of the year there was considerable distress among the landless classes and the smaller cultivators, especially in the southern and eastern portions of the district. Measures for the relief of distress were commenced in these tracts in February. It is hoped that the distress is only temporary and will disappear when the *aus* rice is harvested. In Jessore the bulk of the people, who are agriculturists, were more or less distressed owing to partial failure of crops. The markets were, however, supplied by importations, and the people had some purchasing resources from the good outturn of their jute crop. This, coupled with the proceeds of date-juice and sugar which are very important products of the district enabled the people to tide over their difficulties till the end of March. As a rule, the inhabitants of Khulna are well-to-do and prosperous, but during the year under report the poor outturn of the rice harvest affected them seriously. In the southern part of the Satkhira subdivision the circumstances were exceptional, the *aman* crop failing owing to the incursion of salt water—a calamity which will probably recur even when the rest of the district is prosperous. In the latter part of October the situation became serious, and relief operations were started in January. During the interval people sold their cattle, brass utensils and ornaments to buy food, and when their resources were exhausted, attended relief works on a maximum wage of two annas a day, while many large cultivators who were unwilling to go to relief works sold everything they had for food.

VI.—EMIGRATION AND IMMIGRATION.

14. The number of emigrants registered in the Twenty-four Parganas district during the year was 4,928 as compared with 3,446 in the year preceding. Of these, 813 were for the colonies and 4,115 for the labour districts of Assam, Cachar and Sylhet, as compared with 808 and [illegible], respectively, in the year 1895-96. This abnormal increase is probably due to the distress and the high

prices of food-grains that prevailed in the latter part of the year. Of the total number of persons who emigrated during the year, only four belonged to this district. Besides these, it is stated that a large number of coolies passed through the Barasat subdivision of this district during the year on their way to Assam, Cachar and Sylhet, halting for a short time at the rest-houses at Naihati. During the year there were five rest-houses provided with sleeping accommodation, separate sheds for cooking purposes, and pucca latrines. Drinking water was supplied to these rest-houses from the river Hooghly, and it is reported that proper care was taken of the health of the emigrants. No complaint of ill-treatment by the managers of rest-houses was received. Sixteen cases of cholera occurred in the rest-houses, but only one of them ended fatally. The patients were removed to the cholera hospital for treatment and the compounds were disinfected. It is also stated that a large number of up-countrymen and dhangars come to this subdivision every year for employment in mills and on road and drainage works in municipalities and rural tracts, and that a number of coolies from Midnapore and Cuttack come to the south of the district every year for work, both during the transplanting season and the harvest, and go back as soon as their work is over. There has been no regular emigration or immigration on any scale worthy of note in Nadia. There was the usual exodus of labourers for the harvest to the Sunderbans and the neighbouring districts. A certain number also went to Faridpur for employment on the railway. As in previous years, there was no emigration from, or immigration into, Murshidabad during the year. From Jessore, as usual, a number of labourers visited the Sunderbans for the rice harvest. Some fishermen also went there from the Narail subdivision for catching fish. A number of labourers are also reported to have gone from the Magura subdivision to the neighbouring districts and to Calcutta in search of employment. As regards immigration, gangs of earth-diggers came from the western districts for digging tanks, some Cabulis and up-country hawkers also went round the district carrying warm clothes and other wares for sale. A few Biharis and up-countrymen also came to the Bangaon subdivision for employment on the railway. During the year there was no emigration from Khoolna to other districts, but many people, especially *Pods* in the distressed area, migrated to the eastern parts of the district in the months of November, December and January—some in search of employment and some in consequence of having secured lands better protected from the ravages of salt water. It is reported that many families have come from the Kaliganj side of the Satkhira subdivision, where there was famine, and have settled in the jurisdiction of the Rampal thana. As regards immigration, day labourers from the neighbouring districts came to this district, both during the sowing and the reaping seasons, in quest of work in the fields. Some Cabulis and up-country hawkers visited the district with warm clothes, &c.

VII.—PRICE OF FOOD AND LABOUR.

15. Owing to drought in the past two years, and the consequent poor outturn of crops, the price of common rice and almost all other food-grains in March 1897 ruled much higher than in the corresponding period of either of the two preceding years. The average price of common rice, which forms the staple food in the division, was 10 seers 2 chitaks per rupee against 15 seers 10 chitaks in 1895-96 and 17 seers 13 chitaks in 1894-95. In the Twenty-four Parganas the price of common rice was 9 seers 11 chitaks against 14 seers 6 chitaks in 1895-96; in Nadia it was 9 seers 4 chitaks against 14 seers 7 chitaks; in Murshidabad 9 seers 12 chitaks against 15 seers 13 chitaks; in Jessore 9 seers 12 chitaks against 15 seers 1 chitaks and in Khulna 10 seers 3 chitaks against 15 seers 8 chitaks in the previous year. It appears that the prices in all districts ruled high from the beginning of the year under report, but in consequence of the failure of the *aous* and *aman* crops from insufficient and unseasonable rainfall, prices rose towards the end of the year. But the wages of labour generally remained stationary. In the Twenty-four Parganas and Jessore the wages of both skilled and unskilled labour remained much the same as in the previous year. In Nadia and Murshidabad the wages of skilled

labour increased a little. In the tracts affected by scarcity and famine in the districts of Nadia and Khulna, labourers were obtainable for relief works at the rates of wages prescribed by the Famine Code, which are lower than the ordinary rates.

* * * * *

IX.—TRADE AND COMMERCE.

18. The instructions contained in Government Circular No. 1, dated the 20th April 1896, of the Statistical Department, have been strictly adhered to in compiling the statistics of trade of this division. From the returns supplied by the railway audit offices, the Collectors have prepared and submitted two consolidated returns of the twenty-four staples mentioned in the Government Circular in the prescribed Forms I and II—one for imports and the other for exports. They have also, from the statistics supplied by the Government of Bengal, prepared and submitted four similar returns, two showing the import and export trade along the Nadia rivers, and two showing the import and export trade along the canals. Besides the above, two statements of exports and imports with regard to the trade of the several districts with Calcutta have been prepared in Forms III and IV appended to the Government Circular from the monthly statements published in the *Calcutta Gazette* by the Statistical Department of the Government of Bengal. From the several statements submitted by Collectors, as enumerated above, Divisional returns have been prepared in my office, as directed in the Government circular, and are submitted as appendices to this report, bearing Nos. XXXIII to XL. An amalgamated statement, which has been compiled from the foregoing appendices, as directed by Government, is given below. It shows the total imports and exports in each of the twenty-four staples carried by rail and along the Nadia rivers and canals. With reference to the instructions contained in paragraph 3 of the Government Circular to the effect that in the amalgamated statement all traffic coming towards Calcutta should be treated as "down" traffic, and all traffic going from the direction of Calcutta as "up" traffic, the Collector of the Twenty-four Parganas observes that, having regard to the relative position of Calcutta and his district, all imports into the Twenty-four Parganas from other districts except Calcutta have been considered as coming towards Calcutta and treated as "down" traffic, and all exports from the Twenty-four Parganas to other districts except Calcutta have been considered as going from the direction of Calcutta and treated as "up" traffic. As regards the traffic with Calcutta, all imports into the district from Calcutta have been considered as coming from the direction of Calcutta and treated as "up" traffic, and all exports from the district to Calcutta have been considered as going towards Calcutta and treated as "down" traffic. In preparing this statement, the internal trade between the several districts of this division has been excluded, as directed in the Government Circular:—

19. The above statement shows that the principal articles of export from this division are rice, husked and in husk, wheat, gram and pulse, and other food-grains, jute, gunny-bags, linseed, silk, sugar (both refined and unrefined), tobacco and indigo. The table below shows the extent to which these articles were exported during the year, by rail, river, and canal:—

Indigo	100	...	5,690	2,856	1,900	1,987	342	623	...	...	8,032	5,466

This shows that there was a decrease in the export of all the articles during the year, with the exception of gram and pulses, jute, sugar (both refined and unrefined) and tobacco. The decrease in all staples under food-grains is said to be due to the drought and consequent bad harvest. The increase in the export of gram and pulses, jute, sugar and tobacco is attributed to the fact of the people having had to sell them in order to purchase rice for food.

The table below shows the exports of these articles from the several districts to Calcutta by rail, river, road and canal.

Export from several districts of this Division to Calcutta by rail, river, road and canal.

There was a decrease in the export of all articles to Calcutta during the year, as compared with the year preceding, with the exception of jute, gunny-bags and tobacco, which show a considerable increase, probably due to the cause stated above.

The principal articles imported into this division are rice, paddy, cotton piece-goods, salt, kerosine oil, gunny-bags, and coal and coke. The following table shows the extent to which these articles were imported into this division by rail, river and canal during the year, as compared with the year preceding:—

Articles imported into the districts of this Division by rail, river and canal.

During the year under report there was a large increase in the import of all the articles into this division, with the exception of salt, owing to the bad harvest and consequent distress.

The table below shows the imports of these articles into the several districts of this division from Calcutta by rail, river, road and canal:—

20. The imports into the several districts of this division from Calcutta show a considerable increase under all heads. The Collector of the Twenty-four Parganas has not explained these fluctuations. The Collector of Nadia states that the quantities of rice and paddy imported into his district far outweigh the quantities exported, and that had it not been for the supplies of rice obtained from the *Rarh*, it would have been absolutely necessary for Government to import rice into the distressed areas. The Collector of Murshidabad observes that the figures supplied by the railway authorities and toll collector's office at Jangipur do not include the large export that is annually carried on by carts. The export of rice by cart from the *Rarh* to other districts was this year far above the average, and it is probable that, had figures been available, the total export from the district would show an increase over that of the previous year in spite of the partial failure of crops. The Collector of the Twenty-four Parganas reports that, besides the twenty-four staples enumerated in the statements prescribed by Government, there are other articles, some of them important, in which traffic is carried on between his district and Calcutta along the undermentioned eleven main routes of the district, viz., (1) Kamardanga, (2) Behala, (3 Kowrapookur khal, (4) Kowrapookur road, (5) Gurriya, (6) Bone Hooghly, (7) Jingerpole, (8) Matiabruj road, (9) Matiabruj ghât, (10) Nimak Mahal, and (11) Moti jheel. Of these the principal articles are (1) lime and limestone, (2) fresh fruits other than cocoanuts and betel-nuts, (3) iron, (4) firewood, (5) bricks and tiles, (6) hides, and (7) spirits. The following table

shows the imports and exports of these articles as registered along the above-mentioned eleven main routes during the past two years:—

Articles.	Import from Calcutta.		Export to Calcutta.	
	1895.	1896.	1895.	1896.
1	2	3	4	5
	Mds.	Mds.	Mds.	Mds.

	Rs.	Rs.	Rs.	Rs.
7. Spirits	56,253	57,279	41,193	44,008

21. The Collector of Jessore states that the bulk of the import and export traffic in the eastern parts of his district with the eastern districts is carried on by country boats, and that, as there is no organized agency for registration, no figures are available. It is also stated that besides the twenty-four staples prescribed by Government, Jessore exports molasses, fish, cattle, hides, cattle-bones, rags, betel-nuts and butter. The following statement shows the transactions of the Khulna Loan Company, Limited:—

	Rs.	A.	P.
Amount of deposit	1,42,702	0	9
Ditto of loan given	79,279	7	6
Ditto of deposit withdrawn	1,23,600	1	9

In Jessore, one Muhammad Hadem Hazi Haji of Baradaha, police-station Sailkhopa, started a company known as "A company to lend money without

interest, Limited," ostensibly as a branch office of one at Jagannathpur, outpost Chiriribunder, district Dinajpur. The business of this so-called company appears to be suspicious, and three persons have laid charges of cheating, under section 417, Indian Penal Code, against the Baradaha Company, while others have made verbal complaints to the Joint-Magistrate of Jhenidah. The procedure was notified by the company to be as follows. A man should get himself registered by paying two rupees as fee and a monthly subscription of one rupee. He then becomes entitled to a loan of one hundred rupees after four months, two hundred after eight months, and so on, on condition that the loan is repaid in forty monthly instalments. The man Hadem Haji has been convicted in a forgery case, and sentenced to four years' rigorous imprisonment.

XVII.—CONDITION OF THE DIVISION AS REGARDS LAND AND LAND REVENUE ADMINISTRATION.

32. The number of estates of each class borne on the revenue-roll of the several districts during the years 1895-96 and 1896-97 is shown below:—

Year.	Class I—Permanently settled estates.	Class II—Temporarily settled estates.	Class III—Estates held direct by Government.	Total.
1	2	3	4	5
1895-96 ...	9,330	752	257	10,339
1896-97 ...	9,369	733	256	10,358
Difference ...	+39	−19	−1	+19

In all districts there was a change in the total number of estates. In the Twenty-four Parganas the number increased by nine, in Nadia by four, in Murshidabad by eighteen, and in Jessore by one, while in Khulna there was a decrease of thirteen, the net result in the division being an increase of nineteen estates. Transfers from one class to another took place in every district, owing partly to the sale of estates for arrears of Government revenue and their purchase by Government for want of bidders, and partly to the sale of petty Government estates to private individuals with the revenue fixed in perpetuity. The increase in the Twenty-four Parganas and the decrease in Khulna are due to the transfer of thirteen estates from Khulna to the former district. Three new estates were added to class II in Nadia, and one estate was received by transfer from Rajshahi. The breaking up of a Government estate, which consisted of a number of scattered plots in different villages, caused the increase in Murshidabad. In Jessore a new estate was created by the acquisition of a plot of land for the protection of the subdivisional building at Narail. The following table shows the demand, collections, remissions and balances of land revenue during the past two years, 1895-96 and 1896-97:—

Year.	Arrear demand.	Current demand.	Total demand.	Arrear collection.	Current collection.	Total collections.	Remission.	Balance.	Percentage of collection on demand.
1	2	3	4	5	6	7	8	9	10
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1895-96 ...	1,37,742	51,06,291	52,44,033	98,230	49,48,863	50,47,093	33,661	1,63,279	96·2
1896-97 ...	1,63,866	51,22,004	52,80,870	1,25,025	49,61,296	50,86,321	23,674	1,70,875	96·3

There was a slight improvement in the percentage of collections on demand compared with the preceding year. There was a corresponding increase in collections according to the rise in the total demand of the year, while the remissions decreased from Rs. 33,661 to Rs. 23,674. The percentage of collections in each class is exhibited in the following statement:—

Class of Estate.	1895-96.						1896-97.					
	Arrear demand.	Arrear collection.	Percentage of collection.	Current demand.	Current collection.	Percentage of collection.	Arrear demand.	Arrear collection.	Percentage of collection.	Current demand.	Current collection.	Percentage of collection.

Compared with the preceding year, the percentage of collections of arrear demand improved in all the classes, though it was below the prescribed standard of cent per cent. Considering the impoverished condition of the people caused by failure of crops, the results in Nadia, Jessore, and Khulna, where the percentage was above ninety, may be accepted as fair. The collections were not satisfactory in the Twenty-four Parganas or in Murshidabad. The current collections improved in permanently-settled estates, but fell off in those temporarily-settled or under direct management. It is reported that in consequence of failure of crops and high prices farmers could not collect rents or pay the revenue. The percentage of total collections, *i.e.*, both arrear and current, is as follows:—

Calcutta	...	...	...	...	99·91
Twenty-four Parganas		...	...	...	93·9
Nadia	...	...	...	...	98·8
Murshidabad	...	...	...	...	97·7
Jessore	...	...	...	...	99·0
Khulna	...	...	...	...	93·0
			Total		96·3

The statement below shows the collections in estates under direct management in each district of the division:—

District.	Number of estates.	Current demand.	Arrear demand.	Total demand.	Current collection.	Arrear collection.	Total collection.	Percentage of current collections on current demand.	Percentage of arrear collections on arrear demand.	Percentage of total collections on total demand.	Percentage of current collection on current demand in 1895-96.

Total for 1895-96 ...	.....	...	...	...	...	...	.....	...	...	...	...

The number of estates under direct management was 256 against 257 in the preceding year, changes having taken place in every district except Calcutta.

The Twenty-four Parganas shows a decrease of twelve estates, and Nadia of four estates, chiefly owing to the sale of petty Government estates. The increase of eleven estates in Murshidabad is due to the breaking up of the scattered estate Rati Bahadurpur into separate estates. In Jessore the purchase by Government of two revenue-paying estates at sales for arrears of revenue and the acquisition of a plot of land for the protection of the subdivisional buildings at Narail explain the addition of three estates. In Khulna one estate has been added to this class on account of three out of four shares of a permanently-settled estate having been purchased by Government. There was an increase in the divisional totals under the heads of "Current demand" and "Current collection." The decrease in the current demand in Calcutta is due to a decrease in the number of revenue-paying holdings on account of redemption of land tax. The increase in the Twenty-four Parganas, in spite of a decrease in the number of estates, is due to the inclusion for the first time of the demand of certain canal surplus lands in the demand of the Panchannagram estate. The decrease in Nadia is due to a considerable falling off in the price for which thatching-grass was sold in the Meherpur subdivision. The decrease in the demand in Murshidabad is due to the abatement of rent in estate Chur Masimpur and to the transfer of three estates to Birbhum and of nine estates to class I on their sale to private persons. The increase in Jessore and Khulna is due to an increase in the number of estates. The percentage of current collections on current demand in Calcutta were the same as in the preceding year, viz., 99·9. It slightly improved in the Twenty-four Parganas and Nadia, but fell off considerably in Murshidabad, Jessore and Khulna. In no district, except in Calcutta, was the prescribed standard attained. The poorest results are shown in Murshidabad, in which district only 45·86 per cent., were collected. As regards arrear collections, all the districts, including Calcutta, show bad results, which may fairly be attributed to the universal failure of crops. Mr. Walsh, Officiating Collector of the Twenty-four Parganas, reports that the crops have been for some years past destroyed either by excessive floods or by ingress of salt water into the principal Government estate in the district Considering the failure of crops, I cannot blame Collectors for the poor collections. The remissions granted during the year are classified below:—

		1895-96.	1896-97.
		Rs.	Rs.
Nominal remissions	... ...	10,045	1,967
Remissions of grace	... ...	22,504	19,186
Remissions of right	... ...	1,112	2,521
	Total ...	33,661	23,674

The nominal remissions represent the rent of certain vacant godowns in the Orphanganj market and the rent of unoccupied lands in some Government estates. The remissions of grace were granted to tenants on account of failure of crops. The remissions of right were granted chiefly on account of redemption of Government revenue and diluvion. There has been no material change during the year either in the agency or mode of management of estates under direct management. The question of paying tahsildars by commission in the district of Murshidabad, and not by fixed salaries, was considered during the year, and my proposals have been sanctioned by the Board of Revenue and by Government. The question of extending the system into the other districts of the division is now under consideration. The statement below shows the

expenditure incurred for the management of khas mahals and for miscellaneous and other improvements:—

Statement showing the expenditure incurred in estates under direct management from the various heads during the year 1896-97.

Division.	District.	Amount expended from—			Total.	Remarks.
		7½ per cent.		2 per cent. for sanitary improvements.		
		Management proper.	Miscellaneous improvements, including agricultural improvements and experiments.			
1	2	3	4	5	6	7
		Rs.	Rs.	Rs.	Rs.	
Presidency	Twenty-four Parganas ...	12,474	3,114	4,229	19,817	
	Nadia ...	1,266	103	1,270	2,639	
	Murshidabad	2,222	115	1,385	3,722	
	Jessore ...	...	...	48	48	
	Khulna ...	628	500	80	1,208	
	Total ...	16,590	3,832	7,012	27,434	

In the Twenty-four Parganas, besides the sum shown in the above table, Rs. 30,000 were sanctioned for miscellaneous and sanitary improvements in the Government estate Orphanganj. Out of the total sum of Rs. 36,900 sanctioned for works of miscellaneous, sanitary and agricultural improvements in Government estates in the district, Rs. 34,615 were actually disbursed, leaving an unexpended balance of Rs. 2,285. The expenditure on works of miscellaneous improvement amounted to Rs. 27,989, out of which Rs. 27,272 were spent in Orphanganj, on the construction of four godowns and of an inlet for the accommodation of boats, and also in repairs to godowns and sheds, &c. The balance, Rs. 717, was spent on repairs to certain tahsil cutcherries in the subdivisions of Diamond Harbour and Basirhat. The total amount spent on works of sanitary improvement, which generally consisted in excavating or re-excavating tanks, was Rs. 4,229. A sum of Rs. 2,397 was spent on works of agricultural improvement. Of this amount, Rs. 1,859 was spent in constructing embankments in Bonomalipur, in the Diamond Harbour subdivision, with a view to protect the lands from the ingress of salt water; and the balance in repairing the riverside embankment in Port Canning. The sum of Rs. 1,373, allotted for miscellaneous sanitary and agricultural improvements in Nadia, was spent as follows.—

	Rs.
(1) Re-excavation of a tank in the subdivisional compound at Kushtiya	894
(2) Construction of a masonry well at Chur Kururyia ...	376
(3) Repairs to cutcherry of Chur Kururyia	30
Repairs of cutcherry at Bilmediya in the Meherpur subdivision	73
...	1,373

In Murshidabad, Rs. 1,500 were allotted for sanitary, agricultural and miscellaneous improvements in Government khasmahals during the year. The whole of this amount was spent during the year as detailed below:—

				Rs.
On repairing cutcherries ...	...	...	...	45
Repairing and maintaining roads	...	...	...	15
Digging tanks and sinking wells	...	...	...	1,340
Construction of embankments	...	...	...	15
Clearing jungle	...	...	...	45
In miscellaneous works	...	...	...	30
		Total	...	1,500

In Jessore the allotment for works of improvement was Rs. 100, out of which Rs. 48 was actually spent in sinking a well in Banskhola in the Magura subdivision. The allotment in the district of Khulna for miscellaneous, sanitary and agricultural improvements amounted to Rs. 700, out of which Rs. 580 were actually disbursed on the following works:—(1) On repairing a sluice-gate in Kilua Khal in Chandkhali, Rs. 375. (2) Foot bridges in Chur Baniyari in the Bagerhat subdivision, Rs. 125. (3) Sinking wells, Rs. 80. No new staple was cultivated in any district in this division during the past year. In the Twenty-four Parganas the number of schools maintained in Government estates was 64, and the amount expended for the purpose was Rs. 3,116-7. This amount includes rewards given to certain schools. In Nadia there were two primary schools in the khasmahals of the Kushtia subdivision, each of which received a monthly grant of Rs. 5. There were also two primary schools in Bilmediya in the Meherpur subdivision, one of which was maintained by the Church Missionary Society and the other by the District Board. There was a night school at Gobindapur, Faridpur. The Government grant for primary education in Government estates in this district amounted to Rs. 352, which was distributed to eight schools, as in the previous year. In Murshidabad eight primary schools with 240 pupils were maintained in Government estates under direct management. The total expenditure on account of those schools amounted to Rs. 593, of which Rs. 354 were met from Provincial revenues. In Jessore there are no schools or patshalas maintained from khasmahal funds. Khasmahals in this district are generally small patches of arable land in villages the greater portion of which is the property of private landowners There are primary schools in many such villages containing khasmahal lands, the teachers of which are paid under the reward system. In Khulna there were 25 stipendiary schools with 729 pupils in Government estates at the end of March last, against 29 schools and 896 pupils at the close of the previous year. The Collector attributes the decrease to the distressed condition of the people owing to famine. Rupees 2,050 were spent upon primary education in the Government estates of this district during the year under report. The condition of the raiyats in the khasmahals of this division during the year under report was generally bad everywhere owing to failure of crops. The raiyats were somewhat better off in the Twenty-four Parganas than elsewhere, but the condition of the great majority was bad. Large remissions were granted in almost every estate, as I found the raiyats really unable to pay the amounts due from them. The accounts of the several Government estates in this division were duly inspected. No material irregularities or discrepancies were brought to notice. No complaints were received against any tahsildar or their subordinates. One thousand two hundred and twenty-eight estates or shares of estates with land revenue amounting to Rs. 6,74,229 became liable to sale during the year under review, of which only 101, or 8·2 per cent., were actually sold, against 10·4 per cent. of the preceding year and 11·3 per cent. of the year 1894-95. The sale law was worked with leniency in all the districts of the division, and defaulting proprietors were allowed every facility for paying

their dues and saving their estates or shares from sale. The following statement shows the settlements effected during the year 1896-97 :—

Division.	District.	Original settlements.		Resettlements.				Summary settlements.				Estimated Revenue.	
		Number.	Net revenue.	Number.	Net revenue.	Increase.	Decrease.	Number.	Net revenue.	Increase.	Decrease.	Number.	Estimated revenue.

	Total for 1895-96 ...	26	16,067	66	12,516	2,981	2,255	6	762	...	...	232	64,562

The number of settlements effected during the year was 73, of which 30 were original settlements, 29 resettlements, and 14 summary settlements. The net increase of revenue obtained by these settlements was Rs. 9,588. Of the 30 original settlements, three were in Nadia, four in Jessore, and the rest in the Sundarbans, and the revenue obtained by these settlements amounted to Rs. 23,843. The resettlements resulted in a net increase of revenue by Rs. 9,533. In Jessore the resettlements caused a net decrease of two rupees and in Khulna that of Rs. 22. In almost all the districts of this division there are estates in which the relations between the zamindars and their raiyats were strained, though no outbreak of ill-feeling came under notice. In some estates the tenants complained of the oppression of zamindars and their agents in enhancing rents and the use of coercion.

The following table shows the amount of landlords' fees received and paid during the year under the Tenancy Act :—

District.	Balance of 1895-96.	Amount received 1896-97.	Total.	Amount paid out to landlords.	Amount deposited in the Treasury.	Amount remitted to other districts.	Total.	Otherwise disposed of.	Balance.	Remarks.
1	2	3	4	5	6	7	8	9	10	11
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
Twenty-four Parganas ...	443	4,690	5,133	611	4,487	35	5,133	...	...	
Nadia	23	926	949	269	666	7	942	...	7	
Murshidabad	243	906	1,149	30	873	197	1,100	...	49	
Jessore	29	2,060	2,089	120	1,695	220	2,044	16	29	
Khulna	68	1,963	2,031	146	1,885	...	2,031	...	...	
Total ...	806	10,545	11,351	1,185	9,606	459	11,250	16	85	

The reluctance of landlords to accept these fees still continues, as is evident from the fact that out of a total sum of Rs. 10,545, only Rs. 1,185, or about twelve per cent., were accepted. Certain new rules suggested by me for the disposal of such fees were adopted by Government and promulgated in August last. According to these rules landlords' fees on receipt are not at once sent out and tendered, but are placed in revenue deposit, and notices only are sent to the landlords concerned that the amounts stand to their credit, and will be paid to them or transferred to their revenue accounts on their application. I have no information as to the result of the change, but it appears to me that it would be convenient for landlords who wish to accept the fees if they were credited to their tauzi accounts. In all the districts of this division the petty Government estates, the sale of which had been ordered and which remained unsold at the close of the previous year, have been put up to sale, but the results have been more or less disappointing, as people will not buy these estates except upon much more liberal terms than Government allows. I consider that the policy of selling petty estates subject to payment of revenue equal to the gross rental, is a mistaken one. It has been found that they are seldom sold on such terms, or, if sold, they are soon thrown upon the hands of Government again. The estates are not worth keeping, and I think they should be offered for sale upon terms which would attract purchasers. In Nadia, five petty Government estates,

with a total area of 34 acres and Rs. 57 as revenue, have been sold for Rs. 155. In Murshidabad, twelve Government estates have been sold to the highest bidders for Rs. 1,027. These estates have been sold subject to payment of the annual revenue assessed on them. In Jessore, thirty Government estates were put up to sale in April 1896, but no bidder appeared. Subsequently, on my recommendation, the sale of fourteen of these estates was sanctioned by Government in July 1896, at an upset price of five times the rental, subject to an assessment in perpetuity equal to 75 per cent. of the gross rental. They were put up to sale on these terms, but still no bidder appeared. The Collector was then ordered to endeavour to sell the estates locally, but he succeeded in selling only two of them, the remaining twelve finding no bidder. It is extremely desirable to get rid of these petty Government estates which are scattered in various parts of the district and are difficult and expensive to manage. They are comparatively worthless little plots, of which the rents do not pay the travelling allowance of collecting officers, and they are always subject to encroachment, as it is considered safe to plunder Government. In order to facilitate the sale of estates, the lands of which are situated in several villages, I have caused such estates to be split up and the lands situated in each village to be separately advertised for sale. I have also directed Collectors to issue personal notices to the landlords of the villages in which the lands offered for sale are situated, but even these measures have not been successful. It appears to me that the estates cannot be sold unless they are made free of revenue, and I know that the prices which would be paid on such terms would amply compensate Government for the petty loss of revenue.

33. *Road and Public Works Cesses.*—The following table exhibits the collections of road and public works cesses during the year :—

District.	Demands.			Collections.				Balances.			Deduct remission.	Net arrear.	Percentage of net balance on gross demand.

Grand Total for the Division.	8,82,932	1,37,286	10,20,218	7,68,070	1,07,349	26,441	9,01,860	1,14,863	29,937	1,44,799	7,702	1,37,097	13·45

There has been a slight increase in the demand of cesses shared by the Twenty-four Parganas, Nadia, Jessore, and Khulna, while Murshidabad shows a decrease. In Nadia and Jessore the increase is nominal. The increase is large in the Twenty-four Parganas and Khulna, and is due to the revaluation and new assessment of certain estates and tenures. The decrease in Murshidabad is due to the cancelment of double assessments, to abatements on

account of untraced rent-free tenures, and to the exemption of lands falling within municipal limits. The collections of current demand fell off in all districts, except in the Twenty-four Parganas and Nadia, while there has been a decrease in the collections of arrears in all districts, except in Nadia and Murshidabad. The total collections, however, both on account of current and arrear, are better than in the preceding year, being 88·39 against 87·9 per cent. in 1895-96. A large portion of the arrears is due from the districts of the Twenty-four Parganas, Murshidabad and Jessore. Revaluation is in progress in the Twenty-four Parganas, and has been completed in Jessore. Partial revaluations are in progress in Khulna. A completion report of the revaluation of one revenue-paying, six revenue-free, one *izad* estate under section 37 of the Cess Act and of one estate under section 13, which resulted in an increase of Rs. 5,413-9-5 in the district of Murshidabad, was submitted to the Board.

XXIII.—RAILWAYS AND OTHER PUBLIC WORKS.

40. In the Twenty-four Parganas, 124¾ miles of the Eastern Bengal State Railway, including branches to Budge-Budge, Port Canning, and Diamond Harbour, are open for traffic. The proposal to construct a steam tramway from Barasat to Basirhat, referred to in my last report, is still under the consideration of the District Board. As regards the construction of a steam tramway from Ranaghat to Krishnagar, in the district of Nadia, Messrs. Martin & Co., the promoters of the scheme, have applied for a further extension by nine months of the period for the completion of the tramway. As the work has been retarded by the state of the money market, Government has granted an extension of six months, with effect from the 16th of March 1897, for construction, and from the 16th of December 1897 for completion and equipment of the line. The district of Murshidabad is not well served as regards railway communications, the Azimganj-Nalhati branch of the East Indian Railway being the only line that runs through it. The survey of a proposed line from Ranaghat, on the Eastern Bengal Railway, through Krishnagar to Bhagwangola was sanctioned during the year. Such a line would supersede the tramway to Krishnagar, and would in my opinion be very useful. No new railways were constructed in Jessore or Khulna. The portions of the Bengal Central Railway which pass through these districts were maintained. A survey was made for a proposed line from Singhia in Jessore to Madaripur. Another survey for a line from Kissenganj, on the Eastern Bengal Railway, to Magura in Jessore, *viâ* Kotechandpur, has been in progress for some months. Such a line would be decidedly useful.

41. *Embankments, drainage sluices, &c.*—In the Twenty-four Parganas, Rs. 23,825 were spent in maintaining 216¾ miles of schedule D and 2 miles 1,320 feet of tuccavi embankments, against Rs. 21,288 in the previous year, and Rs. 1,514 in constructing retired lines of embankment against Rs. 4,745. There are 67 irrigation and drainage sluices, of which 48 are maintained by Government, four by the Calcutta Corporation, and fifteen at the cost of the zamindars concerned. Twelve cuts were allowed in embankments for drainage and three for irrigation. Besides these, three cuts were made surreptitiously. Drainage sluices at Satpukor, Kulpi and Bindal, and an irrigation sluice at Tellari, were under construction, the total expenditure incurred during the year being Rs. 1,40,472. In Murshidabad the Public Works Department worked strenuously to keep the Bhagirathi embankment in proper order when the river rose during the rains, and protective spurs have been constructed. A retired line of embankment about six miles in length at Bhagwangola is now in course of construction. In Jessore, the excavation of the Bhawanipur khal was commenced at a cost of Rs. 8,293, of which Rs. 7,293 were raised by local subscription through Mr. Shirreff, an indigo planter, and the rest was contributed by the District Board. No irrigation or drainage works have been constructed in Nadia or Khulna.

42. *Buildings.*—No buildings of any importance were constructed during the year in the Twenty-four Parganas, Nadia or Khulna. The District Board

of Murshidabad constructed an inspection bungalow at Salkiya on the Kandi road. In Jessore, the most important works were the construction of record racks for the Judge's Court at a cost of Rs. 5,313, and of a new record-room for the Narail Munsifi at a cost of Rs. 1,045.

43. *Sanitation, water-supply and miscellaneous public improvements.*—In the Twenty-four Parganas, the District Board expended Rs. 7,904 against Rs. 2,689 in the preceding year on water-supply. Of this sum, Rs. 1,249 were spent in sinking 28 wells, Rs. 1,838 in the excavation of three tanks, and Rs. 4,817 were given out in 194 cases as grants-in-aid to villagers for the purpose of re-excavating tanks. Rupees 2,687 were spent in making sanitary arrangements for the Saugor and Harwa *mêlas*, Rs. 876 in clearing weeds from the Nowdi Nadi, and Rs. 854 in putting up spurs and culverts on the Soonti Nadi in the Barasat subdivision. In Nadia, Rs. 1,993 were spent in sinking wells. Rupees 2,719 were spent in Murshidabad in improving the water-supply: Rs. 735 in maintaining two drainage channels, and Rs. 550 in constructing two pairs of *mar* boats for ferries. In Jessore, Rs. 1,833 were spent in excavating four tanks and Rs. 776 in sinking 181 *kutcha* wells, and in deepening the well within the compound of the Jessore Jail. The District Board of Khulna expended Rs. 2,349 in excavating two tanks, one at Naldi and the other at Mulghur.

XXIV.—COMMUNICATIONS.

44. *Roads.*—Eighty-five miles of Provincial roads were maintained by the District Board of the Twenty-four Parganas at a cost of Rs. 59,033. The average expenditure per mile was Rs. 692 against Rs. 755 in the previous year. The condition of these roads is said to be generally satisfactory. The maintenance of 150 miles of district roads, metalled and bridged, cost the Board Rs. 56,324, or Rs. 375 per mile, against Rs. 430 in the previous year. These roads are said to have been kept in fair order throughout the year. A sum of Rs. 10,564 was spent in maintaining 260½ miles of district unmetalled and bridged roads, and 47 miles of unmetalled roads with temporary bridges, showing an average expenditure of Rs. 34 per mile against Rs. 46 in the previous year. These unmetalled roads are under the management of Local Boards, and are said to be generally in passable order. There were also 992½ miles of village roads under the management of Local Boards, the maintenance of which cost Rs. 13,016 during the year. The District Board spent Rs. 8,658 on original works against Rs. 28,417 in the previous year. The most important work was the construction of a road from Kulpi to channel creek, which cost Rs. 7,734 during the year. In Nadia, the District Board spent Rs. 13,481 on original works, the most important being the improvement of the railway feeder road from Hansdaha to Kissenganj, which cost Rs. 10,834. The expenditure incurred in the maintenance of the different classes of district roads was Rs. 30,829 against Rs. 51,429 in the previous year, and of village roads Rs. 685 against Rs. 2,626. The decrease is due to provision having been made from the sums originally allotted for the maintenance of unmetalled and village roads from famine relief expenditure in the district during the year. There were altogether 1,695½ miles of roads in the district of Murshidabad. The expenditure incurred on the maintenance of 24 miles of metalled and bridged roads was Rs. 9,916, that on 213 miles of unmetalled and bridged roads was Rs. 11,676, on 100½ miles of unmetalled roads with temporary bridges Rs. 4,328, and on 206 miles of low level roads Rs 6,987. The maintenance of 398 miles of village roads cost Rs. 4,801. A sum of Rs. 4,236 was spent by the District Board in raising and improving the district and village roads. In Jessore, 41 miles of Provincial roads were maintained at a cost of Rs. 14,812, exclusive of establishment charges, which amounted to Rs. 1,607. Rs. 26,709 were spent in the maintenance and repairs of 106 miles of district metalled and bridged roads. Rs. 8,081 on 190 miles of unmetalled bridged roads. Rs. 4,261 on 192 miles of unmetalled roads with temporary bridges, and Rs. 4,261 on 137 miles of village roads. Rs. 7,827 were spent in the construction of district roads, bridges and causeways, and Rs. 2,371 in the construction of village roads. In this district encroachments on roads by private individuals appear to have been going on for years. Steps were taken by Mr. Hamilton in the cold

weather to recover lost ground. The district of Khulna is intersected by numerous rivers and khals, and communication is principally carried on by water. There were 410 miles of district roads and 562 miles of village roads in the previous year. Several new roads have been added during the year in the area affected by famine. Rupees 13,527 were spent in bridging, metalling and constructing roads.

Arboriculture.

45. In the Twenty-four Parganas 189 new mahogany trees were planted along the different roads during the year, and the existing trees were maintained at a total cost of Rs. 909 against Rs. 1,950 in the previous year. There are about 15,889 trees along provincial and district roads. The Nadia District Board spent Rs. 590 on arboriculture against Rs. 675 in the previous year. In Murshidabad Rs. 175 were spent in planting and rearing trees on roadsides. In Jessore 1,700 rain trees were planted on the sides of different roads at a total cost of Rs. 912, including the maintenance charges of the existing trees, against Rs. 1,301 in the previous year. Rupees 291 were spent by the District Board of Khulna in planting trees on roadsides.

Water communication.

46. In the Twenty-four Parganas the circular canals (ten miles in length) and Tolly's Nala, including Kawrapukur khal (thirty-seven miles), were maintained at a cost of Rs. 34,193 against Rs. 44,574 in 1895-96, while the gross revenue from tolls on these two canals was Rs. 4,25,145 against Rs. 4,32,701 in the preceding year. A scheme for canalizing the Bhangor khal was sanctioned last year, and the work is in progress. During the year 1,336 steamers passed through the Sundarban channels against 1,482 in the previous year, yielding a gross revenue of Rs. 6,680 in tolls against Rs. 7,410 in 1895-96. There are also two khals (17 miles) in this district. The one between Mograhat and Jainagar is navigable throughout the year. The Sarisa khal is navigable only during the rains. These are maintained by the District Board and are reported to be in fair condition. In Murshidabad a ferry steamer belonging to Messrs. Hoare, Miller and Company plied twice daily for a few months between Azimganj and Berhampur. A steamer of the East Indian Railway Company plied for some months thrice a week between Azimganj and Dhulian and another steamer of Messrs. Hoare, Miller & Company plied between Calcutta and Jangipur during a part of the year. There is a steamer service between Jhinkargacha and Kapilmani, which passes through portions of the Jessore and Khulna districts and another steamer service between Khulna and Barisal, a distance of 35 miles. During part of the year a steamer ran between Khulna and Gopalganj in the Faridpur district.

* * * * * * *

XXX.—LOCAL SELF-GOVERNMENT INSTITUTION.

57. The Bengal Local Self-Government Act III of 1885 has been in operation in this Division for eleven years. In the Twenty-four Parganas the District Board was reconstituted in the beginning of the year under report. The Board held sixteen meetings, including four special meetings, against twelve in the previous year. The increase in the number of meetings is attributed to certain special meetings convened for considering the proposed Basirhat tramway. The average attendance at each meeting was 72 per cent., against 57 in the previous year. Besides the general meetings of the Board, the Finance and Education sub-committees each met nine times during the year. The following table shows the number of meetings held by the Local Boards and the average attendance of members at each meeting during the year:—

Name of Local Board.	Number of meetings held.	Average attendance at each meeting.
Alipore	14	6·7
Diamond Harbour	14	5·8
Barasat	13	8·4
Basirhat	14	3·4

58. In all the Local Boards, except Basirhat, there was an increase in the number of meetings held, but, with the exception of the Barasat Local Board, the average attendance at each meeting decreased. As in the previous year, these Local Boards were presided over by non-official chairmen. During

the year under report, three Union Committees were established, and they are said to have worked well. In Nadia the District Board held seventeen meetings against sixteen in the previous year, the average attendance of members at each meeting being 12·94, against 11·3 in the previous year. There were four Local Boards in the district, three of which were, as in the previous year, presided over by non-official Chairmen. The number of meetings held by the Local Boards during the year, and the average attendance of members at each meeting, are shown in the following table:—

Name of Local Board.	Number of meetings held.	Average attendance at each meeting.
Sadar	11	4·81
Kushtiya	7	6·33
Meherpur	10	4·70
Ranaghat	13	5·61.

59. The number of meetings held fell off in all the Local Boards except the Sadar, but the average attendance in all of them improved. It is, however, not satisfactory to note that three meetings in each of the Sadar and Meherpur Local Boards, and one meeting in each of the other two Local Boards, failed for want of a quorum. There were four Union Committees in the district during the year under report. The District Board of Murshidabad held ten meetings during the year, against fourteen in the previous year. Although the number of meetings fell off owing to the Magistrate's not calling any more meetings, the average attendance at each improved, being 13·7, against 9·35 in the previous year. Of the three Local Boards, the Deputy Magistrate in charge of the subdivision was chairman of the Kandi Board, the chairmen of those at Sadar and Jangipur were non-official. The number of meetings held, and the average attendance at each meeting, are shown in the subjoined table:—

Name of Local Board.	Number of meetings held.	Average attendance at each meeting.
Sadar	10	9·3
Jangipur	19	4·36
Kandi	7	6·7

The number of meetings held fell off in the Kandi Board, while it improved in the other two; the average attendance, however, showed a general improvement. It is unsatisfactory to note that in the Sadar Board two meetings, and in the Jangipur Board four meetings, failed for want of a quorum. There were four Union Committees in the district during the year under report. The District Board of Jessore held eighteen meetings, against thirteen in the previous year. The average attendance at each meeting was 15·4, against 11·5 in the previous year. The subjoined table shows the number of meetings held by the five Local Boards and the average attendance of the members at each meeting:—

Name of Local Board.	Number of meetings held.	Average attendance at each meeting.
Sadar	17	5·4
Narail	10	7·1
Magura	12	5·08
Jhenidah	12	4·3
Bangaon	12	5·3

The number of meetings fell off in the Local Board of Narail, while in Magura the number of meetings remained the same as in the previous year; in the others it increased. The average attendance improved in the Local Boards of Narail and Magura, and fell off in those of Sadar and Bangaon. During the year there were five Union Committees in the five subdivisions under the five Local Boards. In Khulna the District Board held seventeen meetings during the year, against fifteen in the previous year, the average attendance at each being 9·8 against 11·4 in the previous year. The following statement shows the number of meetings held by the three Local Boards in the district and the average attendance of members at each meeting:—

Name of Local Board.	Number of	Average attendance

The number of meetings fell off in the Local Boards of the Sadar and Satkhira, while it increased in that of Bagerhat. The average attendance improved in the Local Boards of Sadar and Bagerhat, while in the other it slightly fell off. There were six Union Committees in the district. The subjoined statement shows the expenditure incurred by each District Board on sanitation and water-supply, medical relief, and primary education, for the past three years :—

Districts.	Year.	Sanitation and water-supply.	Medical relief.	Primary education.
		Rs.	Rs.	Rs.
24-Parganas	1894-95	4,691	1,277	21,920
	1895-96	5,909	1,635	31,751
	1896-97	12,751	1,832	35,421
Nadia	1894-95	3,846	1,355	21,906
	1895-96	2,662	1,539	20,602
	1896-97	3,116	1,774	19,217
Murshidabad	1894-95	3,540	1,165	17,620
	1895-96	1,172	1,185	15,580
	1896-97	3,456	1,150	15,876
Jessore	1894-95	2,703	3,703	22,766
	1895-96	1,218	4,545	22,361
	1896-97	3,880	5,465	23,298
Khulna	1894-95	2,569	1,026	16,713
	1895-96	556	2,801	18,853
	1896-97	2,469	2,673	19,190

Expenditure on sanitation and water-supply has increased in all the districts; that on medical relief has increased in the Twenty-four Parganas, Nadia and Jessore, while it has fallen off in Murshidabad and Khulna. Expenditure on primary education has increased in all the districts except Nadia, where it has fallen off. The following is a summary of the views of the District Officers on the working of the District and Local Boards and Union Committees:—

Twenty-four Parganas.—The District Board has worked smoothly and successfully. The members generally are said to have continued to take an interest in the performance of their duties. The Local Boards have continued to administer the grants for village roads, district unmetalled roads and pounds, and the Magistrate reports that their administration with regard to these matters has been generally successful. Of the three Union Committees, that of Basudebpur is said to have worked satisfactorily, the chairman and the members having taken considerable interest in the performance of their duties. The other two Union Committees are said to have worked tolerably well. *Nadia.*—The members of the District Board are said to have generally taken interest in their work. The Local Boards have continued to administer the grants for pounds, ferries and village roads. The Magistrate reports a considerable improvement in the manner in which they managed the pounds, and the members are said to have taken more interest in their work than they did in previous years. The Union Committees practically did no work, almost the whole of their income having been devoted to famine relief. *Murshidabad.*—The District Board has worked satisfactorily and, as a consultative body, continues to be useful. The members have worked harmoniously with the official Chairman, and are said to have rendered useful assistance, both in the discussion of measures and in their execution. The Local Boards were of little use, their scope being limited and the nature of the work uninteresting; and they might as well be abolished and replaced by Union Committees under the direct supervision of the District Board. The Union Committees were entrusted with funds for the repair of the village roads within their respective jurisdiction. It is too early yet to judge of their usefulness or efficiency, but it is reported that the limited funds made over to them were judiciously expended. *Jessore.*—The work of the District Board went on smoothly, and the non-official members took interest in the work of the Board. *Khulna.*—The Local Self-Government Act works on the whole satisfactorily, and many of the members of the Board take considerable interest in their work. The Chairman reports that he receives great assistance from

many individual members, and, as a body, the District Board are anxious to assist the executive officers in any sound work, although they are said to be inclined to spend an unduly large amount on education. The Chairman advocates the formation of more Union Committees, as they are said to do really good work. Another year's experience has only confirmed me in the opinion that Local Boards are not wanted, and that it would be a great improvement if Union Committees were to work directly under the District Boards. My views on this subject have been stated at length on more than one previous occasion. The management of pounds by local authorities has in past years been as feeble as it was possible to be, and it is interesting to observe how an improvement in the administration of this department has followed the discovery that road-cess money is not to be spent on the education of children of the higher classes, and that, if the local authorities allow the revenue from pounds to fall off, the education in which they take an interest must suffer. They care little for the fate of primary education. The following table shows the extent to which road-cess money has been spent on education during the last five years :—

Table showing the extent to which Road-cess money has been spent on education during the five years ending 1896-97.

District.	Year.	Income available from pounds, ferries, schools, Government grant, &c.	Amount spent on primary education.	Amount spent on other education.	Total expenditure on education generally.	Balance taken from road-cess money.

Municipalities.

60. There were altogether 40 municipalities in the division towards the close of the year, against 38 in the previous year, showing an increase of two in the number. During the year under report, the municipality at Chanduriya in Khulna was abolished, while three new municipalities were formed, viz., (1) Garuliya, by separation from the North Barrackpore Municipality, (2) Garden Reach, by separation from the South Suburban Municipality, and (3) Azimganj by separation from the Lalbagh Municipality. The elective system is in force in all the municipalities except Khulna, Dobhatta, Chagdah, Titagarh, Garden Reach, and Garuliya, where the Commissioners are all appointed by Government.

In the seven municipalities noted on the margin* the chairman is appointed by Government. General elections were held towards the close of the year in 31 municipalities. There was no failure of election in any one of them. In Ward No. II of the Baduriya Municipality the election was invalidated by the Magistrate on objection, owing to some irregularities in the proceedings, and a date has been fixed for a fresh election. The election was not held in three wards of the Santipur Municipality, in consequence of an injunction issued by the Civil Court on petition of three candidates, whose names were excluded from the final list of candidates. The cases are still pending. On reference the Government has decided, on the strength of the opinion given by the Hon'ble the Advocate-General, that a Civil Court has no authority to issue an injunction, *ad-interim* or permanent, against the holding of an election under the rules framed in accordance with the provisions of an Act of the Bengal Council. In some of the municipalities the Boards of Commissioners have not yet been formed, owing to delay in the appointment of Government nominees, consequent on numerous petitions of objection in each case. The people seem to evince more interest now in the matter of selection of members than they used to. Bye-elections were held in some of the municipalities. One of them having failed at Goverdanga in the district of the Twenty-four Parganas, the vacancy was filled up by nomination. The following statement shows the total income, including balance and expenditure, of the municipalities, as compared with the preceding year:—

* Baruipur.

Increase ...	...	39,570	...	46,018	
Decrease ...	...	...	...	...	

There is a discrepancy of 41 in the figures shown against "Total" in column 2 with those shown in the previous report, which is due to the adoption of corrected figures from the Annual Municipal Returns against Khulna. There has been a marked increase in both receipts and disbursements. The increase in the receipts is due to better collection and revision of assessments, and that in disbursements to larger expenditure in improvements. The following table shows the number of meetings held by each Municipality during the last two

years, and the average percentage of attendance of Municipal Commissioners at each meeting :—

Name of Municipality.	Number of meetings held in—		Average percentage of attendance at each meeting.		Remarks

It appears that in 19 municipalities, as against 21 of the previous year, less than 50 per cent. of the Commissioners were present at each meeting, and that in 21 municipalities against 13, the average percentage of attendance was over 50, which shows a little improvement. In the Twenty-four Parganas the Municipal Commissioners of Cossipore-Chitpur laid down 9,581 feet of water-pipe during the year at a cost of Rs. 7,085, with 19 new hydrants, and the Commissioners of Manicktolla 10,725 feet with 20 hydrants at a cost of Rs. 7,665. Mr. Walsh, Officiating Magistrate of the Twenty-four Parganas, remarks that the Municipal Commissioners appear to have taken an interest in their duties, though the large proportion of non-attendances shows that there are many Commissioners who are content with the title alone, and take no active interest in municipal affairs. The managers of the mills situated within the municipalities of Naihati, Garulia, Titagarh and Baranagore have taken an interest in municipal affairs, and helped the several municipalities with the mill resources. Mr. Walsh adds:—"The European element in a municipal "committee has the effect of infusing vigour into the administration, and the "committees in which there are European commissioners are also less affected "by party factions." In Nadia bad collection is specially noticed. It is worse in larger municipalities than in the smaller ones. The state of collection in Krishnagar was deplorable. Evidently very little or no attention was paid by the municipal authorities to this subject. The Magistrate reports that it is the belief in Krishnagar that persons were not pressed for their taxes this year, as, owing to the closeness of the municipal elections, pressure on voters would have been prejudicial to Commissioners who wished to be re-elected. As I remarked last year the executive officers of a municipality dread, above all things, incurring the wrath of rate-payers and of the general body of Commissioners by raising or enforcing taxation. Mr. Levinge, the Magistrate of Murshidabad, adheres to his opinion, which is also shared by Mr. Garrett, the Officiating Magistrate of Nadia, that the control and supervision exercised over the subordinates in municipalities is often insufficient. Mr. Levinge, however, adds that in spite of these faults the municipalities in his district have done plenty of good work, and that the municipal authorities have generally followed the advice and instructions of inspecting officers, and that the relations between them and the controlling authorities have always been cordial and satisfactory. There is nothing special to note in regard to the other districts. The municipalities of Jessore and Khulna continued to be managed satisfactorily. As already remarked, the administration is generally successful where there is an active chairman or vice-chairman resident in the municipality. But this is wanting in many places, and the result is that the subordinates are uncontrolled, and collections are allowed to fall into arrears. To improve collections I have introduced in almost all the municipalities in this division a system of paying the agency for the collection of taxes by commission, instead of by fixed pay, and have been pressing for the adoption of coercive measures where necessary; but the Municipal Commissioners are very reluctant to act up to the advice, presumably for fear of incurring the displeasure of the rate-payers. The measures introduced have to some extent secured the desired object. Sanitary improvements are generally opposed both by Municipal Commissioners and by rate-payers, and in cases where the Municipal Commissioners decide to introduce reform, they are thwarted and opposed. This is particularly noticeable on the part of rich owners of bustees who are unwilling to spend anything on the improvement of their bustees themselves, and throw every impediment in the way of the Commissioners who wish to do so.

XXXVII.—GENERAL REMARKS.

72. The most prominent feature in the history of the year under review is the early cessation of the rains following a deficient rainfall in the preceding year, causing failure of the crops and consequent distress. There has been actual famine in the districts of Nadia and Khulna, and severe distress approaching to famine in Murshidabad and Jessore, which commenced before the year closed, and has since become more intense. The distress from the want of

food-grains was intensified by a general scarcity of water for drinking and the result was that cholera broke out. In Khulna especially the death-rate has perceptibly increased. It was not so, however, in Nadia, where cholera was most apprehended. Mr. Garrett, the Officiating Collector, observes that the only matter of congratulation is that the district has escaped the severe visitation of cholera, which was universally anticipated. So far as we could judge, everything was in favour of a severe epidemic. The people were more weakened by insufficient food than last year, when fifteen thousand persons were carried off by cholera within a space of five months. Yet, notwithstanding all this, cholera practically at no time became epidemic, and has now ceased entirely.

FAMINE RELIEF IN BENGAL.

No. 1854 (Fam.), dated 25th September 1897.—The following papers are published for general information.

M. FINUCANE,
Secretary to the Govt. of Bengal.

No. 751T.R.(Fam.), dated Darjeeling, the 17th September 1897.

From—M. FINUCANE, Esq., Secretary to the Government of Bengal, Revenue Dept.,
To—The Secretary to the Government of India, Revenue and Agricultural Dept.

IN continuation of his Government's letter No. 1626Famine, dated the 20th August 1897, I am directed to submit, under section 29 of the Bengal Famine Code, the following report on relief operations in this Province during the four weeks ending on the 28th August 1897. A statement of rainfall and the usual Famine Statements A and B are hereto appended. I am also to submit copies of the two half-monthly reports* of the Commissioner of the Patna Division for the period above mentioned. A consolidated famine map of the Patna Division is also enclosed, together with maps of the districts noted on the margin.†

* (1) No. 1791F.G., dated the 24th August 1897, with enclosures.
(2) No. 1880F.G., dated the 8th September 1897, with enclosures.

† Manbhum, Hazaribagh, Nadia, Khulna, Murshidabad.

2. *Patna Division. Prospects of crops, prices, &c.*—The rainfall in the district of Patna was excessive and resulted in floods and consequent damage to the *bhadoi* crop. The Collector estimates that half the crop has been destroyed, the Barh subdivision having suffered most. The Commissioner however, thinks that this is not of serious consequence, as the *bhadoi* in this district is always a harvest of a precarious character. It is stated that the average outturn of the autumn crops for the last 10 years is 9·14 annas, while in the years 1888-89 and 1890-91 the outturn was less than 4 annas. Owing possibly to the damage done to the *bhadoi* crops, prices in this district showed no tendency to fall. The rainfall in Gaya was also heavy, but did little or no damage, except that a considerable portion of the maize crop has been lost, the estimated outturn being 8 annas. *Marua* has been grown over an unusually large area this year, and is expected to yield a bumper crop. Prices in this district are reported to have a slightly downward tendency.

3. As regards the other districts of the Division, the first week of August was marked by heavy rain in many places, and was followed by a week or ten days of comparatively fine weather, such as was required for the *bhadoi* crops. The second fortnight was a period of anxiety for the western part of the Bettiah subdivision of Champaran, the Sitamarhi subdivision of Muzaffarpur, and the Madhubani subdivision of Darbhanga. The rainfall was insufficient, and a good deal of the winter rice remained to be transplanted; but copious rain has since fallen, and has greatly improved the situation in all these tracts. The outturn of the *bhadoi* crops in Shahabad is estimated at 14 annas. In the four districts north of the Ganges, these crops are reported to be above the average, and to have come well on to the market. With regard to the winter rice, the Commissioner, writing on the 8th September, says that it has been planted out everywhere and gives excellent promise. Mr. Bourdillon is of opinion that with a good fall during the Hathiya asterism (at the end of September) this crop should yield more than an average return, but that even if the Hathiya rain fails, or is short, there is reason to think that a fair crop will still be reaped. Prices had at last begun to fall everywhere, except in Shahabad, where they are reported to have been practically

stationary at the end of the period under report; and the commoner food-grains were much cheaper than during the latter half of July. The prices of *marua* and maize, which are the principal *bhadoi* food-grains ranged respectively from 13 to 18 seers, and 10 seers 8 chitaks to 14 seers 8 chitaks for a rupee. The imports fell off considerably, although they still exceeded the exports everywhere. The figures for the two half-months are given on the margin. Rice continued to be the staple import, and considerable quantities continued to be imported from Howrah, though they were smaller than in the previous months.

	Imports.	Exports.
	Mds.	Mds.
First half month ...	4,69,723	79,974
Second „ ...	3,12,879	67,296
Total ...	7,82,602	1,47,270

In July the total imports were 9,79,105 maunds and the total exports 3,01,628 maunds.
(These figures include Gaya and Patna districts.)

On the 7th August a conference was held at Bankipore by the Commissioner with the District Officers to discuss the prospects of the crops, the condition of the people, and the steps to be taken to close the relief operations. The instructions drawn up at this conference have since been approved by the Lieutenant-Governor and circulated to the affected districts in other Divisions. Briefly they are that where there is good *bhadoi*, relief works should all be closed by the 1st September, but that in tracts with little or no *bhadoi* they might, if necessary, be kept open till the middle of the month. Gratuitous relief must continue for some time after the relief works are closed, but should be cut down in tracts where the *bhadoi* crops are good. Kitchens are to be opened for children and for all remaining recipients of gratuitous relief, excepting those who are physically incapable of coming to the kitchens. It is expected that it will be possible to close all kinds of gratuitous relief by the 1st October.

4. *Area and population affected and numbers on relief.*—With the new *bhadoi* grain in the market and with good prospects of the great winter rice crop, there was a general improvement in the condition of the affected tracts, but except in parts of Saran no area was declared entirely free from distress. In this district in an area of 366 square miles with a population of 342,800 all relief operations were closed about the 20th August. The total affected area was thus reduced to 1,146 square miles with a population of 1,073,200, but relief works were open only in 563 square miles with a population of 509,880 persons, the relief operations in the remaining area being confined to gratuitous relief (including relief given in kitchens). In Champaran an area of 1,400 square miles with a population of about one million has been removed from the category of acute to that of slight distress, thus raising the slightly distressed area to 2,831 square miles with a population of 1,584,000, and reducing the area still severely affected to about 700 square miles with an estimated population of 275,000; this tract lies in thanas Hardih and Bagaha, in the north of the Bettiah subdivision, where comparatively little *bhadoi* is grown.

The following table shows the numbers and percentages of population on relief from the second-half of May, when the largest percentage of population was in receipt of relief:—

District.	29th May.		12th June.		26th June.		10th July.		31st July.		14th August.		28th August.	
	Numbers on relief.	Percentage on population of affected area.	Numbers on relief.	Percentage on population of affected area.	Numbers on relief.	Percentage on population of affected area.	Numbers on relief.	Percentage on population of affected area.	Numbers on relief.	Percentage on population of affected area.	Numbers on relief.	Percentage on population of affected area.	Numbers on relief.	Percentage on population of affected area.
	2	3	4	5	6	7	8	9	10	11	12	13	14	15

Champaran ...	192,975	10·37	194,927	10·47	145,283	7·81	110,348	5·93	66,959	3·44	54,859	2·82	41,449	2·13
Muzaffarpur ...	124,415	7·49	116,137	7·00	104,064	6·26	113,273	6·82	101,988	6·14	95,516	5·74	68,205	4·10
Darbhanga ...	270,961	13·12	279,354	11·95	234,637	9·70	245,388	10·27	174,551	7·31	130,535	5·79	100,490	4·14
Total ...	711,059	9·41	706,032	9·3	571,948	7·6	5,9,148	7·4	445,686	5·9	370,444	4·90	266,371	3·5

These numbers, which show a considerable reduction in every district, are as given in the weekly telegraphic reports published in the *Calcutta Gazette*, corrected up to date.

5. *Relief works.*—The relief works open on the 28th August were:—

	Under Civil Officers.	Under the Public Works Department.	Total.
Shahabad ...	Nil	Nil	Nil.
Saran ...	29	Nil	29
Champaran ...	15	20	35
Muzaffarpur ...	43	Nil	43
Darbhanga ...	49	4	53
Total	136	24	160

The total number of works at the end of July was 277, of which 84 were under the Public Works Department in the districts of Champaran, Muzaffarpur, and Darbhanga, and the rest under civil officers. In Saran the number of works has since been reduced to four. The Collector of Champaran wrote on 3rd September that practically all the works except the Tribeni Canal and one section of the Bettiah-Bagaha Railway would be closed during that week. As already stated, works will speedily be closed in other districts. When the Commissioner wrote, orders had been issued for work on the Sakri-Jainagar Railway line to be closed on the 10th instant.

The following table shows the numbers on relief works on 28th August in comparison with those on 31st July:—

District.	31st July.		28th August.	
	Number.	Percentage on population of affected area.	Number.	Percentage on population of affected area.
1	2	3	4	5
Saran ...	18,410	1·3	11,178	1·03
Champaran ...	15,070	0·81	12,274	0·66
Muzaffurpur ...	34,564	2·08	19,774	1·19
Darbhanga ...	57,520	2·5	14,206	0·63
Total ...	125,568	1·6	57,432	·88

The following table shows the results of task-work as regards outturn, wages and cost, in the second half of August and in the corresponding of period of July:—

District.	Average daily wage of adult male unit.				Average outturn of work per adult male unit on task-work.		Cost rate per 1,000 c. ft.	
	Second half of July.		Second half of August.					
	Task work.	Irrespective of task.	Task work.	Irrespective of task.	Second half of July.	Second half of August.	Second half of July.	Second half of August.
1	2	3	4	5	6	7	8	9
	A. P.	A. P.	A. P.	A. P.	C. ft.	C. ft.	Rs. A. P.	Rs. A. P.
Saran	1 6½	1 7	1 7	1 6	51	44·5	2 0 7	2 3 [illegible]
Champaran	1 7½	1 9	1 7	1 10	43	54·67	2 6 7	1 13 6½
Muzaffarpur	1 8	1 6	1 8½	1 7	60·5	95·17	1 7 4	0 15 10½
Darbhanga	1 6½	1 8	1 7½	1 9½	39	47·12	2 8 4	2 1 6

Except in Saran, there was an increase in the outturn of work and decrease in the cost rate per 1,000 cubic feet, due mainly to the increased softness of

the soil and reduction in the famine wages owing to fall in prices. The increase in the cost-rate per 1,000 cubic feet in Saran is attributed by the Collector to the fact that task work was practically confined to the rice tracts recently flooded where water was standing in the burrow pits, and the earth for road work had to be obtained from some distance. Since the fall in prices the wages have been everywhere reduced.

6. *Piece-work system.*—The Bya nalla work in Muzaffarpur, on which the piece-work system was in force, was closed during the second-half of August. In Darbhanga this system was in force on the Sakri-Jainagar Railway. In Champaran, besides the Tribeni Canal and the Bettiah-Bagaha Railway, on which the piece-work system had been previously introduced, the Collector substituted piece-work for task work on all works except those about to be closed. This was done in accordance with the principle enunciated in paragraph 132 of the Famine Commissioner's Report, Part I, that at the end of a famine, if any able-bodied labourers are disinclined to go back to their ordinary work, a system of piece work may be used with lowered rates to induce them to go. The rates were lowered to Re. 1-6-6 and Re. 1-11-6 (with dressing) per 1,000 cubic feet, but the Collector reports that the labourers, even without this reduction, showed no disinclination to leave relief works, whether conducted on the task-work or on the piece-work system, wherever other employment was available.

7. *Private relief works.*—The Hatwa Raj had two works open in Saran, which employed a daily average of 646 male units in the last week of August, but these were avowedly being carried on as being necessary for purposes of communication and not for famine relief. The Darbhanga Raj works in the district of Darbhanga employed 1,488 labourers on the 31st August, against 2,780 at the end of July. No other private relief works are reported to have been open. The numbers employed on the Moghalsarai-Gaya Railway in Shahabad were as noted on the margin.

31st July	6,918
7th August	5,183
14th ,,	5,461
21st ,,	3,527
28th ,,	3,654

8. *Poor-houses and kitchens.*—The number of Government poor-houses and kitchens open at the end of August was as follows:—

District.	Poor-houses.		Kitchens.		Total average daily number received in poor-houses and kitchens.
	Number of poor-houses.	Number of inmates.	Number of kitchens.	Average daily number fed.	
1	2	3			
Shahabad	2	258	4	408	666
Saran	2	173	48	8,435	8,608
Champaran	7	1,210	99	10,584	11,794
Muzaffarpur	6	368	73	13,273	13,641
Darbhanga	8	1,047	53	15,451	16,498
Total	25	3,056	277	48,151	51,207

As compared with the numbers at the end of July, the number of poor-houses decreased by two, one in Shahabad and one in Darbhanga having been closed. The number of kitchens was largely increased in order to carry out the policy decided on for the purpose of bringing relief operations to a close. The numbers fed in kitchens consisted mostly of children; the percentage of children on the total number fed being—

Shahabad	37·0
Saran	98·2
Champaran	53·3
Muzaffarpur	88·1
Darbhanga	88·4

9. *Gratuitous relief.*—The numbers on gratuitous relief have fallen, but not to the same extent as those on relief works. The following table shows the average daily numbers in receipt of gratuitous relief, and the amounts of the average daily doles in the last week of August in comparison with the corresponding figures at the end of July:—

District.	Average daily number in the last week of July.		Average daily number in the last week of August.		Average dole per adult unit.	
	Total number.	Percentage of population of affected area.	Total number.	Percentage of population of affected area.	Second half of July.	Second half of August.
1	2	3	4	5	6	7
					As. P.	As. P.
Shahabad	23,867	6·2	17,879	4·7	0 11½	0 11
Saran	58,980	4·16	43,864	4·08	0 9	0 9
Champaran	50,915	2·7	29,175	1·5	1 0½	1 0½
Muzaffarpur	66,887	4·03	47,971	2·9	0 10½	0 11
Darbhanga	99,471	4·4	76,788	3·4	0 10½	0 10·85
Total ...	300,120	3·9	215,677	2·6	.....	.....

* These figures have been reproduced from column 11 of Famine Statement A.

10. *Physical condition of the people, &c.*—The physical condition of the people was generally good, and the condition of the cattle normal.

11. *Loans.*—The season for village relief works by private individuals had passed, and very little was given away as advances under the modified rules under the Land Improvement Loans Act. The following are revised figures furnished by the Commissioner under this head:—

District.	Amount advanced up to 31st March 1897.	Amount advanced during the current year.	Total.
1		3	4
	Rs.	Rs.	Rs.
Shahabad	1,950	19,755	21,705
Saran	9,952	13,860	23,812
Champaran	300	5,869	6,169
Muzaffarpur	3,100	6,959	10,059
Darbhanga	1,413	17,548	18,961
Total ...	16,715	63,991	80,706

The amounts advanced under the Agriculturists' Loans Acts are shown in column 11 of Famine Statement B.

12. *Chota Nagpur Division.*—During the first week of August, there was copious rain in all the districts of the Chota Nagpur Division, and especially in Palamau, where it was greatly needed; plentiful rain again fell in the week ending 21st August, which enabled the transplantation of winter rice to be completed throughout the Division, and assured a full outturn of most of the *bhadoi* crops, except only in the north of Manbhum. In this tract the *bhadoi* crops do not appear to be yielding a satisfactory outturn, but there is a difference of opinion amongst the local officers on this point, and a further report is expected. The prospects of winter rice were everywhere good.

The products of the new *bhadoi* crops were coming into the market. In Palamau *gondli* and *sawa* (*panicum miliare* and *panicum formentaceum*) were selling at 16 seers per rupee, and Indian-corn at 11 seers. The price of Indian-corn in Manbhum is quoted at 16 to 18 seers, while common rice was selling at not less than 8 seers per rupee. In Hazaribagh, the new *makai* (Indian-corn

probably with cones) and *gondli* (probably unhusked) were coming into market and being sold at about 20 and 30 seers per rupee respectively. The prices of the new *bhadoi* in Lohardaga on the 28th August were as noted on the margin, in comparison with those which prevailed on the 14th August. There was an improvement in public health, inasmuch as cholera had abated in almost all the districts in the Division.

	14th August.	28th August.
	S. CH.	S. CH.
Makai ...	5 3	12 1
Marua ...	8 5	8 12
Dhan ...	10 6	13 8
Gondli ...	13 10	14 12

Palamau.

During the period under report, 1,097 maunds of rice were imported to Palamau by traders under the bounty system. This brought the total quantity imported under this system, since its introduction in February last, up to 13,687 maunds of Burma rice, and 5,376 maunds of country rice, the total amount paid by Government on bounties being Rs. 9,532. Orders have been issued by the Commissioner that no further bounties are to be paid. The total number on the relief works in Palamau at the end of July was 1,591. On the 28th August the corresponding number was 1,169, while the number on gratuitous relief on that date was 2,353 against 2,246 on the 31st July. In view of the favourable outlook, all Government relief operations were closed in this district on the 31st ultimo; such of the labourers as had been regularly attending the relief works were, with the sanction of Government, paid gratuities for subsistence up to the 16th September, and the recipients of gratuitous relief were given two weeks' doles. The local Relief Committee will be able to provide for such cases as may be found to require relief; these cases are likely to be few.

Manbhum.

The situation in Manbhum was not as satisfactory as in the other districts of the Division. The numbers on the relief works increase continually up to the last week of August, when the largest increase took place. On the 28th August, the total number of relief workers was 18,590, against 9,298 on the 31st July. This increase is reported to have been due partly to the completion of the work of transplanting rice, and the consequent release of agricultural labour, partly to the piece-work system having proved too attractive, and partly to the unsatisfactory outturn of the *bhadoi* crops. It has not been found possible to close all relief works in this district, but the piece-work rates have been reduced to Re. 1-4 per 1,000 cubic feet for soft and medium soil, and Re. 1-9 for hard soil. The number on gratuitous relief on the 28th August was 6,073 against 6,399 on the 31st July.

Hazaribagh.

The outlook in this district was most favourable at the end of the month. There were only 418 relief workers on the 28th August, against 1,376 on the 31st July, while the corresponding numbers on gratuitous relief were 1,360 and 3,175 respectively. At the end of the month the Deputy Commissioner was closing relief operations under the same conditions as in the other districts of this Division; but a few kitchens were to be kept open on the Grand Trunk Road for a short time longer.

Lohardaga.

The good *bhadoi* harvest and the excellent prospects of the winter rice, coupled with the bounty of Re. 1, paid by Government on each maund of rice imported *viâ* Purulia, caused a marked improvement in prices in the district of Lohardaga. On the 31st July rice was selling in 29 markets at 4 seers or under per rupee. At the end of August this high price prevailed at five markets only. Up to the 28th August, about 3,000 maunds of rice had reached Ranchi, and about 2,000 maunds more were on the way from Purulia. Relief works and gratuitous relief have been closed in this district, as in Palamau and Hazaribagh.

Singhbhum.

Prospects in Singhbhum were likewise favourable, and there is nothing of importance to report with regard to this district.

13. *Presidency Division.*—The rainfall throughout the Division was abundant and well distributed, and considerably improved the condition of the distressed tracts. The harvesting of autumn paddy and jute was in progress;

the outturn of both was on the whole good, and the prospects of winter rice were favourable. The public health was also good, and cattle-disease is reported only from Khulna.

Nadia.

There was no change in the area previously shown as affected, but the Collector, writing on the 3rd September, says that there can be no doubt that severe distress is now at an end. The outturn of the *aus* or autumn paddy, which is an important crop in this district, is much better than it has been for some years, and is estimated at 13 annas for the whole district. The outturn of jute is also stated to be very good, and agricultural prospects generally are excellent. The harvesting of *aus* has brought food into the market and the price of the new rice on the 4th September, as shown in the weekly telegraphic report, varied from 9½ to 12 seers. There was no fall in the price of old rice, and it is not anticipated that there will be any large or permanent fall in the price of it until the *amán* or winter rice is harvested. Relief operations are now being wound up, and the Collector proposes to close them altogether by the 15th of the current month, except that four poor-houses at the head-quarters of the four charges are to be kept open until about the end of the month, to provide for any cases of destitution that may come to notice. The numbers on relief works rapidly fell off, till on the 28th August there were only 331 workers. The Collector has since issued orders to finally close all works. The numbers on gratuitous relief also decreased, and stood at 6,390 on the 28th August against 50,362 on the 31st July. The Collector writes—"The persons still on the lists are only those of the halt, the maim and the blind, who have absolutely no relatives to help them. There are signs, however, of a re-commencement of private charity, and with poor-houses open for the urgent cases, I consider it safe to stop issuing doles from the 15th of the month."

Khulna.

In Khulna there was considerable demand for field labour, and the near approach of the *aus* and jute harvests made it possible for the cultivators to borrow money. But these crops have little comparative importance in this district, and the Collector doubts whether they occupy two annas of the whole cultivable area; the continuous rain, although excellent for the *aman* crop, retarded the harvesting of the autumn paddy. No new rice, therefore, came into the market, and the bad weather rendering the Importation of Burma rice difficult, the price of rice rose to 5½ seers the rupee during the latter half of August. The Collector writes that since that time, in consequence of the arrival of fresh stocks, the price has again fallen to 8 seers. There were only two works open, which employed 96 labourers on the 28th August, and they have since been closed. The numbers on gratuitous relief have also fallen, the numbers on 28th August having been 5,040 against 7,776 on the 31st July. This district depends so largely on the *aman* crop that it will probably be necessary to continue gratuitous relief longer than elsewhere.

Murshidabad.

In Murshidabad the major portion of the relief works was closed on the 25th August, a few only being kept open till the 31st of the month. Gratuitous relief, which in this district was given entirely out of charitable funds, was also closed on the 25th August, with the distribution of ten days' doles to all those remaining on the circle officer's lists, and of pieces of cloth to the most indigent among them. The outturn of the *aus* crop, which was being generally harvested, is estimated at from 14 to 16 annas, and the propects of the *aman*, the transplantation of which has been everywhere completed, were very favourable. Prices fell, the price of new rice ranging from 9 seers 8 chitaks to 10 seers the rupee. The Collector writes: "the improvement in the condition of the affected tracts is so marked that there is now no further cause for anxiety."

Jessore.

In Jessore new rice had come into the market, and its price ranged between 8 and 13 seers, though the harvest was delayed in parts of the district by the want of sunshine; and in another part both *aus* and *aman* crops were attacked by insects. Two test-works were open, but the number employed on them on the 28th August was only 45, and the works have since been closed. Gratuitous relief was given from charitable funds; the Collector wrote on the 3rd September to the effect that steps were being taken to close the operations.

14. *Bhagalpur Division.*—There was no change in the generally satisfactory condition of the Bhagalpur Division. In the

Bhagalpur

district of Bhagalpur agricultural conditions are reported to have been as good as possible. The harvesting of the *bhadoi* crops had commenced. In the Sadr and Banka subdivision, where Indian-corn is the principal crop of this [illegible], it is expected to be nearly a bumper or 20-anna crop. In the Supaul and Madhipura subdivisions the outturn of *murua*, which is the principal *bhadoi* crop, is estimated to be at least 16 annas. Prices are now easier, *marua* being reported to be 20 seers the rupee in Madhipura and Supaul. In these subdivisions relief operations, including gratuitous relief from the Charitable Relief Fund, have been finally closed. In the other two subdivisions of the district, some relief was still being given from the Charitable Relief Fund when the Collector wrote.

The general condition of the Sonthal Parganas is reported to have greatly improved in consequence of good and sufficient rain in all the subdivisions of the district. The *bhadoi*

Sonthal Parganas.

has proved a bumper harvest almost everywhere excepting in Jamtara. In this subdivision the autumn crops are not of much importance, and will give little local relief. New Indian-corn has come into the market and is quoted at 18 seers the rupee at Godda, but the fall in price was not general. Government relief operations were closed in this district on the 16th August. Relief from the Charitable Relief Fund was continued, and it is stated that in the Jamtara subdivision this form of relief will have to be administered till the end of October, when the upland rice will be ready for consumption. Like Bhagalpur, this district will no longer be shown as distressed.

15. *Rajshahi Division.*—During the second half of August there was copious rain throughout the Division, which enabled the transplantation of winter rice to be vigorously proceeded with. The prospects of this crop are everywhere favourable, and the outturn of jute and autumn rice has been on the whole good. Prices still ruled high. The test-works carried on in Rajshahi, Pabna and Dinajpur were closed. In point of total rainfall since the 15th May, Bogra shows the greatest deficiency in the whole Division, its actual fall being 38 per cent. of the average, but the Collector writes that the rain which fell during the second half of August has rendered the prospects of the next winter rice quite hopeful. The *aus* harvest in this district is estimated at 10 annas for the whole district, and the outturn of jute being 16 annas, it is stated that such distress as was reported to exist amongst cultivators in the eastern part of the district has disappeared, while there is no want of employment for labourers, who are receiving wages slightly higher than usual.

16. *Burdwan Division.*—The general condition of the affected tracts in the district of Bankura is stated to have somewhat improved with the return of the monsoon weather. Writing on the 2nd September, the Collector reports that the prospects of crops have greatly improved, although cultivation in places is still unfinished, and high lands here and there are likely to remain uncultivated this season. Prices continued high, and there were 37 relief works open with 3,334 relief workers at the close of the period under report, against 28 relief works with 1,420 workers at the end of July. The number on gratuitous relief was 4,539 against 8,389, the corresponding figure for July. The Collector's attention has again been drawn to the procedure followed in Manbhum and Nadia in dealing with persons in receipt of gratuitous relief. He reports that in this district relief operations cannot be closed as early as in Behar. The *bhadoi* crops cover only about 9·4 per cent. of the total area of the district, and the chief crop of this class (a kind of rice) is, it is reported, not likely to be harvested till the end of September. Maize is grown only in small patches close to the houses in certain localities, and the early *bhadoi* crops, grown almost solely by Sonthals, have this year been on the whole bad owing to want of rain at the critical time. The Collector also states that in Bankura in normal years prices fall comparatively little in September, but continue to fall through October. The Lieutenant-Governor hopes, however, that it will be found practicable to close relief operations here as elsewhere at the end of September or early in October. Once the coming winter rice crop is assured, the streams of private charity should again begin to flow even in tracts in which the area under *bhadoi* crops is comparatively small.

17. *Orissa Division.*—The condition of the district of Cuttack was prosperous. The rainfall was generally more than sufficient, but was well distributed and did not result in floods. The cutting of the *beali* (autumn rice) crop is estimated at 17 annas for the whole district and the winter rice has practically all been sown or planted out. Writing on the 4th September, the Collector says that prices are falling everywhere, but more in the interior than in the principal marts. The only form of relief given in this district was gratuitous relief from the charitable fund. The Collector wrote on the 4th that the Local Relief Committee had decided to close relief on the 11th of this month. No report for the district of Puri, for the second half of August, has yet been received, but the weekly telegraphic reports show that the rainfall in this district has been generally sufficient, and that the prospects of crops are good. But the numbers on relief do not show any considerable decrease. The total numbers on relief works and gratuitous relief on the 28th August were 2,052 and 1,197, against 2,974 and 1,374 on the 31st July respectively. The attention of the Commissioner has been drawn to this matter.

Statement of rainfall in the affected and threatened districts in August 1897.

* Includes 21,200 persons to be employed on railway embankments.

No. 1880F.G., dated Bankipore, the 8th September 1897.

From—J. A. Bourdillon, Esq., Offg. Commissioner of the Patna Division,

To—The Secy. to the Government of Bengal, Revenue Department.

I have the honour to forward herewith, under Sections 13 and 24 of the Famine Code, my report on Famine Relief Operations in the Patna Division during the second-half of August. The facts and figures dealt with relate to the two weeks ending on the 21st and 28th August 1897.

Part I.—Introductory.

2. As no tract in the Division required inspection and I was much occupied with office work, I remained at my head-quarters during the fortnight. On the 26th August, however, in answer to a summons from me, Mr. Chapman, Collector of Saran, came down here with maps and papers, and we fully discussed the state of his district, and the line of action to be followed. Later, after the fortnight closed, Mr. Carlyle, Collector of Darbhanga, in the same way spent a day here, and much business was done. He was able to bring the latest news, as he had himself, on the 1st instant, taken a long ride of 100 miles through the worst parts of the district, and had also the latest information from the Subdivisional Officer of Madhubani. I have arranged to start to-morrow on a tour of inspection in Champaran, my particular object being to decide, on the spot, whether the Tribeni canal works need be kept open any longer. I had intended to visit Sitamarhi and Madhubani, but the District Officer in each case has assured me that after the recent rain there is no occasion for me to do so.

Part II.—District Reports.

3. *Patna.*—Heavy rainfall and continued floods in this district have done great damage to the *bhadoi* crops everywhere, and prices remain obstinately high: these conditions imply inconvenience, but not distress.

Subdivision.	August rainfall.		
	Normal.	1897.	Difference.
1	2	3	4
Bankipore	10·62	8·51	— 2·11
Dinapore	11·32	7·35	— 3·97
Barh	9·38	10·20	+ ·82
Bihar	10·60	13·39	+ 2·79
District average ...	10·48	9·26	— ·62

4. There has been steady, and at times excessive, rain throughout the fortnight, Hilsa receiving 7·75 inches in the first and 8·35 inches in the second week. The average fall for August and the actual fall up to the 28th are given in the marginal statement.

5. The result has been a good deal of flooding in the *tal* lands, and all along the Ganges Dearas: a larger area than usual has been flooded, and the floods have remained longer since the Ganges, which is the eventual outlet of all the flood water in this district, is itself in full flood. The Collector estimates that half his *bhadoi* crop has been destroyed, the Barh Subdivision having suffered most. But in this district, the *bhadoi* is always a doubtful quantity, and an examination of the records for the last ten years shows that the average recorded outturn is 9·14 annas, while in the years 1888-89 and 1890-91 it was less than 4 annas. A failure such as this is, therefore, not of serious consequence.

6. Prices show no tendency to fall, as the marginal table will show, except in Patna City and Dinapore: as usual the figures are for all grains taken together. They are very high for the time of year, and the decline of imports has, no doubt, tended to keep them from falling.

Station.	Number of seers for the rupee.	
	August 14th.	August 28th.
1	2	3
Bankipore	9·2	8·15
Patna City	10·5	10·14
Barh	9·4	9·4
Bihar	8·12	8·10
Dinapore	9·4	9·14
District average ...	9·5	9·3

7. Imports have fallen off considerably, doubtless in view of a good *bhadoi* crop. The total for the fortnight was 56,041 maunds, against 86,256 maunds, and the exports 20,163 maunds against 15,081 thus leaving a net balance of 35,878 maunds of imports, against

71,175 maunds in the previous period. As usual, rice was the chief import, and it aggregated six-sevenths of the whole: the greater part came from Howrah.

8. On the last day of the period, the number in the poor-house at Bankipore was 246, at Barh 182, and at Bihar 41: at these last two places they are kitchens rather than poor-houses.

9. The continued high range of prices is causing a good deal of distress in Patna City, and I shall have to help the Collector from the Charitable Relief Fund.

10. *Gaya.*—The condition of this district remains most prosperous, although, as in Patna, a considerable portion of the maize crop has been lost. The Collector places this now at an 8-anna crop, but he reports that *marua*, which has this year been sown over an unusually large area, will be a bumper crop: all others are doing extremely well.

Subdivision.	August Rainfall.		
	Normal.	1897.	Difference.
1	2	3	4
Gaya	11·42	14·32	+2·90
Jahanabad	12·23	6·93	−5·30
Aurangabad	12·52	16·05	+3·53
Nawada	10·73	8·78	−1·95
District average ...	11·73	11·32	− ·21

Subdivision.	Number of seers for the rupee.	
	August 14th.	August 28th.
1	2	3
	Srs. Ch.	Srs. Ch.
Gaya	8 10	9 4
Jahanabad	8 11	8 9
Aurangabad	8 13	9 1
Nawada	7 13	8 15

11. Rainfall has been copious, and Mr. Savage, whom I saw in Bankipore on the 3rd instant, reports that all the reservoirs are full, and that little or no damage has been done by the heavy rain, which is noted in the margin.

12. Prices have a slightly downward tendency. A statement showing the general average price of all grain is given in the margin. The cheapest grain at each Subdivision, as now returned, is *marua*, which is 13 seers at Gaya and 12½ at Nawada, while barley is 10 seers at Jahanabad and 12 at Aurangabad.

13. In view of the fine prospects of the crops, it is not surprising that imports have fallen off considerably, having dropped in the fortnight from 37,982 maunds to 23,695 maunds, exports decreasing at the same time from 664 maunds to 19.

14. The poor-houses in the district fed, on the whole, 797 persons per diem, against an average of 686 in the previous fortnight. There was some laxity of administration at Gaya, which the Collector corrected: there and at all these institutions the recipients of relief are professional beggars. It is to be remembered that these are not Government institutions, but are supported by private charity or public subscriptions, administered by the Charitable Relief Committee.

15. *Shahabad.*—The condition of affairs in this district is still prosperous: crop prospects are excellent, and the numbers on gratuitous relief have fallen steadily.

16. The feature of the fortnight has been the rainfall, which has been very heavy indeed, especially in Bhabhua and the hills. The fall in the period under report was as follows:—Arrah 4·89, Sasaram 9·20, Bhabhua 11·84, and Buxar 8·93 inches. There followed floods in Bhabhua, which did some damage to the maize. The rainfall for August and the normal rainfall are compared in the marginal statement.

Subdivision.	Rainfall for August.		
	Normal.	1897.	Difference.
1	2	3	4
Arrah	10·98	5·74	−5·24
Sasaram ...	11·89	14·50	+2·61
Bhabhua ...	11·71	19·41	+7·70
Buxar	10·13	13·98	+3·76
District Total ...	11·51	13·41	+1·90

17. In these circumstances crop prospects are excellent. The *bhadoi* is estimated at 14 annas, and the rice is exceedingly strong and promising.

18. Prices are practically stationary, as will be seen from the statement in the margin giving the general average price of all grains taken together. The cheapest grains are as follows:—Arrah, maize and *khesari* (10 seers 8 chitaks); Sasaram, *khesari* (11 seers); Bhabhua, *rahar* (11 seers 8 chitaks); and Buxar, *rahar* and *khesari* (10 seers). Rice varies from 8 seers to 8½ seers, and, compared with the coarser grains, is decidedly cheap.

Subdivision.	Number of seers for the rupee.	
	14th August.	28th August.
1	2	3
	Srs. ch.	Srs. ch.
Arrah	9 7	9 9
Sasaram	9 11	9 11
Bhabhua	9 6	9 5
Buxar	9 9	9 7

19. Imports and exports by rail have both fallen off considerably. Including the traffic across the Ganges to Ballia, the figures are as follows:—Imports, 43,183 maunds and exports 31,581 maunds: the figures for the previous fortnight were, imports 49,478 maunds and exports 45,414 maunds. There is thus a total falling off in both, and a net balance in favour of the district of 11,602 maunds, against 4,064 maunds. Almost all the imports were rice, and this commodity also supplied the bulk of exports to Ballia.

20. The public health has not been so good as before, owing to fever and sporadic cholera. The death-rate for August is slightly above the normal, but this cannot be attributed to the scarcity.

21. Relief works have been closed in this district for some time, and the numbers on the Moghalserai-Gaya line are falling steadily, owing to the demand for labour in the fields. The figures for the last four Saturdays are as follows:—August 7th, 5,183; August 14th, 5,461; August 21st, 3,527; August 28th, 3,654.

22. The average number of adult units on gratuitous relief of all kinds in each of the last four weeks is given in the margin. In the current fortnight it is expected that a large decrease will occur. Gratuitous relief has been altogether stopped in the Chenari outpost of the Sasaram Subdivision since the 28th August, and during the current fortnight, it will also be closed in the Ramgarh Charge, north of the Grand Trunk Road, except at three kitchens on that road.

Week ending—	Numbers.
1	2
7th August	18,906
14th ,, ...	17,850
21st ,, ...	15,649
28th ,, ...	14,977

23. In pursuance of the programme explained in my last report, kitchens are being opened at seven more places in the Bhabhua Subdivision, in addition to the four already open, and the two poor-houses at Bhabhua and Sasaram. The daily average number relieved at the existing poor-houses and kitchens was 662 in the first, and 666 in the second week, against 750 and 650 in the two previous weeks. The Sasaram poor-house is to be closed at once, but the Bhabhua poor-house may have to remain open a little longer. With this exception, the Collector hopes to shut off all relief of every kind on the 25th instant.

24. About 4,000 *pardanashin* women are now relieved from the Charitable Fund in the Bhabhua Subdivision. The distribution of donations under Head IV, which was commenced in the flooded area, has been a good deal hampered by the interruption of communications.

25. *Saran.*—Most propitious weather and the advent of a very fine *bhadoi* crop have in this district enabled the Collector to greatly reduce his numbers, both on gratuitous relief and relief works. The decrease in the former case is 22·02 per cent., and in the latter, 37·35 per cent. Mr. Chapman hopes to close relief operations of every kind on 20th September. In pursuance of the policy of reduction, the Collector has, during the last week, contracted the area under severe distress from 1,512 to 563 square-miles. He has now 5 Charge Superintendents instead of 7, and his Relief Circles have been reduced from 51 to 37, while his officers in charge have fallen from 27 to 16.

Subdivision.	August Rainfall.		
	Normal.	1897.	Difference.
1	2	3	4
Sadar	9·91	6·67	—3·24
Sewan	10·78	11·39	+ ·61
Gopalganj ...	10·18	7·23	—2·95
District average...	10·29	8·43	—1·86

26. Good and sufficient rain has fallen all over the district. The statement in the margin compares the normal and actual rainfall for August.

27. But for a little damage to the maize in places from too much rain and the loss from floods, the prospects of the crops are excellent. The Collector estimates a 14-anna *bhadoi* crop all round. The minor millets are already in the market in Gopalganj.

28. Prices show a distinct turn for the better. The marginal statement shows what the general average is, and it is satisfactory to notice that there is a fall everywhere. Mr Chapman reports that *shama* and *kodo* are to be had at Gopalganj at 21 seers, while the new maize is at 10 seers in Chapra, 11¼ seers at Sewan and 13 seers at Gopalganj. *Marua* is at 15 seers 6 chittaks at Gopalganj, and at 13 seers elsewhere.

Subdivision.	Number of seer for the rupee.	
	14th August.	28th August.
1	2	3
	Srs. ch.	Srs ch.
Sadar	9 5	10 0
Sewan	9 3	10 6
Gopalganj	10 1	11 2

29. Naturally imports fell off largely during the fortnight; taking road, river and rail together, they amounted to 54,610 maunds, against 129,927 maunds, and the exports were 4,681 maunds, against 8,521 maunds. The balance in favour of the district was thus 49,929 maunds, instead of 121,406 maunds. In the second week, the imports by rail decreased by 50 per cent.: there is a marked falling off in the importations of rice by rail.

30. The following table, as usual, compares the figures for relief works and gratuitous relief during the last four weeks.

Week ending—	Number of works open.	Average daily number of male units on—						Task-work.	
		Task-work.	Piece-work.	Daily wage, irrespective of task.	Total relief works.	Gratuitous relief, including dependants.	Total.	Average daily outturn per male unit.	Cost per 1,000 cubic feet.

The number of works under the Collector fell off greatly, and they were 29 in all when the fortnight ended. Since that date, he has already closed all but four, which will be kept open for the present.

31. The average daily number on relief works, it will be seen, has fallen off largely, chiefly on account of works being closed, and also owing to a reduction of the wage which was made in harmony with the fall in the price of grain. The proportion on daily wage, irrespective of task, was too large in the last week, but it is explained that many of these were women doing light dressing tasks (the proportion of women to men was 141 to 100), and in any case, the works have now been closed. Orders have been given that the two Hatwa Raj works which were open during the fortnight, should be closed at once.

32. The numbers receiving gratuitous relief have not fallen so rapidly, but there is a noticeable fall of nearly one-fourth in their numbers, due to the complete cessation of gratuitous relief in West Gopalganj, and to a large reduction in the Sadar Subdivision.

33. The number of kitchens has been raised from 40 to 48, and the average number relieved daily in the last week was 8,435 as against 7,672. I am glad to notice that, out of 8,425 persons, as many as 8,278 or 98·2 per cent. were children: this seems to show that the kitchens in this district are exactly fulfilling the functions which it was hoped they would discharge. The Hatwa Raj kitchens during the last week relieved a daily total of 338 persons.

34. The two Government poor-houses relieved a daily average of 173 persons during the last week, as against 245 in the last week of the previous period, and the Hatwa poor-houses contained a daily average of 428—exactly the same number as before.

35. *Champaran.*—In this district, after a period of considerable anxiety, copious rain falling just after the close of the period under report, has placed matters in a most satisfactory position. Prices are falling, and so are the numbers in receipt of gratuitous relief, although for special reasons those on relief show no decrease.

36. During the early part of August, there had been little rain in Champaran, and the condition of the Ramnagar and Bagaha tracts gave cause for considerable apprehension. For the greater part of the second fortnight, viz., that under review, the weather was showery, but the rainfall was very capricious, though increasing in amount as the month progressed. A statement given in the Collector's 6th paragraph shows that, whereas the average of the first week was 1·60 inches, that of the second was 3·70, and Ramnagar and Bagaha in the last week received 5·38 and 5·20 inches, respectively. This was not sufficient, however, to make up their deficiencies, or to enable the whole of the rice to be planted out, and it was, therefore, with great thankfulness, that I learned by telegram, on the 4th instant, that during the first three days of September, Bagaha received 5¾ and Ramnagar 10¼ inches. This information, which is later than Mr. Macpherson's report, delivers me from all anxiety about the tract to the west and north of the Bettiah Subdivision which has caused much apprehension hitherto. The normal rainfall and that for August 1897 are shown in the marginal table.

Subdivision.	August rainfall.		
	Normal.	1897.	Difference.
1	2	3	4
Sadar	11·63	6·53	—5·00
Bettiah ...	12·34	6·92	—5·42
District average ...	11·94	6·72	—5·22

37. The prospects of the crops are now everywhere excellent. The maize and millets will be a very good crop, though rather late, the *bhadoi* rice nearly up to the average, and the winter rice, (thanks to the late heavy rain) should be a full crop, if, as may be hoped, we have a good *hathiya* fall at the end of this month.

38. Prices, in these circumstances, have taken a decided downward turn, which is calculated by Mr. Macpherson to be equivalent to 8½ per cent. on the recorded prices at four markets: the mean price for all grains is given in the margin for the two District and Subdivisional head-quarters. Barley is the cheapest grain at Motihari (12 seers and 11 chitaks), at Bettiah *marua* sells at 13½ seers, and at Ramnagar at 13 seers, while barley again is cheapest at Bagaha, at 10 seers for the rupee. There has been a drop of a seer or more in the price of Burmah rice, due to the alleged arrival of large consignments in Calcutta; some of the Burmah rice has been exported to Muzaffarpur.

Subdivision.	Number of seers for the rupee.	
	14th August.	28th August.
1	2	3
	S. ch.	S. ch.
Motihari	9 9	10 2½
Bettiah	9 0	10 9

39. Imports by rail were larger, and exports less, than in the previous fortnight, due doubtless to orders given while the rain held off, and while the prospects of the crops in Ramnagar and Bagaha were doubtful. The imports by rail were 14,580 maunds, against 10,636 maunds, and the exports 2,601 maunds, against 4,904. Almost the whole of the imports consisted of cleaned rice, and the great bulk of it went to Bettiah. Adding on the traffic with Nipal and across the Gandak, we get a total of imports 31,083 maunds and exports 3,389 maunds, leaving a balance of 27,694 maunds in favour of the district, against figures of the preceding fortnight as follows—imports 27,139 maunds, exports 4,904 maunds, balance 22,235 maunds. The imports from Nipal were registered as 16,503 maunds, but were probably much more.

40. The public health has been good and the extraordinary freedom from cholera, which Champaran has enjoyed from the first, still continues. The mortality figures have not been given.

41. The following statement, as usual, compares the figures for relief works and gratuitous relief during each of the four past weeks.

Week ending—	Number of works open.	Average daily number of male units on—						Task-work.	
		Task-work.	Piece-work.	Daily wage irrespective of task.	Total relief works.	Gratuitous relief, including dependants.	Total.	Average daily outturn per male unit.	Cost per 1,000 cubic feet.

42. It is surprising to see a rise in the number of works. Out of the 6 new works, 5 are under the Civil Agency and 1 under the Public Works Department. The Collector explains that it was found necessary to re-open, under Civil Agency, certain works which had been closed by the Public Works Department, before the middle of August: these works were mainly in the Dhakka, Bettiah and Gobindganj Charges. I was not prepared for the re-opening of fresh works at this stage, but, the matter will be further enquired into during my forthcoming visit to Champaran. At any rate they have now nearly all been closed after the late heavy rain.

43. All these new works and some of the old ones were on the piece-work system, as advised by the Famine Commissioners at the conclusion of famine relief operations. This fact accounts for the increase in numbers under piece-work, and the great fall in those on daily wage, irrespective of task. In the outturn there has been a falling off, which has been attributed to the showery weather which interfered with work, though it did not altogether put a stop to it, and also to the change from task-work to piece-work. Except in the Hardih and Bagaha Charges the scale of wages was reduced to fit the fall in prices from the 1st of August, from a 9½-seer to an 11-seer basis.

44. In the numbers on gratuitous relief there has been a substantial reduction, equivalent in the fortnight to 24·54 per cent. in the average daily number of adult units relieved in all ways. As the Collector points out, this decrease has occurred chiefly in the numbers relieved under Chapter V at their villages, while there has been an increase in the number relieved at kitchens; this is in accordance with the authorised programme, and is satisfactory. In a statement in his 30th paragraph, Mr. Macpherson shows that the total daily average of persons relieved fell from 39,288 in the first to 30,308 in the second week, those relieved under Chapter V decreased from 31,587 to 19,059, while those relieved in kitchens rose from 5,743 to 9,768. Of this latter number, 5,152, or 52·7 per cent., were children. It is curious that, in this district, there has all along been a greater proportion of adults receiving relief in kitchens than in other districts: the fact is doubtless due to the large admixture of aboriginal races and lower castes in the population. It was noticed in a former report that gratuitous relief had been rigorously cut down in the Bettiah Subdivision,

and the accuracy of the remark is confirmed by the fact that the numbers there are falling much more slowly than in the Sadar Subdivision.

45. Kitchens have been increased in number from 83 to 99; at the beginning of August there were only 41 open. It has just been stated that the number fed at these places increased largely during the fortnight, the total advance being from a daily average of 6,495 persons in the second week of August, to one of 10,584 persons in the fourth week of the month.

46. There were seven poor-houses as before with an average population of 1,210, as against 1,179 for the previous fortnight. These institutions are practically hospitals.

47. Figures for the Charitable Relief administration of the fortnight are not yet available.

48. *Muzaffarpur.*—In this district a great improvement has taken place in the situation, which is greater even than what the Collector reports, because more rain has fallen since the date of his letter. Prices are falling, the crop prospects are excellent and the numbers both on relief works and gratuitous relief are fast declining; the former have practically come to an end.

49. The Collector has made no change in his estimate of distressed area up to the end of the period under report, but he has ordered all relief works to be closed by the 1st September, except in the Pupri Charge of the Sitamarhi Subdivision. Gratuitous relief in the same areas—except through kitchens and poor-houses—will cease from the 10th instant.

50. Rainfall during the period under report was uneven and capricious, and though some rain fell almost every day, the amount of each fall was small. The total recorded fall for the period was 6·82 inches at Muzaffarpur, 9·44 at Hajipur, and 6·02 at Sitamarhi. The statement in the margin shows that, for the month of August, Sitamarhi was an inch in deficit and Hajipur nearly 2 inches in excess, and owing to short rainfall earlier in the year, Sitamarhi was a good deal in arrear. Since the 1st September, however, the situation has vastly improved, for Sitamarhi has received up to the morning of the 5th instant a further fall of 4·78 inches.

Subdivision.	August rainfall.		
	Normal.	1897.	Difference.
1	2	3	4
Sadar	10·34	10·76	+ ·42
Hajipur	10·15	12·03	+ 1·88
Sitamarhi	9·75	8·67	− 1·08
District average ...	10·08	10·48	+ ·40

51. In these circumstances, the prospects of the crops are even better than they are described to be in the Collector's report. The *bhadoi* is a fine crop almost everywhere, and will certainly be more than an average crop all over the district, and the rice, strengthened by this late rain, will, with a good *hathiya*, be also above the average.

52. With such prospects it would be surprising if there were not a fall in prices, and this has begun: there has been a fall of a seer or more in the general average price of grain, as the marginal statement will show, and in particular grains, the prices have fallen greatly. Thus, on the 28th ultimo, the cheapest grains at Muzaffarpur, were *marua* at 17 seers and maize at 13; at Hajipur *marua* was at 14 seers, and at Sitamarhi both maize and *marua* were quoted at 13 seers. As the maize comes more into the market, prices will fall more rapidly.

Subdivision.	Number of seers for the rupee.	
	August 14th.	August 28th
1	2	3
	Srs. chk.	Srs. chk.
Muzaffarpur	9 8	10 14½
Hajipur	8 12½	9 14½
Sitamarhi	8 15½	9 14½

53. Imports have fallen off largely. The returns are again incomplete; but, taking them with all reservations, it appears that, during the fortnight, the imports were 35,683 maunds, against 71,175 maunds, and the exports 3,548 maunds, against 2,051 maunds, so that the nett imports were 32,135 maunds, against 69,124 maunds: as usual, most of the imports were rice.

54. The public health was good, but the figures for August are not given.

55. The following statement compares, as usual, the figures for relief works and gratuitous relief during each of the last four weeks.

Week ending—	Number of works open.	Average daily number of male units on—						Task-work.	
		Task-work.	Piece-work.	Daily wage, irrespective of task.	Total relief works.	Gratuitous relief, including dependants.	Total.	Average daily outturn per male unit.	Cost per 1,000 cubic feet.

The number of works has fallen off largely, and at the end of the period they were all under the Collector.

56. It will be seen from column 6 of the above statement that the average daily number of male units on relief works fell off by 41·5 per cent., a result partly due to the closing of relief works, and partly to the lowering of the wage. The Collector gives a table to show the distribution by Subdivisions, and from this it appears that, while there was a fall in the other Subdivisions,—which was large in Hajipur,—there was a slight increase in the Sadar, caused by a temporary failure of employment in the fields. The works are chiefly roads, with short lead and soft earth; these facts explain the good outturn and, combined with the lowering of the wage, account for the very low cost per 1,000 cubic feet.

57. The numbers on receipt of gratuitous relief have not fallen so rapidly, the decrease in the fortnight being 22·84 per cent. The largest fall has been in the Sadar Subdivision, but every one shows a decrease. The number of persons in receipt of relief on the latest day of this, as compared with the preceding period, shows a decrease of 12,493: the decrease on relief given under Chapter V of the Code was 9,724 persons, and under the head of kitchens, 3,008.

58. These institutions decreased in number from 74 to 73 and, as just stated, the numbers attending them fell off somewhat; a sign it seems to me that the people in this district are better off, or more fastidious, than they are elsewhere. The daily average numbers fed were, in the last week of the fortnight, 13,273, as against 16,327 at the end of the previous period.

59. In poor-houses, there was a small rise in the daily average population, from 433 in the previous to 482 in the past fortnight.

60. The Darbhanga Raj relieved at Parihar an average of 894 persons a day throughout the fortnight, as against 1,422 in the previous period.

61. Particulars of Charitable Relief administration for August are not available.

62. *Darbhanga.*—After giving rise to considerable anxiety as regards prospects in Madhubani, this district has now received copious rain and, with the exception of one or two small tracts, is now quite safe. Prices are falling, and the Collector is rapidly closing his relief operations.

63. Up to the 20th August, the date of the Collector's previous report, the transplanting of the rice was backward all along the north of the district for want of rain, but in the fortnight ending the 28th, there was good rain almost every where, ranging from 6·95 inches at Darbhanga to 3·10 at Umgaon on the north-western boundary of the district. Since that date, however, copious rain has fallen in the Madhubani Subdivision, and a telegram from the Subdivisional Officer has informed me that, from the 14th to the 31st August, the fall was 6·43 inches, while from the 1st to the 3rd September, other 4 inches were

Subdivision.	August Rainfall.

recorded. A telegram from the Subdivisional Officer, confirmed by the Collector's verbal assurance, now states that the rice is all transplanted, and only requires the usual *hathiya* rain at the end of this month to be a very fine crop. The *bhadoi* crop is estimated at 17 annas, and is now well in the market.

64. Consequently prices are now falling substantially, as the marginal statement for all grains will show. The *bhadoi* crops, especially the commoner kinds, are much cheaper than this average. At Darbhanga, *marua* is now 18 seers and maize 14½; at Samastipur, *marua* is at 16 seers and maize at 12, and at Madhubani, *marua* is 17½ seers and maize 16 seers 15 chattaks.

	S. ch.	S. ch.
Sadar	8 13	10 12
Samastipur	9 14	10 8
Madhubani	9 14	11 3½

65. Imports, to my surprise, have slightly risen, and still remain considerable: they aggregated 68,584 maunds against 67,766, while the exports were 3,915 maunds, against 3,339 maunds. The balance in favour of the district is thus 64,669 maunds against 64,427 maunds at the end of the preceding fortnight, but the Collector points out that there was a large falling off in the last week (nearly 50 per cent.): a similar fall occurred in Saran. More than half the imports by rail was rice. Importation from Nipal has recommenced.

66. The public health was fairly good, the death-rate for August being 2·9 *per mille*, against an average of 2·41 for the last five years.

67. The following table compares, as usual, the figures for relief work and gratuitous relief during the last four weeks:—

Week ending—	Number of works open.	Average daily number of male units on—						Task-work.	
		Task-work.	Piece-work.	Daily wage, irrespective of task.	Total relief works.	Gratuitous relief, including dependants.	Total.	Average daily outturn per male unit.	Cost per 1,000 cubic feet.

The number of works has been largely reduced. Of the 53 still open at the end of the period, 49 were under Civil Agency, and only 4 under the Public Works Department. Mr. Carlyle explains that while the fate of Madhubani still hung in the balance, he hesitated to dismiss his staff, and they were employed in finishing off works. This situation has how come to an end, and I expect that, during the present fortnight, all the works will be closed. Definite orders have issued for the closure of the Sakri-Jainagar line on the 10th instant; the above 4 works under Public Works Department supervision are the four sections of this line.

68. Not only have many works been closed, but the wage has been reduced as the price of grain fell. During the fortnight, Mr. Carlyle reduced the daily wage by a pice, and since it ended, he has adopted maize at 16 seers as his grain basis, and has reduced the wage by another pice: the ordinary daily wage now is 1*as.* 3*p.* for a man and 9 pie for a woman, which cannot be said to be attractive remuneration. The numbers on task-work are falling, as well as those on daily wage, the numbers on piece-work remained steady, as their rates have not been changed, in view of the early closing of the work. The total reduction during the fortnight has been 50 per cent. on the daily number of male units on works of all sorts. There are now no works at all in the Samastipur, Warisnagar and Phulparas Charges.

69. The Darbhanga Raj employed, during the last week of the fortnight, 1,488 persons per diem, against 1,230 in the last week of the previous period.

70. As regards gratuitous relief, the fall has not been so rapid, but has reached 24·49 per cent. and relief of this kind has ceased altogether in Samastipur. The Collector informs me that, in two other Charges, it will cease during the current fortnight also: the whole will be shut up by the end of the month.

71. The kitchen system has been extended in accordance with programme, and the number of kitchens is now 53, against 37 at the end of the previous fortnight. The average daily number of persons relieved in the last week was 15,451, as against 10,881 at the end of the previous period. Out of this number, 88·25 per cent. were children, while the ratio on the previous fortnight was 92·7 per cent.: the change shows that the new system is working well.

72. Poor-houses (eight in all) contained a daily average of 1,047 persons in the week ending 28th August. The daily average a fortnight before was 1,078 in nine poor-houses.

73. The Darbhanga Raj relieved, gratuitously, a daily average of 15,382 persons in the first and 12,668 persons in the second week of the fortnight. The previous figures were 14,483 and 12,401.

74. From a copy of the Collector's report to the Secretary of the Indian Famine Charitable Relief Fund, Calcutta, which has been sent to me separately, I find that the average number of persons relieved daily during the second half of August was 26,105, and the expenditure to the end of the month has been Rs. 1,14,462. Of this sum, Rs. 60,893 were given as donations under head IV to 9,129 persons: it is evident from the report that these donations were given with much care and discrimination.

Part III.—Conclusion.

75. Except in parts of Patna, and to a slight extent in Gaya and Shahabad, the agricultural outlook and the condition of the people in the Division is decidedly better than it was when my last report was written, hopeful though that was.

76. On the whole, good, seasonable and sufficient rain has fallen everywhere during the fortnight under report, with no break except for the last three days of the period. The general characteristic of the rainfall was that it came in showers, and though generally sufficient, was unequally distributed even in the same district. Parts of Patna, Gaya and Shahabad had almost too much, floods ensuing to the damage of the *bhadoi*, while in west Bettiah, Sitamarhi, and Madhubani, the fall up to the 28th August was still insufficient, and (especially in the former tract) a good deal of the rice remained to be transplanted. The last few days of August, however, and the first few days of September, have witnessed a great improvement in the situation. Copious rain has fallen, especially in the three tracts named, and all District Officers write most confidently of the agricultural outlook. A table is added, as Appendix B, which gives the rainfall for August and the total up to the end of that month in a normal year and in 1897.

77. Except in Patna, where the Collector considers that half his crop has gone, and in Gaya and Shahabad, where the damage is less, the *bhadoi* crop is certainly above the average; and it came well into the market everywhere during the fortnight, except in the northern parts of the trans-Gangetic districts. The *aghani* rice has been planted out everywhere and gives excellent promise; with a good *hathiya* downfall at the end of the current month, this crop also should yield more than an average return; while even if the *hathiya* fails, or is short, there is reason to think that a fair crop would be reaped.

78. Prices have, at last, begun to fall, as the marginal statements above entered against each district will show. In every district the commoner food-grains are much cheaper than they were a month ago, and the mass of the people are now relieved from the pinch of half rations and insufficient food, since the harvesting of the *bhadoi* and the transplanting of the rice gives them employment and remuneration either in kind, or in cash, sufficient to purchase the rapidly cheapening grain.

79. With prospects so favourable, it is not to be wondered at that imports have greatly fallen off, but, even so, they still exceed the exports everywhere. The following table will indicate the extent of the decrease which, as has been noticed above, has occurred chiefly in the second week of the fortnight:—

District.	Imports.		Exports.		Excess (+) or (−).	
	Fortnight ending 14th August 1897.	Fortnight ending 28th August 1897.	Fortnight ending 14th August 1897.	Fortnight ending 28th August 1897.	Fortnight ending 14th August 1897.	Fortnight ending 28th August 1897.
1	2	3	4	5	6	7
	Mds.	Mds.	Mds.	Mds.	Mds.	Mds.
Patna	86,256	56,041	15,051	20,163	+ 71,175	+ 35,878
Gaya	37,982	23,696	1864	19	+ 37,818	+ 23,677

Total ...	4,69,723	3,12,879	79,974	67,296	.....	.....

In imports, every district shows a falling off, except Champaran and Darbhanga, where the advance is but slight. In exports, there is some advance in Patna, Muzaffarpur and Darbhanga. The balance in favour of the district is everywhere less, except in Shahabad, Champaran (due to large imports from Nipal) and Darbhanga. The difference in Saran is very large.

80. Rice continues to be the staple import still, and considerable, though smaller, quantities were imported from Howrah as before, as the marginal statement shows. There has been a decrease in every district except Champaran and Dar-

District.	For the period ending—

80. As usual with the report for the second half of a month, I give a statement showing what the net results of the grain traffic has been in each district from the 1st October 1896 up to date. Shahabad is the only district which has exported more than it has imported, while Saran, as usual, stands first in respect of imports, its total net imports, according to this table, being more than 58,000 tons:—

81. The public health has remained extremely good, but as all the district returns for August have not been received, I submit no statement.

82. The following statement compares the main figures of for relief works and gratuitous relief with those of the previous for

District.	FORTNIGHT ENDING 14TH AUGUST 1897.								FORTNIGHT ENDING [illegible] AUGUST 1897.							
	TASK-WORK.				DAILY WAGES, IRRESPECTIVE OF TASK.		GRATUITOUS RELIEF.		TASK-WORK.				DAILY WAGES, IRRESPECTIVE OF TASK.		GRATUITOUS RELIEF.

There has been a falling off of 33·75 per cent. in the average daily number of male units on relief works, and a decrease of 19·38 per cent. in that of the adult units receiving gratuitous relief. In Muzaffarpur and Darbhanga, the outturn of work has been better; in the other two districts, it has fallen off: except in Saran, the cost rate has decreased.

83. The figures below represent the total number of persons receiving Government relief on the last day of the fortnight, whether gratuitously or in return for labour; the figures are taken from the *Calcutta Gazette*, but have been corrected by the Collector of Champaran, and figures for the Darbhanga Raj, which were omitted in the Gazette, have now been added. The population of the affected area has been left intact except in Darbhanga, because, in other districts, no area has been declared entirely free from distress up to the 28th August. In several areas, relief works have ceased and gratuitous relief has been largely reduced, but as they are still slightly affected, the population of them has not been deducted from the total: it is expected that, in next report, a considerable reduction will appear. As it is, there is a satisfactory reduction of 1·02 in the total percentage all round, which is greatest in Saran and Muzaffarpur.

District.	Estimated population of affected area.	Number in receipt of relief of all kinds on 28th August.	Percentage receiving relief on the—				
			26th June.	10th July.	31st July.	14th August.	28th August.

Total ...	1·25	3·65	0·81	3·07

85. As works under the Public Works Department are now retained in two districts only, the table in the margin, showing how the existing works are distributed between Civil and Public Works Department Agency, has lost most of its interest. During the current fortnight there will be a great reduction. The Public Works Department works in Darbhanga should disappear, and those in Champaran will be reduced, though some may, perhaps, remain open a short time longer. Most of the Civil works have already been closed since the fortnight ended.

District.	14TH AUGUST.			28TH AUGUST.

87. As pointed out in paragraph 77 of my last report, relief in kitchens is expected to be a prominent feature of our closing relief operations, and therefore give below a table comparing the figures for kitchens in the two wee

ending 14th and 28th August. In Muzaffarpur, kitchens have given a great deal of relief from the first, and the system did not require to be developed there. In Champaran and Darbhanga, satisfactory progress has been made: in Saran, the number relieved is small, but the cooked food reaches the class it was intended to help, viz., the children:—

District.	Number of kitchens open.		Average number of persons relieved daily—				Percentages—			
			At kitchens.		In all ways.		Of total relieved at kitchens to total relief.		Of children to total relieved at kitchens.

88. Appendix A, as usual, gives the expenditure to date, so far as it can be ascertained from the financial statements submitted by District Officers. A separate report, showing the actual expenditure, will be laid before Government, as soon as I can obtain the necessary information from the District Officers, which has been called for some time ago. As the statement stands, it appears that the total expenditure to date is 65¼ lakhs, of which 40 lakhs have been spent on relief works and nearly 23½ on gratuitous relief. The expenditure of the fortnight amounts to Rs. 2,85,990.

89. The usual statements, with the district reports and maps for August, are submitted herewith.
